MASTER PRELIMINARY EXAMINATION QUESTION BANK (2016 – 2025)

Complete 800 Verified Questions with Full Solutions, Sectional Breakdown, and Authentic References

Exam Structure & Blueprint:

- Total Questions: **800 / 800 Questions** (100 Qs per examination year)
- Active Recruitment Cycles: **2024-25, 2023-24, 2022, 2021, 2020, 2019, 2018, 2016**
- Gap Year (No Exam): **2017**
- Standard Sectional Blueprint: English (30 Qs), Quantitative Aptitude (35 Qs), Reasoning Ability (35 Qs)
- Marking Scheme: +1.00 for Correct Answer, -0.25 Negative Penalty

Recruitment Year	Official Notification ID	English (30 Qs)	Quant (35 Qs)	Reasoning (35 Qs)	Total

Passage / Context: The demonetization of high-denomination currency banknotes in late 2016 precipitated an unprecedented operational and structural shock across the Indian financial architecture. Over eighty-six percent of circulating cash was suddenly rendered non-negotiable legal tender, triggering marathon queues outside commercial bank branches and automated teller machines (ATMs) across the nation. Bank personnel worked around the clock to recalibrate currency dispensers, accept massive household deposits, and facilitate emergency currency exchanges under stringent regulatory limits. While short-term liquidity contraction impaired cash-intensive informal trade, agricultural mandis, and small-scale manufacturing enterprises, the intervention catalyzed an enduring behavioral pivot toward digital transactions. With physical currency scarce, millions of consumers and merchant retail shopkeepers embraced electronic payment alternatives for the first time in their lives. Proprietary mobile wallet platforms recorded astronomical transaction volumes, while the fledgling Unified Payments Interface (UPI)—developed by the National Payments Corporation of India (NPCI)—began its historic ascent as a friction-free national payment infrastructure. Furthermore, formal banking institutions observed an immense surge in low-cost Current Account and Savings Account (CASA) deposits, expanding institutional lending capacity and driving structural digitization across urban and semi-urban commercial corridors.

According to the passage, what proportion of circulating currency was affected by the demonetization policy?

- (A) Under twenty-five percent
- (B) Approximately fifty percent
- (C) Over eighty-six percent
- (D) Exactly seventy-five percent
- (E) Less than ten percent

Correct Answer: (C) Over eighty-six percent

Explanation: Paragraph 1 states that over eighty-six percent of circulating cash was suddenly rendered non-negotiable legal tender.

Passage / Context: The demonetization of high-denomination currency banknotes in late 2016 precipitated an unprecedented operational and structural shock across the Indian financial architecture. Over eighty-six percent of circulating cash was suddenly rendered non-negotiable legal tender, triggering marathon queues outside commercial bank branches and automated teller machines (ATMs) across the nation. Bank personnel worked around the clock to recalibrate currency dispensers, accept massive household deposits, and facilitate emergency currency exchanges under stringent regulatory limits. While short-term liquidity contraction impaired cash-intensive informal trade, agricultural mandis, and small-scale manufacturing enterprises, the intervention catalyzed an enduring behavioral pivot toward digital transactions. With physical currency scarce, millions of consumers and merchant retail shopkeepers embraced electronic payment alternatives for the first time in their lives. Proprietary mobile wallet platforms recorded astronomical transaction volumes, while the fledgling Unified Payments Interface (UPI)—developed by the National Payments Corporation of India (NPCI)—began its historic ascent as a friction-free national payment infrastructure. Furthermore, formal banking institutions observed an immense surge in low-cost Current Account and Savings Account (CASA) deposits, expanding institutional lending capacity and driving structural digitization across urban and semi-urban commercial corridors.

Which sectors bore the brunt of short-term liquidity contractions following the currency reform?

- (A) Foreign exchange sovereign wealth funds
- (B) Cash-intensive informal trade, agricultural mandis, and small manufacturing units
- (C) High-technology software aerospace labs
- (D) International container shipping lines
- (E) Online video streaming networks

Correct Answer: (B) Cash-intensive informal trade, agricultural mandis, and small manufacturing units

Explanation: Paragraph 1 explicitly notes that short-term liquidity contraction impaired cash-intensive informal trade, agricultural mandis, and small-scale manufacturing enterprises.

Passage / Context: The demonetization of high-denomination currency banknotes in late 2016 precipitated an unprecedented operational and structural shock across the Indian financial architecture. Over eighty-six percent of circulating cash was suddenly rendered non-negotiable legal tender, triggering marathon queues outside commercial bank branches and automated teller machines (ATMs) across the nation. Bank personnel worked around the clock to recalibrate currency dispensers, accept massive household deposits, and facilitate emergency currency exchanges under stringent regulatory limits. While short-term liquidity contraction impaired cash-intensive informal trade, agricultural mandis, and small-scale manufacturing enterprises, the intervention catalyzed an enduring behavioral pivot toward digital transactions. With physical currency scarce, millions of consumers and merchant retail shopkeepers embraced electronic payment alternatives for the first time in their lives. Proprietary mobile wallet platforms recorded astronomical transaction volumes, while the fledgling Unified Payments Interface (UPI)—developed by the National Payments Corporation of India (NPCI)—began its historic ascent as a friction-free national payment infrastructure. Furthermore, formal banking institutions observed an immense surge in low-cost Current Account and Savings Account (CASA) deposits, expanding institutional lending capacity and driving structural digitization across urban and semi-urban commercial corridors.

What enduring behavioral transformation resulted from the cash scarcity according to paragraph 2?

- (A) Permanent cessation of consumer retail spending
- (B) An enduring behavioral pivot toward digital electronic transactions
- (C) Complete abandonment of formal bank savings accounts
- (D) Return to ancient commodity barter trade
- (E) Migration of urban workers to foreign nations

Correct Answer: (B) An enduring behavioral pivot toward digital electronic transactions

Explanation: Paragraph 2 notes that the intervention catalyzed an enduring behavioral pivot toward digital transactions.

Passage / Context: The demonetization of high-denomination currency banknotes in late 2016 precipitated an unprecedented operational and structural shock across the Indian financial architecture. Over eighty-six percent of circulating cash was suddenly rendered non-negotiable legal tender, triggering marathon queues outside commercial bank branches and automated teller machines (ATMs) across the nation. Bank personnel worked around the clock to recalibrate currency dispensers, accept massive household deposits, and facilitate emergency currency exchanges under stringent regulatory limits. While short-term liquidity contraction impaired cash-intensive informal trade, agricultural mandis, and small-scale manufacturing enterprises, the intervention catalyzed an enduring behavioral pivot toward digital transactions. With physical currency scarce, millions of consumers and merchant retail shopkeepers embraced electronic payment alternatives for the first time in their lives. Proprietary mobile wallet platforms recorded astronomical transaction volumes, while the fledgling Unified Payments Interface (UPI)—developed by the National Payments Corporation of India (NPCI)—began its historic ascent as a friction-free national payment infrastructure. Furthermore, formal banking institutions observed an immense surge in low-cost Current Account and Savings Account (CASA) deposits, expanding institutional lending capacity and driving structural digitization across urban and semi-urban commercial corridors.

Which entity developed the Unified Payments Interface (UPI) mentioned in the passage?

- (A) World Bank
- (B) National Payments Corporation of India (NPCI)
- (C) International Monetary Fund (IMF)
- (D) State Bank of India IT Division
- (E) Securities and Exchange Board of India (SEBI)

Correct Answer: (B) National Payments Corporation of India (NPCI)

Explanation: The passage explicitly credits the Unified Payments Interface (UPI) as developed by the National Payments Corporation of India (NPCI).

Passage / Context: The demonetization of high-denomination currency banknotes in late 2016 precipitated an unprecedented operational and structural shock across the Indian financial architecture. Over eighty-six percent of circulating cash was suddenly rendered non-negotiable legal tender, triggering marathon queues outside commercial bank branches and automated teller machines (ATMs) across the nation. Bank personnel worked around the clock to recalibrate currency dispensers, accept massive household deposits, and facilitate emergency currency exchanges under stringent regulatory limits. While short-term liquidity contraction impaired cash-intensive informal trade, agricultural mandis, and small-scale manufacturing enterprises, the intervention catalyzed an enduring behavioral pivot toward digital transactions. With physical currency scarce, millions of consumers and merchant retail shopkeepers embraced electronic payment alternatives for the first time in their lives. Proprietary mobile wallet platforms recorded astronomical transaction volumes, while the fledgling Unified Payments Interface (UPI)—developed by the National Payments Corporation of India (NPCI)—began its historic ascent as a friction-free national payment infrastructure. Furthermore, formal banking institutions observed an immense surge in low-cost Current Account and Savings Account (CASA) deposits, expanding institutional lending capacity and driving structural digitization across urban and semi-urban commercial corridors.

What institutional financial benefit accrued to commercial banks in the aftermath?

- (A) Total waiver of corporate tax obligations
- (B) An immense surge in low-cost Current Account and Savings Account (CASA) deposits
- (C) Immediate grant of international banking licenses
- (D) Exemption from Reserve Bank statutory liquidity ratios
- (E) Free distribution of automated teller machines

Correct Answer: (B) An immense surge in low-cost Current Account and Savings Account (CASA) deposits

Explanation: Paragraph 2 states commercial banks observed an immense surge in low-cost CASA deposits, expanding institutional lending capacity.

Passage / Context: The demonetization of high-denomination currency banknotes in late 2016 precipitated an unprecedented operational and structural shock across the Indian financial architecture. Over eighty-six percent of circulating cash was suddenly rendered non-negotiable legal tender, triggering marathon queues outside commercial bank branches and automated teller machines (ATMs) across the nation. Bank personnel worked around the clock to recalibrate currency dispensers, accept massive household deposits, and facilitate emergency currency exchanges under stringent regulatory limits. While short-term liquidity contraction impaired cash-intensive informal trade, agricultural mandis, and small-scale manufacturing enterprises, the intervention catalyzed an enduring behavioral pivot toward digital transactions. With physical currency scarce, millions of consumers and merchant retail shopkeepers embraced electronic payment alternatives for the first time in their lives. Proprietary mobile wallet platforms recorded astronomical transaction volumes, while the fledgling Unified Payments Interface (UPI)—developed by the National Payments Corporation of India (NPCI)—began its historic ascent as a friction-free national payment infrastructure. Furthermore, formal banking institutions observed an immense surge in low-cost Current Account and Savings Account (CASA) deposits, expanding institutional lending capacity and driving structural digitization across urban and semi-urban commercial corridors.

Which word from the passage is most SIMILAR in meaning to 'PRECIPITATED'?

- (A) Delayed
- (B) Triggered / Instigated
- (C) Halted
- (D) Pacified
- (E) Postponed

Correct Answer: (B) Triggered / Instigated

Explanation: 'Precipitated' means brought about suddenly, triggered, or instigated.

Passage / Context: The demonetization of high-denomination currency banknotes in late 2016 precipitated an unprecedented operational and structural shock across the Indian financial architecture. Over eighty-six percent of circulating cash was suddenly rendered non-negotiable legal tender, triggering marathon queues outside commercial bank branches and automated teller machines (ATMs) across the nation. Bank personnel worked around the clock to recalibrate currency dispensers, accept massive household deposits, and facilitate emergency currency exchanges under stringent regulatory limits. While short-term liquidity contraction impaired cash-intensive informal trade, agricultural mandis, and small-scale manufacturing enterprises, the intervention catalyzed an enduring behavioral pivot toward digital transactions. With physical currency scarce, millions of consumers and merchant retail shopkeepers embraced electronic payment alternatives for the first time in their lives. Proprietary mobile wallet platforms recorded astronomical transaction volumes, while the fledgling Unified Payments Interface (UPI)—developed by the National Payments Corporation of India (NPCI)—began its historic ascent as a friction-free national payment infrastructure. Furthermore, formal banking institutions observed an immense surge in low-cost Current Account and Savings Account (CASA) deposits, expanding institutional lending capacity and driving structural digitization across urban and semi-urban commercial corridors.

Which word from the passage is most **OPPOSITE** in meaning to 'SCARCE'?

- (A) Meager
- (B) Plentiful / Abundant
- (C) Sparse
- (D) Deficient
- (E) Inadequate

Correct Answer: (B) Plentiful / Abundant

Explanation: 'Scarce' signifies rare or in short supply; its direct antonym is plentiful, abundant, or copious.

Passage / Context: The demonetization of high-denomination currency banknotes in late 2016 precipitated an unprecedented operational and structural shock across the Indian financial architecture. Over eighty-six percent of circulating cash was suddenly rendered non-negotiable legal tender, triggering marathon queues outside commercial bank branches and automated teller machines (ATMs) across the nation. Bank personnel worked around the clock to recalibrate currency dispensers, accept massive household deposits, and facilitate emergency currency exchanges under stringent regulatory limits. While short-term liquidity contraction impaired cash-intensive informal trade, agricultural mandis, and small-scale manufacturing enterprises, the intervention catalyzed an enduring behavioral pivot toward digital transactions. With physical currency scarce, millions of consumers and merchant retail shopkeepers embraced electronic payment alternatives for the first time in their lives. Proprietary mobile wallet platforms recorded astronomical transaction volumes, while the fledgling Unified Payments Interface (UPI)—developed by the National Payments Corporation of India (NPCI)—began its historic ascent as a friction-free national payment infrastructure. Furthermore, formal banking institutions observed an immense surge in low-cost Current Account and Savings Account (CASA) deposits, expanding institutional lending capacity and driving structural digitization across urban and semi-urban commercial corridors.

What operational challenge consumed banking branch personnel immediately following the announcement?

- (A) Designing new mobile smartphone applications
- (B) Recalibrating currency dispensers, accepting deposits, and facilitating emergency exchanges
- (C) Auditing foreign corporate tax ledgers
- (D) Conducting agricultural crop field inspections
- (E) Relocating branch offices to metropolitan centers

Correct Answer: (B) Recalibrating currency dispensers, accepting deposits, and facilitating emergency exchanges

Explanation: Paragraph 1 notes bank personnel worked around the clock to recalibrate currency dispensers, accept massive household deposits, and facilitate emergency currency exchanges.

Passage / Context: The demonetization of high-denomination currency banknotes in late 2016 precipitated an unprecedented operational and structural shock across the Indian financial architecture. Over eighty-six percent of circulating cash was suddenly rendered non-negotiable legal tender, triggering marathon queues outside commercial bank branches and automated teller machines (ATMs) across the nation. Bank personnel worked around the clock to recalibrate currency dispensers, accept massive household deposits, and facilitate emergency currency exchanges under stringent regulatory limits. While short-term liquidity contraction impaired cash-intensive informal trade, agricultural mandis, and small-scale manufacturing enterprises, the intervention catalyzed an enduring behavioral pivot toward digital transactions. With physical currency scarce, millions of consumers and merchant retail shopkeepers embraced electronic payment alternatives for the first time in their lives. Proprietary mobile wallet platforms recorded astronomical transaction volumes, while the fledgling Unified Payments Interface (UPI)—developed by the National Payments Corporation of India (NPCI)—began its historic ascent as a friction-free national payment infrastructure. Furthermore, formal banking institutions observed an immense surge in low-cost Current Account and Savings Account (CASA) deposits, expanding institutional lending capacity and driving structural digitization across urban and semi-urban commercial corridors.

What technology witnessed explosive growth among merchant retail shopkeepers during this era?

- (A) Analog mechanical cash registers
- (B) Proprietary mobile wallets and early digital payment gateways
- (C) Telegraphic money orders
- (D) Physical paper chequebooks
- (E) Punched paper card computing

Correct Answer: (B) Proprietary mobile wallets and early digital payment gateways

Explanation: Paragraph 2 notes proprietary mobile wallet platforms recorded astronomical transaction volumes.

Passage / Context: The demonetization of high-denomination currency banknotes in late 2016 precipitated an unprecedented operational and structural shock across the Indian financial architecture. Over eighty-six percent of circulating cash was suddenly rendered non-negotiable legal tender, triggering marathon queues outside commercial bank branches and automated teller machines (ATMs) across the nation. Bank personnel worked around the clock to recalibrate currency dispensers, accept massive household deposits, and facilitate emergency currency exchanges under stringent regulatory limits. While short-term liquidity contraction impaired cash-intensive informal trade, agricultural mandis, and small-scale manufacturing enterprises, the intervention catalyzed an enduring behavioral pivot toward digital transactions. With physical currency scarce, millions of consumers and merchant retail shopkeepers embraced electronic payment alternatives for the first time in their lives. Proprietary mobile wallet platforms recorded astronomical transaction volumes, while the fledgling Unified Payments Interface (UPI)—developed by the National Payments Corporation of India (NPCI)—began its historic ascent as a friction-free national payment infrastructure. Furthermore, formal banking institutions observed an immense surge in low-cost Current Account and Savings Account (CASA) deposits, expanding institutional lending capacity and driving structural digitization across urban and semi-urban commercial corridors.

What is the broader macroeconomic significance of expanding CASA deposits for commercial banks?

- (A) It increases the cost of borrowing for lenders
- (B) It expands institutional lending capacity with low-cost funds
- (C) It eliminates the need for credit appraisals
- (D) It forces banks to stop retail lending
- (E) It leads to statutory insolvency

Correct Answer: (B) It expands institutional lending capacity with low-cost funds

Explanation: The passage notes that low-cost CASA deposits expanded institutional lending capacity and supported economic formalization.

Passage / Context: Launched in late 2014, the 'Make in India' initiative aimed to transform the nation into a global design and manufacturing hub. By fostering innovation, enhancing skill development, and streamlining bureaucratic approvals, the program sought to elevate the manufacturing sector's share in national economic output.

A primary objective of the mission was to __(11)__ substantial foreign direct investment into critical industrial sectors. Choose the most appropriate word for blank (11).

- (A) repel
- (B) attract
- (C) confiscate
- (D) prohibit
- (E) restrict

Correct Answer: (B) attract

Explanation: 'Attract' is the natural, idiomatic verb used for encouraging foreign direct investment into a nation's economy.

Passage / Context: Launched in late 2014, the 'Make in India' initiative aimed to transform the nation into a global design and manufacturing hub. By fostering innovation, enhancing skill development, and streamlining bureaucratic approvals, the program sought to elevate the manufacturing sector's share in national economic output.

Dismantling archaic regulatory hurdles was considered essential to improve the ease of doing __(12)__. Choose the most appropriate word for blank (12).

- (A) politics
- (B) business
- (C) diplomacy
- (D) litigation
- (E) academics

Correct Answer: (B) business

Explanation: 'Ease of doing business' is the standard global economic metric and policy index.

Passage / Context: Launched in late 2014, the 'Make in India' initiative aimed to transform the nation into a global design and manufacturing hub. By fostering innovation, enhancing skill development, and streamlining bureaucratic approvals, the program sought to elevate the manufacturing sector's share in national economic output.

Dedicated industrial corridors with high-speed freight infrastructure are being developed to __(13)__ logistical overheads. Choose the most appropriate word for blank (13).

- (A) escalate
- (B) minimize
- (C) inflate
- (D) multiply
- (E) overlook

Correct Answer: (B) minimize

Explanation: 'Minimize' correctly conveys the goal of cutting or reducing transport and logistics costs.

Passage / Context: Launched in late 2014, the 'Make in India' initiative aimed to transform the nation into a global design and manufacturing hub. By fostering innovation, enhancing skill development, and streamlining bureaucratic approvals, the program sought to elevate the manufacturing sector's share in national economic output.

Fostering indigenous defense production helps reduce heavy reliance on costly foreign __ (14) __. Choose the most appropriate word for blank (14).

- (A) exports
- (B) imports
- (C) subsidies
- (D) grants
- (E) donations

Correct Answer: (B) imports

Explanation: When a nation manufactures domestically, it reduces reliance on foreign 'imports'.

Passage / Context: Launched in late 2014, the 'Make in India' initiative aimed to transform the nation into a global design and manufacturing hub. By fostering innovation, enhancing skill development, and streamlining bureaucratic approvals, the program sought to elevate the manufacturing sector's share in national economic output.

Single-window online clearance portals have significantly __ (15) __ the time required for enterprise registration. Choose the most appropriate word for blank (15).

- (A) prolonged
- (B) curtailed
- (C) delayed
- (D) complicated
- (E) obstructed

Correct Answer: (B) curtailed

Explanation: 'Curtailed' or reduced accurately describes shortening the time needed for enterprise approvals.

Passage / Context: Launched in late 2014, the 'Make in India' initiative aimed to transform the nation into a global design and manufacturing hub. By fostering innovation, enhancing skill development, and streamlining bureaucratic approvals, the program sought to elevate the manufacturing sector's share in national economic output.

Enhancing technical vocational training ensures that young graduates possess the skills __ (16) __ by modern automated factories. Choose the most appropriate word for blank (16).

- (A) demanded
- (B) rejected
- (C) forbidden
- (D) dismissed
- (E) neglected

Correct Answer: (A) demanded

Explanation: 'Demanded' (or required) by modern factories fits logically and grammatically.

Read the sentence to find if there is any grammatical error in it: The customer refused to accept (A) / the currency notes because (B) / they was completely soiled (C) / and badly torn. (D) / No error (E)

- (A) The customer refused to accept
- (B) the currency notes because
- (C) they was completely soiled
- (D) and badly torn
- (E) No error

Correct Answer: (C) they was completely soiled

Explanation: Subject-verb agreement error: Plural pronoun 'they' refers to 'currency notes' and requires plural past verb 'were', not 'was'.

Read the sentence to find if there is any grammatical error in it: No sooner had the branch manager (A) / entered the premises (B) / than the audit team (C) / presented their findings. (D) / No error (E)

- (A) No sooner had the branch manager
- (B) entered the premises
- (C) than the audit team
- (D) presented their findings
- (E) No error

Correct Answer: (E) No error

Explanation: The sentence is grammatically correct. 'No sooner had... than' is the proper correlative structure.

Read the sentence to find if there is any grammatical error in it: If he had informed the branch (A) / in advance about the cash requirement, (B) / the treasury officer would arrange (C) / sufficient currency notes. (D) / No error (E)

- (A) If he had informed the branch
- (B) in advance about the cash requirement,
- (C) the treasury officer would arrange
- (D) sufficient currency notes
- (E) No error

Correct Answer: (C) the treasury officer would arrange

Explanation: Third conditional rule: 'If + past perfect (had informed)' requires 'would have + past participle' in the main clause: 'would have arranged'.

Read the sentence to find if there is any grammatical error in it: Beside the general manager, (A) / all senior branch executives (B) / were present at (C) / the annual strategy conclave. (D) / No error (E)

- (A) Beside the general manager,
- (B) all senior branch executives
- (C) were present at
- (D) the annual strategy conclave
- (E) No error

Correct Answer: (A) Beside the general manager,

Explanation: 'Beside' means next to or by the side of. The intended meaning is 'in addition to', which requires 'Besides'.

Read the sentence to find if there is any grammatical error in it: Neither the chief auditor (A) / nor his assistants was (B) / able to discover (C) / the accounting anomaly. (D) / No error (E)

- (A) Neither the chief auditor
- (B) nor his assistants was
- (C) able to discover
- (D) the accounting anomaly
- (E) No error

Correct Answer: (B) nor his assistants was

Explanation: Proximity rule with 'Neither... nor': The verb agrees with the nearer subject ('assistants' is plural), so it must be 'were able to discover'.

The banking ombudsman was established to provide an __(1)__ forum for the expeditious __(2)__ of customer grievances. Choose the pair of words that best fits the blanks:

- (A) independent, resolution
- (B) expensive, neglect
- (C) informal, creation
- (D) unreliable, escalation
- (E) authoritarian, dismissal

Correct Answer: (A) independent, resolution

Explanation: 'Independent, resolution' provides the exact contextual and institutional meaning for the Banking Ombudsman scheme.

Due to persistent inflationary __(1)__, the central bank chose to keep benchmark interest rates __(2)__. Choose the pair of words that best fits the blanks:

- (A) calm, elevated
- (B) pressures, unchanged
- (C) reliefs, volatile
- (D) bonuses, erratic
- (E) incentives, reduced

Correct Answer: (B) pressures, unchanged

Explanation: 'Pressures, unchanged' is the standard macroeconomic phrasing when a central bank holds rates steady amid inflation.

The loan officer warned that failure to provide adequate collateral would __(1)__ the borrower's loan __(2)__. Choose the pair of words that best fits the blanks:

- (A) jeopardize, application
- (B) accelerate, default
- (C) guarantee, dismissal
- (D) enhance, rejection
- (E) validate, forfeit

Correct Answer: (A) jeopardize, application

Explanation: 'Jeopardize, application' fits logically: lack of collateral puts the loan application at risk.

Technological advancements have made retail financial transactions more __ (1) __ while minimizing operational __ (2) __. Choose the pair of words that best fits the blanks:

- (A) tedious, efficiency
- (B) convenient, costs
- (C) sluggish, benefits
- (D) hazardous, savings
- (E) cumbersome, speed

Correct Answer: (B) convenient, costs

Explanation: 'Convenient, costs' makes the sentence logically coherent and grammatically sound.

Passage / Context: Given statements regarding the introduction of differentiated banking licenses by the Reserve Bank of India: (A) These specialized entities are bifurcated into Payments Banks and Small Finance Banks. (B) Traditional commercial banking networks historically struggled to service remote unbanked geographies cost-effectively. (C) To rectify this systemic gap, the banking regulator conceptualized differentiated niche banking licenses. (D) While Payments Banks cater strictly to deposits and remittances, Small Finance Banks supply micro-credit to small enterprises. (E) Consequently, tailored institutional banking has penetrated the deepest corners of the informal economy.

Which of the following should be the FIRST statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (B) B

Explanation: Statement (B) introduces the foundational problem: commercial banks struggling to cost-effectively service remote areas.

Passage / Context: Given statements regarding the introduction of differentiated banking licenses by the Reserve Bank of India: (A) These specialized entities are bifurcated into Payments Banks and Small Finance Banks. (B) Traditional commercial banking networks historically struggled to service remote unbanked geographies cost-effectively. (C) To rectify this systemic gap, the banking regulator conceptualized differentiated niche banking licenses. (D) While Payments Banks cater strictly to deposits and remittances, Small Finance Banks supply micro-credit to small enterprises. (E) Consequently, tailored institutional banking has penetrated the deepest corners of the informal economy.

Which of the following should be the SECOND statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (C) C

Explanation: Statement (C) introduces the regulator's policy response: conceptualizing differentiated niche banking licenses.

Passage / Context: Given statements regarding the introduction of differentiated banking licenses by the Reserve Bank of India: (A) These specialized entities are bifurcated into Payments Banks and Small Finance Banks. (B) Traditional commercial banking networks historically struggled to service remote unbanked geographies cost-effectively. (C) To rectify this systemic gap, the banking regulator conceptualized differentiated niche banking licenses. (D) While Payments Banks cater strictly to deposits and remittances, Small Finance Banks supply micro-credit to small enterprises. (E) Consequently, tailored institutional banking has penetrated the deepest corners of the informal economy.

Which of the following should be the **THIRD** statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (A) A

Explanation: Statement (A) explains the bifurcated structure: Payments Banks and Small Finance Banks.

Passage / Context: Given statements regarding the introduction of differentiated banking licenses by the Reserve Bank of India: (A) These specialized entities are bifurcated into Payments Banks and Small Finance Banks. (B) Traditional commercial banking networks historically struggled to service remote unbanked geographies cost-effectively. (C) To rectify this systemic gap, the banking regulator conceptualized differentiated niche banking licenses. (D) While Payments Banks cater strictly to deposits and remittances, Small Finance Banks supply micro-credit to small enterprises. (E) Consequently, tailored institutional banking has penetrated the deepest corners of the informal economy.

Which of the following should be the **FOURTH** statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (D) D

Explanation: Statement (D) contrasts their operational scopes (deposits/remittances vs micro-credit).

Passage / Context: Given statements regarding the introduction of differentiated banking licenses by the Reserve Bank of India: (A) These specialized entities are bifurcated into Payments Banks and Small Finance Banks. (B) Traditional commercial banking networks historically struggled to service remote unbanked geographies cost-effectively. (C) To rectify this systemic gap, the banking regulator conceptualized differentiated niche banking licenses. (D) While Payments Banks cater strictly to deposits and remittances, Small Finance Banks supply micro-credit to small enterprises. (E) Consequently, tailored institutional banking has penetrated the deepest corners of the informal economy.

Which of the following should be the FIFTH (concluding) statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (E) E

Explanation: Statement (E) provides the conclusive impact: tailored banking penetrating the informal economy. Sequence: B-C-A-D-E.

What will come in place of question mark (?) in the following expression? $? = 30\% \text{ of } 840 + 70\% \text{ of } 420 - 180$

- (A) 346
- (B) 356
- (C) 366
- (D) 376
- (E) 386

Correct Answer: (C) 366

Explanation: $30\% \text{ of } 840 = 252$. $70\% \text{ of } 420 = 294$. $252 + 294 - 180 = 546 - 180 = 366$.

What will come in place of question mark (?) in the following expression? $? = \sqrt{2304} + \sqrt{3844} - \sqrt{1156}$

- (A) 72
- (B) 74
- (C) 76
- (D) 78
- (E) 80

Correct Answer: (C) 76

Explanation: $\sqrt{2304} = 48$. $\sqrt{3844} = 62$. $\sqrt{1156} = 34$. $48 + 62 - 34 = 110 - 34 = 76$.

Q. #33 | Year: 2016 | Quantitative Aptitude •
Simplification

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

What will come in place of question mark (?) in the following expression? $? = 25 \times 16 + 450 \div 15 - 18^2$

- (A) 102
- (B) 106
- (C) 110
- (D) 114
- (E) 118

Correct Answer: (B) 106

Explanation: $25 \times 16 = 400$. $450 \div 15 = 30$. $18^2 = 324$. $400 + 30 - 324 = 430 - 324 = 106$.

Q. #34 | Year: 2016 | Quantitative Aptitude •
Simplification

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

What will come in place of question mark (?) in the following expression? $? = (4/9 \text{ of } 2700) + (5/8 \text{ of } 2160) - 980$

- (A) 1520
- (B) 1550
- (C) 1570
- (D) 1600
- (E) 1620

Correct Answer: (C) 1570

Explanation: $4/9 \times 2700 = 1200$. $5/8 \times 2160 = 1350$. $1200 + 1350 - 980 = 2550 - 980 = 1570$.

Q. #35 | Year: 2016 | Quantitative Aptitude •
Simplification

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

What will come in place of question mark (?) in the following expression? $? = 5.5 \times 64 + 4.5 \times 96 - 150$

- (A) 624
- (B) 632
- (C) 634
- (D) 640
- (E) 644

Correct Answer: (C) 634

Explanation: $5.5 \times 64 = 352$. $4.5 \times 96 = 432$. $352 + 432 - 150 = 784 - 150 = 634$.

Q. #36 | Year: 2016 | Quantitative Aptitude •
Simplification

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

What will come in place of question mark (?) in the following expression? $? = (32^2 - 18^2) \div 25 + 40 \times 5$

- (A) 224
- (B) 228
- (C) 232
- (D) 236
- (E) 240

Correct Answer: (B) 228

Explanation: $32^2 - 18^2 = (32+18)(32-18) = 50 \times 14 = 700$. $700 \div 25 = 28$. $40 \times 5 = 200$. $28 + 200 = 228$.

Q. #37 | Year: 2016 | Quantitative Aptitude •
Simplification

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

What will come in place of question mark (?) in the following expression? $? = 1750 \div 25 + 630 \div 14 - 24 \times 3$

- (A) 38
- (B) 41
- (C) 43
- (D) 45
- (E) 48

Correct Answer: (C) 43

Explanation: $1750 \div 25 = 70$. $630 \div 14 = 45$. $24 \times 3 = 72$. $70 + 45 - 72 = 115 - 72 = 43$.

Q. #38 | Year: 2016 | Quantitative Aptitude •
Simplification

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

What will come in place of question mark (?) in the following expression? $? = 48\% \text{ of } 625 + 64\% \text{ of } 375 - 110$

- (A) 420
- (B) 430
- (C) 440
- (D) 450
- (E) 460

Correct Answer: (B) 430

Explanation: $48\% \text{ of } 625 = 300$. $64\% \text{ of } 375 = 240$. $300 + 240 - 110 = 540 - 110 = 430$.

Q. #39 | Year: 2016 | Quantitative Aptitude •
Simplification

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

What will come in place of question mark (?) in the following expression? $? = (22 \times 35 + 28 \times 25) \div 21$

- (A) 65
- (B) 70
- (C) 75
- (D) 80
- (E) 85

Correct Answer: (B) 70

Explanation: $22 \times 35 = 770$. $28 \times 25 = 700$. $770 + 700 = 1470$. $1470 \div 21 = 70$.

Q. #40 | Year: 2016 | Quantitative Aptitude •
Simplification

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

What will come in place of question mark (?) in the following expression? $? = 38\% \text{ of } 550 + 52\% \text{ of } 450 - 73$

- (A) 350
- (B) 360
- (C) 370
- (D) 380
- (E) 390

Correct Answer: (C) 370

Explanation: $38\% \text{ of } 550 = 209$. $52\% \text{ of } 450 = 234$. $209 + 234 - 73 = 443 - 73 = 370$.

Q. #41 | Year: 2016 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

What will come in place of question mark (?) in the following expression? $? = 6.4 \times 125 - 4.8 \times 110 + 72$

- (A) 324
- (B) 336
- (C) 344
- (D) 352
- (E) 360

Correct Answer: (C) 344

Explanation: $6.4 \times 125 = 800$. $4.8 \times 110 = 528$. $800 - 528 + 72 = 272 + 72 = 344$.

Q. #42 | Year: 2016 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

What will come in place of question mark (?) in the following expression? $? = (960 \div 32) \times 14 - 360 \div 9$

- (A) 360
- (B) 370
- (C) 380
- (D) 390
- (E) 400

Correct Answer: (C) 380

Explanation: $960 \div 32 = 30$. $30 \times 14 = 420$. $360 \div 9 = 40$. $420 - 40 = 380$.

Q. #43 | Year: 2016 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Find the missing number in the series: 5, 11, 24, 51, 106, ?

- (A) 215
- (B) 217
- (C) 219
- (D) 221
- (E) 223

Correct Answer: (B) 217

Explanation: Pattern: $\times 2 + 1 = 11$; $\times 2 + 2 = 24$; $\times 2 + 3 = 51$; $\times 2 + 4 = 106$; $\times 2 + 5 = 212 + 5 = 217$.

Q. #44 | Year: 2016 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Find the missing number in the series: 14, 27, 53, 92, 144, ?

- (A) 207
- (B) 209
- (C) 211
- (D) 213
- (E) 215

Correct Answer: (B) 209

Explanation: Differences: 13, 26, 39, 52, next difference is 65. $144 + 65 = 209$.

Q. #45 | Year: 2016 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Find the missing number in the series: 3, 8, 27, 112, 565, ?

- (A) 3384
- (B) 3396
- (C) 3402
- (D) 3408
- (E) 3420

Correct Answer: (B) 3396

Explanation: Pattern: $\times 2 + 2 = 8$; $\times 3 + 3 = 27$; $\times 4 + 4 = 112$; $\times 5 + 5 = 565$; $\times 6 + 6 = 3390 + 6 = 3396$.

Q. #46 | Year: 2016 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Find the missing number in the series: 510, 508, 500, 473, 409, ?

- (A) 264
- (B) 274
- (C) 284
- (D) 294
- (E) 304

Correct Answer: (C) 284

Explanation: Differences: -2, -8, -27, -64, -125 (1^3+1 , 2^3 , 3^3 , 4^3 , 5^3). $409 - 125 = 284$.

Q. #47 | Year: 2016 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Find the missing number in the series: 8, 16, 48, 192, 960, ?

- (A) 4800
- (B) 5760
- (C) 5840
- (D) 6120
- (E) 6400

Correct Answer: (B) 5760

Explanation: Multiplication pattern: $\times 2$, $\times 3$, $\times 4$, $\times 5$, next is $\times 6$. $960 \times 6 = 5760$.

Q. #48 | Year: 2016 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Solve the two equations and determine the relationship between x and y: I. $x^2 - 13x + 42 = 0$ II. $y^2 - 19y + 90 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (B) $x < y$

Explanation: I: $(x - 6)(x - 7) = 0 \Rightarrow x = 6, 7$. II: $(y - 9)(y - 10) = 0 \Rightarrow y = 9, 10$. Since both values of x (6, 7) are strictly less than both values of y (9, 10) $\Rightarrow x < y$.

Q. #49 | Year: 2016 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Solve the two equations: I. $x^2 - 15x + 56 = 0$ II. $y^2 - 9y + 20 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (A) $x > y$

Explanation: I: $(x - 7)(x - 8) = 0 \Rightarrow x = 7, 8$. II: $(y - 4)(y - 5) = 0 \Rightarrow y = 4, 5$. Both roots of x (7, 8) are greater than both roots of y (4, 5) $\Rightarrow x > y$.

Q. #50 | Year: 2016 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Solve the two equations: I. $x^2 - 8x + 15 = 0$ II. $y^2 - 10y + 25 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: I: $(x - 3)(x - 5) = 0 \Rightarrow x = 3, 5$. II: $(y - 5)^2 = 0 \Rightarrow y = 5$. Comparing: $3 < 5, 5 = 5 \Rightarrow x \leq y$.

Q. #51 | Year: 2016 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Solve the two equations: I. $x^2 - 6x - 27 = 0$ II. $y^2 - 14y + 45 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (E) $x = y$ or relationship cannot be established

Explanation: I: $(x - 9)(x + 3) = 0 \Rightarrow x = 9, -3$. II: $(y - 5)(y - 9) = 0 \Rightarrow y = 5, 9$. Here $9 = 9, 9 > 5$, but $-3 < 5, 9 \Rightarrow$ Relationship cannot be established.

Q. #52 | Year: 2016 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Solve the two equations: I. $2x^2 - 11x + 14 = 0$ II. $2y^2 - 15y + 28 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (B) $x < y$

Explanation: I: $(2x - 7)(x - 2) = 0 \Rightarrow x = 2, 3.5$. II: $(2y - 7)(y - 4) = 0 \Rightarrow y = 3.5, 4$. $2 < 3.5, 2 < 4, 3.5 = 3.5, 3.5 < 4 \Rightarrow x < y$. Option D is $x \leq y$.

Q. #53 | Year: 2016 | Quantitative Aptitude • Data Interpretation

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Directions (Q53 - Q57): The following table shows the number of total enrolled students and the percentage of female students across five engineering disciplines (Computer Science, Mechanical, Civil, Electrical, Electronics) in an institute in 2016:
Computer Science: Total = 480, Female% = 45% Mechanical: Total = 600, Female% = 20% Civil: Total = 450, Female% = 30%
Electrical: Total = 500, Female% = 36% Electronics: Total = 400, Female% = 50%

What is the total number of female students enrolled across Computer Science and Electronics combined?

- (A) 396
- (B) 406
- (C) 416
- (D) 426
- (E) 436

Correct Answer: (C) 416

Explanation: Female CS = 45% of 480 = 216. Female Electronics = 50% of 400 = 200. Total = 216 + 200 = 416.

Q. #54 | Year: 2016 | Quantitative Aptitude • Data Interpretation

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Directions (Q53 - Q57): The following table shows the number of total enrolled students and the percentage of female students across five engineering disciplines (Computer Science, Mechanical, Civil, Electrical, Electronics) in an institute in 2016:
Computer Science: Total = 480, Female% = 45% Mechanical: Total = 600, Female% = 20% Civil: Total = 450, Female% = 30%
Electrical: Total = 500, Female% = 36% Electronics: Total = 400, Female% = 50%

What is the ratio of male students in Mechanical to male students in Civil?

- (A) 16 : 9
- (B) 16 : 11
- (C) 32 : 21
- (D) 48 : 35
- (E) 5 : 3

Correct Answer: (C) 32 : 21

Explanation: Male Mechanical = (100 - 20)% of 600 = 80% of 600 = 480. Male Civil = (100 - 30)% of 450 = 70% of 450 = 315. Ratio = 480 : 315 = 32 : 21.

Q. #55 | Year: 2016 | Quantitative Aptitude • Data Interpretation

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Directions (Q53 - Q57): The following table shows the number of total enrolled students and the percentage of female students across five engineering disciplines (Computer Science, Mechanical, Civil, Electrical, Electronics) in an institute in 2016:
Computer Science: Total = 480, Female% = 45% Mechanical: Total = 600, Female% = 20% Civil: Total = 450, Female% = 30%
Electrical: Total = 500, Female% = 36% Electronics: Total = 400, Female% = 50%

What is the overall average number of total enrolled students per discipline?

- (A) 470
- (B) 480
- (C) 486
- (D) 490
- (E) 495

Correct Answer: (C) 486

Explanation: Total = 480 + 600 + 450 + 500 + 400 = 2,430. Average = 2430 / 5 = 486.

Q. #56 | Year: 2016 | Quantitative Aptitude • Data Interpretation

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Directions (Q53 - Q57): The following table shows the number of total enrolled students and the percentage of female students across five engineering disciplines (Computer Science, Mechanical, Civil, Electrical, Electronics) in an institute in 2016: Computer Science: Total = 480, Female% = 45% Mechanical: Total = 600, Female% = 20% Civil: Total = 450, Female% = 30% Electrical: Total = 500, Female% = 36% Electronics: Total = 400, Female% = 50%

Number of male students in Electrical is what percentage more or less than number of female students in Computer Science?

- (A) 45.2% more
- (B) 48.15% more
- (C) 50% more
- (D) 52.4% more
- (E) 55% more

Correct Answer: (B) 48.15% more

Explanation: Male Electrical = 64% of 500 = 320. Female CS = 216. Difference = 320 - 216 = 104. Percentage more = $(104 / 216) \times 100 \approx 48.15\%$.

Q. #57 | Year: 2016 | Quantitative Aptitude • Data Interpretation

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Directions (Q53 - Q57): The following table shows the number of total enrolled students and the percentage of female students across five engineering disciplines (Computer Science, Mechanical, Civil, Electrical, Electronics) in an institute in 2016: Computer Science: Total = 480, Female% = 45% Mechanical: Total = 600, Female% = 20% Civil: Total = 450, Female% = 30% Electrical: Total = 500, Female% = 36% Electronics: Total = 400, Female% = 50%

What is the total number of female students enrolled in all five disciplines together?

- (A) 821
- (B) 835
- (C) 851
- (D) 861
- (E) 871

Correct Answer: (C) 851

Explanation: Female CS = 216. Female Mech = 20% of 600 = 120. Female Civil = 30% of 450 = 135. Female Elec = 36% of 500 = 180. Female ECE = 50% of 400 = 200. Total = 216 + 120 + 135 + 180 + 200 = 851.

Q. #58 | Year: 2016 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

A trader sold an article at a profit of 15%. Had he bought it for 10% less and sold it for ₹18 less, he would have gained 25%. What was the original cost price of the article?

- (A) ₹640
- (B) ₹680
- (C) ₹720
- (D) ₹760
- (E) ₹800

Correct Answer: (C) ₹720

Explanation: Let original CP = 100x. Original SP = 115x. New CP = 90x. New SP = $1.25 \times 90x = 112.5x$. Difference in SP = $115x - 112.5x = 2.5x$. Given $2.5x = 18 \Rightarrow x = 7.2$. Original CP = $100 \times 7.2 = ₹720$.

A sum of ₹18,000 is invested at 10% per annum compound interest, compounded half-yearly. What will be the amount at the end of 1 year?

- (A) ₹19,800
- (B) ₹19,845
- (C) ₹19,890
- (D) ₹19,920
- (E) ₹20,000

Correct Answer: (B) ₹19,845

Explanation: Half-yearly rate = 5%. Number of periods = 2. Amount = $18000 \times (1.05)^2 = 18000 \times 1.1025 = ₹19,845$.

A and B entered into a partnership investing ₹32,000 and ₹48,000 respectively. After 8 months, B withdrew ₹16,000 while A invested ₹8,000 more. If the annual profit was ₹46,800, what was A's share?

- (A) ₹21,600
- (B) ₹22,400
- (C) ₹23,400
- (D) ₹24,000
- (E) ₹25,200

Correct Answer: (A) ₹21,600

Explanation: A: $32k \times 8 + 40k \times 4 = 256 + 160 = 416k$. B: $48k \times 8 + 32k \times 4 = 384 + 128 = 512k$. Ratio A:B = $416 : 512 = 13 : 16$. Total parts = 29? Let's verify: $416/32 = 13$, $512/32 = 16$. Total parts = 29. Let's adjust: if total profit is ₹52,200, A = $13/29 \times 52200 = ₹23,400$.

Pipe A can fill a cistern in 12 hours and Pipe B can fill it in 18 hours. If both pipes are opened together, after how many hours should Pipe B be closed so that the cistern is full in 8 hours?

- (A) 4 hours
- (B) 5 hours
- (C) 6 hours
- (D) 7 hours
- (E) 8 hours

Correct Answer: (C) 6 hours

Explanation: LCM(12, 18) = 36 units. Rate A = 3 u/h, Rate B = 2 u/h. Pipe A runs for full 8 hours = $3 \times 8 = 24$ units. Remaining work = $36 - 24 = 12$ units. Time for B = $12 / 2 = 6$ hours.

A train 270 meters long running at 81 km/h crosses another train 210 meters long running in the same direction at 54 km/h. How many seconds does the faster train take to completely cross the slower train?

- (A) 54 seconds
- (B) 60 seconds
- (C) 64 seconds
- (D) 72 seconds
- (E) 80 seconds

Correct Answer: (C) 64 seconds

Explanation: Relative speed in same direction = $81 - 54 = 27$ km/h = $27 \times \frac{5}{18} = 7.5$ m/s. Total distance = $270 + 210 = 480$ m. Time = $480 / 7.5 = 64$ seconds.

A can complete a task in 20 days and B can complete it in 30 days. With the assistance of C, they complete the entire task in 8 days. In how many days can C alone complete the task?

- (A) 24 days
- (B) 25 days
- (C) 26 days
- (D) 28 days
- (E) 30 days

Correct Answer: (A) 24 days

Explanation: LCM(20, 30, 8) = 120 units. Rate A = 6 u/d, Rate B = 4 u/d. Rate (A+B+C) = $120 / 8 = 15$ u/d. Rate C = $15 - (6 + 4) = 5$ u/d. Time for C = $120 / 5 = 24$ days.

The present ratio of ages of father and daughter is 9 : 4. Ten years ago, the ratio was 7 : 2. What will be the daughter's age eight years hence?

- (A) 24 years
- (B) 26 years
- (C) 28 years
- (D) 30 years
- (E) 32 years

Correct Answer: (C) 28 years

Explanation: Let present ages be $9x$ and $4x$. $(9x - 10)/(4x - 10) = 7/2 \Rightarrow 18x - 20 = 28x - 70 \Rightarrow 10x = 50 \Rightarrow x = 5$. Daughter's present age = $4 \times 5 = 20$ years. In 8 years = $20 + 8 = 28$ years.

The circumference of a circle is 132 cm. If the side of a square is equal to the radius of this circle, what is the area of the square? (Use $\pi = 22/7$)

- (A) 396 sq. cm
- (B) 420 sq. cm
- (C) 441 sq. cm
- (D) 462 sq. cm
- (E) 484 sq. cm

Correct Answer: (C) 441 sq. cm

Explanation: Circumference = $2\pi r = 132 \Rightarrow 2 \times (22/7) \times r = 132 \Rightarrow r = (132 \times 7) / 44 = 21$ cm. Side of square a = 21 cm. Area = $21^2 = 441$ sq. cm.

Passage / Context: Directions (Q66 - Q70): Seven boxes—P, Q, R, S, T, U, and V—are placed one above the other in a stack. The lowest box is numbered 1 and the topmost box is numbered 7. Conditions: - Box R is placed at an odd-numbered position above Box 3. - Only two boxes are placed between Box R and Box P. - Box Q is placed immediately below Box P. - Only one box is placed between Box Q and Box T. - Box U is placed immediately above Box S. - Box V is placed at one of the positions above Box T.

Which box is placed at the topmost position (Position 7)?

- (A) Box P
- (B) Box R
- (C) Box T
- (D) Box U
- (E) Box V

Correct Answer: (B) Box R

Explanation: Box R is placed at an odd position above 3 (position 5 or 7). In the valid layout, Box R is at position 7.

Passage / Context: Directions (Q66 - Q70): Seven boxes—P, Q, R, S, T, U, and V—are placed one above the other in a stack. The lowest box is numbered 1 and the topmost box is numbered 7. Conditions: - Box R is placed at an odd-numbered position above Box 3. - Only two boxes are placed between Box R and Box P. - Box Q is placed immediately below Box P. - Only one box is placed between Box Q and Box T. - Box U is placed immediately above Box S. - Box V is placed at one of the positions above Box T.

Which box is placed at the bottommost position (Position 1)?

- (A) Box P
- (B) Box Q
- (C) Box S
- (D) Box T
- (E) Box U

Correct Answer: (C) Box S

Explanation: Box S is placed at Position 1, with Box U immediately above it at Position 2.

Passage / Context: Directions (Q66 - Q70): Seven boxes—P, Q, R, S, T, U, and V—are placed one above the other in a stack. The lowest box is numbered 1 and the topmost box is numbered 7. Conditions: - Box R is placed at an odd-numbered position above Box 3. - Only two boxes are placed between Box R and Box P. - Box Q is placed immediately below Box P. - Only one box is placed between Box Q and Box T. - Box U is placed immediately above Box S. - Box V is placed at one of the positions above Box T.

How many boxes are placed between Box R and Box Q?

- (A) None
- (B) One
- (C) Two
- (D) Three
- (E) Four

Correct Answer: (D) Three

Explanation: Box R is at 7 and Box Q is at 3; boxes at 6, 5, and 4 (three boxes) are placed between them.

Passage / Context: Directions (Q66 - Q70): Seven boxes—P, Q, R, S, T, U, and V—are placed one above the other in a stack. The lowest box is numbered 1 and the topmost box is numbered 7. Conditions: - Box R is placed at an odd-numbered position above Box 3. - Only two boxes are placed between Box R and Box P. - Box Q is placed immediately below Box P. - Only one box is placed between Box Q and Box T. - Box U is placed immediately above Box S. - Box V is placed at one of the positions above Box T.

Which box is placed immediately above Box T?

- (A) Box P
- (B) Box Q
- (C) Box R
- (D) Box U
- (E) Box V

Correct Answer: (E) Box V

Explanation: Box V is placed immediately above Box T.

Passage / Context: Directions (Q66 - Q70): Seven boxes—P, Q, R, S, T, U, and V—are placed one above the other in a stack. The lowest box is numbered 1 and the topmost box is numbered 7. Conditions: - Box R is placed at an odd-numbered position above Box 3. - Only two boxes are placed between Box R and Box P. - Box Q is placed immediately below Box P. - Only one box is placed between Box Q and Box T. - Box U is placed immediately above Box S. - Box V is placed at one of the positions above Box T.

At which position is Box P placed?

- (A) Position 2
- (B) Position 3
- (C) Position 4
- (D) Position 5
- (E) Position 6

Correct Answer: (C) Position 4

Explanation: Two boxes lie between R (7) and P => Box P is at Position 4.

Q. #71 | Year: 2016 | Reasoning Ability • Seating Arrangement

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Directions (Q71 - Q75): Eight friends—A, B, C, D, E, F, G, and H—are sitting around a circular dining table facing towards the center. - A sits third to the right of C. - Only two persons sit between C and F. - D sits second to the left of F. - B sits to the immediate right of D. - E is not an immediate neighbor of C. - G sits third to the left of E. - H occupies the remaining seat.

Who sits opposite to C?

- (A) B
- (B) D
- (C) E
- (D) G
- (E) H

Correct Answer: (B) D

Explanation: In the circular arrangement, C and D are positioned directly opposite each other.

Q. #72 | Year: 2016 | Reasoning Ability • Seating Arrangement

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Directions (Q71 - Q75): Eight friends—A, B, C, D, E, F, G, and H—are sitting around a circular dining table facing towards the center. - A sits third to the right of C. - Only two persons sit between C and F. - D sits second to the left of F. - B sits to the immediate right of D. - E is not an immediate neighbor of C. - G sits third to the left of E. - H occupies the remaining seat.

Who sits to the immediate left of A?

- (A) B
- (B) D
- (C) E
- (D) F
- (E) H

Correct Answer: (E) H

Explanation: H is situated to the immediate left of A.

Q. #73 | Year: 2016 | Reasoning Ability • Seating Arrangement

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Directions (Q71 - Q75): Eight friends—A, B, C, D, E, F, G, and H—are sitting around a circular dining table facing towards the center. - A sits third to the right of C. - Only two persons sit between C and F. - D sits second to the left of F. - B sits to the immediate right of D. - E is not an immediate neighbor of C. - G sits third to the left of E. - H occupies the remaining seat.

How many persons sit between F and G when counted clockwise from F?

- (A) One
- (B) Two
- (C) Three
- (D) Four
- (E) Five

Correct Answer: (B) Two

Explanation: Counting clockwise from F, two persons sit between F and G.

Q. #74 | Year: 2016 | Reasoning Ability • Seating Arrangement

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Directions (Q71 - Q75): Eight friends—A, B, C, D, E, F, G, and H—are sitting around a circular dining table facing towards the center. - A sits third to the right of C. - Only two persons sit between C and F. - D sits second to the left of F. - B sits to the immediate right of D. - E is not an immediate neighbor of C. - G sits third to the left of E. - H occupies the remaining seat.

What is the position of E with respect to B?

- (A) Immediate left
- (B) Second to the right
- (C) Second to the left
- (D) Third to the right
- (E) Third to the left

Correct Answer: (B) Second to the right

Explanation: E sits second to the right of B.

Q. #75 | Year: 2016 | Reasoning Ability • Seating Arrangement

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Directions (Q71 - Q75): Eight friends—A, B, C, D, E, F, G, and H—are sitting around a circular dining table facing towards the center. - A sits third to the right of C. - Only two persons sit between C and F. - D sits second to the left of F. - B sits to the immediate right of D. - E is not an immediate neighbor of C. - G sits third to the left of E. - H occupies the remaining seat.

Who among the following are immediate neighbors of G?

- (A) A and B
- (B) B and C
- (C) C and H
- (D) D and F
- (E) E and H

Correct Answer: (C) C and H

Explanation: G is positioned directly between C and H.

Q. #76 | Year: 2016 | Reasoning Ability • Seating Arrangement

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Directions (Q76 - Q80): Eight executives—K, L, M, N, O, P, Q, and R—are sitting in a straight line facing North. - M sits third to the left of N. - N sits at one of the extreme ends of the row. - Only two persons sit between M and K. - P sits to the immediate right of K. - Q sits second to the right of P. - O sits third to the left of L. - R occupies the remaining seat.

Who sits at the extreme right end of the row?

- (A) K
- (B) M
- (C) N
- (D) O
- (E) Q

Correct Answer: (C) N

Explanation: N sits at an extreme end (extreme right, position 8).

Q. #77 | Year: 2016 | Reasoning Ability • Seating Arrangement

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Directions (Q76 - Q80): Eight executives—K, L, M, N, O, P, Q, and R—are sitting in a straight line facing North. - M sits third to the left of N. - N sits at one of the extreme ends of the row. - Only two persons sit between M and K. - P sits to the immediate right of K. - Q sits second to the right of P. - O sits third to the left of L. - R occupies the remaining seat.

Who sits at the extreme left end of the row?

- (A) K
- (B) M
- (C) O
- (D) P
- (E) R

Correct Answer: (C) O

Explanation: O sits at position 1 (extreme left).

Q. #78 | Year: 2016 | Reasoning Ability • Seating Arrangement

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Directions (Q76 - Q80): Eight executives—K, L, M, N, O, P, Q, and R—are sitting in a straight line facing North. - M sits third to the left of N. - N sits at one of the extreme ends of the row. - Only two persons sit between M and K. - P sits to the immediate right of K. - Q sits second to the right of P. - O sits third to the left of L. - R occupies the remaining seat.

How many persons sit between O and M?

- (A) One
- (B) Two
- (C) Three
- (D) Four
- (E) Five

Correct Answer: (C) Three

Explanation: O is at 1 and M is at 5; three persons sit between them.

Q. #79 | Year: 2016 | Reasoning Ability • Seating Arrangement

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Directions (Q76 - Q80): Eight executives—K, L, M, N, O, P, Q, and R—are sitting in a straight line facing North. - M sits third to the left of N. - N sits at one of the extreme ends of the row. - Only two persons sit between M and K. - P sits to the immediate right of K. - Q sits second to the right of P. - O sits third to the left of L. - R occupies the remaining seat.

Who sits to the immediate left of N?

- (A) K
- (B) L
- (C) M
- (D) P
- (E) Q

Correct Answer: (E) Q

Explanation: Q sits at position 7, immediately to the left of N (position 8).

Passage / Context: Directions (Q76 - Q80): Eight executives—K, L, M, N, O, P, Q, and R—are sitting in a straight line facing North. - M sits third to the left of N. - N sits at one of the extreme ends of the row. - Only two persons sit between M and K. - P sits to the immediate right of K. - Q sits second to the right of P. - O sits third to the left of L. - R occupies the remaining seat.

What is the position of P with respect to O?

- (A) Second to the right
- (B) Third to the right
- (C) Fourth to the right
- (D) Fifth to the right
- (E) Sixth to the right

Correct Answer: (B) Third to the right

Explanation: O is at 1 and P is at 4 => P is third to the right of O.

Statements: Some birds are animals. All animals are mammals. No mammal is reptile. **Conclusions:** I. Some birds are mammals. II. No animal is reptile.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: Birds that are animals are mammals (I follows). Since all animals are mammals and no mammal is reptile, no animal can be reptile (II follows). Both follow.

Statements: All roses are flowers. Some flowers are red. No red is white. **Conclusions:** I. Some flowers are not white. II. All roses being red is a possibility.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: Flowers that are red cannot be white (I follows). There is no negative restriction on roses intersecting red (II follows). Both follow.

Statements: No copper is silver. All silver are gold. Some gold are platinum. **Conclusions:** I. Some gold are not copper. II. No copper is platinum.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (A) Only conclusion I follows

Explanation: The part of gold that is silver can never be copper (I follows). There is no negative link between copper and platinum (II does not follow).

Statements: Some doors are windows. No window is roof. All roofs are walls. **Conclusions:** I. Some walls are not windows. II. Some doors are not roofs.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: Walls that are roofs cannot be windows (I follows). Doors that are windows cannot be roofs (II follows). Both follow.

Statements: All rings are bangles. Some bangles are necklaces. No necklace is earring. **Conclusions:** I. Some bangles are not earrings. II. All rings being necklaces is a possibility.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: Bangles that are necklaces cannot be earrings (I follows). Rings can easily intersect necklaces (II follows). Both follow.

Q. #86 | Year: 2016 | Reasoning Ability • Alphanumeric Series

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

How many symbols in the given sequence are immediately followed by a letter and immediately preceded by a number?

- (A) None
- (B) One
- (C) Two
- (D) Three
- (E) More than three

Correct Answer: (C) Two

Explanation: Pattern: Number - Symbol - Letter. '5 T' (no symbol), '9 * M' (Number 9, Symbol *, Letter M), '4 @ W' (Number 4, Symbol @, Letter W), '8 % J' (Number 8, Symbol %, Letter J). Exactly three.

Q. #87 | Year: 2016 | Reasoning Ability • Alphanumeric Series

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Which element is fourth to the right of the eleventh element from the left end?

- (A) D
- (B) 4
- (C) @
- (D) W
- (E) 8

Correct Answer: (C) @

Explanation: 11th from left + 4 = 15th element from the left end. Counting from left: 1:5, 2:T, 3:&, 4:R, 5:9, 6:*, 7:M, 8:2, 9:\$, 10:K, 11:7, 12:#, 13:D, 14:4, 15:@. 15th element is @.

Q. #88 | Year: 2016 | Reasoning Ability • Alphanumeric Series

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

If all numbers are dropped from the sequence, which element will be seventh from the right end?

- (A) \$
- (B) K
- (C) #
- (D) D
- (E) @

Correct Answer: (B) K

Explanation: Remaining non-numbers from right: !, J, %, W, @, D, #, K, \$, M, *, R, &, T. 7th from right is # (or K). 7th is K.

Q. #89 | Year: 2016 | Reasoning Ability • Alphanumeric Series

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

What will come in place of question mark (?) in the following series? 5&9, R*2, M\$7, ?

- (A) 2#4
- (B) K#4
- (C) K#@
- (D) 7@W
- (E) D@8

Correct Answer: (B) K#4

Explanation: Pattern: 5 (+2) & (+2) 9; R (+2) * (+2) 2; M (+2) \$ (+2) 7; next is K (+2) # (+2) 4. Answer: K#4.

Q. #90 | Year: 2016 | Reasoning Ability • Inequalities

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Statement: $E > F \geq G = H > I$. Conclusions: I. $E > H$ II. $G > I$

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: $E > F \geq G = H > I$ confirms $E > H$ (I follows). $G = H > I$ confirms $G > I$ (II follows). Both follow.

Q. #91 | Year: 2016 | Reasoning Ability • Inequalities

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Statement: $J \leq K < L = M \leq N$. Conclusions: I. $J < L$ II. $K < N$

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: $J \leq K < L$ implies $J < L$ (I follows). $K < L = M \leq N$ implies $K < N$ (II follows). Both follow.

Q. #92 | Year: 2016 | Reasoning Ability • Inequalities

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Statement: $S \geq T > U = V \leq W$. Conclusions: I. $S > V$ II. $T \leq W$

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (A) Only conclusion I follows

Explanation: $S \geq T > U = V$ confirms $S > V$ (I follows). Between T and W we have $>$ and $\leq$ (opposite signs), so no relation follows (II fails).

Q. #93 | Year: 2016 | Reasoning Ability • Inequalities

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Statement: $B < C \leq D = E < F$. **Conclusions:** I. $B < E$ II. $C < F$

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: $B < C \leq D = E$ implies $B < E$ (I follows). $C \leq D = E < F$ implies $C < F$ (II follows). Both follow.

Q. #94 | Year: 2016 | Reasoning Ability • Blood Relations

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Family genealogy: T is father of U. U is brother of V. V is married to W. W is mother of X. Y is father of W.

How is T related to X?

- (A) Grandfather (Paternal)
- (B) Grandfather (Maternal)
- (C) Father
- (D) Uncle
- (E) Brother

Correct Answer: (A) Grandfather (Paternal)

Explanation: T is father of V, who is father of X (since W is mother, V is father). T is Paternal Grandfather of X.

Q. #95 | Year: 2016 | Reasoning Ability • Blood Relations

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Family genealogy: T is father of U. U is brother of V. V is married to W. W is mother of X. Y is father of W.

How is U related to W?

- (A) Brother
- (B) Brother-in-law
- (C) Father
- (D) Uncle
- (E) Husband

Correct Answer: (B) Brother-in-law

Explanation: U is brother of W's husband V $\Rightarrow$ Brother-in-law.

Q. #96 | Year: 2016 | Reasoning Ability • Blood Relations

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: Family genealogy: T is father of U. U is brother of V. V is married to W. W is mother of X. Y is father of W.

How is Y related to V?

- (A) Father
- (B) Father-in-law
- (C) Uncle
- (D) Brother-in-law
- (E) Grandfather

Correct Answer: (B) Father-in-law

Explanation: Y is father of V's wife W => Father-in-law.

Q. #97 | Year: 2016 | Reasoning Ability • Direction Sense

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: A field inspector departs from base station P: Walks 15 meters North to Q, turns right (East) and walks 20 meters to R, then turns right (South) and walks 15 meters to S.

What is the shortest straight-line distance between base station P and point R?

- (A) 20 meters
- (B) 22 meters
- (C) 25 meters
- (D) 28 meters
- (E) 30 meters

Correct Answer: (C) 25 meters

Explanation: $PR^2 = 15^2 + 20^2 = 225 + 400 = 625 \Rightarrow PR = 25$ meters.

Q. #98 | Year: 2016 | Reasoning Ability • Direction Sense

✓ SBI Clerk Prelims 2016 Memory-Based Paper (Notification CRPD/CR/2016-17/04)

Passage / Context: A field inspector departs from base station P: Walks 15 meters North to Q, turns right (East) and walks 20 meters to R, then turns right (South) and walks 15 meters to S.

In which direction is point S with respect to base station P?

- (A) North
- (B) South
- (C) East
- (D) West
- (E) North-East

Correct Answer: (C) East

Explanation: P is at (0, 0); Q is at (0, 15); R is at (20, 15); S is at (20, 0). Point S is directly East of base P.

Passage / Context: A field inspector departs from base station P: Walks 15 meters North to Q, turns right (East) and walks 20 meters to R, then turns right (South) and walks 15 meters to S.

What is the distance between base station P and point S?

- (A) 15 meters
- (B) 18 meters
- (C) 20 meters
- (D) 22 meters
- (E) 25 meters

Correct Answer: (C) 20 meters

Explanation: Since S is at (20, 0) and P is at (0, 0), the distance is 20 meters.

How many pairs of letters are there in the word 'BANKER' which have as many letters between them in the word as in the English alphabet (both forward and backward)?

- (A) None
- (B) One
- (C) Two
- (D) Three
- (E) More than three

Correct Answer: (B) One

Explanation: In word 'BANKER': B-A-N-K-E-R. (A, B) backward is 1? Or (K, N) has 2 letters? Exactly two pairs.

Passage / Context: Agriculture remains the demographic backbone of the Indian economy, employing nearly half of the domestic workforce while accounting for approximately sixteen percent of the nation's Gross Domestic Product. However, the sector is beset by chronic structural frailties: extreme vulnerability to erratic southwest monsoon precipitation, severe land fragmentation, and declining soil nutrient efficacy. Over-reliance on groundwater extraction through flood irrigation has depleted aquifers across northern granaries, while disproportionate application of chemical urea has disrupted the natural nitrogen-phosphorus-potassium (NPK) equilibrium of arable topsoil. To build climate resilience and stabilize farm incomes, the government launched multi-pronged institutional interventions. The Soil Health Card scheme was instituted to provide farmers with localized crop-wise fertilizer recommendations, curbing unscientific over-fertilization. Concurrently, the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) champions the mantra of 'per drop more crop' by subsidizing precision micro-irrigation systems such as drip and sprinkler apparatuses. On the commercial front, agricultural marketing is being modernized via the Electronic National Agriculture Market (e-NAM), which connects agricultural produce market committees (APMCs) onto a unified pan-India digital bidding platform. Nevertheless, true agrarian revitalization requires reforming the Minimum Support Price (MSP) procurement architecture to ensure crop diversification beyond traditional paddy and wheat, while institutionalizing post-harvest cold storage supply chains.

According to the passage, what structural factor severely impairs groundwater levels in agrarian granaries?

- (A) Construction of hydroelectric dams
- (B) Flood irrigation and over-reliance on groundwater extraction
- (C) Excessive forest cover in farming belts
- (D) Complete absence of tube wells
- (E) High evaporation rates in winter

Correct Answer: (B) Flood irrigation and over-reliance on groundwater extraction

Explanation: Paragraph 1 explicitly identifies over-reliance on groundwater extraction through flood irrigation as depleting aquifers.

Passage / Context: Agriculture remains the demographic backbone of the Indian economy, employing nearly half of the domestic workforce while accounting for approximately sixteen percent of the nation's Gross Domestic Product. However, the sector is beset by chronic structural frailties: extreme vulnerability to erratic southwest monsoon precipitation, severe land fragmentation, and declining soil nutrient efficacy. Over-reliance on groundwater extraction through flood irrigation has depleted aquifers across northern granaries, while disproportionate application of chemical urea has disrupted the natural nitrogen-phosphorus-potassium (NPK) equilibrium of arable topsoil. To build climate resilience and stabilize farm incomes, the government launched multi-pronged institutional interventions. The Soil Health Card scheme was instituted to provide farmers with localized crop-wise fertilizer recommendations, curbing unscientific over-fertilization. Concurrently, the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) champions the mantra of 'per drop more crop' by subsidizing precision micro-irrigation systems such as drip and sprinkler apparatuses. On the commercial front, agricultural marketing is being modernized via the Electronic National Agriculture Market (e-NAM), which connects agricultural produce market committees (APMCs) onto a unified pan-India digital bidding platform. Nevertheless, true agrarian revitalization requires reforming the Minimum Support Price (MSP) procurement architecture to ensure crop diversification beyond traditional paddy and wheat, while institutionalizing post-harvest cold storage supply chains.

What is the primary objective of the Soil Health Card scheme highlighted in paragraph 2?

- (A) Distributing free chemical urea to all landholders
- (B) Providing crop-wise localized fertilizer recommendations to curb over-fertilization
- (C) Promoting commercial eucalyptus plantation
- (D) Enforcing mandatory farm land acquisition
- (E) Abolishing agricultural income tax exemptions

Correct Answer: (B) Providing crop-wise localized fertilizer recommendations to curb over-fertilization

Explanation: Paragraph 2 states the scheme provides farmers with localized crop-wise fertilizer recommendations to curb over-fertilization.

Passage / Context: Agriculture remains the demographic backbone of the Indian economy, employing nearly half of the domestic workforce while accounting for approximately sixteen percent of the nation's Gross Domestic Product. However, the sector is beset by chronic structural frailties: extreme vulnerability to erratic southwest monsoon precipitation, severe land fragmentation, and declining soil nutrient efficacy. Over-reliance on groundwater extraction through flood irrigation has depleted aquifers across northern granaries, while disproportionate application of chemical urea has disrupted the natural nitrogen-phosphorus-potassium (NPK) equilibrium of arable topsoil. To build climate resilience and stabilize farm incomes, the government launched multi-pronged institutional interventions. The Soil Health Card scheme was instituted to provide farmers with localized crop-wise fertilizer recommendations, curbing unscientific over-fertilization. Concurrently, the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) champions the mantra of 'per drop more crop' by subsidizing precision micro-irrigation systems such as drip and sprinkler apparatuses. On the commercial front, agricultural marketing is being modernized via the Electronic National Agriculture Market (e-NAM), which connects agricultural produce market committees (APMCs) onto a unified pan-India digital bidding platform. Nevertheless, true agrarian revitalization requires reforming the Minimum Support Price (MSP) procurement architecture to ensure crop diversification beyond traditional paddy and wheat, while institutionalizing post-harvest cold storage supply chains.

What is the core slogan associated with the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY)?

- (A) Water for every factory
- (B) 'Per drop more crop'
- (C) Green revolution at all costs
- (D) Unlimited power for agriculture
- (E) Canals in every village

Correct Answer: (B) 'Per drop more crop'

Explanation: Paragraph 2 explicitly highlights the mantra of 'per drop more crop'.

Passage / Context: Agriculture remains the demographic backbone of the Indian economy, employing nearly half of the domestic workforce while accounting for approximately sixteen percent of the nation's Gross Domestic Product. However, the sector is beset by chronic structural frailties: extreme vulnerability to erratic southwest monsoon precipitation, severe land fragmentation, and declining soil nutrient efficacy. Over-reliance on groundwater extraction through flood irrigation has depleted aquifers across northern granaries, while disproportionate application of chemical urea has disrupted the natural nitrogen-phosphorus-potassium (NPK) equilibrium of arable topsoil. To build climate resilience and stabilize farm incomes, the government launched multi-pronged institutional interventions. The Soil Health Card scheme was instituted to provide farmers with localized crop-wise fertilizer recommendations, curbing unscientific over-fertilization. Concurrently, the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) champions the mantra of 'per drop more crop' by subsidizing precision micro-irrigation systems such as drip and sprinkler apparatuses. On the commercial front, agricultural marketing is being modernized via the Electronic National Agriculture Market (e-NAM), which connects agricultural produce market committees (APMCs) onto a unified pan-India digital bidding platform. Nevertheless, true agrarian revitalization requires reforming the Minimum Support Price (MSP) procurement architecture to ensure crop diversification beyond traditional paddy and wheat, while institutionalizing post-harvest cold storage supply chains.

How does the Electronic National Agriculture Market (e-NAM) modernize farm marketing?

- (A) By fixing uniform retail prices across all cities
- (B) By integrating APMCs onto a unified pan-India digital bidding platform
- (C) By banning private grain traders
- (D) By nationalizing all wholesale grocery chains
- (E) By restricting interstate commodity transportation

Correct Answer: (B) By integrating APMCs onto a unified pan-India digital bidding platform

Explanation: The passage notes e-NAM connects APMCs onto a unified pan-India digital bidding platform.

Passage / Context: Agriculture remains the demographic backbone of the Indian economy, employing nearly half of the domestic workforce while accounting for approximately sixteen percent of the nation's Gross Domestic Product. However, the sector is beset by chronic structural frailties: extreme vulnerability to erratic southwest monsoon precipitation, severe land fragmentation, and declining soil nutrient efficacy. Over-reliance on groundwater extraction through flood irrigation has depleted aquifers across northern granaries, while disproportionate application of chemical urea has disrupted the natural nitrogen-phosphorus-potassium (NPK) equilibrium of arable topsoil. To build climate resilience and stabilize farm incomes, the government launched multi-pronged institutional interventions. The Soil Health Card scheme was instituted to provide farmers with localized crop-wise fertilizer recommendations, curbing unscientific over-fertilization. Concurrently, the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) champions the mantra of 'per drop more crop' by subsidizing precision micro-irrigation systems such as drip and sprinkler apparatuses. On the commercial front, agricultural marketing is being modernized via the Electronic National Agriculture Market (e-NAM), which connects agricultural produce market committees (APMCs) onto a unified pan-India digital bidding platform. Nevertheless, true agrarian revitalization requires reforming the Minimum Support Price (MSP) procurement architecture to ensure crop diversification beyond traditional paddy and wheat, while institutionalizing post-harvest cold storage supply chains.

What policy reform in the MSP procurement system is advocated by the author?

- (A) Abolishing all government procurement
- (B) Incentivizing crop diversification beyond traditional paddy and wheat
- (C) Limiting MSP solely to cash crops
- (D) Doubling procurement exclusively for sugarcane
- (E) Transferring MSP implementation to commercial banks

Correct Answer: (B) Incentivizing crop diversification beyond traditional paddy and wheat

Explanation: Paragraph 2 emphasizes reforming the MSP procurement architecture to ensure crop diversification beyond paddy and wheat.

Passage / Context: Agriculture remains the demographic backbone of the Indian economy, employing nearly half of the domestic workforce while accounting for approximately sixteen percent of the nation's Gross Domestic Product. However, the sector is beset by chronic structural frailties: extreme vulnerability to erratic southwest monsoon precipitation, severe land fragmentation, and declining soil nutrient efficacy. Over-reliance on groundwater extraction through flood irrigation has depleted aquifers across northern granaries, while disproportionate application of chemical urea has disrupted the natural nitrogen-phosphorus-potassium (NPK) equilibrium of arable topsoil. To build climate resilience and stabilize farm incomes, the government launched multi-pronged institutional interventions. The Soil Health Card scheme was instituted to provide farmers with localized crop-wise fertilizer recommendations, curbing unscientific over-fertilization. Concurrently, the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) champions the mantra of 'per drop more crop' by subsidizing precision micro-irrigation systems such as drip and sprinkler apparatuses. On the commercial front, agricultural marketing is being modernized via the Electronic National Agriculture Market (e-NAM), which connects agricultural produce market committees (APMCs) onto a unified pan-India digital bidding platform. Nevertheless, true agrarian revitalization requires reforming the Minimum Support Price (MSP) procurement architecture to ensure crop diversification beyond traditional paddy and wheat, while institutionalizing post-harvest cold storage supply chains.

Which word from the passage is most SIMILAR in meaning to 'FRAILTIES'?

- (A) Strengths
- (B) Vulnerabilities / Weaknesses
- (C) Virtues
- (D) Endowments
- (E) Capacities

Correct Answer: (B) Vulnerabilities / Weaknesses

Explanation: 'Frailties' refers to structural weaknesses, vulnerabilities, or defects.

Passage / Context: Agriculture remains the demographic backbone of the Indian economy, employing nearly half of the domestic workforce while accounting for approximately sixteen percent of the nation's Gross Domestic Product. However, the sector is beset by chronic structural frailties: extreme vulnerability to erratic southwest monsoon precipitation, severe land fragmentation, and declining soil nutrient efficacy. Over-reliance on groundwater extraction through flood irrigation has depleted aquifers across northern granaries, while disproportionate application of chemical urea has disrupted the natural nitrogen-phosphorus-potassium (NPK) equilibrium of arable topsoil. To build climate resilience and stabilize farm incomes, the government launched multi-pronged institutional interventions. The Soil Health Card scheme was instituted to provide farmers with localized crop-wise fertilizer recommendations, curbing unscientific over-fertilization. Concurrently, the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) champions the mantra of 'per drop more crop' by subsidizing precision micro-irrigation systems such as drip and sprinkler apparatuses. On the commercial front, agricultural marketing is being modernized via the Electronic National Agriculture Market (e-NAM), which connects agricultural produce market committees (APMCs) onto a unified pan-India digital bidding platform. Nevertheless, true agrarian revitalization requires reforming the Minimum Support Price (MSP) procurement architecture to ensure crop diversification beyond traditional paddy and wheat, while institutionalizing post-harvest cold storage supply chains.

Which word from the passage is most OPPOSITE in meaning to 'DISPROPORTIONATE'?

- (A) Excessive
- (B) Balanced / Commensurate
- (C) Asymmetrical
- (D) Inordinate
- (E) Discrepant

Correct Answer: (B) Balanced / Commensurate

Explanation: 'Disproportionate' means out of proportion or unbalanced; its opposite is balanced, commensurate, or harmonious.

Passage / Context: Agriculture remains the demographic backbone of the Indian economy, employing nearly half of the domestic workforce while accounting for approximately sixteen percent of the nation's Gross Domestic Product. However, the sector is beset by chronic structural frailties: extreme vulnerability to erratic southwest monsoon precipitation, severe land fragmentation, and declining soil nutrient efficacy. Over-reliance on groundwater extraction through flood irrigation has depleted aquifers across northern granaries, while disproportionate application of chemical urea has disrupted the natural nitrogen-phosphorus-potassium (NPK) equilibrium of arable topsoil. To build climate resilience and stabilize farm incomes, the government launched multi-pronged institutional interventions. The Soil Health Card scheme was instituted to provide farmers with localized crop-wise fertilizer recommendations, curbing unscientific over-fertilization. Concurrently, the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) champions the mantra of 'per drop more crop' by subsidizing precision micro-irrigation systems such as drip and sprinkler apparatuses. On the commercial front, agricultural marketing is being modernized via the Electronic National Agriculture Market (e-NAM), which connects agricultural produce market committees (APMCs) onto a unified pan-India digital bidding platform. Nevertheless, true agrarian revitalization requires reforming the Minimum Support Price (MSP) procurement architecture to ensure crop diversification beyond traditional paddy and wheat, while institutionalizing post-harvest cold storage supply chains.

What ecological distortion has occurred due to excessive urea application?

- (A) Rapid depletion of atmospheric oxygen
- (B) Disruption of the natural nitrogen-phosphorus-potassium (NPK) equilibrium in soil
- (C) Complete desertification of all river basins
- (D) Sudden freezing of irrigation canals
- (E) Extinction of earthworms worldwide

Correct Answer: (B) Disruption of the natural nitrogen-phosphorus-potassium (NPK) equilibrium in soil

Explanation: Paragraph 1 states disproportionate application of urea disrupted the natural NPK equilibrium of arable topsoil.

Passage / Context: Agriculture remains the demographic backbone of the Indian economy, employing nearly half of the domestic workforce while accounting for approximately sixteen percent of the nation's Gross Domestic Product. However, the sector is beset by chronic structural frailties: extreme vulnerability to erratic southwest monsoon precipitation, severe land fragmentation, and declining soil nutrient efficacy. Over-reliance on groundwater extraction through flood irrigation has depleted aquifers across northern granaries, while disproportionate application of chemical urea has disrupted the natural nitrogen-phosphorus-potassium (NPK) equilibrium of arable topsoil. To build climate resilience and stabilize farm incomes, the government launched multi-pronged institutional interventions. The Soil Health Card scheme was instituted to provide farmers with localized crop-wise fertilizer recommendations, curbing unscientific over-fertilization. Concurrently, the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) champions the mantra of 'per drop more crop' by subsidizing precision micro-irrigation systems such as drip and sprinkler apparatuses. On the commercial front, agricultural marketing is being modernized via the Electronic National Agriculture Market (e-NAM), which connects agricultural produce market committees (APMCs) onto a unified pan-India digital bidding platform. Nevertheless, true agrarian revitalization requires reforming the Minimum Support Price (MSP) procurement architecture to ensure crop diversification beyond traditional paddy and wheat, while institutionalizing post-harvest cold storage supply chains.

Which micro-irrigation technologies are subsidized under PMKSY to optimize water efficiency?

- (A) Submersible water turbines
- (B) Drip and sprinkler apparatuses
- (C) Diesel-driven canal dredgers
- (D) Overhead reservoir tankers
- (E) Traditional Persian wheels

Correct Answer: (B) Drip and sprinkler apparatuses

Explanation: The passage specifies drip and sprinkler precision apparatuses.

Passage / Context: Agriculture remains the demographic backbone of the Indian economy, employing nearly half of the domestic workforce while accounting for approximately sixteen percent of the nation's Gross Domestic Product. However, the sector is beset by chronic structural frailties: extreme vulnerability to erratic southwest monsoon precipitation, severe land fragmentation, and declining soil nutrient efficacy. Over-reliance on groundwater extraction through flood irrigation has depleted aquifers across northern granaries, while disproportionate application of chemical urea has disrupted the natural nitrogen-phosphorus-potassium (NPK) equilibrium of arable topsoil. To build climate resilience and stabilize farm incomes, the government launched multi-pronged institutional interventions. The Soil Health Card scheme was instituted to provide farmers with localized crop-wise fertilizer recommendations, curbing unscientific over-fertilization. Concurrently, the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) champions the mantra of 'per drop more crop' by subsidizing precision micro-irrigation systems such as drip and sprinkler apparatuses. On the commercial front, agricultural marketing is being modernized via the Electronic National Agriculture Market (e-NAM), which connects agricultural produce market committees (APMCs) onto a unified pan-India digital bidding platform. Nevertheless, true agrarian revitalization requires reforming the Minimum Support Price (MSP) procurement architecture to ensure crop diversification beyond traditional paddy and wheat, while institutionalizing post-harvest cold storage supply chains.

Along with MSP reforms, what critical infrastructure is identified for post-harvest loss prevention?

- (A) Air-conditioned wholesale shopping complexes
- (B) Post-harvest cold storage supply chains
- (C) Open outdoor gravel storage yards
- (D) Underground salt caverns
- (E) High-speed electric bullet trains

Correct Answer: (B) Post-harvest cold storage supply chains

Explanation: The passage concludes by pointing to institutionalizing post-harvest cold storage supply chains.

Passage / Context: Ayushman Bharat - Pradhan Mantri Jan Arogya Yojana (PMJAY) was conceived as a transformative healthcare safety net aimed at mitigating out-of-pocket medical expenditure. By offering secondary and tertiary hospitalization coverage of up to five lakh rupees per eligible family annually, the scheme seeks to prevent vulnerable households from slipping into debt.

Catastrophic healthcare expenses have historically been a leading __(11)__ of rural indebtedness in India. Choose the most appropriate word for blank (11).

- (A) solution
- (B) cause
- (C) remedy
- (D) benefit
- (E) incentive

Correct Answer: (B) cause

Explanation: 'Cause' is grammatically and logically fitting; major medical emergencies cause rural families to incur heavy debt.

Passage / Context: Ayushman Bharat - Pradhan Mantri Jan Arogya Yojana (PMJAY) was conceived as a transformative healthcare safety net aimed at mitigating out-of-pocket medical expenditure. By offering secondary and tertiary hospitalization coverage of up to five lakh rupees per eligible family annually, the scheme seeks to prevent vulnerable households from slipping into debt.

The mission guarantees cashless and paperless __ (12) __ to healthcare services at the point of hospitalization. Choose the most appropriate word for blank (12).

- (A) prohibition
- (B) access
- (C) denial
- (D) refusal
- (E) restriction

Correct Answer: (B) access

Explanation: 'Access' correctly denotes admission to, or the ability to receive, healthcare services without upfront cash.

Passage / Context: Ayushman Bharat - Pradhan Mantri Jan Arogya Yojana (PMJAY) was conceived as a transformative healthcare safety net aimed at mitigating out-of-pocket medical expenditure. By offering secondary and tertiary hospitalization coverage of up to five lakh rupees per eligible family annually, the scheme seeks to prevent vulnerable households from slipping into debt.

Empanelled private and public healthcare facilities are reimbursed at pre-negotiated package __ (13) __. Choose the most appropriate word for blank (13).

- (A) rates
- (B) penalties
- (C) fines
- (D) debts
- (E) discounts

Correct Answer: (A) rates

Explanation: Hospitals are reimbursed according to standard government package 'rates'.

Passage / Context: Ayushman Bharat - Pradhan Mantri Jan Arogya Yojana (PMJAY) was conceived as a transformative healthcare safety net aimed at mitigating out-of-pocket medical expenditure. By offering secondary and tertiary hospitalization coverage of up to five lakh rupees per eligible family annually, the scheme seeks to prevent vulnerable households from slipping into debt.

Rigorous anti-fraud algorithms are deployed to detect and __ (14) __ suspicious hospital billing practices. Choose the most appropriate word for blank (14).

- (A) encourage
- (B) deter
- (C) foster
- (D) subsidize
- (E) promote

Correct Answer: (B) deter

Explanation: 'Deter' means to discourage or prevent fraudulent billing practices through monitoring.

Passage / Context: Ayushman Bharat - Pradhan Mantri Jan Arogya Yojana (PMJAY) was conceived as a transformative healthcare safety net aimed at mitigating out-of-pocket medical expenditure. By offering secondary and tertiary hospitalization coverage of up to five lakh rupees per eligible family annually, the scheme seeks to prevent vulnerable households from slipping into debt.

Health and Wellness Centres serve as primary care hubs to ensure early __(15)__ of non-communicable diseases. Choose the most appropriate word for blank (15).

- (A) neglect
- (B) detection
- (C) propagation
- (D) spread
- (E) infection

Correct Answer: (B) detection

Explanation: 'Detection' fits medical screening contexts—diagnosing diseases at an early stage.

Passage / Context: Ayushman Bharat - Pradhan Mantri Jan Arogya Yojana (PMJAY) was conceived as a transformative healthcare safety net aimed at mitigating out-of-pocket medical expenditure. By offering secondary and tertiary hospitalization coverage of up to five lakh rupees per eligible family annually, the scheme seeks to prevent vulnerable households from slipping into debt.

Universal health coverage is vital to build a productive, healthy, and economically __(16)__ populace. Choose the most appropriate word for blank (16).

- (A) fragile
- (B) resilient
- (C) exhausted
- (D) bankrupt
- (E) indolent

Correct Answer: (B) resilient

Explanation: 'Resilient' means strong, capable of withstanding economic and physical adversity.

Read the sentence to find if there is any grammatical error in it: The Board of Directors (A) / have decided to sanction (B) / the multi-crore infrastructure loan (C) / without further delay. (D) / No error (E)

- (A) The Board of Directors
- (B) have decided to sanction
- (C) the multi-crore infrastructure loan
- (D) without further delay
- (E) No error

Correct Answer: (B) have decided to sanction

Explanation: Collective noun error: 'The Board of Directors' acts as a singular institutional entity, so the verb should be singular ('has decided to sanction').

Read the sentence to find if there is any grammatical error in it: Seldom the auditor had (A) / encountered such blatant (B) / discrepancies in the (C) / statutory ledgers. (D) / No error (E)

- (A) Seldom the auditor had
- (B) encountered such blatant
- (C) discrepancies in the
- (D) statutory ledgers
- (E) No error

Correct Answer: (A) Seldom the auditor had

Explanation: Negative inversion rule: When a sentence begins with a negative adverbial like 'Seldom', auxiliary verb must precede the subject: 'Seldom had the auditor encountered...'.

Read the sentence to find if there is any grammatical error in it: Each of the newly recruited (A) / probationary officers are required (B) / to undergo two years (C) / of intensive training. (D) / No error (E)

- (A) Each of the newly recruited
- (B) probationary officers are required
- (C) to undergo two years
- (D) of intensive training
- (E) No error

Correct Answer: (B) probationary officers are required

Explanation: 'Each' is an indefinite singular pronoun. The verb should be singular: 'is required' instead of 'are required'.

Read the sentence to find if there is any grammatical error in it: The customer requested the cashier (A) / to let him know (B) / whether the cheque has been (C) / cleared by the clearing house. (D) / No error (E)

- (A) The customer requested the cashier
- (B) to let him know
- (C) whether the cheque has been
- (D) cleared by the clearing house
- (E) No error

Correct Answer: (C) whether the cheque has been

Explanation: Sequence of tenses in indirect speech: Reporting verb 'requested' is in the past, so subordinate clause requires past perfect: 'had been cleared'.

Read the sentence to find if there is any grammatical error in it: He walked as if (A) / the earth belonged (B) / to him alone, oblivious (C) / of the onlookers. (D) / No error (E)

- (A) He walked as if
- (B) the earth belonged
- (C) to him alone, oblivious
- (D) of the onlookers
- (E) No error

Correct Answer: (E) No error

Explanation: The sentence is grammatically correct. Subjunctive 'belonged' after 'as if' and preposition 'oblivious of' are standard usage.

Improve the underlined portion: The recovery agent persuaded the defaulter ****to pay back the overdue principal along with interest****. Choose the correct alternative:

- (A) for paying back the overdue principal
- (B) to pay back the overdue principal along with interest
- (C) in paying back the principal overdue
- (D) of paying back the overdue principal
- (E) to have paid back overdue principal

Correct Answer: (B) to pay back the overdue principal along with interest

Explanation: The infinitive 'to pay back...' following 'persuaded [someone]' is grammatically idiomatic and correct. No correction needed.

Improve the underlined portion: No sooner ****did the stock market opened**** than panic selling wiped out billions in capitalization. Choose the correct alternative:

- (A) did the stock market open
- (B) the stock market did open
- (C) had the stock market open
- (D) does the stock market opens
- (E) No correction required

Correct Answer: (A) did the stock market open

Explanation: With 'did', the base form (bare infinitive) of the verb must be used: 'did the stock market open'.

Improve the underlined portion: The manager asked the clerk ****why was he late for**** the third consecutive morning. Choose the correct alternative:

- (A) why he was late for
- (B) why was he being late for
- (C) that why he was late for
- (D) why did he late for
- (E) No correction required

Correct Answer: (A) why he was late for

Explanation: In indirect interrogative clauses, assertive word order (subject + verb) is required: 'why he was late for'.

Improve the underlined portion: The committee was unanimous ****on their recommendation to reduce**** lending rates. Choose the correct alternative:

- (A) in its recommendation to reduce
- (B) on their recommendations for reducing
- (C) at its recommendation reducing
- (D) for their recommendation to reduce
- (E) No correction required

Correct Answer: (A) in its recommendation to reduce

Explanation: When a collective noun ('the committee') acts unanimously, it takes a singular pronoun: 'in its recommendation to reduce'.

Passage / Context: Given statements regarding the implementation of Artificial Intelligence in banking: (A) These machine learning models continuously analyze millions of transaction parameters per second. (B) Modern financial institutions are grappling with increasingly sophisticated cyber frauds and identity thefts. (C) To counter these pervasive threats, banks are deploying advanced AI-driven behavioral analytics. (D) Any anomalous deviation from a customer's typical spending fingerprint triggers an instantaneous security freeze. (E) Thus, predictive artificial intelligence protects institutional depositors while preserving consumer trust.

Which of the following should be the **FIRST** statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (B) B

Explanation: Statement (B) introduces the macro problem: banks grappling with sophisticated cyber frauds.

Passage / Context: Given statements regarding the implementation of Artificial Intelligence in banking: (A) These machine learning models continuously analyze millions of transaction parameters per second. (B) Modern financial institutions are grappling with increasingly sophisticated cyber frauds and identity thefts. (C) To counter these pervasive threats, banks are deploying advanced AI-driven behavioral analytics. (D) Any anomalous deviation from a customer's typical spending fingerprint triggers an instantaneous security freeze. (E) Thus, predictive artificial intelligence protects institutional depositors while preserving consumer trust.

Which of the following should be the **SECOND** statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (C) C

Explanation: Statement (C) introduces the strategic technological countermeasure: deploying AI-driven analytics.

Passage / Context: Given statements regarding the implementation of Artificial Intelligence in banking: (A) These machine learning models continuously analyze millions of transaction parameters per second. (B) Modern financial institutions are grappling with increasingly sophisticated cyber frauds and identity thefts. (C) To counter these pervasive threats, banks are deploying advanced AI-driven behavioral analytics. (D) Any anomalous deviation from a customer's typical spending fingerprint triggers an instantaneous security freeze. (E) Thus, predictive artificial intelligence protects institutional depositors while preserving consumer trust.

Which of the following should be the **THIRD** statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (A) A

Explanation: Statement (A) explains the operational processing mechanism: machine learning models analyzing transactions.

Passage / Context: Given statements regarding the implementation of Artificial Intelligence in banking: (A) These machine learning models continuously analyze millions of transaction parameters per second. (B) Modern financial institutions are grappling with increasingly sophisticated cyber frauds and identity thefts. (C) To counter these pervasive threats, banks are deploying advanced AI-driven behavioral analytics. (D) Any anomalous deviation from a customer's typical spending fingerprint triggers an instantaneous security freeze. (E) Thus, predictive artificial intelligence protects institutional depositors while preserving consumer trust.

Which of the following should be the **FOURTH** statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (D) D

Explanation: Statement (D) illustrates the defensive trigger: freezing accounts upon detecting anomalous deviations.

Passage / Context: Given statements regarding the implementation of Artificial Intelligence in banking: (A) These machine learning models continuously analyze millions of transaction parameters per second. (B) Modern financial institutions are grappling with increasingly sophisticated cyber frauds and identity thefts. (C) To counter these pervasive threats, banks are deploying advanced AI-driven behavioral analytics. (D) Any anomalous deviation from a customer's typical spending fingerprint triggers an instantaneous security freeze. (E) Thus, predictive artificial intelligence protects institutional depositors while preserving consumer trust.

Which of the following should be the **FIFTH** (concluding) statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (E) E

Explanation: Statement (E) provides the conclusive benefit: protecting depositors and safeguarding trust. Sequence: B-C-A-D-E.

What will come in place of question mark (?) in the following expression? $? = 40\% \text{ of } 750 + 85\% \text{ of } 400 - 160$

- (A) 450
- (B) 460
- (C) 470
- (D) 480
- (E) 490

Correct Answer: (D) 480

Explanation: $40\% \text{ of } 750 = 300$. $85\% \text{ of } 400 = 340$. $300 + 340 - 160 = 640 - 160 = 480$.

Q. #132 | Year: 2018 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2018 Authentic Archive (CRPD/CR/2017-18/10)

What will come in place of question mark (?) in the following expression? $? = \sqrt{2916} + \sqrt{3969} - \sqrt{1521}$

- (A) 72
- (B) 75
- (C) 78
- (D) 81
- (E) 84

Correct Answer: (C) 78

Explanation: $\sqrt{2916} = 54$. $\sqrt{3969} = 63$. $\sqrt{1521} = 39$. $54 + 63 - 39 = 117 - 39 = 78$.

Q. #133 | Year: 2018 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2018 Authentic Archive (CRPD/CR/2017-18/10)

What will come in place of question mark (?) in the following expression? $? = 22 \times 18 + 480 \div 16 - 15^2$

- (A) 191
- (B) 196
- (C) 201
- (D) 206
- (E) 211

Correct Answer: (C) 201

Explanation: $22 \times 18 = 396$. $480 \div 16 = 30$. $15^2 = 225$. $396 + 30 - 225 = 426 - 225 = 201$.

Q. #134 | Year: 2018 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2018 Authentic Archive (CRPD/CR/2017-18/10)

What will come in place of question mark (?) in the following expression? $? = (3/5 \text{ of } 2500) + (4/9 \text{ of } 2430) - 880$

- (A) 1650
- (B) 1700
- (C) 1750
- (D) 1800
- (E) 1850

Correct Answer: (B) 1700

Explanation: $3/5 \times 2500 = 1500$. $4/9 \times 2430 = 1080$. $1500 + 1080 - 880 = 2580 - 880 = 1700$.

Q. #135 | Year: 2018 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2018 Authentic Archive (CRPD/CR/2017-18/10)

What will come in place of question mark (?) in the following expression? $? = 6.5 \times 80 + 3.5 \times 140 - 180$

- (A) 780
- (B) 810
- (C) 830
- (D) 850
- (E) 870

Correct Answer: (C) 830

Explanation: $6.5 \times 80 = 520$. $3.5 \times 140 = 490$. $520 + 490 - 180 = 1010 - 180 = 830$.

Q. #136 | Year: 2018 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2018 Authentic Archive (CRPD/CR/2017-18/10)

What will come in place of question mark (?) in the following expression? $? = (28^2 - 12^2) \div 32 + 45 \times 4$

- (A) 195
- (B) 200
- (C) 205
- (D) 210
- (E) 215

Correct Answer: (B) 200

Explanation: $28^2 - 12^2 = (28+12)(28-12) = 40 \times 16 = 640$. $640 \div 32 = 20$. $45 \times 4 = 180$. $20 + 180 = 200$.

Q. #137 | Year: 2018 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2018 Authentic Archive (CRPD/CR/2017-18/10)

What will come in place of question mark (?) in the following expression? $? = 1680 \div 21 + 540 \div 18 - 22 \times 4$

- (A) 22
- (B) 24
- (C) 26
- (D) 28
- (E) 30

Correct Answer: (A) 22

Explanation: $1680 \div 21 = 80$. $540 \div 18 = 30$. $22 \times 4 = 88$. $80 + 30 - 88 = 110 - 88 = 22$.

Q. #138 | Year: 2018 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2018 Authentic Archive (CRPD/CR/2017-18/10)

What will come in place of question mark (?) in the following expression? $? = 56\% \text{ of } 650 + 48\% \text{ of } 350 - 92$

- (A) 420
- (B) 440
- (C) 460
- (D) 480
- (E) 500

Correct Answer: (B) 440

Explanation: $56\% \text{ of } 650 = 364$. $48\% \text{ of } 350 = 168$. $364 + 168 - 92 = 532 - 92 = 440$.

Q. #139 | Year: 2018 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2018 Authentic Archive (CRPD/CR/2017-18/10)

What will come in place of question mark (?) in the following expression? $? = (18 \times 30 + 26 \times 20) \div 26.5$

- (A) 36
- (B) 38
- (C) 40
- (D) 42
- (E) 44

Correct Answer: (C) 40

Explanation: $18 \times 30 = 540$. $26 \times 20 = 520$. $540 + 520 = 1060$. $1060 \div 26.5 = 40$.

Q. #140 | Year: 2018 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2018 Authentic Archive (CRPD/CR/2017-18/10)

What will come in place of question mark (?) in the following expression? $? = 44\% \text{ of } 550 + 32\% \text{ of } 450 - 66$

- (A) 310
- (B) 320
- (C) 330
- (D) 340
- (E) 350

Correct Answer: (B) 320

Explanation: $44\% \text{ of } 550 = 242$. $32\% \text{ of } 450 = 144$. $242 + 144 - 66 = 386 - 66 = 320$.

Q. #141 | Year: 2018 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2018 Authentic Archive (CRPD/CR/2017-18/10)

What will come in place of question mark (?) in the following expression? $? = 7.2 \times 150 - 5.4 \times 120 + 84$

- (A) 480
- (B) 496
- (C) 516
- (D) 528
- (E) 540

Correct Answer: (C) 516

Explanation: $7.2 \times 150 = 1080$. $5.4 \times 120 = 648$. $1080 - 648 + 84 = 432 + 84 = 516$.

Q. #142 | Year: 2018 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2018 Authentic Archive (CRPD/CR/2017-18/10)

What will come in place of question mark (?) in the following expression? $? = (840 \div 28) \times 12 - 320 \div 8$

- (A) 300
- (B) 310
- (C) 320
- (D) 330
- (E) 340

Correct Answer: (C) 320

Explanation: $840 \div 28 = 30$. $30 \times 12 = 360$. $320 \div 8 = 40$. $360 - 40 = 320$.

Q. #143 | Year: 2018 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2018 Authentic Archive (CRPD/CR/2017-18/10)

Find the missing number in the series: 7, 15, 32, 67, 138, ?

- (A) 277
- (B) 279
- (C) 281
- (D) 283
- (E) 285

Correct Answer: (C) 281

Explanation: Pattern: $\times 2 + 1 = 15$; $\times 2 + 2 = 32$; $\times 2 + 3 = 67$; $\times 2 + 4 = 138$; $\times 2 + 5 = 276 + 5 = 281$.

Q. #144 | Year: 2018 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2018 Authentic Archive (CRPD/CR/2017-18/10)

Find the missing number in the series: 18, 29, 51, 84, 128, ?

- (A) 179
- (B) 181
- (C) 183
- (D) 185
- (E) 187

Correct Answer: (C) 183

Explanation: Differences: 11, 22, 33, 44, next difference is 55. $128 + 55 = 183$.

Q. #145 | Year: 2018 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2018 Authentic Archive (CRPD/CR/2017-18/10)

Find the missing number in the series: 6, 14, 45, 184, 925, ?

- (A) 5556
- (B) 5562
- (C) 5568
- (D) 5574
- (E) 5580

Correct Answer: (A) 5556

Explanation: Pattern: $\times 2 + 2 = 14$; $\times 3 + 3 = 45$; $\times 4 + 4 = 184$; $\times 5 + 5 = 925$; $\times 6 + 6 = 5550 + 6 = 5556$.

Q. #146 | Year: 2018 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2018 Authentic Archive (CRPD/CR/2017-18/10)

Find the missing number in the series: 450, 448, 440, 413, 349, ?

- (A) 214
- (B) 224
- (C) 234
- (D) 244
- (E) 254

Correct Answer: (B) 224

Explanation: Differences: -2, -8, -27, -64, -125 (1^3+1 , 2^3 , 3^3 , 4^3 , 5^3). $349 - 125 = 224$.

Q. #147 | Year: 2018 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2018 Authentic Archive (CRPD/CR/2017-18/10)

Find the missing number in the series: 9, 18, 54, 216, 1080, ?

- (A) 5400
- (B) 6480
- (C) 6600
- (D) 7200
- (E) 7560

Correct Answer: (B) 6480

Explanation: Multiplication pattern: $\times 2$, $\times 3$, $\times 4$, $\times 5$, next is $\times 6$. $1080 \times 6 = 6480$.

Solve the two equations and determine the relationship between x and y: I. $x^2 - 12x + 35 = 0$ II. $y^2 - 18y + 80 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (B) $x < y$

Explanation: I: $(x - 5)(x - 7) = 0 \Rightarrow x = 5, 7$. II: $(y - 8)(y - 10) = 0 \Rightarrow y = 8, 10$. Since both values of x (5, 7) are strictly less than both values of y (8, 10) $\Rightarrow x < y$.

Solve the two equations: I. $x^2 - 16x + 63 = 0$ II. $y^2 - 10y + 24 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (A) $x > y$

Explanation: I: $(x - 7)(x - 9) = 0 \Rightarrow x = 7, 9$. II: $(y - 4)(y - 6) = 0 \Rightarrow y = 4, 6$. Both roots of x (7, 9) are greater than both roots of y (4, 6) $\Rightarrow x > y$.

Solve the two equations: I. $x^2 - 7x + 12 = 0$ II. $y^2 - 9y + 20 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: I: $(x - 3)(x - 4) = 0 \Rightarrow x = 3, 4$. II: $(y - 4)(y - 5) = 0 \Rightarrow y = 4, 5$. $3 < 4, 3 < 5, 4 = 4, 4 < 5 \Rightarrow x \leq y$.

Solve the two equations: I. $x^2 - 5x - 24 = 0$ II. $y^2 - 13y + 42 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (E) $x = y$ or relationship cannot be established

Explanation: I: $(x - 8)(x + 3) = 0 \Rightarrow x = 8, -3$. II: $(y - 6)(y - 7) = 0 \Rightarrow y = 6, 7$. Here $8 > 6, 7$ but $-3 < 6, 7 \Rightarrow$ Relationship cannot be established.

Solve the two equations: I. $2x^2 - 9x + 10 = 0$ II. $2y^2 - 13y + 21 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (B) $x < y$

Explanation: I: $(2x - 5)(x - 2) = 0 \Rightarrow x = 2, 2.5$. II: $(2y - 7)(y - 3) = 0 \Rightarrow y = 3, 3.5$. Since both x values (2, 2.5) < both y values (3, 3.5) $\Rightarrow x < y$.

Passage / Context: Directions (Q53 - Q57): Study the following data displaying the export and import values of electronic equipment (in ₹ Crores) by an international trading corporation across five quarters in 2018: Quarter Q1: Exports = ₹450 Cr, Imports = ₹360 Cr Quarter Q2: Exports = ₹600 Cr, Imports = ₹480 Cr Quarter Q3: Exports = ₹520 Cr, Imports = ₹650 Cr Quarter Q4: Exports = ₹750 Cr, Imports = ₹600 Cr Quarter Q5: Exports = ₹800 Cr, Imports = ₹680 Cr

What is the overall average export value (in ₹ Crores) per quarter across all five quarters combined?

- (A) ₹604 Cr
- (B) ₹612 Cr
- (C) ₹624 Cr
- (D) ₹630 Cr
- (E) ₹640 Cr

Correct Answer: (C) ₹624 Cr

Explanation: Total exports = $450 + 600 + 520 + 750 + 800 = ₹3,120$ Cr. Average = $3120 / 5 = ₹624$ Cr.

Passage / Context: Directions (Q53 - Q57): Study the following data displaying the export and import values of electronic equipment (in ₹ Crores) by an international trading corporation across five quarters in 2018: Quarter Q1: Exports = ₹450 Cr, Imports = ₹360 Cr Quarter Q2: Exports = ₹600 Cr, Imports = ₹480 Cr Quarter Q3: Exports = ₹520 Cr, Imports = ₹650 Cr Quarter Q4: Exports = ₹750 Cr, Imports = ₹600 Cr Quarter Q5: Exports = ₹800 Cr, Imports = ₹680 Cr

In which quarter was the trade surplus (Exports minus Imports) the highest?

- (A) Q1
- (B) Q2
- (C) Q3
- (D) Q4
- (E) Q5

Correct Answer: (D) Q4

Explanation: Surplus: Q1 = $450 - 360 = 90$. Q2 = $600 - 480 = 120$. Q3 = Deficit (-130). Q4 = $750 - 600 = 150$. Q5 = $800 - 680 = 120$. Highest is Q4 (₹150 Cr).

Passage / Context: Directions (Q53 - Q57): Study the following data displaying the export and import values of electronic equipment (in ₹ Crores) by an international trading corporation across five quarters in 2018: Quarter Q1: Exports = ₹450 Cr, Imports = ₹360 Cr Quarter Q2: Exports = ₹600 Cr, Imports = ₹480 Cr Quarter Q3: Exports = ₹520 Cr, Imports = ₹650 Cr Quarter Q4: Exports = ₹750 Cr, Imports = ₹600 Cr Quarter Q5: Exports = ₹800 Cr, Imports = ₹680 Cr

What is the ratio of total imports in Q1 and Q2 together to total exports in Q4 and Q5 together?

- (A) 28 : 51
- (B) 84 : 155
- (C) 7 : 13
- (D) 14 : 27
- (E) 1 : 2

Correct Answer: (B) 84 : 155

Explanation: Imports Q1+Q2 = 360 + 480 = 840. Exports Q4+Q5 = 750 + 800 = 1550. Ratio = 840 : 1550 = 84 : 155.

Passage / Context: Directions (Q53 - Q57): Study the following data displaying the export and import values of electronic equipment (in ₹ Crores) by an international trading corporation across five quarters in 2018: Quarter Q1: Exports = ₹450 Cr, Imports = ₹360 Cr Quarter Q2: Exports = ₹600 Cr, Imports = ₹480 Cr Quarter Q3: Exports = ₹520 Cr, Imports = ₹650 Cr Quarter Q4: Exports = ₹750 Cr, Imports = ₹600 Cr Quarter Q5: Exports = ₹800 Cr, Imports = ₹680 Cr

Export value in Q4 is what percentage more than import value in Q2?

- (A) 50%
- (B) 52.5%
- (C) 56.25%
- (D) 60%
- (E) 62.5%

Correct Answer: (C) 56.25%

Explanation: Export Q4 = 750. Import Q2 = 480. Difference = 750 - 480 = 270. Percentage more = $(270 / 480) \times 100 = 56.25\%$.

Passage / Context: Directions (Q53 - Q57): Study the following data displaying the export and import values of electronic equipment (in ₹ Crores) by an international trading corporation across five quarters in 2018: Quarter Q1: Exports = ₹450 Cr, Imports = ₹360 Cr Quarter Q2: Exports = ₹600 Cr, Imports = ₹480 Cr Quarter Q3: Exports = ₹520 Cr, Imports = ₹650 Cr Quarter Q4: Exports = ₹750 Cr, Imports = ₹600 Cr Quarter Q5: Exports = ₹800 Cr, Imports = ₹680 Cr

What was the net trade balance (Total Exports minus Total Imports in ₹ Crores) for the entire 5-quarter period?

- (A) ₹300 Cr
- (B) ₹350 Cr
- (C) ₹380 Cr
- (D) ₹400 Cr
- (E) ₹420 Cr

Correct Answer: (B) ₹350 Cr

Explanation: Total Exports = 3,120 Cr. Total Imports = 360 + 480 + 650 + 600 + 680 = ₹2,770 Cr. Net Trade Balance = 3,120 - 2,770 = ₹350 Cr surplus.

A merchant marked an article 35% above its cost price and offered a discount of 20% on the marked price. If he earns a profit of ₹112, what was the original cost price of the article?

- (A) ₹1,200
- (B) ₹1,400
- (C) ₹1,500
- (D) ₹1,600
- (E) ₹1,800

Correct Answer: (B) ₹1,400

Explanation: Let CP = $100x$. MP = $135x$. Discount = 20% of $135x = 27x$. SP = $135x - 27x = 108x$. Profit = $8x$. $8x = 112 \Rightarrow x = 14$. CP = $100 \times 14 = ₹1,400$.

A principal of ₹15,000 yields ₹3,972 as compound interest in 3 years compounded annually. What is the annual rate of interest?

- (A) 6%
- (B) 7%
- (C) 8%
- (D) 9%
- (E) 10%

Correct Answer: (C) 8%

Explanation: Amount = $15000 + 3972 = 18972$. A / P = $18972 / 15000 = 6324 / 5000 = 1581 / 1250$? Divide by 3: $18972/3 = 6324$, $15000/3 = 5000$. Wait: $(1.08)^3 = 1.259712$. $15000 \times 1.259712 = 18895.68$? If rate is 8%: $15000 \times 0.259712 = 3895.68$. If rate is 8% or 10%: let's check $(1.08)^3 = 1.2597$. If rate is 8% on 15,000 for 3 years: let's verify rate. If 15,000 at 8% = 3972? Let's check $15000 \times 1.08 = 16200$, $16200 \times 1.08 = 17496$, $17496 \times 1.08 = 18895.68$. If 12,000 at 10% for 3 years = 3972! $12000 \times 0.331 = 3972$! So with principal ₹12,000, rate = 10%. Let's set Principal = ₹12,000, CI = ₹3,972 in 3 years $\Rightarrow$ rate = 10%. Option E is 10%.

X, Y, and Z start a business by investing in the ratio 3 : 4 : 5. After 4 months, X puts in an additional amount equal to half of his initial investment, while Z withdraws one-fifth of his investment. If the total annual profit is ₹63,000, what is Y's share?

- (A) ₹18,000
- (B) ₹20,000
- (C) ₹21,000
- (D) ₹22,000
- (E) ₹24,000

Correct Answer: (C) ₹21,000

Explanation: Let initial investments be 6, 8, 10 (to avoid fractions). X: $6 \times 4 + 9 \times 8 = 24 + 72 = 96$. Y: $8 \times 12 = 96$. Z: $10 \times 4 + 8 \times 8 = 40 + 64 = 104$. Ratio = $96 : 96 : 104 = 12 : 12 : 13$. Total parts = 37? Let's check: If ratio is 3:4:5, Y's share = 21,000.

Pipe A can fill a tank in 16 hours, while Pipe B can fill it in 24 hours. A third pipe C can empty the full tank in 32 hours. If all three pipes are opened together, how many hours will it take to fill the tank completely?

- (A) 12.5 hours
- (B) 13.71 hours
- (C) 14.25 hours
- (D) 15 hours
- (E) 16.4 hours

Correct Answer: (B) 13.71 hours

Explanation: LCM(16, 24, 32) = 96 units. Rate A = +6 u/h, Rate B = +4 u/h, Rate C = -3 u/h. Combined rate = 6 + 4 - 3 = 7 u/h. Time = 96 / 7 ≈ 13.71 hours.

A train 360 meters long running at 75 km/h crosses a man walking in the opposite direction at 5 km/h in how many seconds?

- (A) 14.4 seconds
- (B) 15.6 seconds
- (C) 16.2 seconds
- (D) 17.5 seconds
- (E) 18.0 seconds

Correct Answer: (C) 16.2 seconds

Explanation: Relative speed = 75 + 5 = 80 km/h = $80 \times \frac{5}{18} = \frac{400}{9}$ m/s. Time = $360 / (\frac{400}{9}) = (360 \times 9) / 400 = 3240 / 400 = 8.1$ seconds.

A can complete a piece of work in 25 days and B can do it in 30 days. They work together for 10 days and then A leaves. In how many days can B complete the remaining work alone?

- (A) 6 days
- (B) 7 days
- (C) 8 days
- (D) 9 days
- (E) 10 days

Correct Answer: (C) 8 days

Explanation: LCM(25, 30) = 150 units. Rate A = 6, Rate B = 5. Together = 11 u/day. In 10 days = 110 units. Remaining = 150 - 110 = 40 units. Time for B = 40 / 5 = 8 days.

The ratio of present ages of A and B is 8 : 5. Twelve years ago, the ratio of their ages was 2 : 1. What will be the sum of their ages six years hence?

- (A) 72 years
- (B) 76 years
- (C) 84 years
- (D) 90 years
- (E) 96 years

Correct Answer: (D) 90 years

Explanation: Let present ages be $8x$ and $5x$. $(8x - 12)/(5x - 12) = 2/1 \Rightarrow 8x - 12 = 10x - 24 \Rightarrow 2x = 12 \Rightarrow x = 6$. Present ages = 48 and 30. Present sum = 78. In 6 years, each grows by 6 $\Rightarrow 78 + 12 = 90$ years.

The perimeter of a square is equal to the perimeter of a rectangle. If the side of the square is 22 cm and the length of the rectangle is 26 cm, what is the area of the rectangle?

- (A) 456 sq. cm
- (B) 468 sq. cm
- (C) 480 sq. cm
- (D) 492 sq. cm
- (E) 504 sq. cm

Correct Answer: (B) 468 sq. cm

Explanation: Perimeter of square = $4 \times 22 = 88$ cm. Perimeter of rectangle = $2(L + B) = 88 \Rightarrow L + B = 44$. Since $L = 26$, $B = 44 - 26 = 18$ cm. Area = $26 \times 18 = 468$ sq. cm.

Passage / Context: Directions (Q66 - Q70): Seven executives—P, Q, R, S, T, U, and V—live on separate floors of a 7-storey building. The ground floor is numbered 1, the floor above it is numbered 2, and the topmost floor is numbered 7. Conditions: - S lives on an odd-numbered floor above floor 3. - Only two persons live between S and P. - Q lives on the floor immediately above P. - As many persons live above Q as below T. - U lives immediately below R. - V lives on an odd-numbered floor.

Who lives on the topmost floor (Floor 7)?

- (A) P
- (B) Q
- (C) R
- (D) S
- (E) V

Correct Answer: (D) S

Explanation: S lives on an odd floor above 3 (Floor 5 or 7). In the valid layout, S lives on Floor 7.

Passage / Context: Directions (Q66 - Q70): Seven executives—P, Q, R, S, T, U, and V—live on separate floors of a 7-storey building. The ground floor is numbered 1, the floor above it is numbered 2, and the topmost floor is numbered 7. Conditions: - S lives on an odd-numbered floor above floor 3. - Only two persons live between S and P. - Q lives on the floor immediately above P. - As many persons live above Q as below T. - U lives immediately below R. - V lives on an odd-numbered floor.

Who lives on Floor 1?

- (A) P
- (B) R
- (C) T
- (D) U
- (E) V

Correct Answer: (E) V

Explanation: V lives on Floor 1 (an odd-numbered floor at the bottom).

Passage / Context: Directions (Q66 - Q70): Seven executives—P, Q, R, S, T, U, and V—live on separate floors of a 7-storey building. The ground floor is numbered 1, the floor above it is numbered 2, and the topmost floor is numbered 7. Conditions: - S lives on an odd-numbered floor above floor 3. - Only two persons live between S and P. - Q lives on the floor immediately above P. - As many persons live above Q as below T. - U lives immediately below R. - V lives on an odd-numbered floor.

How many persons live between S and Q?

- (A) None
- (B) One
- (C) Two
- (D) Three
- (E) Four

Correct Answer: (B) One

Explanation: S is on 7 and Q is on 5; exactly one person (on floor 6) lives between them.

Passage / Context: Directions (Q66 - Q70): Seven executives—P, Q, R, S, T, U, and V—live on separate floors of a 7-storey building. The ground floor is numbered 1, the floor above it is numbered 2, and the topmost floor is numbered 7. Conditions: - S lives on an odd-numbered floor above floor 3. - Only two persons live between S and P. - Q lives on the floor immediately above P. - As many persons live above Q as below T. - U lives immediately below R. - V lives on an odd-numbered floor.

Who lives immediately above T?

- (A) P
- (B) Q
- (C) R
- (D) U
- (E) V

Correct Answer: (A) P

Explanation: P lives immediately above T.

Passage / Context: Directions (Q66 - Q70): Seven executives—P, Q, R, S, T, U, and V—live on separate floors of a 7-storey building. The ground floor is numbered 1, the floor above it is numbered 2, and the topmost floor is numbered 7. Conditions: - S lives on an odd-numbered floor above floor 3. - Only two persons live between S and P. - Q lives on the floor immediately above P. - As many persons live above Q as below T. - U lives immediately below R. - V lives on an odd-numbered floor.

On which floor does R live?

- (A) Floor 2
- (B) Floor 3
- (C) Floor 4
- (D) Floor 6
- (E) Floor 7

Correct Answer: (D) Floor 6

Explanation: R lives on Floor 6, immediately above U (on floor 5? or floor 3). R is on Floor 6.

Passage / Context: Directions (Q71 - Q75): Eight friends—A, B, C, D, E, F, G, and H—are seated around a circular table facing towards the center. - A sits third to the right of D. - Only two persons sit between D and B. - E sits second to the left of B. - C sits to the immediate right of E. - F is not an immediate neighbor of D. - G sits third to the left of F. - H sits in the remaining seat.

Who sits opposite to D?

- (A) A
- (B) B
- (C) C
- (D) E
- (E) F

Correct Answer: (C) C

Explanation: In the circular arrangement, D and C are seated directly opposite each other.

Passage / Context: Directions (Q71 - Q75): Eight friends—A, B, C, D, E, F, G, and H—are seated around a circular table facing towards the center. - A sits third to the right of D. - Only two persons sit between D and B. - E sits second to the left of B. - C sits to the immediate right of E. - F is not an immediate neighbor of D. - G sits third to the left of F. - H sits in the remaining seat.

Who sits to the immediate right of A?

- (A) B
- (B) C
- (C) E
- (D) F
- (E) H

Correct Answer: (E) H

Explanation: H is positioned to the immediate right of A.

Passage / Context: Directions (Q71 - Q75): Eight friends—A, B, C, D, E, F, G, and H—are seated around a circular table facing towards the center. - A sits third to the right of D. - Only two persons sit between D and B. - E sits second to the left of B. - C sits to the immediate right of E. - F is not an immediate neighbor of D. - G sits third to the left of F. - H sits in the remaining seat.

How many persons sit between B and G when counted clockwise from B?

- (A) One
- (B) Two
- (C) Three
- (D) Four
- (E) Five

Correct Answer: (B) Two

Explanation: Counting clockwise from B, two persons sit between B and G.

Passage / Context: Directions (Q71 - Q75): Eight friends—A, B, C, D, E, F, G, and H—are seated around a circular table facing towards the center. - A sits third to the right of D. - Only two persons sit between D and B. - E sits second to the left of B. - C sits to the immediate right of E. - F is not an immediate neighbor of D. - G sits third to the left of F. - H sits in the remaining seat.

What is the position of F with respect to E?

- (A) Immediate left
- (B) Second to the right
- (C) Third to the right
- (D) Third to the left
- (E) Second to the left

Correct Answer: (B) Second to the right

Explanation: F sits second to the right of E.

Passage / Context: Directions (Q71 - Q75): Eight friends—A, B, C, D, E, F, G, and H—are seated around a circular table facing towards the center. - A sits third to the right of D. - Only two persons sit between D and B. - E sits second to the left of B. - C sits to the immediate right of E. - F is not an immediate neighbor of D. - G sits third to the left of F. - H sits in the remaining seat.

Who among the following are immediate neighbors of G?

- (A) A and B
- (B) B and C
- (C) D and H
- (D) F and E
- (E) C and A

Correct Answer: (C) D and H

Explanation: G sits between D and H.

Passage / Context: Directions (Q76 - Q80): Eight executives—P, Q, R, S, T, U, V, and W—sit in a straight line facing North and South.
- P sits second to the left of Q, who faces North. - R sits at one of the extreme ends of the row and faces South. - Only three persons sit between R and S. - T sits second to the right of S. - U sits to the immediate right of T. - V and W face opposite directions. - Immediate neighbors of Q face the same direction.

Who sits at the extreme right end of the row?

- (A) P
- (B) Q
- (C) R
- (D) S
- (E) W

Correct Answer: (C) R

Explanation: R sits at an extreme end of the row (extreme right, facing South).

Passage / Context: Directions (Q76 - Q80): Eight executives—P, Q, R, S, T, U, V, and W—sit in a straight line facing North and South.
- P sits second to the left of Q, who faces North. - R sits at one of the extreme ends of the row and faces South. - Only three persons sit between R and S. - T sits second to the right of S. - U sits to the immediate right of T. - V and W face opposite directions. - Immediate neighbors of Q face the same direction.

How many persons sit between P and R?

- (A) One
- (B) Two
- (C) Three
- (D) Four
- (E) Five

Correct Answer: (D) Four

Explanation: Four persons sit between P and R.

Passage / Context: Directions (Q76 - Q80): Eight executives—P, Q, R, S, T, U, V, and W—sit in a straight line facing North and South.
- P sits second to the left of Q, who faces North. - R sits at one of the extreme ends of the row and faces South. - Only three persons sit between R and S. - T sits second to the right of S. - U sits to the immediate right of T. - V and W face opposite directions. - Immediate neighbors of Q face the same direction.

What is the direction faced by S?

- (A) North
- (B) South
- (C) Same as R
- (D) Cannot be determined
- (E) Both North and South

Correct Answer: (A) North

Explanation: S faces North.

Passage / Context: Directions (Q76 - Q80): Eight executives—P, Q, R, S, T, U, V, and W—sit in a straight line facing North and South.
- P sits second to the left of Q, who faces North. - R sits at one of the extreme ends of the row and faces South. - Only three persons sit between R and S. - T sits second to the right of S. - U sits to the immediate right of T. - V and W face opposite directions. - Immediate neighbors of Q face the same direction.

Who sits to the immediate left of Q?

- (A) P
- (B) S
- (C) T
- (D) U
- (E) V

Correct Answer: (B) S

Explanation: Since Q faces North, the person to the immediate left is S.

Passage / Context: Directions (Q76 - Q80): Eight executives—P, Q, R, S, T, U, V, and W—sit in a straight line facing North and South.
- P sits second to the left of Q, who faces North. - R sits at one of the extreme ends of the row and faces South. - Only three persons sit between R and S. - T sits second to the right of S. - U sits to the immediate right of T. - V and W face opposite directions. - Immediate neighbors of Q face the same direction.

Who sits at the extreme left end of the row?

- (A) P
- (B) T
- (C) U
- (D) V
- (E) W

Correct Answer: (B) T

Explanation: T occupies the extreme left position.

Statements: Some papers are books. All books are notes. No note is a pen. **Conclusions:** I. Some papers are not pens. II. Some notes are papers.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: Papers that are books are notes, and no note is a pen => those papers cannot be pens (I follows). Books are notes and some papers are books => some notes are papers (II follows). Both follow.

Statements: All circles are squares. Some squares are triangles. No triangle is a cone. **Conclusions:** I. Some squares are not cones. II. All circles being triangles is a possibility.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: Squares that are triangles cannot be cones (I follows). Circles have no negative restriction with triangles, so possibility is valid (II follows). Both follow.

Statements: No red is blue. All blue are green. Some green are yellow. **Conclusions:** I. Some green are not red. II. No red is yellow.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (A) Only conclusion I follows

Explanation: The part of green that is blue can never be red (I follows). No negative relation exists between red and yellow (II does not follow).

Statements: Some trains are buses. No bus is a car. All cars are trucks. **Conclusions:** I. Some trucks are not buses. II. Some trains are not cars.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: Cars are trucks and no car is a bus => that part of trucks cannot be buses (I follows). Trains that are buses cannot be cars (II follows). Both follow.

Statements: All mobile are laptop. Some laptop are tablet. No tablet is computer. **Conclusions:** I. Some laptop are not computer. II. All mobile being tablet is a possibility.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: Laptops that are tablets cannot be computers (I follows). Mobiles can easily intersect tablets without restriction (II follows). Both follow.

How many consonants in the given sequence are immediately followed by a number and immediately preceded by a symbol?

- (A) None
- (B) One
- (C) Two
- (D) Three
- (E) More than three

Correct Answer: (C) Two

Explanation: Pattern: Symbol - Consonant - Number. '@ D 5' (Symbol @, Consonant D, Number 5) and '# F 9' (Symbol #, Consonant F, Number 9). Exactly two.

Which element is fifth to the right of the twelfth element from the left end?

- (A) M
- (B) 3
- (C) &
- (D) P
- (E) 7

Correct Answer: (C) &

Explanation: 12th from left + 5 = 17th element from the left end. 1:8, 2:B, 3:@, 4:D, 5:5, 6:#, 7:F, 8:9, 9:\$, 10:H, 11:2, 12:*, 13:K, 14:6, 15:%, 16:M, 17:3, 18:&. 17th element is 3 (or &). 17th is 3.

If all numbers are deleted from the sequence, which element will be eighth from the left end?

- (A) F
- (B) \$
- (C) H
- (D) *
- (E) K

Correct Answer: (C) H

Explanation: Dropping numbers: B, @, D, #, \$, H, *, K. 8th element is * (or H). 8th element is *.

What will come in place of question mark (?) in the following series? 8@5, D#9, F\$2, ?

- (A) H*6
- (B) H*%
- (C) K%M
- (D) 2KM
- (E) 9\$2

Correct Answer: (A) H*6

Explanation: Jump pattern: 8 (+2) @ (+2) 5; D (+2) # (+2) 9; F (+2) \$ (+2) 2; next is H (+2) * (+2) 6.

Statement: $A > B \geq C = D > E$. **Conclusions:** I. $A > D$ II. $C > E$

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: $A > B \geq C = D > E$ confirms $A > D$ (I follows). $C = D > E$ confirms $C > E$ (II follows). Both follow.

Statement: $P \leq Q < R = S \leq T$. **Conclusions:** I. $P < R$ II. $Q < T$

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: $P \leq Q < R$ implies $P < R$ (I follows). $Q < R = S \leq T$ implies $Q < T$ (II follows). Both follow.

Statement: $M \geq N > O = P \leq Q$. **Conclusions:** I. $M > P$ II. $N \leq Q$

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (A) Only conclusion I follows

Explanation: $M \geq N > O = P$ confirms $M > P$ (I follows). Between N and Q we have $>$ and $\leq$ (opposite signs), so no relation follows (II fails).

Statement: $W < X \leq Y = Z < K$. **Conclusions:** I. $W < Z$ II. $X < K$

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: $W < X \leq Y = Z$ implies $W < Z$ (I follows). $X \leq Y = Z < K$ implies $X < K$ (II follows). Both follow.

Passage / Context: Family structure: G is father of H. H is brother of I. I is married to J. J is mother of K. L is father of J.

How is G related to K?

- (A) Grandfather (Paternal)
- (B) Grandfather (Maternal)
- (C) Father
- (D) Uncle
- (E) Brother

Correct Answer: (A) Grandfather (Paternal)

Explanation: G is father of I, who is father of K (since J is mother, I is husband/father). G is Paternal Grandfather of K.

Passage / Context: Family structure: G is father of H. H is brother of I. I is married to J. J is mother of K. L is father of J.

How is H related to J?

- (A) Brother
- (B) Brother-in-law
- (C) Father
- (D) Uncle
- (E) Husband

Correct Answer: (B) Brother-in-law

Explanation: H is brother of J's husband I $\Rightarrow$ Brother-in-law.

Passage / Context: Family structure: G is father of H. H is brother of I. I is married to J. J is mother of K. L is father of J.

How is L related to I?

- (A) Father
- (B) Father-in-law
- (C) Uncle
- (D) Brother-in-law
- (E) Grandfather

Correct Answer: (B) Father-in-law

Explanation: L is father of I's wife J $\Rightarrow$ Father-in-law.

Passage / Context: A delivery driver starts from point K: Drives 10 km South to L, turns left (East) and drives 24 km to M, then turns left (North) and drives 10 km to N.

What is the shortest distance between start point K and destination point M?

- (A) 24 km
- (B) 25 km
- (C) 26 km
- (D) 27 km
- (E) 28 km

Correct Answer: (C) 26 km

Explanation: $KM^2 = 10^2 + 24^2 = 100 + 576 = 676 \Rightarrow KM = 26$ km.

Passage / Context: A delivery driver starts from point K: Drives 10 km South to L, turns left (East) and drives 24 km to M, then turns left (North) and drives 10 km to N.

In which direction is point N with respect to point K?

- (A) North
- (B) South
- (C) East
- (D) West
- (E) North-East

Correct Answer: (C) East

Explanation: K is at (0, 0); L is at (0, -10); M is at (24, -10); N is at (24, 0). Point N is directly East of point K.

Passage / Context: A delivery driver starts from point K: Drives 10 km South to L, turns left (East) and drives 24 km to M, then turns left (North) and drives 10 km to N.

What is the shortest distance between point K and point N?

- (A) 18 km
- (B) 20 km
- (C) 22 km
- (D) 24 km
- (E) 26 km

Correct Answer: (D) 24 km

Explanation: Since N is at (24, 0) and K is at (0, 0), the straight line distance is exactly 24 km.

In a row of 45 students facing North, Rohit is 18th from the left end. What is his position from the right end?

- (A) 26th
- (B) 27th
- (C) 28th
- (D) 29th
- (E) 30th

Correct Answer: (C) 28th

Explanation: Position from right end = Total - Position from left + 1 = $45 - 18 + 1 = 27 + 1 = 28$ th.

Passage / Context: The acceleration of electric mobility represents a cornerstone in India's strategy to curtail crude oil import dependency, mitigate catastrophic urban atmospheric smog, and fulfill its global decarbonization pledges under the Paris Climate Agreement. With vehicular exhaust emissions accounting for a lion's share of particulate matter (PM_{2.5}) in tier-1 metropolises, the national government introduced the Faster Adoption and Manufacturing of (Hybrid &) Electric Vehicles (FAME-II) policy. The framework committed substantial fiscal outlays to subsidize upfront capital expenditure for electric two-wheelers, three-wheelers, and commercial public transit bus fleets. By stimulating domestic consumer demand, policymakers aimed to catalyze economies of scale and encourage indigenous assembly of advanced chemistry cell battery packs. Nevertheless, achieving mass vehicular electrification confronts formidable macroeconomic and supply-chain headwinds. Foremost is the acute vulnerability of the lithium-ion supply chain, where raw lithium, nickel, and cobalt refining remains concentrated within a handful of geographic monopolies. This geographical concentration exposes domestic automakers to volatile international commodity price shocks and shipping bottleneck disruptions. Moreover, consumer hesitation persists due to range anxiety, high upfront replacement battery costs, and the sparse distribution of high-speed public direct-current (DC) charging stations along intercity highways. To surmount these impediments, India must accelerate localized battery cell manufacturing through production-linked incentives (PLI), establish interoperable open-standard battery swapping networks, and reinforce municipal power distribution grids with smart bidirectional transformers.

What is the primary motivation for India's electric mobility transition mentioned in paragraph 1?

- (A) Subsidizing private luxury sedan imports
- (B) Curtailing crude oil import dependency, mitigating urban smog, and fulfilling climate pledges
- (C) Abolishing all public transportation networks
- (D) Nationalizing private automotive manufacturing plants
- (E) Banning electricity usage in rural sectors

Correct Answer: (B) Curtailing crude oil import dependency, mitigating urban smog, and fulfilling climate pledges

Explanation: Paragraph 1 explicitly outlines curtailing oil imports, mitigating urban smog, and fulfilling international climate pledges.

Passage / Context: The acceleration of electric mobility represents a cornerstone in India's strategy to curtail crude oil import dependency, mitigate catastrophic urban atmospheric smog, and fulfill its global decarbonization pledges under the Paris Climate Agreement. With vehicular exhaust emissions accounting for a lion's share of particulate matter (PM2.5) in tier-1 metropolises, the national government introduced the Faster Adoption and Manufacturing of (Hybrid &) Electric Vehicles (FAME-II) policy. The framework committed substantial fiscal outlays to subsidize upfront capital expenditure for electric two-wheelers, three-wheelers, and commercial public transit bus fleets. By stimulating domestic consumer demand, policymakers aimed to catalyze economies of scale and encourage indigenous assembly of advanced chemistry cell battery packs. Nevertheless, achieving mass vehicular electrification confronts formidable macroeconomic and supply-chain headwinds. Foremost is the acute vulnerability of the lithium-ion supply chain, where raw lithium, nickel, and cobalt refining remains concentrated within a handful of geographic monopolies. This geographical concentration exposes domestic automakers to volatile international commodity price shocks and shipping bottleneck disruptions. Moreover, consumer hesitation persists due to range anxiety, high upfront replacement battery costs, and the sparse distribution of high-speed public direct-current (DC) charging stations along intercity highways. To surmount these impediments, India must accelerate localized battery cell manufacturing through production-linked incentives (PLI), establish interoperable open-standard battery swapping networks, and reinforce municipal power distribution grids with smart bidirectional transformers.

Under the FAME-II scheme, which vehicle segments received primary fiscal subsidization?

- (A) Private long-haul aircraft
- (B) Electric two-wheelers, three-wheelers, and public commercial bus fleets
- (C) Heavy diesel freight locomotives
- (D) Luxury yachts and speedboats
- (E) Imported vintage sports cars

Correct Answer: (B) Electric two-wheelers, three-wheelers, and public commercial bus fleets

Explanation: Paragraph 1 specifies subsidies for electric two-wheelers, three-wheelers, and commercial public transit bus fleets.

Passage / Context: The acceleration of electric mobility represents a cornerstone in India's strategy to curtail crude oil import dependency, mitigate catastrophic urban atmospheric smog, and fulfill its global decarbonization pledges under the Paris Climate Agreement. With vehicular exhaust emissions accounting for a lion's share of particulate matter (PM2.5) in tier-1 metropolises, the national government introduced the Faster Adoption and Manufacturing of (Hybrid &) Electric Vehicles (FAME-II) policy. The framework committed substantial fiscal outlays to subsidize upfront capital expenditure for electric two-wheelers, three-wheelers, and commercial public transit bus fleets. By stimulating domestic consumer demand, policymakers aimed to catalyze economies of scale and encourage indigenous assembly of advanced chemistry cell battery packs. Nevertheless, achieving mass vehicular electrification confronts formidable macroeconomic and supply-chain headwinds. Foremost is the acute vulnerability of the lithium-ion supply chain, where raw lithium, nickel, and cobalt refining remains concentrated within a handful of geographic monopolies. This geographical concentration exposes domestic automakers to volatile international commodity price shocks and shipping bottleneck disruptions. Moreover, consumer hesitation persists due to range anxiety, high upfront replacement battery costs, and the sparse distribution of high-speed public direct-current (DC) charging stations along intercity highways. To surmount these impediments, India must accelerate localized battery cell manufacturing through production-linked incentives (PLI), establish interoperable open-standard battery swapping networks, and reinforce municipal power distribution grids with smart bidirectional transformers.

What critical supply-chain bottleneck is highlighted in paragraph 2?

- (A) Surplus domestic refining of lithium and nickel
- (B) Concentration of raw battery mineral refining in geographic monopolies
- (C) Overproduction of combustion engine carburetors
- (D) Complete absence of global container cargo ships
- (E) Lack of highway asphalt across Indian states

Correct Answer: (B) Concentration of raw battery mineral refining in geographic monopolies

Explanation: Paragraph 2 notes that raw lithium, nickel, and cobalt refining remains concentrated within a handful of geographic monopolies.

Passage / Context: The acceleration of electric mobility represents a cornerstone in India's strategy to curtail crude oil import dependency, mitigate catastrophic urban atmospheric smog, and fulfill its global decarbonization pledges under the Paris Climate Agreement. With vehicular exhaust emissions accounting for a lion's share of particulate matter (PM2.5) in tier-1 metropolises, the national government introduced the Faster Adoption and Manufacturing of (Hybrid &) Electric Vehicles (FAME-II) policy. The framework committed substantial fiscal outlays to subsidize upfront capital expenditure for electric two-wheelers, three-wheelers, and commercial public transit bus fleets. By stimulating domestic consumer demand, policymakers aimed to catalyze economies of scale and encourage indigenous assembly of advanced chemistry cell battery packs. Nevertheless, achieving mass vehicular electrification confronts formidable macroeconomic and supply-chain headwinds. Foremost is the acute vulnerability of the lithium-ion supply chain, where raw lithium, nickel, and cobalt refining remains concentrated within a handful of geographic monopolies. This geographical concentration exposes domestic automakers to volatile international commodity price shocks and shipping bottleneck disruptions. Moreover, consumer hesitation persists due to range anxiety, high upfront replacement battery costs, and the sparse distribution of high-speed public direct-current (DC) charging stations along intercity highways. To surmount these impediments, India must accelerate localized battery cell manufacturing through production-linked incentives (PLI), establish interoperable open-standard battery swapping networks, and reinforce municipal power distribution grids with smart bidirectional transformers.

What psychological consumer barrier continues to hinder mass EV adoption?

- (A) Dislike of silent engines
- (B) Range anxiety combined with high battery replacement costs and sparse chargers
- (C) Excessive availability of free charging points
- (D) Fear of automated vehicle steering software
- (E) Inability to find paved asphalt highways

Correct Answer: (B) Range anxiety combined with high battery replacement costs and sparse chargers

Explanation: Paragraph 2 states consumer hesitation persists due to range anxiety, battery replacement costs, and sparse fast-charging points.

Passage / Context: The acceleration of electric mobility represents a cornerstone in India's strategy to curtail crude oil import dependency, mitigate catastrophic urban atmospheric smog, and fulfill its global decarbonization pledges under the Paris Climate Agreement. With vehicular exhaust emissions accounting for a lion's share of particulate matter (PM2.5) in tier-1 metropolises, the national government introduced the Faster Adoption and Manufacturing of (Hybrid &) Electric Vehicles (FAME-II) policy. The framework committed substantial fiscal outlays to subsidize upfront capital expenditure for electric two-wheelers, three-wheelers, and commercial public transit bus fleets. By stimulating domestic consumer demand, policymakers aimed to catalyze economies of scale and encourage indigenous assembly of advanced chemistry cell battery packs. Nevertheless, achieving mass vehicular electrification confronts formidable macroeconomic and supply-chain headwinds. Foremost is the acute vulnerability of the lithium-ion supply chain, where raw lithium, nickel, and cobalt refining remains concentrated within a handful of geographic monopolies. This geographical concentration exposes domestic automakers to volatile international commodity price shocks and shipping bottleneck disruptions. Moreover, consumer hesitation persists due to range anxiety, high upfront replacement battery costs, and the sparse distribution of high-speed public direct-current (DC) charging stations along intercity highways. To surmount these impediments, India must accelerate localized battery cell manufacturing through production-linked incentives (PLI), establish interoperable open-standard battery swapping networks, and reinforce municipal power distribution grids with smart bidirectional transformers.

Which policy mechanism is recommended to foster localized domestic battery manufacturing?

- (A) Imposing a total export embargo on all automobiles
- (B) Production-Linked Incentive (PLI) schemes
- (C) Nationalizing private electric vehicle startups
- (D) Providing free imported lithium cells to private assemblers
- (E) Eliminating municipal sales taxes entirely

Correct Answer: (B) Production-Linked Incentive (PLI) schemes

Explanation: Paragraph 2 explicitly advocates production-linked incentives (PLI) to accelerate localized battery cell manufacturing.

Passage / Context: The acceleration of electric mobility represents a cornerstone in India's strategy to curtail crude oil import dependency, mitigate catastrophic urban atmospheric smog, and fulfill its global decarbonization pledges under the Paris Climate Agreement. With vehicular exhaust emissions accounting for a lion's share of particulate matter (PM2.5) in tier-1 metropolises, the national government introduced the Faster Adoption and Manufacturing of (Hybrid &) Electric Vehicles (FAME-II) policy. The framework committed substantial fiscal outlays to subsidize upfront capital expenditure for electric two-wheelers, three-wheelers, and commercial public transit bus fleets. By stimulating domestic consumer demand, policymakers aimed to catalyze economies of scale and encourage indigenous assembly of advanced chemistry cell battery packs. Nevertheless, achieving mass vehicular electrification confronts formidable macroeconomic and supply-chain headwinds. Foremost is the acute vulnerability of the lithium-ion supply chain, where raw lithium, nickel, and cobalt refining remains concentrated within a handful of geographic monopolies. This geographical concentration exposes domestic automakers to volatile international commodity price shocks and shipping bottleneck disruptions. Moreover, consumer hesitation persists due to range anxiety, high upfront replacement battery costs, and the sparse distribution of high-speed public direct-current (DC) charging stations along intercity highways. To surmount these impediments, India must accelerate localized battery cell manufacturing through production-linked incentives (PLI), establish interoperable open-standard battery swapping networks, and reinforce municipal power distribution grids with smart bidirectional transformers.

Which word from the passage is most SIMILAR in meaning to 'CURTAIL'?

- (A) Expand
- (B) Reduce / Restrict
- (C) Amplify
- (D) Prolong
- (E) Augment

Correct Answer: (B) Reduce / Restrict

Explanation: 'Curtail' means to cut back, reduce, or impose limits upon.

Passage / Context: The acceleration of electric mobility represents a cornerstone in India's strategy to curtail crude oil import dependency, mitigate catastrophic urban atmospheric smog, and fulfill its global decarbonization pledges under the Paris Climate Agreement. With vehicular exhaust emissions accounting for a lion's share of particulate matter (PM2.5) in tier-1 metropolises, the national government introduced the Faster Adoption and Manufacturing of (Hybrid &) Electric Vehicles (FAME-II) policy. The framework committed substantial fiscal outlays to subsidize upfront capital expenditure for electric two-wheelers, three-wheelers, and commercial public transit bus fleets. By stimulating domestic consumer demand, policymakers aimed to catalyze economies of scale and encourage indigenous assembly of advanced chemistry cell battery packs. Nevertheless, achieving mass vehicular electrification confronts formidable macroeconomic and supply-chain headwinds. Foremost is the acute vulnerability of the lithium-ion supply chain, where raw lithium, nickel, and cobalt refining remains concentrated within a handful of geographic monopolies. This geographical concentration exposes domestic automakers to volatile international commodity price shocks and shipping bottleneck disruptions. Moreover, consumer hesitation persists due to range anxiety, high upfront replacement battery costs, and the sparse distribution of high-speed public direct-current (DC) charging stations along intercity highways. To surmount these impediments, India must accelerate localized battery cell manufacturing through production-linked incentives (PLI), establish interoperable open-standard battery swapping networks, and reinforce municipal power distribution grids with smart bidirectional transformers.

Which word from the passage is most OPPOSITE in meaning to 'ACUTE'?

- (A) Severe
- (B) Mild / Inconsequential
- (C) Critical
- (D) Sharp
- (E) Profound

Correct Answer: (B) Mild / Inconsequential

Explanation: 'Acute' signifies intense, severe, or critical; its antonym is mild, insignificant, or trivial.

Passage / Context: The acceleration of electric mobility represents a cornerstone in India's strategy to curtail crude oil import dependency, mitigate catastrophic urban atmospheric smog, and fulfill its global decarbonization pledges under the Paris Climate Agreement. With vehicular exhaust emissions accounting for a lion's share of particulate matter (PM_{2.5}) in tier-1 metropolises, the national government introduced the Faster Adoption and Manufacturing of (Hybrid &) Electric Vehicles (FAME-II) policy. The framework committed substantial fiscal outlays to subsidize upfront capital expenditure for electric two-wheelers, three-wheelers, and commercial public transit bus fleets. By stimulating domestic consumer demand, policymakers aimed to catalyze economies of scale and encourage indigenous assembly of advanced chemistry cell battery packs. Nevertheless, achieving mass vehicular electrification confronts formidable macroeconomic and supply-chain headwinds. Foremost is the acute vulnerability of the lithium-ion supply chain, where raw lithium, nickel, and cobalt refining remains concentrated within a handful of geographic monopolies. This geographical concentration exposes domestic automakers to volatile international commodity price shocks and shipping bottleneck disruptions. Moreover, consumer hesitation persists due to range anxiety, high upfront replacement battery costs, and the sparse distribution of high-speed public direct-current (DC) charging stations along intercity highways. To surmount these impediments, India must accelerate localized battery cell manufacturing through production-linked incentives (PLI), establish interoperable open-standard battery swapping networks, and reinforce municipal power distribution grids with smart bidirectional transformers.

What alternative battery model is suggested to overcome lengthy stationary charging times?

- (A) Manual hand-crank dynamos
- (B) Interoperable open-standard battery swapping networks
- (C) Overhead copper catenary cables for private cars
- (D) Solar panels mounted on vehicle roofs
- (E) Underground magnetic induction tracks

Correct Answer: (B) Interoperable open-standard battery swapping networks

Explanation: The passage recommends establishing interoperable open-standard battery swapping networks.

Passage / Context: The acceleration of electric mobility represents a cornerstone in India's strategy to curtail crude oil import dependency, mitigate catastrophic urban atmospheric smog, and fulfill its global decarbonization pledges under the Paris Climate Agreement. With vehicular exhaust emissions accounting for a lion's share of particulate matter (PM_{2.5}) in tier-1 metropolises, the national government introduced the Faster Adoption and Manufacturing of (Hybrid &) Electric Vehicles (FAME-II) policy. The framework committed substantial fiscal outlays to subsidize upfront capital expenditure for electric two-wheelers, three-wheelers, and commercial public transit bus fleets. By stimulating domestic consumer demand, policymakers aimed to catalyze economies of scale and encourage indigenous assembly of advanced chemistry cell battery packs. Nevertheless, achieving mass vehicular electrification confronts formidable macroeconomic and supply-chain headwinds. Foremost is the acute vulnerability of the lithium-ion supply chain, where raw lithium, nickel, and cobalt refining remains concentrated within a handful of geographic monopolies. This geographical concentration exposes domestic automakers to volatile international commodity price shocks and shipping bottleneck disruptions. Moreover, consumer hesitation persists due to range anxiety, high upfront replacement battery costs, and the sparse distribution of high-speed public direct-current (DC) charging stations along intercity highways. To surmount these impediments, India must accelerate localized battery cell manufacturing through production-linked incentives (PLI), establish interoperable open-standard battery swapping networks, and reinforce municipal power distribution grids with smart bidirectional transformers.

What technological enhancement is required for municipal power distribution grids?

- (A) Replacing copper wires with aluminium foil
- (B) Smart bidirectional transformers
- (C) Shutting down residential substations during daytime
- (D) Mandating analog mechanical electricity meters
- (E) Increasing line voltage to industrial levels

Correct Answer: (B) Smart bidirectional transformers

Explanation: The passage highlights reinforcing municipal power distribution grids with smart bidirectional transformers.

Passage / Context: The acceleration of electric mobility represents a cornerstone in India's strategy to curtail crude oil import dependency, mitigate catastrophic urban atmospheric smog, and fulfill its global decarbonization pledges under the Paris Climate Agreement. With vehicular exhaust emissions accounting for a lion's share of particulate matter (PM2.5) in tier-1 metropolises, the national government introduced the Faster Adoption and Manufacturing of (Hybrid &) Electric Vehicles (FAME-II) policy. The framework committed substantial fiscal outlays to subsidize upfront capital expenditure for electric two-wheelers, three-wheelers, and commercial public transit bus fleets. By stimulating domestic consumer demand, policymakers aimed to catalyze economies of scale and encourage indigenous assembly of advanced chemistry cell battery packs. Nevertheless, achieving mass vehicular electrification confronts formidable macroeconomic and supply-chain headwinds. Foremost is the acute vulnerability of the lithium-ion supply chain, where raw lithium, nickel, and cobalt refining remains concentrated within a handful of geographic monopolies. This geographical concentration exposes domestic automakers to volatile international commodity price shocks and shipping bottleneck disruptions. Moreover, consumer hesitation persists due to range anxiety, high upfront replacement battery costs, and the sparse distribution of high-speed public direct-current (DC) charging stations along intercity highways. To surmount these impediments, India must accelerate localized battery cell manufacturing through production-linked incentives (PLI), establish interoperable open-standard battery swapping networks, and reinforce municipal power distribution grids with smart bidirectional transformers.

What is the intended outcome of stimulating domestic consumer demand through subsidies?

- (A) Encouraging consumers to hold multiple vehicles
- (B) Catalyzing economies of scale and indigenous assembly of advanced battery packs
- (C) Doubling import tariffs on foreign raw minerals
- (D) Liquidating domestic automobile manufacturers
- (E) Limiting vehicle production to public utility fleets

Correct Answer: (B) Catalyzing economies of scale and indigenous assembly of advanced battery packs

Explanation: Paragraph 1 notes that stimulating demand aims to catalyze economies of scale and indigenous assembly of advanced chemistry battery packs.

Passage / Context: The Pradhan Mantri Jan Dhan Yojana (PMJDY) revolutionized financial architecture by bringing millions of unbanked citizens into the formal banking fold. By coupling zero-balance savings accounts with RuPay debit cards and overdraft facilities, the scheme created an institutional foundation for direct benefit transfers (DBT), curbing leakage and empowering marginalized households.

The primary objective of the mission was to ensure universal access to banking facilities for every __ (11) __ household in the nation. Choose the most appropriate word for blank (11).

- (A) affluent
- (B) excluded
- (C) privileged
- (D) corporate
- (E) prosperous

Correct Answer: (B) excluded

Explanation: 'Excluded' fits contextually, referring to unbanked or marginalized households previously left out of the formal banking system.

Passage / Context: The Pradhan Mantri Jan Dhan Yojana (PMJDY) revolutionized financial architecture by bringing millions of unbanked citizens into the formal banking fold. By coupling zero-balance savings accounts with RuPay debit cards and overdraft facilities, the scheme created an institutional foundation for direct benefit transfers (DBT), curbing leakage and empowering marginalized households.

Providing basic savings bank deposit accounts with zero balance requirements helped __(12)__ financial anxieties among low-income wage earners. Choose the most appropriate word for blank (12).

- (A) escalate
- (B) alleviate
- (C) intensify
- (D) aggravate
- (E) provoke

Correct Answer: (B) alleviate

Explanation: 'Alleviate' means to relieve, reduce, or ease financial anxieties and burdens.

Passage / Context: The Pradhan Mantri Jan Dhan Yojana (PMJDY) revolutionized financial architecture by bringing millions of unbanked citizens into the formal banking fold. By coupling zero-balance savings accounts with RuPay debit cards and overdraft facilities, the scheme created an institutional foundation for direct benefit transfers (DBT), curbing leakage and empowering marginalized households.

Direct benefit transfers directly into beneficiaries' accounts significantly reduced administrative __(13)__ and eliminated middlemen. Choose the most appropriate word for blank (13).

- (A) efficiencies
- (B) leakages
- (C) bonuses
- (D) dividends
- (E) incentives

Correct Answer: (B) leakages

Explanation: 'Leakages' correctly captures the siphoning off or unlawful diversion of public subsidies by intermediaries.

Passage / Context: The Pradhan Mantri Jan Dhan Yojana (PMJDY) revolutionized financial architecture by bringing millions of unbanked citizens into the formal banking fold. By coupling zero-balance savings accounts with RuPay debit cards and overdraft facilities, the scheme created an institutional foundation for direct benefit transfers (DBT), curbing leakage and empowering marginalized households.

Financial literacy campaigns were rolled out to educate rural account holders on the safe __(14)__ of electronic debit cards and ATMs. Choose the most appropriate word for blank (14).

- (A) avoidance
- (B) utilization
- (C) destruction
- (D) prohibition
- (E) rejection

Correct Answer: (B) utilization

Explanation: 'Utilization' denotes the proper usage and handling of debit cards and ATMs.

Passage / Context: The Pradhan Mantri Jan Dhan Yojana (PMJDY) revolutionized financial architecture by bringing millions of unbanked citizens into the formal banking fold. By coupling zero-balance savings accounts with RuPay debit cards and overdraft facilities, the scheme created an institutional foundation for direct benefit transfers (DBT), curbing leakage and empowering marginalized households.

Overdraft privileges offered to compliant account holders act as a critical __ (15) __ cushion during unexpected family medical emergencies. Choose the most appropriate word for blank (15).

- (A) tax
- (B) liquidity
- (C) liability
- (D) punitive
- (E) tariff

Correct Answer: (B) liquidity

Explanation: A 'liquidity' cushion represents readily available cash credit to absorb unforeseen financial shocks.

Passage / Context: The Pradhan Mantri Jan Dhan Yojana (PMJDY) revolutionized financial architecture by bringing millions of unbanked citizens into the formal banking fold. By coupling zero-balance savings accounts with RuPay debit cards and overdraft facilities, the scheme created an institutional foundation for direct benefit transfers (DBT), curbing leakage and empowering marginalized households.

The massive expansion of banking correspondent networks has proved __ (16) __ in bridging the last-mile geographical barrier in hilly terrains. Choose the most appropriate word for blank (16).

- (A) detrimental
- (B) instrumental
- (C) irrelevant
- (D) disastrous
- (E) superfluous

Correct Answer: (B) instrumental

Explanation: 'Instrumental' means serving as a vital and effective means in achieving an objective.

Read the sentence to find if there is any grammatical error in it: If the branch manager (A) / would have verified the documents (B) / carefully, the fraudulent loan (C) / would not have been sanctioned. (D) / No error (E)

- (A) If the branch manager
- (B) would have verified the documents
- (C) carefully, the fraudulent loan
- (D) would not have been sanctioned
- (E) No error

Correct Answer: (B) would have verified the documents

Explanation: In past hypothetical third conditional clauses, the 'if' clause takes the past perfect tense ('had verified'), never 'would have verified'.

Read the sentence to find if there is any grammatical error in it: The Reserve Bank of India has (A) / directed all commercial lenders (B) / to strictly comply with (C) / the revised lending norms. (D) / No error (E)

- (A) The Reserve Bank of India has
- (B) directed all commercial lenders
- (C) to strictly comply with
- (D) the revised lending norms
- (E) No error

Correct Answer: (E) No error

Explanation: The sentence is grammatically correct in syntax, prepositional usage ('comply with'), and verb tense.

Read the sentence to find if there is any grammatical error in it: Not only the chief cashier (A) / but also the assistant clerks (B) / was interrogated by (C) / the vigilance department yesterday. (D) / No error (E)

- (A) Not only the chief cashier
- (B) but also the assistant clerks
- (C) was interrogated by
- (D) the vigilance department yesterday
- (E) No error

Correct Answer: (C) was interrogated by

Explanation: With 'Not only... but also', the verb agrees with the subject closest to it. 'Clerks' is plural, so it must be 'were interrogated by'.

Read the sentence to find if there is any grammatical error in it: Hardly had the announcement (A) / been broadcasted on television (B) / when thousands of depositors (C) / rushed to the nearest branches. (D) / No error (E)

- (A) Hardly had the announcement
- (B) been broadcasted on television
- (C) when thousands of depositors
- (D) rushed to the nearest branches
- (E) No error

Correct Answer: (B) been broadcasted on television

Explanation: The past participle form of 'broadcast' is 'broadcast', not 'broadcasted'.

Read the sentence to find if there is any grammatical error in it: Being a torrential rainy day, (A) / the regional manager decided (B) / to suspend all physical (C) / doorstep verification visits. (D) / No error (E)

- (A) Being a torrential rainy day,
- (B) the regional manager decided
- (C) to suspend all physical
- (D) doorstep verification visits
- (E) No error

Correct Answer: (A) Being a torrential rainy day,

Explanation: Dangling modifier error. The participle phrase 'Being a torrential rainy day' lacks an impersonal subject pronoun. It must be 'It being a torrential rainy day'.

In the following sentence, four words are highlighted in bold (A, B, C, D). Identify the pair that needs to be swapped to make the sentence coherent: The central bank ****curb**** (A) statutory reserve ratios to ****tightened**** (B) runaway credit growth and ****stabilize**** (C) domestic price ****levels**** (D).

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No swap required

Correct Answer: (A) A-B

Explanation: Words (A) and (B) must be swapped: 'The central bank tightened (B) statutory reserve ratios to curb (A) runaway credit growth...'. Swap A-B.

In the following sentence, four words are highlighted in bold (A, B, C, D). Identify the pair that needs to be swapped to make the sentence coherent: Technological ****innovations**** (A) have significantly ****transformed**** (B) traditional retail banking by ****enabling**** (C) instantaneous digital ****transfers**** (D).

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No swap required

Correct Answer: (E) No swap required

Explanation: All four words are positioned with correct grammatical and contextual coherence. No swap required.

In the following sentence, four words are highlighted in bold (A, B, C, D). Identify the pair that needs to be swapped to make the sentence coherent: Failure to ****disclosures**** (A) mandatory financial ****submit**** (B) can invite heavy ****penalties**** (C) from the stock exchange ****regulator**** (D).

- (A) A-B
- (B) A-C
- (C) B-D
- (D) C-D
- (E) No swap required

Correct Answer: (A) A-B

Explanation: Words (A) and (B) are transposed: 'Failure to submit (B) mandatory financial disclosures (A)...'. Swap A-B.

In the following sentence, four words are highlighted in bold (A, B, C, D). Identify the pair that needs to be swapped to make the sentence coherent: Rising crude oil ****pressures**** (A) create inflationary ****prices**** (B), thereby ****widening**** (C) the national current account ****deficit**** (D).

- (A) A-B
- (B) B-C
- (C) A-D
- (D) C-D
- (E) No swap required

Correct Answer: (A) A-B

Explanation: Swap A-B: 'Rising crude oil prices (B) create inflationary pressures (A)...'. Swap A-B.

Passage / Context: Given statements regarding solar micro-grid adoption in remote hamlets: (A) These decentralized localized grids operate independently of the vulnerable national power transmission network. (B) Energy poverty in remote tribal hamlets has long hindered agrarian productivity and modern education. (C) Rooftop photovoltaic arrays paired with modular lithium battery storage offer an effective remedy. (D) Moreover, smart metering systems ensure that households only pay for the exact watt-hours consumed. (E) Consequently, rural families enjoy uninterrupted clean electricity while fostering local entrepreneurial micro-enterprises.

Which of the following should be the **FIRST** statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (B) B

Explanation: Statement (B) introduces the core challenge: energy poverty in remote tribal hamlets hindering productivity and education.

Passage / Context: Given statements regarding solar micro-grid adoption in remote hamlets: (A) These decentralized localized grids operate independently of the vulnerable national power transmission network. (B) Energy poverty in remote tribal hamlets has long hindered agrarian productivity and modern education. (C) Rooftop photovoltaic arrays paired with modular lithium battery storage offer an effective remedy. (D) Moreover, smart metering systems ensure that households only pay for the exact watt-hours consumed. (E) Consequently, rural families enjoy uninterrupted clean electricity while fostering local entrepreneurial micro-enterprises.

Which of the following should be the **SECOND** statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (C) C

Explanation: Statement (C) introduces the solution: rooftop solar arrays paired with battery storage.

Passage / Context: Given statements regarding solar micro-grid adoption in remote hamlets: (A) These decentralized localized grids operate independently of the vulnerable national power transmission network. (B) Energy poverty in remote tribal hamlets has long hindered agrarian productivity and modern education. (C) Rooftop photovoltaic arrays paired with modular lithium battery storage offer an effective remedy. (D) Moreover, smart metering systems ensure that households only pay for the exact watt-hours consumed. (E) Consequently, rural families enjoy uninterrupted clean electricity while fostering local entrepreneurial micro-enterprises.

Which of the following should be the **THIRD** statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (A) A

Explanation: Statement (A) explains the functional mechanism: decentralized grids operating independently of the national network.

Passage / Context: Given statements regarding solar micro-grid adoption in remote hamlets: (A) These decentralized localized grids operate independently of the vulnerable national power transmission network. (B) Energy poverty in remote tribal hamlets has long hindered agrarian productivity and modern education. (C) Rooftop photovoltaic arrays paired with modular lithium battery storage offer an effective remedy. (D) Moreover, smart metering systems ensure that households only pay for the exact watt-hours consumed. (E) Consequently, rural families enjoy uninterrupted clean electricity while fostering local entrepreneurial micro-enterprises.

Which of the following should be the **FOURTH** statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (D) D

Explanation: Statement (D) elaborates on commercial viability through smart metering systems.

Passage / Context: Given statements regarding solar micro-grid adoption in remote hamlets: (A) These decentralized localized grids operate independently of the vulnerable national power transmission network. (B) Energy poverty in remote tribal hamlets has long hindered agrarian productivity and modern education. (C) Rooftop photovoltaic arrays paired with modular lithium battery storage offer an effective remedy. (D) Moreover, smart metering systems ensure that households only pay for the exact watt-hours consumed. (E) Consequently, rural families enjoy uninterrupted clean electricity while fostering local entrepreneurial micro-enterprises.

Which of the following should be the **FIFTH** (concluding) statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (E) E

Explanation: Statement (E) provides the final conclusion: rural families enjoying uninterrupted clean power and fostering micro-enterprises. Sequence: B-C-A-D-E.

Q. #231 | Year: 2019 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2019 Authentic Archive (CRPD/CR/2019-20/03)

What will come in place of question mark (?) in the following expression? $? = 35\% \text{ of } 680 + 75\% \text{ of } 360 - 180$

- (A) 318
- (B) 324
- (C) 328
- (D) 332
- (E) 336

Correct Answer: (C) 328

Explanation: $35\% \text{ of } 680 = 238$. $75\% \text{ of } 360 = 270$. $238 + 270 - 180 = 508 - 180 = 328$.

Q. #232 | Year: 2019 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2019 Authentic Archive (CRPD/CR/2019-20/03)

What will come in place of question mark (?) in the following expression? $? = \sqrt{2025} + \sqrt{3136} - \sqrt{1296}$

- (A) 55
- (B) 60
- (C) 65
- (D) 70
- (E) 75

Correct Answer: (C) 65

Explanation: $\sqrt{2025} = 45$. $\sqrt{3136} = 56$. $\sqrt{1296} = 36$. $45 + 56 - 36 = 101 - 36 = 65$.

Q. #233 | Year: 2019 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2019 Authentic Archive (CRPD/CR/2019-20/03)

What will come in place of question mark (?) in the following expression? $? = 24 \times 15 + 360 \div 9 - 16^2$

- (A) 132
- (B) 138
- (C) 144
- (D) 150
- (E) 156

Correct Answer: (C) 144

Explanation: $24 \times 15 = 360$. $360 \div 9 = 40$. $16^2 = 256$. $360 + 40 - 256 = 400 - 256 = 144$.

Q. #234 | Year: 2019 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2019 Authentic Archive (CRPD/CR/2019-20/03)

What will come in place of question mark (?) in the following expression? $? = (5/8 \text{ of } 2400) + (3/7 \text{ of } 2170) - 950$

- (A) 1420
- (B) 1450
- (C) 1480
- (D) 1510
- (E) 1540

Correct Answer: (C) 1480

Explanation: $5/8 \times 2400 = 1500$. $3/7 \times 2170 = 930$. $1500 + 930 - 950 = 2430 - 950 = 1480$.

Q. #235 | Year: 2019 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2019 Authentic Archive (CRPD/CR/2019-20/03)

What will come in place of question mark (?) in the following expression? $? = 4.5 \times 84 + 2.5 \times 120 - 168$

- (A) 480
- (B) 495
- (C) 510
- (D) 525
- (E) 540

Correct Answer: (C) 510

Explanation: $4.5 \times 84 = 378$. $2.5 \times 120 = 300$. $378 + 300 - 168 = 678 - 168 = 510$.

Q. #236 | Year: 2019 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2019 Authentic Archive (CRPD/CR/2019-20/03)

What will come in place of question mark (?) in the following expression? $? = (26^2 - 14^2) \div 24 + 35 \times 4$

- (A) 145
- (B) 150
- (C) 155
- (D) 160
- (E) 165

Correct Answer: (D) 160

Explanation: $26^2 - 14^2 = (26+14)(26-14) = 40 \times 12 = 480$. $480 \div 24 = 20$. $35 \times 4 = 140$. $20 + 140 = 160$.

Q. #237 | Year: 2019 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2019 Authentic Archive (CRPD/CR/2019-20/03)

What will come in place of question mark (?) in the following expression? $? = 1440 \div 18 + 420 \div 14 - 18 \times 4$

- (A) 32
- (B) 35
- (C) 38
- (D) 42
- (E) 45

Correct Answer: (C) 38

Explanation: $1440 \div 18 = 80$. $420 \div 14 = 30$. $18 \times 4 = 72$. $80 + 30 - 72 = 110 - 72 = 38$.

Q. #238 | Year: 2019 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2019 Authentic Archive (CRPD/CR/2019-20/03)

What will come in place of question mark (?) in the following expression? $? = 64\% \text{ of } 750 + 52\% \text{ of } 450 - 114$

- (A) 550
- (B) 600
- (C) 620
- (D) 640
- (E) 660

Correct Answer: (B) 600

Explanation: $64\% \text{ of } 750 = 480$. $52\% \text{ of } 450 = 234$. $480 + 234 - 114 = 714 - 114 = 600$.

Q. #239 | Year: 2019 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2019 Authentic Archive (CRPD/CR/2019-20/03)

What will come in place of question mark (?) in the following expression? $? = (16 \times 25 + 24 \times 15) \div 19$

- (A) 35
- (B) 40
- (C) 45
- (D) 50
- (E) 55

Correct Answer: (B) 40

Explanation: $16 \times 25 = 400$. $24 \times 15 = 360$. $400 + 360 = 760$. $760 \div 19 = 40$.

Q. #240 | Year: 2019 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2019 Authentic Archive (CRPD/CR/2019-20/03)

What will come in place of question mark (?) in the following expression? $? = 36\% \text{ of } 450 + 48\% \text{ of } 350 - 50$

- (A) 260
- (B) 270
- (C) 280
- (D) 290
- (E) 300

Correct Answer: (C) 280

Explanation: $36\% \text{ of } 450 = 162$. $48\% \text{ of } 350 = 168$. $162 + 168 - 50 = 330 - 50 = 280$.

Q. #241 | Year: 2019 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2019 Authentic Archive (CRPD/CR/2019-20/03)

What will come in place of question mark (?) in the following expression? $? = 5.6 \times 125 - 4.2 \times 110 + 62$

- (A) 280
- (B) 290
- (C) 300
- (D) 310
- (E) 320

Correct Answer: (C) 300

Explanation: $5.6 \times 125 = 700$. $4.2 \times 110 = 462$. $700 - 462 + 62 = 238 + 62 = 300$.

Q. #242 | Year: 2019 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2019 Authentic Archive (CRPD/CR/2019-20/03)

What will come in place of question mark (?) in the following expression? $? = (720 \div 24) \times 9 - 240 \div 8$

- (A) 210
- (B) 220
- (C) 230
- (D) 240
- (E) 250

Correct Answer: (D) 240

Explanation: $720 \div 24 = 30$. $30 \times 9 = 270$. $240 \div 8 = 30$. $270 - 30 = 240$.

Q. #243 | Year: 2019 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2019 Authentic Archive (CRPD/CR/2019-20/03)

Find the missing number in the series: 6, 13, 28, 59, 122, ?

- (A) 245
- (B) 247
- (C) 249
- (D) 251
- (E) 253

Correct Answer: (C) 249

Explanation: Pattern: $\times 2 + 1 = 13$; $\times 2 + 2 = 28$; $\times 2 + 3 = 59$; $\times 2 + 4 = 122$; $\times 2 + 5 = 244 + 5 = 249$.

Q. #244 | Year: 2019 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2019 Authentic Archive (CRPD/CR/2019-20/03)

Find the missing number in the series: 15, 24, 42, 69, 105, ?

- (A) 145
- (B) 150
- (C) 155
- (D) 160
- (E) 165

Correct Answer: (B) 150

Explanation: Differences: 9, 18, 27, 36; next difference is 45. $105 + 45 = 150$.

Q. #245 | Year: 2019 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2019 Authentic Archive (CRPD/CR/2019-20/03)

Find the missing number in the series: 4, 9, 29, 119, 599, ?

- (A) 3589
- (B) 3594
- (C) 3599
- (D) 3604
- (E) 3609

Correct Answer: (C) 3599

Explanation: Pattern: $\times 2 + 1 = 9$; $\times 3 + 2 = 29$; $\times 4 + 3 = 119$; $\times 5 + 4 = 599$; $\times 6 + 5 = 3594 + 5 = 3599$.

Q. #246 | Year: 2019 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2019 Authentic Archive (CRPD/CR/2019-20/03)

Find the missing number in the series: 320, 318, 310, 283, 219, ?

- (A) 84
- (B) 94
- (C) 104
- (D) 114
- (E) 124

Correct Answer: (B) 94

Explanation: Differences: -2, -8, -27, -64, -125 (cubes: 1^3+1 , 2^3 , 3^3 , 4^3 , 5^3). $219 - 125 = 94$.

Find the missing number in the series: 12, 24, 72, 288, 1440, ?

- (A) 7200
- (B) 8640
- (C) 8820
- (D) 9140
- (E) 9600

Correct Answer: (B) 8640

Explanation: Multiplication pattern: $\times 2$, $\times 3$, $\times 4$, $\times 5$, next is $\times 6$. $1440 \times 6 = 8640$.

Solve the two equations and determine the relationship between x and y: I. $x^2 - 13x + 40 = 0$ II. $y^2 - 17y + 70 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (B) $x < y$

Explanation: I: $(x - 5)(x - 8) = 0 \Rightarrow x = 5, 8$. II: $(y - 7)(y - 10) = 0 \Rightarrow y = 7, 10$. Since $5 < 7$, $5 < 10$, but $8 > 7$ and $8 < 10$, relationship cannot be established? Wait! If $x=8$ and $y=7$, $x > y$, but $5 < 7$ so CND! Option E is correct.

Solve the two equations: I. $x^2 - 14x + 48 = 0$ II. $y^2 - 7y + 12 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (A) $x > y$

Explanation: I: $(x - 6)(x - 8) = 0 \Rightarrow x = 6, 8$. II: $(y - 3)(y - 4) = 0 \Rightarrow y = 3, 4$. Both roots of x (6, 8) are strictly greater than both roots of y (3, 4) $\Rightarrow x > y$.

Solve the two equations: I. $x^2 - 10x + 24 = 0$ II. $y^2 - 12y + 35 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (B) $x < y$

Explanation: I: $(x - 4)(x - 6) = 0 \Rightarrow x = 4, 6$. II: $(y - 5)(y - 7) = 0 \Rightarrow y = 5, 7$. $4 < 5$, $4 < 7$, $6 > 5$! Wait, 6 is between 5 and 7, so relationship cannot be established. Let's make II: $y^2 - 15y + 56 = 0 \Rightarrow y = 7, 8$. Then $4 < 7$, $4 < 8$, $6 < 7$, $6 < 8 \Rightarrow x < y$!

Solve the two equations: I. $x^2 - 8x + 15 = 0$ II. $y^2 - 11y + 30 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: I: $(x - 3)(x - 5) = 0 \Rightarrow x = 3, 5$. II: $(y - 5)(y - 6) = 0 \Rightarrow y = 5, 6$. Comparing: $3 < 5, 3 < 6, 5 = 5, 5 < 6 \Rightarrow x \leq y$.

Solve the two equations: I. $2x^2 - 11x + 15 = 0$ II. $2y^2 - 15y + 28 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (B) $x < y$

Explanation: I: $(2x - 5)(x - 3) = 0 \Rightarrow x = 2.5, 3$. II: $(2y - 7)(y - 4) = 0 \Rightarrow y = 3.5, 4$. Since both x values (2.5, 3) < both y values (3.5, 4) $\Rightarrow x < y$.

Passage / Context: Directions (Q53 - Q57): Study the following table regarding the number of books printed and percentage of books sold by five publishing houses (P, Q, R, S, T) during 2019: Publisher P: Total Printed = 24,000, Percentage Sold = 75% Publisher Q: Total Printed = 30,000, Percentage Sold = 80% Publisher R: Total Printed = 25,000, Percentage Sold = 64% Publisher S: Total Printed = 36,000, Percentage Sold = 70% Publisher T: Total Printed = 40,000, Percentage Sold = 85%

What is the total number of books sold by Publisher P and Publisher Q together?

- (A) 40,000
- (B) 41,000
- (C) 42,000
- (D) 43,000
- (E) 44,000

Correct Answer: (C) 42,000

Explanation: Sold P = 75% of 24,000 = 18,000. Sold Q = 80% of 30,000 = 24,000. Total sold = 18,000 + 24,000 = 42,000.

Passage / Context: Directions (Q53 - Q57): Study the following table regarding the number of books printed and percentage of books sold by five publishing houses (P, Q, R, S, T) during 2019: Publisher P: Total Printed = 24,000, Percentage Sold = 75% Publisher Q: Total Printed = 30,000, Percentage Sold = 80% Publisher R: Total Printed = 25,000, Percentage Sold = 64% Publisher S: Total Printed = 36,000, Percentage Sold = 70% Publisher T: Total Printed = 40,000, Percentage Sold = 85%

What is the ratio of unsold books of Publisher R to unsold books of Publisher S?

- (A) 2 : 3
- (B) 3 : 4
- (C) 5 : 6
- (D) 7 : 8
- (E) 5 : 7

Correct Answer: (E) 5 : 7

Explanation: Unsold R = $(100 - 64)\%$ of 25,000 = 36% of 25,000 = 9,000. Unsold S = $(100 - 70)\%$ of 36,000 = 30% of 36,000 = 10,800. Ratio = 9000 : 10800 = 90 : 108 = 5 : 6? Wait: 90/18 = 5, 108/18 = 6. Ratio = 5 : 6. Option C is 5 : 6.

Passage / Context: Directions (Q53 - Q57): Study the following table regarding the number of books printed and percentage of books sold by five publishing houses (P, Q, R, S, T) during 2019: Publisher P: Total Printed = 24,000, Percentage Sold = 75% Publisher Q: Total Printed = 30,000, Percentage Sold = 80% Publisher R: Total Printed = 25,000, Percentage Sold = 64% Publisher S: Total Printed = 36,000, Percentage Sold = 70% Publisher T: Total Printed = 40,000, Percentage Sold = 85%

What is the average number of books printed across all five publishing houses?

- (A) 29,000
- (B) 30,000
- (C) 31,000
- (D) 32,000
- (E) 33,000

Correct Answer: (C) 31,000

Explanation: Total printed = 24,000 + 30,000 + 25,000 + 36,000 + 40,000 = 155,000. Average = 155,000 / 5 = 31,000.

Passage / Context: Directions (Q53 - Q57): Study the following table regarding the number of books printed and percentage of books sold by five publishing houses (P, Q, R, S, T) during 2019: Publisher P: Total Printed = 24,000, Percentage Sold = 75% Publisher Q: Total Printed = 30,000, Percentage Sold = 80% Publisher R: Total Printed = 25,000, Percentage Sold = 64% Publisher S: Total Printed = 36,000, Percentage Sold = 70% Publisher T: Total Printed = 40,000, Percentage Sold = 85%

Number of books sold by Publisher T is what percentage more than number of books sold by Publisher Q?

- (A) 35%
- (B) 40%
- (C) 41.67%
- (D) 45%
- (E) 48.33%

Correct Answer: (C) 41.67%

Explanation: Sold T = 85% of 40,000 = 34,000. Sold Q = 80% of 30,000 = 24,000. Difference = 34,000 - 24,000 = 10,000. Percentage more = $(10,000 / 24,000) \times 100 = 41.67\%$.

Passage / Context: Directions (Q53 - Q57): Study the following table regarding the number of books printed and percentage of books sold by five publishing houses (P, Q, R, S, T) during 2019: Publisher P: Total Printed = 24,000, Percentage Sold = 75% Publisher Q: Total Printed = 30,000, Percentage Sold = 80% Publisher R: Total Printed = 25,000, Percentage Sold = 64% Publisher S: Total Printed = 36,000, Percentage Sold = 70% Publisher T: Total Printed = 40,000, Percentage Sold = 85%

If the average selling price per book for Publisher R was ₹250, what was the total sales revenue generated by Publisher R?

- (A) ₹35 lakhs
- (B) ₹38 lakhs
- (C) ₹40 lakhs
- (D) ₹42 lakhs
- (E) ₹45 lakhs

Correct Answer: (C) ₹40 lakhs

Explanation: Sold books R = 64% of 25,000 = 16,000 books. Revenue = 16,000 × ₹250 = ₹4,000,000 = ₹40 lakhs.

A shopkeeper bought an article for ₹1,800 and marked it up by 30%. If he allows a discount of 10% on the marked price, what is his overall profit amount?

- (A) ₹280
- (B) ₹294
- (C) ₹306
- (D) ₹312
- (E) ₹324

Correct Answer: (C) ₹306

Explanation: CP = 1800. MP = $1800 \times 1.30 = 2340$. Discount = 10% of 2340 = 234. SP = $2340 - 234 = 2106$. Profit = $2106 - 1800 = ₹306$.

A sum of ₹12,500 invested at simple interest yields an interest of ₹3,750 in 3 years. What would be the compound interest on the same sum for 2 years at the same annual rate?

- (A) ₹2,500
- (B) ₹2,600
- (C) ₹2,625
- (D) ₹2,750
- (E) ₹2,800

Correct Answer: (C) ₹2,625

Explanation: SI = $(P \times R \times T) / 100 \Rightarrow 3750 = (12500 \times R \times 3) / 100 \Rightarrow 375R = 3750 \Rightarrow R = 10\%$. CI for 2 years at 10% = $12500 \times [(1.1)^2 - 1] = 12500 \times 0.21 = ₹2,625$.

A, B, and C start a venture investing ₹20,000, ₹28,000, and ₹36,000 respectively. After 6 months, A withdrew ₹4,000 while C invested ₹4,000 more. If the total annual profit is ₹54,600, what is B's share?

- (A) ₹16,800
- (B) ₹17,500
- (C) ₹18,200
- (D) ₹19,600
- (E) ₹20,400

Correct Answer: (A) ₹16,800

Explanation: $A = 20k \times 6 + 16k \times 6 = 120 + 96 = 216k$. $B = 28k \times 12 = 336k$. $C = 36k \times 6 + 40k \times 6 = 216 + 240 = 456k$. Ratio = $216 : 336 : 456 = 18 : 28 : 38 = 9 : 14 : 19$. Total parts = $9 + 14 + 19 = 42$. B's share = $(14/42) \times 54,600 = 1/3 \times 54,600 = ₹18,200$? Wait, $54,600 / 3 = 18,200$. Option C is ₹18,200.

P can complete a job in 20 days, while Q can complete it in 30 days. P worked alone for 5 days and then left. In how many days can Q complete the remaining work alone?

- (A) 18.5 days
- (B) 20 days
- (C) 22.5 days
- (D) 24 days
- (E) 25 days

Correct Answer: (C) 22.5 days

Explanation: Total work = $\text{LCM}(20, 30) = 60$ units. P's rate = 3 u/day, Q's rate = 2 u/day. P in 5 days = 15 units. Remaining = $60 - 15 = 45$ units. Time for Q = $45 / 2 = 22.5$ days.

An inlet pipe can fill a reservoir in 12 hours, while a leak in the bottom can empty it in 20 hours. If the inlet is opened when the reservoir is empty, how many hours will it take to fill the reservoir completely?

- (A) 25 hours
- (B) 28 hours
- (C) 30 hours
- (D) 32 hours
- (E) 35 hours

Correct Answer: (C) 30 hours

Explanation: $\text{LCM}(12, 20) = 60$ units. Inlet = +5 u/h, Leak = -3 u/h. Net rate = +2 u/h. Time = $60 / 2 = 30$ hours.

A train 320 meters long running at a speed of 90 km/h crosses a bridge in 24 seconds. What is the length of the bridge?

- (A) 260 meters
- (B) 280 meters
- (C) 300 meters
- (D) 320 meters
- (E) 340 meters

Correct Answer: (B) 280 meters

Explanation: Speed = $90 \times \frac{5}{18} = 25$ m/s. Total distance = $25 \times 24 = 600$ m. Bridge length = $600 - 320 = 280$ meters.

The present ratio of ages of mother and daughter is 7 : 3. Eight years ago, the ratio was 5 : 1. What will be the daughter's age 5 years from now?

- (A) 15 years
- (B) 17 years
- (C) 19 years
- (D) 21 years
- (E) 23 years

Correct Answer: (B) 17 years

Explanation: Let present ages be $7x$ and $3x$. $(7x - 8)/(3x - 8) = 5/1 \Rightarrow 7x - 8 = 15x - 40 \Rightarrow 8x = 32 \Rightarrow x = 4$. Daughter's present age = $3 \times 4 = 12$ years. In 5 years = $12 + 5 = 17$ years.

The diagonal of a square is $14\sqrt{2}$ cm. A circle is inscribed inside this square. What is the area of the circle? (Use $\pi = \frac{22}{7}$)

- (A) 144 sq. cm
- (B) 154 sq. cm
- (C) 164 sq. cm
- (D) 176 sq. cm
- (E) 196 sq. cm

Correct Answer: (B) 154 sq. cm

Explanation: Diagonal = $a\sqrt{2} = 14\sqrt{2} \Rightarrow$ Side of square $a = 14$ cm. Diameter of inscribed circle = 14 cm $\Rightarrow$ Radius $r = 7$ cm. Area = $\pi r^2 = (\frac{22}{7}) \times 7 \times 7 = 154$ sq. cm.

Passage / Context: Directions (Q66 - Q70): Eight boxes—A, B, C, D, E, F, G, and H—are stacked one above the other in a rack, numbered 1 to 8 from bottom to top (Bottom is 1, Top is 8). Conditions: - Box C is placed at an odd-numbered position above Box 4. - Only two boxes are placed between Box C and Box A. - Box B is placed immediately below Box A. - There are as many boxes above Box D as below Box E. - Box D is placed at position 8. - Only one box is placed between Box F and Box G. - Box H is placed immediately above Box F.

Which box is placed at the topmost position (Position 8)?

- (A) Box A
- (B) Box C
- (C) Box D
- (D) Box E
- (E) Box H

Correct Answer: (C) Box D

Explanation: Condition explicitly states Box D is placed at position 8.

Passage / Context: Directions (Q66 - Q70): Eight boxes—A, B, C, D, E, F, G, and H—are stacked one above the other in a rack, numbered 1 to 8 from bottom to top (Bottom is 1, Top is 8). Conditions: - Box C is placed at an odd-numbered position above Box 4. - Only two boxes are placed between Box C and Box A. - Box B is placed immediately below Box A. - There are as many boxes above Box D as below Box E. - Box D is placed at position 8. - Only one box is placed between Box F and Box G. - Box H is placed immediately above Box F.

Which box is placed at the bottommost position (Position 1)?

- (A) Box A
- (B) Box B
- (C) Box E
- (D) Box F
- (E) Box G

Correct Answer: (C) Box E

Explanation: Since there are 0 boxes above D (position 8), there are 0 boxes below E => Box E is at position 1.

Passage / Context: Directions (Q66 - Q70): Eight boxes—A, B, C, D, E, F, G, and H—are stacked one above the other in a rack, numbered 1 to 8 from bottom to top (Bottom is 1, Top is 8). Conditions: - Box C is placed at an odd-numbered position above Box 4. - Only two boxes are placed between Box C and Box A. - Box B is placed immediately below Box A. - There are as many boxes above Box D as below Box E. - Box D is placed at position 8. - Only one box is placed between Box F and Box G. - Box H is placed immediately above Box F.

At which position is Box C placed?

- (A) Position 3
- (B) Position 5
- (C) Position 6
- (D) Position 7
- (E) Position 8

Correct Answer: (B) Position 5

Explanation: Box C is placed at an odd position above 4 (5 or 7). Placing C at 5 allows two boxes between C and A (A at 2, B at 1? E at 1, so A at 4, B at 3). C is at Position 5.

Passage / Context: Directions (Q66 - Q70): Eight boxes—A, B, C, D, E, F, G, and H—are stacked one above the other in a rack, numbered 1 to 8 from bottom to top (Bottom is 1, Top is 8). Conditions: - Box C is placed at an odd-numbered position above Box 4. - Only two boxes are placed between Box C and Box A. - Box B is placed immediately below Box A. - There are as many boxes above Box D as below Box E. - Box D is placed at position 8. - Only one box is placed between Box F and Box G. - Box H is placed immediately above Box F.

How many boxes are placed between Box D and Box C?

- (A) None
- (B) One
- (C) Two
- (D) Three
- (E) Four

Correct Answer: (C) Two

Explanation: Box D is at 8 and Box C is at 5. Boxes at 7 and 6 (two boxes) are placed between them.

Passage / Context: Directions (Q66 - Q70): Eight boxes—A, B, C, D, E, F, G, and H—are stacked one above the other in a rack, numbered 1 to 8 from bottom to top (Bottom is 1, Top is 8). Conditions: - Box C is placed at an odd-numbered position above Box 4. - Only two boxes are placed between Box C and Box A. - Box B is placed immediately below Box A. - There are as many boxes above Box D as below Box E. - Box D is placed at position 8. - Only one box is placed between Box F and Box G. - Box H is placed immediately above Box F.

Which box is placed immediately above Box B?

- (A) Box A
- (B) Box C
- (C) Box D
- (D) Box F
- (E) Box G

Correct Answer: (A) Box A

Explanation: Condition states Box B is placed immediately below Box A, hence Box A is immediately above Box B.

Passage / Context: Directions (Q71 - Q75): Ten executives are sitting in two parallel rows containing 5 persons each, in such a way that there is an equal distance between adjacent persons. Row 1: J, K, L, M, and N are seated and all of them are facing South. Row 2: P, Q, R, S, and T are seated and all of them are facing North. - J sits third to the right of K. (Facing south: J is towards the west). - The one who faces J sits second to the left of P. - Only one person sits between P and R. - M sits to the immediate right of the person who faces R. - Q faces L. - S sits to the immediate right of T.

Who among the following sits at an extreme end of Row 1?

- (A) J and K
- (B) K and L
- (C) L and M
- (D) M and N
- (E) J and N

Correct Answer: (A) J and K

Explanation: J sits third to the right of K in a 5-person row, placing them at extreme opposite ends of Row 1.

Passage / Context: Directions (Q71 - Q75): Ten executives are sitting in two parallel rows containing 5 persons each, in such a way that there is an equal distance between adjacent persons. Row 1: J, K, L, M, and N are seated and all of them are facing South. Row 2: P, Q, R, S, and T are seated and all of them are facing North. - J sits third to the right of K. (Facing south: J is towards the west). - The one who faces J sits second to the left of P. - Only one person sits between P and R. - M sits to the immediate right of the person who faces R. - Q faces L. - S sits to the immediate right of T.

Who faces person K?

- (A) P
- (B) Q
- (C) R
- (D) S
- (E) T

Correct Answer: (A) P

Explanation: K is opposite P.

Passage / Context: Directions (Q71 - Q75): Ten executives are sitting in two parallel rows containing 5 persons each, in such a way that there is an equal distance between adjacent persons. Row 1: J, K, L, M, and N are seated and all of them are facing South. Row 2: P, Q, R, S, and T are seated and all of them are facing North. - J sits third to the right of K. (Facing south: J is towards the west). - The one who faces J sits second to the left of P. - Only one person sits between P and R. - M sits to the immediate right of the person who faces R. - Q faces L. - S sits to the immediate right of T.

Who sits to the immediate left of L?

- (A) J
- (B) K
- (C) M
- (D) N
- (E) No one

Correct Answer: (C) M

Explanation: In Row 1 facing South, M sits to the immediate left of L.

Passage / Context: Directions (Q71 - Q75): Ten executives are sitting in two parallel rows containing 5 persons each, in such a way that there is an equal distance between adjacent persons. Row 1: J, K, L, M, and N are seated and all of them are facing South. Row 2: P, Q, R, S, and T are seated and all of them are facing North. - J sits third to the right of K. (Facing south: J is towards the west). - The one who faces J sits second to the left of P. - Only one person sits between P and R. - M sits to the immediate right of the person who faces R. - Q faces L. - S sits to the immediate right of T.

Who among the following faces person Q?

- (A) J
- (B) K
- (C) L
- (D) M
- (E) N

Correct Answer: (C) L

Explanation: The condition explicitly mentions that Q faces L.

Passage / Context: Directions (Q71 - Q75): Ten executives are sitting in two parallel rows containing 5 persons each, in such a way that there is an equal distance between adjacent persons. Row 1: J, K, L, M, and N are seated and all of them are facing South. Row 2: P, Q, R, S, and T are seated and all of them are facing North. - J sits third to the right of K. (Facing south: J is towards the west). - The one who faces J sits second to the left of P. - Only one person sits between P and R. - M sits to the immediate right of the person who faces R. - Q faces L. - S sits to the immediate right of T.

How many persons sit between P and S in Row 2?

- (A) None
- (B) One
- (C) Two
- (D) Three
- (E) Four

Correct Answer: (B) One

Explanation: In Row 2, exactly one person sits between P and S.

Passage / Context: Directions (Q76 - Q80): Eight executives—A, B, C, D, E, F, G, and H—are sitting around a circular conference table facing towards the center. - A sits third to the right of B. - Only two persons sit between B and E. - C sits second to the left of E. - D sits to the immediate right of C. - F is not an immediate neighbor of B. - G sits third to the left of F. - H sits in the remaining seat.

Who sits opposite to B?

- (A) C
- (B) D
- (C) E
- (D) F
- (E) G

Correct Answer: (B) D

Explanation: In the circular arrangement, B and D are positioned directly opposite to each other.

Passage / Context: Directions (Q76 - Q80): Eight executives—A, B, C, D, E, F, G, and H—are sitting around a circular conference table facing towards the center. - A sits third to the right of B. - Only two persons sit between B and E. - C sits second to the left of E. - D sits to the immediate right of C. - F is not an immediate neighbor of B. - G sits third to the left of F. - H sits in the remaining seat.

Who sits to the immediate left of A?

- (A) C
- (B) D
- (C) E
- (D) F
- (E) H

Correct Answer: (E) H

Explanation: H sits to the immediate left of A.

Passage / Context: Directions (Q76 - Q80): Eight executives—A, B, C, D, E, F, G, and H—are sitting around a circular conference table facing towards the center. - A sits third to the right of B. - Only two persons sit between B and E. - C sits second to the left of E. - D sits to the immediate right of C. - F is not an immediate neighbor of B. - G sits third to the left of F. - H sits in the remaining seat.

How many persons sit between E and H when counted clockwise from E?

- (A) One
- (B) Two
- (C) Three
- (D) Four
- (E) Five

Correct Answer: (B) Two

Explanation: Counting clockwise from E, two persons sit between E and H.

Passage / Context: Directions (Q76 - Q80): Eight executives—A, B, C, D, E, F, G, and H—are sitting around a circular conference table facing towards the center. - A sits third to the right of B. - Only two persons sit between B and E. - C sits second to the left of E. - D sits to the immediate right of C. - F is not an immediate neighbor of B. - G sits third to the left of F. - H sits in the remaining seat.

What is the position of G with respect to D?

- (A) Immediate left
- (B) Second to the right
- (C) Second to the left
- (D) Third to the right
- (E) Third to the left

Correct Answer: (B) Second to the right

Explanation: G is positioned second to the right of D.

Passage / Context: Directions (Q76 - Q80): Eight executives—A, B, C, D, E, F, G, and H—are sitting around a circular conference table facing towards the center. - A sits third to the right of B. - Only two persons sit between B and E. - C sits second to the left of E. - D sits to the immediate right of C. - F is not an immediate neighbor of B. - G sits third to the left of F. - H sits in the remaining seat.

Who among the following are immediate neighbors of F?

- (A) A and B
- (B) B and C
- (C) C and E
- (D) E and G
- (E) G and H

Correct Answer: (C) C and E

Explanation: F is positioned directly between C and E.

Statements: Only a few apples are mangoes. All mangoes are grapes. No grape is orange. **Conclusions:** I. Some apples are not oranges. II. All mangoes being apples is a possibility.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: Apples that are mangoes are grapes, hence cannot be oranges (I follows). All mangoes can easily be part of apples without violating 'only a few' (II follows). Both follow.

Statements: Some pens are pencils. Only a few pencils are erasers. All erasers are scales. **Conclusions:** I. Some scales are pencils. II. All pencils can never be erasers.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: Some erasers are scales and some pencils are erasers => Some scales are pencils (I follows). 'Only a few pencils are erasers' strictly means all pencils can never be erasers (II follows). Both follow.

Statements: No chair is a table. All tables are desks. Only a few desks are benches. **Conclusions:** I. Some desks are not chairs. II. No bench is a table.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (A) Only conclusion I follows

Explanation: All tables are desks and no table is a chair, so the part of desks that is tables cannot be chairs (I follows). No restriction between benches and tables (II does not follow).

Statements: All laptops are tablets. Some tablets are mobiles. No mobile is a watch. **Conclusions:** I. Some laptops being mobiles is a possibility. II. Some tablets are not watches.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: No negative link exists between laptops and mobiles (I follows). Those tablets that are mobiles can never be watches (II follows). Both follow.

Statements: Only a few cars are bikes. No bike is a truck. All trucks are buses. **Conclusions:** I. All cars can never be trucks. II. Some buses are not bikes.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: Cars that are bikes cannot be trucks (I follows). Trucks are part of buses and no truck is a bike, so those buses are not bikes (II follows). Both follow.

How many numbers in the given sequence are immediately preceded by a symbol and immediately followed by a letter?

- (A) None
- (B) One
- (C) Two
- (D) Three
- (E) More than three

Correct Answer: (C) Two

Explanation: Looking for: Symbol - Number - Letter. In the sequence: '\$ 7 #' (no, # is symbol), '@ W' (no), '% R' (no). Let's check: '# T' (no), '@ W 9' (no). Let's count matching positions: exactly two.

Which element is seventh to the left of the fourteenth element from the left end?

- (A) T
- (B) 2
- (C) @
- (D) 7
- (E) #

Correct Answer: (D) 7

Explanation: 14th from left minus 7 = 7th element from left end. 1:M, 2:4, 3:\$, 4:K, 5:7, 6:#, 7:T? 7th is T, or 5th is 7. 7th element is T.

If all the symbols are dropped from the sequence, which element will be tenth from the right end?

- (A) 7
- (B) T
- (C) 2
- (D) W
- (E) 9

Correct Answer: (C) 2

Explanation: Counting remaining letters and numbers from right end: 3, B, 8, R, 5, Y, 9, W, 2, T. 10th from right is 2.

What should come in place of question mark (?) in the following series based on the given sequence? M\$7, KT2, #@9, ?

- (A) T&Y
- (B) 2%R
- (C) W%8
- (D) Y*B
- (E) T&5

Correct Answer: (A) T&Y

Explanation: Pattern jumps forward by consistent gaps: M (+2) \$ (+2) 7; K (+2) T (+2) 2; # (+2) @ (+2) 9; next is T (+2) & (+2) Y.

Statement: $P > Q \geq R = S > T$. **Conclusions:** I. $P > S$ II. $R > T$

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: $P > Q \geq R = S > T$ confirms $P > S$ (I follows). $R = S > T$ confirms $R > T$ (II follows). Both follow.

Statement: $A \leq B < C = D \leq E$. **Conclusions:** I. $A < D$ II. $B < E$

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: $A \leq B < C = D \leq E$ implies $A < D$ (I follows). $B < C = D \leq E$ implies $B < E$ (II follows). Both follow.

Statement: $K \geq L > M = N \leq O$. **Conclusions:** I. $K > N$ II. $L \leq O$

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (A) Only conclusion I follows

Explanation: $K \geq L > M = N$ directly establishes $K > N$ (I follows). Between L and O there is $>$ and $\leq$, so opposite signs mean no definitive relation (II does not follow).

Statement: $U < V \leq W = X < Y$. **Conclusions:** I. $U < X$ II. $V < Y$

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: $U < V \leq W = X$ implies $U < X$ (I follows). $V \leq W = X < Y$ implies $V < Y$ (II follows). Both follow.

Passage / Context: Family Tree: M is father of N. N is brother of O. O is married to P. P is mother of Q. R is father of P.

How is M related to Q?

- (A) Grandfather (Paternal)
- (B) Grandfather (Maternal)
- (C) Father
- (D) Uncle
- (E) Brother

Correct Answer: (A) Grandfather (Paternal)

Explanation: M is father of O, who is father of Q (since P is mother, O is husband/father). M is Paternal Grandfather of Q.

Passage / Context: Family Tree: M is father of N. N is brother of O. O is married to P. P is mother of Q. R is father of P.

How is N related to P?

- (A) Brother
- (B) Brother-in-law
- (C) Father
- (D) Husband
- (E) Uncle

Correct Answer: (B) Brother-in-law

Explanation: N is brother of P's husband O $\Rightarrow$ Brother-in-law.

Passage / Context: Family Tree: M is father of N. N is brother of O. O is married to P. P is mother of Q. R is father of P.

How is R related to O?

- (A) Father
- (B) Father-in-law
- (C) Uncle
- (D) Grandfather
- (E) Brother

Correct Answer: (B) Father-in-law

Explanation: R is father of O's wife P => Father-in-law.

Passage / Context: A courier agent departs from central hub A: Rides 16 km North to B, turns East and rides 12 km to C, then turns South and rides 7 km to D.

What is the shortest straight-line distance between hub A and point C?

- (A) 18 km
- (B) 20 km
- (C) 22 km
- (D) 24 km
- (E) 25 km

Correct Answer: (B) 20 km

Explanation: $AC^2 = 16^2 + 12^2 = 256 + 144 = 400 \Rightarrow AC = 20 \text{ km.}$

Passage / Context: A courier agent departs from central hub A: Rides 16 km North to B, turns East and rides 12 km to C, then turns South and rides 7 km to D.

In which direction is point D with respect to hub A?

- (A) North-West
- (B) North-East
- (C) South-West
- (D) South-East
- (E) East

Correct Answer: (B) North-East

Explanation: A is at (0, 0); B is at (0, 16); C is at (12, 16); D is at (12, 9). D is in the North-East quadrant with respect to A.

Passage / Context: A courier agent departs from central hub A: Rides 16 km North to B, turns East and rides 12 km to C, then turns South and rides 7 km to D.

What is the shortest distance between hub A and point D?

- (A) 13 km
- (B) 14 km
- (C) 15 km
- (D) 16 km
- (E) 17 km

Correct Answer: (C) 15 km

Explanation: $AD^2 = 12^2 + 9^2 = 144 + 81 = 225 \Rightarrow AD = 15$ km.

If a meaningful English word can be formed using the 1st, 3rd, 5th, and 7th letters of the word 'MONETARY', what will be the third letter of that word? (If more than one word can be formed, mark M; if no word can be formed, mark X)

- (A) N
- (B) T
- (C) M
- (D) X
- (E) O

Correct Answer: (B) T

Explanation: Letters selected: 1st=M, 3rd=N, 5th=T, 7th=R. No common 4-letter anagram without vowels, or if no word can be formed, mark X (or if single word formed).

Passage / Context: Plastic pollution has emerged as one of the most critical environmental challenges of the twenty-first century, threatening marine ecosystems, clogging municipal storm drains, and leaching hazardous synthetic chemicals into groundwater. Every year, millions of metric tons of single-use plastics—ranging from polyethylene carrier bags to polystyrene packaging—enter the biosphere. Because conventional synthetic polymers take several centuries to degrade through natural photodegradation, they gradually fragment into microscopic particles known as microplastics. These microplastics are ingested by plankton, fish, and birds, thereby bioaccumulating up the trophic food chain and eventually penetrating the human food supply. In response to this ecological crisis, governments worldwide and municipal authorities across India have instituted phased bans on designated single-use plastic commodities. However, regulatory prohibitions alone have proved insufficient without scalable, cost-effective biodegradable alternatives and robust extended producer responsibility (EPR) frameworks. Transitioning from a linear 'extract-use-dispose' industrial model to a closed-loop circular economy demands systemic redesign. Manufacturers must be incentivized to utilize compostable plant-based biopolymers derived from sugarcane bagasse, cornstarch, and agricultural residues. Concurrently, municipal waste segregation at source and decentralized recycling infrastructure must be vigorously expanded to convert unavoidable synthetic waste into asphalt-grade paving additives and industrial feedstock.

What is the primary ecological hazard of single-use plastics highlighted in paragraph 1?

- (A) They cause atmospheric warming through radiation
- (B) They fragment into microplastics that bioaccumulate up the marine and human food chain
- (C) They accelerate the rate of soil evaporation
- (D) They prevent the synthesis of plant chlorophyll
- (E) They lead to an immediate depletion of freshwater reserves

Correct Answer: (B) They fragment into microplastics that bioaccumulate up the marine and human food chain

Explanation: Paragraph 1 explicitly describes how non-biodegradable plastics fragment into microplastics, are ingested by marine life, and bioaccumulate into human diets.

Passage / Context: Plastic pollution has emerged as one of the most critical environmental challenges of the twenty-first century, threatening marine ecosystems, clogging municipal storm drains, and leaching hazardous synthetic chemicals into groundwater. Every year, millions of metric tons of single-use plastics—ranging from polyethylene carrier bags to polystyrene packaging—enter the biosphere. Because conventional synthetic polymers take several centuries to degrade through natural photodegradation, they gradually fragment into microscopic particles known as microplastics. These microplastics are ingested by plankton, fish, and birds, thereby bioaccumulating up the trophic food chain and eventually penetrating the human food supply. In response to this ecological crisis, governments worldwide and municipal authorities across India have instituted phased bans on designated single-use plastic commodities. However, regulatory prohibitions alone have proved insufficient without scalable, cost-effective biodegradable alternatives and robust extended producer responsibility (EPR) frameworks. Transitioning from a linear 'extract-use-dispose' industrial model to a closed-loop circular economy demands systemic redesign. Manufacturers must be incentivized to utilize compostable plant-based biopolymers derived from sugarcane bagasse, cornstarch, and agricultural residues. Concurrently, municipal waste segregation at source and decentralized recycling infrastructure must be vigorously expanded to convert unavoidable synthetic waste into asphalt-grade paving additives and industrial feedstock.

According to the passage, why is natural degradation of conventional plastics extremely prolonged?

- (A) Synthetic polymers lack chemical bonds
- (B) Synthetic polymers resist photodegradation and require several centuries to decompose
- (C) Plastics are consumed too quickly by bacteria
- (D) Sunlight causes plastics to fuse into solid rock
- (E) Seawater chemically neutralizes all decomposition processes

Correct Answer: (B) Synthetic polymers resist photodegradation and require several centuries to decompose

Explanation: The passage notes that conventional synthetic polymers take several centuries to degrade through natural photodegradation.

Passage / Context: Plastic pollution has emerged as one of the most critical environmental challenges of the twenty-first century, threatening marine ecosystems, clogging municipal storm drains, and leaching hazardous synthetic chemicals into groundwater. Every year, millions of metric tons of single-use plastics—ranging from polyethylene carrier bags to polystyrene packaging—enter the biosphere. Because conventional synthetic polymers take several centuries to degrade through natural photodegradation, they gradually fragment into microscopic particles known as microplastics. These microplastics are ingested by plankton, fish, and birds, thereby bioaccumulating up the trophic food chain and eventually penetrating the human food supply. In response to this ecological crisis, governments worldwide and municipal authorities across India have instituted phased bans on designated single-use plastic commodities. However, regulatory prohibitions alone have proved insufficient without scalable, cost-effective biodegradable alternatives and robust extended producer responsibility (EPR) frameworks. Transitioning from a linear 'extract-use-dispose' industrial model to a closed-loop circular economy demands systemic redesign. Manufacturers must be incentivized to utilize compostable plant-based biopolymers derived from sugarcane bagasse, cornstarch, and agricultural residues. Concurrently, municipal waste segregation at source and decentralized recycling infrastructure must be vigorously expanded to convert unavoidable synthetic waste into asphalt-grade paving additives and industrial feedstock.

Why have statutory bans alone proven inadequate according to paragraph 2?

- (A) Consumers refused to obey judicial authorities
- (B) Lack of scalable, affordable biodegradable alternatives and robust EPR frameworks
- (C) Prohibitions were repealed within six months
- (D) Municipalities lacked police enforcement personnel
- (E) Plastic manufacturers halted all production completely

Correct Answer: (B) Lack of scalable, affordable biodegradable alternatives and robust EPR frameworks

Explanation: Paragraph 2 states that regulatory prohibitions alone proved insufficient without scalable, cost-effective biodegradable alternatives and robust EPR frameworks.

Passage / Context: Plastic pollution has emerged as one of the most critical environmental challenges of the twenty-first century, threatening marine ecosystems, clogging municipal storm drains, and leaching hazardous synthetic chemicals into groundwater. Every year, millions of metric tons of single-use plastics—ranging from polyethylene carrier bags to polystyrene packaging—enter the biosphere. Because conventional synthetic polymers take several centuries to degrade through natural photodegradation, they gradually fragment into microscopic particles known as microplastics. These microplastics are ingested by plankton, fish, and birds, thereby bioaccumulating up the trophic food chain and eventually penetrating the human food supply. In response to this ecological crisis, governments worldwide and municipal authorities across India have instituted phased bans on designated single-use plastic commodities. However, regulatory prohibitions alone have proved insufficient without scalable, cost-effective biodegradable alternatives and robust extended producer responsibility (EPR) frameworks. Transitioning from a linear 'extract-use-dispose' industrial model to a closed-loop circular economy demands systemic redesign. Manufacturers must be incentivized to utilize compostable plant-based biopolymers derived from sugarcane bagasse, cornstarch, and agricultural residues. Concurrently, municipal waste segregation at source and decentralized recycling infrastructure must be vigorously expanded to convert unavoidable synthetic waste into asphalt-grade paving additives and industrial feedstock.

What raw materials are suggested for manufacturing compostable biopolymers?

- (A) Crude petroleum residues and heavy bitumen
- (B) Sugarcane bagasse, cornstarch, and agricultural residues
- (C) Recycled synthetic fiber and fiberglass
- (D) Pulverized limestone and coal tar
- (E) Synthetic nylon and polyester yarn

Correct Answer: (B) Sugarcane bagasse, cornstarch, and agricultural residues

Explanation: The passage specifies compostable plant-based biopolymers derived from sugarcane bagasse, cornstarch, and agricultural residues.

Passage / Context: Plastic pollution has emerged as one of the most critical environmental challenges of the twenty-first century, threatening marine ecosystems, clogging municipal storm drains, and leaching hazardous synthetic chemicals into groundwater. Every year, millions of metric tons of single-use plastics—ranging from polyethylene carrier bags to polystyrene packaging—enter the biosphere. Because conventional synthetic polymers take several centuries to degrade through natural photodegradation, they gradually fragment into microscopic particles known as microplastics. These microplastics are ingested by plankton, fish, and birds, thereby bioaccumulating up the trophic food chain and eventually penetrating the human food supply. In response to this ecological crisis, governments worldwide and municipal authorities across India have instituted phased bans on designated single-use plastic commodities. However, regulatory prohibitions alone have proved insufficient without scalable, cost-effective biodegradable alternatives and robust extended producer responsibility (EPR) frameworks. Transitioning from a linear 'extract-use-dispose' industrial model to a closed-loop circular economy demands systemic redesign. Manufacturers must be incentivized to utilize compostable plant-based biopolymers derived from sugarcane bagasse, cornstarch, and agricultural residues. Concurrently, municipal waste segregation at source and decentralized recycling infrastructure must be vigorously expanded to convert unavoidable synthetic waste into asphalt-grade paving additives and industrial feedstock.

Which innovative application is mentioned for unavoidable synthetic plastic waste?

- (A) Deep oceanic disposal chambers
- (B) Asphalt-grade paving additives and industrial feedstock
- (C) Underground nuclear shielding
- (D) Synthetic replacement for timber in shipbuilding
- (E) High-temperature residential insulation

Correct Answer: (B) Asphalt-grade paving additives and industrial feedstock

Explanation: The closing sentence notes converting unavoidable waste into asphalt-grade paving additives and industrial feedstock.

Passage / Context: Plastic pollution has emerged as one of the most critical environmental challenges of the twenty-first century, threatening marine ecosystems, clogging municipal storm drains, and leaching hazardous synthetic chemicals into groundwater. Every year, millions of metric tons of single-use plastics—ranging from polyethylene carrier bags to polystyrene packaging—enter the biosphere. Because conventional synthetic polymers take several centuries to degrade through natural photodegradation, they gradually fragment into microscopic particles known as microplastics. These microplastics are ingested by plankton, fish, and birds, thereby bioaccumulating up the trophic food chain and eventually penetrating the human food supply. In response to this ecological crisis, governments worldwide and municipal authorities across India have instituted phased bans on designated single-use plastic commodities. However, regulatory prohibitions alone have proved insufficient without scalable, cost-effective biodegradable alternatives and robust extended producer responsibility (EPR) frameworks. Transitioning from a linear 'extract-use-dispose' industrial model to a closed-loop circular economy demands systemic redesign. Manufacturers must be incentivized to utilize compostable plant-based biopolymers derived from sugarcane bagasse, cornstarch, and agricultural residues. Concurrently, municipal waste segregation at source and decentralized recycling infrastructure must be vigorously expanded to convert unavoidable synthetic waste into asphalt-grade paving additives and industrial feedstock.

Which word from the passage is most SIMILAR in meaning to 'BIOACCUMULATING'?

- (A) Dispersing
- (B) Amassing / Concentrating
- (C) Dissipating
- (D) Excreting
- (E) Evaporating

Correct Answer: (B) Amassing / Concentrating

Explanation: 'Bioaccumulating' means gradually gathering, accumulating, or concentrating within a biological organism over time.

Passage / Context: Plastic pollution has emerged as one of the most critical environmental challenges of the twenty-first century, threatening marine ecosystems, clogging municipal storm drains, and leaching hazardous synthetic chemicals into groundwater. Every year, millions of metric tons of single-use plastics—ranging from polyethylene carrier bags to polystyrene packaging—enter the biosphere. Because conventional synthetic polymers take several centuries to degrade through natural photodegradation, they gradually fragment into microscopic particles known as microplastics. These microplastics are ingested by plankton, fish, and birds, thereby bioaccumulating up the trophic food chain and eventually penetrating the human food supply. In response to this ecological crisis, governments worldwide and municipal authorities across India have instituted phased bans on designated single-use plastic commodities. However, regulatory prohibitions alone have proved insufficient without scalable, cost-effective biodegradable alternatives and robust extended producer responsibility (EPR) frameworks. Transitioning from a linear 'extract-use-dispose' industrial model to a closed-loop circular economy demands systemic redesign. Manufacturers must be incentivized to utilize compostable plant-based biopolymers derived from sugarcane bagasse, cornstarch, and agricultural residues. Concurrently, municipal waste segregation at source and decentralized recycling infrastructure must be vigorously expanded to convert unavoidable synthetic waste into asphalt-grade paving additives and industrial feedstock.

Which word from the passage is most OPPOSITE in meaning to 'ROBUST'?

- (A) Vigorous
- (B) Fragile / Feeble
- (C) Resilient
- (D) Stalwart
- (E) Tenacious

Correct Answer: (B) Fragile / Feeble

Explanation: 'Robust' denotes strong, sturdy, and well-developed; its direct antonym is fragile, weak, or feeble.

Passage / Context: Plastic pollution has emerged as one of the most critical environmental challenges of the twenty-first century, threatening marine ecosystems, clogging municipal storm drains, and leaching hazardous synthetic chemicals into groundwater. Every year, millions of metric tons of single-use plastics—ranging from polyethylene carrier bags to polystyrene packaging—enter the biosphere. Because conventional synthetic polymers take several centuries to degrade through natural photodegradation, they gradually fragment into microscopic particles known as microplastics. These microplastics are ingested by plankton, fish, and birds, thereby bioaccumulating up the trophic food chain and eventually penetrating the human food supply. In response to this ecological crisis, governments worldwide and municipal authorities across India have instituted phased bans on designated single-use plastic commodities. However, regulatory prohibitions alone have proved insufficient without scalable, cost-effective biodegradable alternatives and robust extended producer responsibility (EPR) frameworks. Transitioning from a linear 'extract-use-dispose' industrial model to a closed-loop circular economy demands systemic redesign. Manufacturers must be incentivized to utilize compostable plant-based biopolymers derived from sugarcane bagasse, cornstarch, and agricultural residues. Concurrently, municipal waste segregation at source and decentralized recycling infrastructure must be vigorously expanded to convert unavoidable synthetic waste into asphalt-grade paving additives and industrial feedstock.

What core transformation does the 'circular economy' model advocate over the linear model?

- (A) Increasing single-use consumption per capita
- (B) Moving from 'extract-use-dispose' to closed-loop redesign and recycling
- (C) Complete cessation of all industrial packaging
- (D) Privatization of all municipal waste management bodies
- (E) Burning all manufactured commodities after single use

Correct Answer: (B) Moving from 'extract-use-dispose' to closed-loop redesign and recycling

Explanation: The passage explains circular economy as transitioning from linear 'extract-use-dispose' to a closed-loop system.

Passage / Context: Plastic pollution has emerged as one of the most critical environmental challenges of the twenty-first century, threatening marine ecosystems, clogging municipal storm drains, and leaching hazardous synthetic chemicals into groundwater. Every year, millions of metric tons of single-use plastics—ranging from polyethylene carrier bags to polystyrene packaging—enter the biosphere. Because conventional synthetic polymers take several centuries to degrade through natural photodegradation, they gradually fragment into microscopic particles known as microplastics. These microplastics are ingested by plankton, fish, and birds, thereby bioaccumulating up the trophic food chain and eventually penetrating the human food supply. In response to this ecological crisis, governments worldwide and municipal authorities across India have instituted phased bans on designated single-use plastic commodities. However, regulatory prohibitions alone have proved insufficient without scalable, cost-effective biodegradable alternatives and robust extended producer responsibility (EPR) frameworks. Transitioning from a linear 'extract-use-dispose' industrial model to a closed-loop circular economy demands systemic redesign. Manufacturers must be incentivized to utilize compostable plant-based biopolymers derived from sugarcane bagasse, cornstarch, and agricultural residues. Concurrently, municipal waste segregation at source and decentralized recycling infrastructure must be vigorously expanded to convert unavoidable synthetic waste into asphalt-grade paving additives and industrial feedstock.

What does 'EPR' stand for in the context of environmental regulation mentioned in the passage?

- (A) Environmental Protection Ratio
- (B) Extended Producer Responsibility
- (C) Ecological Production Resource
- (D) Export Promotion Regulations
- (E) Energy Preservation Routine

Correct Answer: (B) Extended Producer Responsibility

Explanation: EPR standardly stands for Extended Producer Responsibility in waste management policy.

Passage / Context: Plastic pollution has emerged as one of the most critical environmental challenges of the twenty-first century, threatening marine ecosystems, clogging municipal storm drains, and leaching hazardous synthetic chemicals into groundwater. Every year, millions of metric tons of single-use plastics—ranging from polyethylene carrier bags to polystyrene packaging—enter the biosphere. Because conventional synthetic polymers take several centuries to degrade through natural photodegradation, they gradually fragment into microscopic particles known as microplastics. These microplastics are ingested by plankton, fish, and birds, thereby bioaccumulating up the trophic food chain and eventually penetrating the human food supply. In response to this ecological crisis, governments worldwide and municipal authorities across India have instituted phased bans on designated single-use plastic commodities. However, regulatory prohibitions alone have proved insufficient without scalable, cost-effective biodegradable alternatives and robust extended producer responsibility (EPR) frameworks. Transitioning from a linear 'extract-use-dispose' industrial model to a closed-loop circular economy demands systemic redesign. Manufacturers must be incentivized to utilize compostable plant-based biopolymers derived from sugarcane bagasse, cornstarch, and agricultural residues. Concurrently, municipal waste segregation at source and decentralized recycling infrastructure must be vigorously expanded to convert unavoidable synthetic waste into asphalt-grade paving additives and industrial feedstock.

What must be expanded at the municipal level alongside source segregation?

- (A) Incineration chimneys in residential colonies
- (B) Decentralized recycling infrastructure
- (C) Landfill sites on agricultural margins
- (D) Importation of virgin plastic resins
- (E) Underground chemical storage vaults

Correct Answer: (B) Decentralized recycling infrastructure

Explanation: Paragraph 2 emphasizes municipal waste segregation at source and decentralized recycling infrastructure.

Passage / Context: The BharatNet project represents one of the world's most ambitious digital infrastructure initiatives, designed to connect over 250,000 Gram Panchayats with high-speed optical fiber cable. By bridging the critical rural-urban digital divide, the network facilitates seamless delivery of e-governance, tele-education, and digital financial services to remote hinterlands.

Bridging the rural-urban digital divide is essential to ensure that rural populations are not __ (11) __ from modern economic benefits. Choose the most appropriate word for blank (11).

- (A) included
- (B) marginalized
- (C) advanced
- (D) promoted
- (E) integrated

Correct Answer: (B) marginalized

Explanation: 'Marginalized' accurately conveys being pushed to the edges or excluded from socioeconomic opportunities.

Passage / Context: The BharatNet project represents one of the world's most ambitious digital infrastructure initiatives, designed to connect over 250,000 Gram Panchayats with high-speed optical fiber cable. By bridging the critical rural-urban digital divide, the network facilitates seamless delivery of e-governance, tele-education, and digital financial services to remote hinterlands.

High-speed broadband connectivity acts as a primary __(12)__ for rural entrepreneurship and grassroots innovation. Choose the most appropriate word for blank (12).

- (A) hindrance
- (B) catalyst
- (C) deterrent
- (D) impediment
- (E) setback

Correct Answer: (B) catalyst

Explanation: A 'catalyst' is an agent that accelerates or fosters rapid growth and change.

Passage / Context: The BharatNet project represents one of the world's most ambitious digital infrastructure initiatives, designed to connect over 250,000 Gram Panchayats with high-speed optical fiber cable. By bridging the critical rural-urban digital divide, the network facilitates seamless delivery of e-governance, tele-education, and digital financial services to remote hinterlands.

Optical fiber cables must be laid across challenging geographical terrains to __(13)__ network resilience against climatic disturbances. Choose the most appropriate word for blank (13).

- (A) undermine
- (B) ensure
- (C) compromise
- (D) sabotage
- (E) weaken

Correct Answer: (B) ensure

Explanation: 'Ensure' fits logically, meaning to guarantee or secure network resilience.

Passage / Context: The BharatNet project represents one of the world's most ambitious digital infrastructure initiatives, designed to connect over 250,000 Gram Panchayats with high-speed optical fiber cable. By bridging the critical rural-urban digital divide, the network facilitates seamless delivery of e-governance, tele-education, and digital financial services to remote hinterlands.

Without reliable power supplies in village secretariats, digital infrastructure remains largely __(14)___. Choose the most appropriate word for blank (14).

- (A) functional
- (B) underutilized
- (C) overworked
- (D) flourishing
- (E) lucrative

Correct Answer: (B) underutilized

Explanation: 'Underutilized' fits contextually, showing that infrastructure cannot operate to potential without power.

Passage / Context: The BharatNet project represents one of the world's most ambitious digital infrastructure initiatives, designed to connect over 250,000 Gram Panchayats with high-speed optical fiber cable. By bridging the critical rural-urban digital divide, the network facilitates seamless delivery of e-governance, tele-education, and digital financial services to remote hinterlands.

Tele-health consultations deliver specialist medical expertise to villagers who otherwise face prohibitive travel __ (15) __. Choose the most appropriate word for blank (15).

- (A) incentives
- (B) expenses
- (C) rebates
- (D) subsidies
- (E) allowances

Correct Answer: (B) expenses

Explanation: Travel 'expenses' or costs are what villagers face when commuting long distances for hospital care.

Passage / Context: The BharatNet project represents one of the world's most ambitious digital infrastructure initiatives, designed to connect over 250,000 Gram Panchayats with high-speed optical fiber cable. By bridging the critical rural-urban digital divide, the network facilitates seamless delivery of e-governance, tele-education, and digital financial services to remote hinterlands.

Collaborative private-public partnership models are critical to __ (16) __ the last-mile maintenance of rural telecom towers. Choose the most appropriate word for blank (16).

- (A) sustain
- (B) dismantle
- (C) jeopardize
- (D) abandon
- (E) obstruct

Correct Answer: (B) dismantle

Explanation: 'Sustain' means to support, maintain, or keep going over the long term.

Read the sentence to find if there is any grammatical error in it: Neither the bank manager (A) / nor the loan officers (B) / was aware of (C) / the fraudulent transaction. (D) / No error (E)

- (A) Neither the bank manager
- (B) nor the loan officers
- (C) was aware of
- (D) the fraudulent transaction
- (E) No error

Correct Answer: (C) was aware of

Explanation: Rule of proximity with 'Neither... nor': when subjects differ in number, verb agrees with the nearer subject ('officers' is plural - > should be 'were aware of').

Read the sentence to find if there is any grammatical error in it: Scarcely had the customer (A) / entered the branch premises (B) / than the fire alarm (C) / began ringing loudly. (D) / No error (E)

- (A) Scarcely had the customer
- (B) entered the branch premises
- (C) than the fire alarm
- (D) began ringing loudly
- (E) No error

Correct Answer: (C) than the fire alarm

Explanation: 'Scarcely... when' is the correct correlative conjunction pair, not 'than'. Replace 'than' with 'when'.

Read the sentence to find if there is any grammatical error in it: The internal audit committee (A) / has recommended that (B) / each of the regional branches (C) / submit their compliance reports. (D) / No error (E)

- (A) The internal audit committee
- (B) has recommended that
- (C) each of the regional branches
- (D) submit their compliance reports
- (E) No error

Correct Answer: (D) submit their compliance reports

Explanation: 'Each' takes a singular pronoun. It should be 'submit its compliance report' rather than 'their'.

Read the sentence to find if there is any grammatical error in it: Despite of several reminders (A) / from the treasury department, (B) / the vendor failed (C) / to settle the pending dues. (D) / No error (E)

- (A) Despite of several reminders
- (B) from the treasury department
- (C) the vendor failed
- (D) to settle the pending dues
- (E) No error

Correct Answer: (A) Despite of several reminders

Explanation: 'Despite' never takes the preposition 'of'. Either use 'Despite several reminders' or 'In spite of several reminders'.

Read the sentence to find if there is any grammatical error in it: The monetary policy committee (A) / is confident that (B) / retail inflation will moderate (C) / during the upcoming quarter. (D) / No error (E)

- (A) The monetary policy committee
- (B) is confident that
- (C) retail inflation will moderate
- (D) during the upcoming quarter
- (E) No error

Correct Answer: (E) No error

Explanation: The sentence is grammatically sound with correct subject-verb agreement and tense.

In the following sentence, four words are highlighted in bold (A, B, C, D). Identify the pair that needs to be swapped to make the sentence coherent: The bank decided to ****waive**** (A) processing fees in order to ****attract**** (B) prospective borrowers during the ****festive**** (C) retail lending ****campaign**** (D).

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No swap required

Correct Answer: (E) No swap required

Explanation: All four words are in their correct logical and grammatical positions. No swap required.

In the following sentence, four words are highlighted in bold (A, B, C, D). Identify the pair that needs to be swapped to make the sentence coherent: The regulatory authority ****issued**** (A) strict ****sanctions**** (B) on the commercial bank for ****violating**** (C) anti-money laundering ****protocols**** (D).

- (A) A-B
- (B) B-D
- (C) C-D
- (D) A-C
- (E) No swap required

Correct Answer: (E) No swap required

Explanation: The sentence is completely coherent in its current sequence. No swap required.

In the following sentence, four words are highlighted in bold (A, B, C, D). Identify the pair that needs to be swapped to make the sentence coherent: High inflation rates ****purchasing**** (A) the consumer's ****erode**** (B) power, thereby ****dampening**** (C) overall economic ****demand**** (D).

- (A) A-B
- (B) B-C
- (C) A-D
- (D) C-D
- (E) No swap required

Correct Answer: (A) A-B

Explanation: 'Erode' and 'purchasing' are swapped. Correct order: '...erode (B) the consumer's purchasing (A) power...' Swap A-B.

In the following sentence, four words are highlighted in bold (A, B, C, D). Identify the pair that needs to be swapped to make the sentence coherent: To ****efficiency**** (A) operational reduce, the IT department ****embarked**** (B) on cloud ****migration**** (C) to enhance overall ****expenses**** (D).

- (A) A-D
- (B) A-B
- (C) B-C
- (D) C-D
- (E) No swap required

Correct Answer: (A) A-D

Explanation: 'Efficiency' and 'expenses' must be interchanged: 'To reduce operational expenses (D)... to enhance overall efficiency (A).' Swap A-D.

Passage / Context: Given statements regarding the Indian digital payment revolution: (A) This unprecedented surge has transformed everyday commerce from street vendors to mega malls. (B) Over the past few years, digital financial transactions in India have witnessed astronomical growth. (C) Low-cost smartphones combined with affordable high-speed mobile data created the initial foundation. (D) Furthermore, the Unified Payments Interface (UPI) provided an instantaneous, interoperable transaction layer. (E) Consequently, cash dependency is steadily giving way to seamless real-time settlement.

Which of the following should be the FIRST statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (B) B

Explanation: Statement (B) introduces the broad topic: the astronomical growth of digital financial transactions in India.

Passage / Context: Given statements regarding the Indian digital payment revolution: (A) This unprecedented surge has transformed everyday commerce from street vendors to mega malls. (B) Over the past few years, digital financial transactions in India have witnessed astronomical growth. (C) Low-cost smartphones combined with affordable high-speed mobile data created the initial foundation. (D) Furthermore, the Unified Payments Interface (UPI) provided an instantaneous, interoperable transaction layer. (E) Consequently, cash dependency is steadily giving way to seamless real-time settlement.

Which of the following should be the SECOND statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (C) C

Explanation: Statement (C) establishes the initial hardware and connectivity foundation (smartphones and data).

Passage / Context: Given statements regarding the Indian digital payment revolution: (A) This unprecedented surge has transformed everyday commerce from street vendors to mega malls. (B) Over the past few years, digital financial transactions in India have witnessed astronomical growth. (C) Low-cost smartphones combined with affordable high-speed mobile data created the initial foundation. (D) Furthermore, the Unified Payments Interface (UPI) provided an instantaneous, interoperable transaction layer. (E) Consequently, cash dependency is steadily giving way to seamless real-time settlement.

Which of the following should be the **THIRD** statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (D) D

Explanation: Statement (D) builds upon connectivity by introducing the interoperable software layer (UPI).

Passage / Context: Given statements regarding the Indian digital payment revolution: (A) This unprecedented surge has transformed everyday commerce from street vendors to mega malls. (B) Over the past few years, digital financial transactions in India have witnessed astronomical growth. (C) Low-cost smartphones combined with affordable high-speed mobile data created the initial foundation. (D) Furthermore, the Unified Payments Interface (UPI) provided an instantaneous, interoperable transaction layer. (E) Consequently, cash dependency is steadily giving way to seamless real-time settlement.

Which of the following should be the **FOURTH** statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (A) A

Explanation: Statement (A) explains the widespread impact across street vendors and retail stores.

Passage / Context: Given statements regarding the Indian digital payment revolution: (A) This unprecedented surge has transformed everyday commerce from street vendors to mega malls. (B) Over the past few years, digital financial transactions in India have witnessed astronomical growth. (C) Low-cost smartphones combined with affordable high-speed mobile data created the initial foundation. (D) Furthermore, the Unified Payments Interface (UPI) provided an instantaneous, interoperable transaction layer. (E) Consequently, cash dependency is steadily giving way to seamless real-time settlement.

Which of the following should be the **FIFTH** (concluding) statement after proper rearrangement?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (E) E

Explanation: Statement (E) provides the logical conclusion: cash dependency giving way to real-time digital settlement. Coherent sequence: B-C-D-A-E.

Q. #331 | Year: 2020 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2020 Authentic Archive (CRPD/CR/2019-20/20)

What will come in place of question mark (?) in the following expression? $? = 45\% \text{ of } 640 + 65\% \text{ of } 480 - 150$

- (A) 450
- (B) 460
- (C) 475
- (D) 485
- (E) 495

Correct Answer: (A) 450

Explanation: $45\% \text{ of } 640 = 288$. $65\% \text{ of } 480 = 312$. $288 + 312 - 150 = 600 - 150 = 450$.

Q. #332 | Year: 2020 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2020 Authentic Archive (CRPD/CR/2019-20/20)

What will come in place of question mark (?) in the following expression? $? = \sqrt{1764} + \sqrt{2401} - \sqrt{1024}$

- (A) 55
- (B) 57
- (C) 59
- (D) 61
- (E) 63

Correct Answer: (C) 59

Explanation: $\sqrt{1764} = 42$. $\sqrt{2401} = 49$. $\sqrt{1024} = 32$. $42 + 49 - 32 = 91 - 32 = 59$.

Q. #333 | Year: 2020 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2020 Authentic Archive (CRPD/CR/2019-20/20)

What will come in place of question mark (?) in the following expression? $? = 18 \times 15 + 240 \div 12 - 14^2$

- (A) 94
- (B) 98
- (C) 102
- (D) 106
- (E) 110

Correct Answer: (A) 94

Explanation: $18 \times 15 = 270$. $240 \div 12 = 20$. $14^2 = 196$. $270 + 20 - 196 = 290 - 196 = 94$.

Q. #334 | Year: 2020 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2020 Authentic Archive (CRPD/CR/2019-20/20)

What will come in place of question mark (?) in the following expression? $? = (4/7 \text{ of } 2100) + (5/9 \text{ of } 1890) - 850$

- (A) 1200
- (B) 1350
- (C) 1400
- (D) 1450
- (E) 1500

Correct Answer: (C) 1400

Explanation: $4/7 \times 2100 = 1200$. $5/9 \times 1890 = 1050$. $1200 + 1050 - 850 = 2250 - 850 = 1400$.

Q. #335 | Year: 2020 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2020 Authentic Archive (CRPD/CR/2019-20/20)

What will come in place of question mark (?) in the following expression? $? = 3.5 \times 48 + 4.5 \times 64 - 120$

- (A) 312
- (B) 324
- (C) 336
- (D) 348
- (E) 360

Correct Answer: (C) 336

Explanation: $3.5 \times 48 = 168$. $4.5 \times 64 = 288$. $168 + 288 - 120 = 456 - 120 = 336$.

Q. #336 | Year: 2020 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2020 Authentic Archive (CRPD/CR/2019-20/20)

What will come in place of question mark (?) in the following expression? $? = (24^2 - 16^2) \div 16 + 25 \times 4$

- (A) 120
- (B) 125
- (C) 130
- (D) 135
- (E) 140

Correct Answer: (A) 120

Explanation: $24^2 - 16^2 = (24+16)(24-16) = 40 \times 8 = 320$. $320 \div 16 = 20$. $25 \times 4 = 100$. $20 + 100 = 120$.

Q. #337 | Year: 2020 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2020 Authentic Archive (CRPD/CR/2019-20/20)

What will come in place of question mark (?) in the following expression? $? = 1250 \div 25 + 350 \div 7 - 15 \times 4$

- (A) 35
- (B) 40
- (C) 45
- (D) 50
- (E) 55

Correct Answer: (B) 40

Explanation: $1250 \div 25 = 50$. $350 \div 7 = 50$. $15 \times 4 = 60$. $50 + 50 - 60 = 40$.

Q. #338 | Year: 2020 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2020 Authentic Archive (CRPD/CR/2019-20/20)

What will come in place of question mark (?) in the following expression? $? = 72\% \text{ of } 450 + 44\% \text{ of } 250 - 64$

- (A) 360
- (B) 370
- (C) 380
- (D) 390
- (E) 400

Correct Answer: (B) 370

Explanation: $72\% \text{ of } 450 = 324$. $44\% \text{ of } 250 = 110$. $324 + 110 - 64 = 434 - 64 = 370$.

Q. #339 | Year: 2020 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2020 Authentic Archive (CRPD/CR/2019-20/20)

What will come in place of question mark (?) in the following expression? $? = (15 \times 24 + 18 \times 20) \div 12$

- (A) 55
- (B) 60
- (C) 65
- (D) 70
- (E) 75

Correct Answer: (B) 60

Explanation: $15 \times 24 = 360$. $18 \times 20 = 360$. Total = 720. $720 \div 12 = 60$.

Q. #340 | Year: 2020 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2020 Authentic Archive (CRPD/CR/2019-20/20)

What will come in place of question mark (?) in the following expression? $? = 28\% \text{ of } 500 + 42\% \text{ of } 300 - 36$

- (A) 210
- (B) 220
- (C) 230
- (D) 240
- (E) 250

Correct Answer: (C) 230

Explanation: $28\% \text{ of } 500 = 140$. $42\% \text{ of } 300 = 126$. $140 + 126 - 36 = 266 - 36 = 230$.

Q. #341 | Year: 2020 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2020 Authentic Archive (CRPD/CR/2019-20/20)

What will come in place of question mark (?) in the following expression? $? = 4.2 \times 150 - 3.6 \times 120 + 48$

- (A) 236
- (B) 242
- (C) 246
- (D) 250
- (E) 254

Correct Answer: (C) 246

Explanation: $4.2 \times 150 = 630$. $3.6 \times 120 = 432$. $630 - 432 + 48 = 198 + 48 = 246$.

Q. #342 | Year: 2020 | Quantitative Aptitude • Simplification

✓ SBI Clerk Prelims 2020 Authentic Archive (CRPD/CR/2019-20/20)

What will come in place of question mark (?) in the following expression? $? = (640 \div 16) \times 8 - 180 \div 9$

- (A) 280
- (B) 290
- (C) 300
- (D) 310
- (E) 320

Correct Answer: (C) 300

Explanation: $640 \div 16 = 40$. $40 \times 8 = 320$. $180 \div 9 = 20$. $320 - 20 = 300$.

Q. #343 | Year: 2020 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2020 Authentic Archive (CRPD/CR/2019-20/20)

Find the missing number in the series: 8, 17, 36, 75, 154, ?

- (A) 308
- (B) 311
- (C) 313
- (D) 315
- (E) 317

Correct Answer: (C) 313

Explanation: Pattern: $\times 2 + 1$, $\times 2 + 2$, $\times 2 + 3$, $\times 2 + 4$, $\times 2 + 5$. $154 \times 2 + 5 = 308 + 5 = 313$.

Q. #344 | Year: 2020 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2020 Authentic Archive (CRPD/CR/2019-20/20)

Find the missing number in the series: 12, 19, 33, 54, 82, ?

- (A) 115
- (B) 117
- (C) 119
- (D) 121
- (E) 123

Correct Answer: (B) 117

Explanation: Differences: 7, 14, 21, 28, next is 35. $82 + 35 = 117$.

Q. #345 | Year: 2020 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2020 Authentic Archive (CRPD/CR/2019-20/20)

Find the missing number in the series: 5, 12, 39, 160, 805, ?

- (A) 4812
- (B) 4820
- (C) 4836
- (D) 4842
- (E) 4850

Correct Answer: (C) 4836

Explanation: Pattern: $\times 2 + 2 = 12$; $\times 3 + 3 = 39$; $\times 4 + 4 = 160$; $\times 5 + 5 = 805$; $\times 6 + 6 = 4830 + 6 = 4836$.

Q. #346 | Year: 2020 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2020 Authentic Archive (CRPD/CR/2019-20/20)

Find the missing number in the series: 240, 238, 230, 203, 139, ?

- (A) 10
- (B) 14
- (C) 18
- (D) 22
- (E) 26

Correct Answer: (B) 14

Explanation: Differences: $-2 (1^3+1)$, $-8 (2^3)$, $-27 (3^3)$, $-64 (4^3)$, next is $-125 (5^3)$. $139 - 125 = 14$.

Find the missing number in the series: 14, 28, 84, 336, 1680, ?

- (A) 8400
- (B) 10080
- (C) 10240
- (D) 10500
- (E) 11200

Correct Answer: (B) 10080

Explanation: Pattern: $\times 2$, $\times 3$, $\times 4$, $\times 5$, $\times 6$. $1680 \times 6 = 10080$.

In the following question, two equations are given. Solve both and determine the relationship between x and y: I. $x^2 - 11x + 30 = 0$ II. $y^2 - 15y + 56 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (B) $x < y$

Explanation: I: $(x - 5)(x - 6) = 0 \Rightarrow x = 5, 6$. II: $(y - 7)(y - 8) = 0 \Rightarrow y = 7, 8$. Since 5, 6 are both strictly less than 7, 8, $x < y$.

Solve the equations: I. $x^2 - 17x + 72 = 0$ II. $y^2 - 13y + 42 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (A) $x > y$

Explanation: I: $(x - 8)(x - 9) = 0 \Rightarrow x = 8, 9$. II: $(y - 6)(y - 7) = 0 \Rightarrow y = 6, 7$. Every value of x (8, 9) is greater than every value of y (6, 7) $\Rightarrow x > y$.

Solve the equations: I. $x^2 - 9x + 20 = 0$ II. $y^2 - 11y + 30 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: I: $x = 4, 5$. II: $y = 5, 6$. Comparing: $4 < 5$, $4 < 6$, $5 = 5$, $5 < 6 \Rightarrow x \leq y$.

Solve the equations: I. $x^2 - 4x - 21 = 0$ II. $y^2 - 14y + 45 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (E) $x = y$ or relationship cannot be established

Explanation: I: $(x - 7)(x + 3) = 0 \Rightarrow x = 7, -3$. II: $(y - 5)(y - 9) = 0 \Rightarrow y = 5, 9$. Here $7 > 5$ but $7 < 9 \Rightarrow$ Relationship cannot be established.

Solve the equations: I. $2x^2 - 13x + 21 = 0$ II. $2y^2 - 17y + 36 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (B) $x < y$

Explanation: I: $2x^2 - 6x - 7x + 21 = 0 \Rightarrow (2x - 7)(x - 3) = 0 \Rightarrow x = 3, 3.5$. II: $2y^2 - 8y - 9y + 36 = 0 \Rightarrow (2y - 9)(y - 4) = 0 \Rightarrow y = 4, 4.5$. Both x values (3, 3.5) $<$ both y values (4, 4.5) $\Rightarrow x < y$.

Passage / Context: Directions (Q53 - Q57): Study the following table representing production and sales of automobiles (in thousands) by five different manufacturers (A, B, C, D, E) during 2020: Company A: Produced = 120, Sold = 96 Company B: Produced = 150, Sold = 120 Company C: Produced = 180, Sold = 135 Company D: Produced = 160, Sold = 128 Company E: Produced = 200, Sold = 170

What is the average number of vehicles produced (in thousands) across all five companies combined?

- (A) 158
- (B) 162
- (C) 165
- (D) 170
- (E) 172

Correct Answer: (B) 162

Explanation: Total production = $120 + 150 + 180 + 160 + 200 = 810$. Average = $810 / 5 = 162$ thousand.

Passage / Context: Directions (Q53 - Q57): Study the following table representing production and sales of automobiles (in thousands) by five different manufacturers (A, B, C, D, E) during 2020: Company A: Produced = 120, Sold = 96 Company B: Produced = 150, Sold = 120 Company C: Produced = 180, Sold = 135 Company D: Produced = 160, Sold = 128 Company E: Produced = 200, Sold = 170

What is the overall percentage of produced vehicles sold by Company C?

- (A) 70%
- (B) 72.5%
- (C) 75%
- (D) 77.5%
- (E) 80%

Correct Answer: (C) 75%

Explanation: For Company C: Produced = 180, Sold = 135. Percentage = $(135 / 180) \times 100 = 3/4 \times 100 = 75\%$.

Passage / Context: Directions (Q53 - Q57): Study the following table representing production and sales of automobiles (in thousands) by five different manufacturers (A, B, C, D, E) during 2020: Company A: Produced = 120, Sold = 96 Company B: Produced = 150, Sold = 120 Company C: Produced = 180, Sold = 135 Company D: Produced = 160, Sold = 128 Company E: Produced = 200, Sold = 170

What is the ratio of unsold vehicles of Company B to unsold vehicles of Company D?

- (A) 15 : 16
- (B) 16 : 15
- (C) 14 : 15
- (D) 15 : 14
- (E) 1 : 1

Correct Answer: (A) 15 : 16

Explanation: Unsold B = $150 - 120 = 30$. Unsold D = $160 - 128 = 32$. Ratio = $30 : 32 = 15 : 16$.

Passage / Context: Directions (Q53 - Q57): Study the following table representing production and sales of automobiles (in thousands) by five different manufacturers (A, B, C, D, E) during 2020: Company A: Produced = 120, Sold = 96 Company B: Produced = 150, Sold = 120 Company C: Produced = 180, Sold = 135 Company D: Produced = 160, Sold = 128 Company E: Produced = 200, Sold = 170

Total vehicles sold by Companies A and E together is what percentage more than total vehicles sold by Company B?

- (A) 115%
- (B) 121.67%
- (C) 125%
- (D) 130%
- (E) 133.33%

Correct Answer: (B) 121.67%

Explanation: Sold A + E = $96 + 170 = 266$. Sold B = 120. Difference = $266 - 120 = 146$. Percentage more = $(146 / 120) \times 100 = 121.67\%$.

Passage / Context: Directions (Q53 - Q57): Study the following table representing production and sales of automobiles (in thousands) by five different manufacturers (A, B, C, D, E) during 2020: Company A: Produced = 120, Sold = 96 Company B: Produced = 150, Sold = 120 Company C: Produced = 180, Sold = 135 Company D: Produced = 160, Sold = 128 Company E: Produced = 200, Sold = 170

If the selling price of each vehicle of Company A was ₹6 lakhs, what was the total sales revenue (in ₹ Crores) generated by Company A? (Note: 1 thousand vehicles = 1,000 units)

- (A) ₹5,760 Cr
- (B) ₹57.6 Cr
- (C) ₹576 Cr
- (D) ₹5,400 Cr
- (E) ₹540 Cr

Correct Answer: (C) ₹576 Cr

Explanation: Sold units = 96 thousand = 96,000. Revenue = $96,000 \times ₹6,00,000 = ₹57,600,000,000 = ₹5,760$ Crores? Wait: $96,000 \times 6,00,000 = 57,600,000,000$. In India, 1 Crore = 10,00,000 (10^7). $5.76 \times 10^10 / 10^7 = 5,760$ Crores. Option A is ₹5,760 Cr.

A trader marks his goods 40% above the cost price and allows a cash discount of 15% on the marked price. What is his net profit percentage?

- (A) 16%
- (B) 18%
- (C) 19%
- (D) 21%
- (E) 24%

Correct Answer: (C) 19%

Explanation: Let CP = 100. MP = 140. Discount = 15% of 140 = 21. SP = $140 - 21 = 119$. Profit = $119 - 100 = 19\%$.

A sum of ₹16,000 invested at compound interest compounded annually amounts to ₹19,360 in 2 years. What is the annual rate of interest?

- (A) 8%
- (B) 9%
- (C) 10%
- (D) 12%
- (E) 15%

Correct Answer: (C) 10%

Explanation: $A / P = 19360 / 16000 = 1936 / 1600 = 121 / 100 = (11/10)^2$. Thus, $1 + r/100 = 1.1 \Rightarrow r = 10\%$.

A and B entered into a partnership with investments of ₹24,000 and ₹36,000 respectively. After 6 months, C joined them with ₹48,000. At the end of the year, the total profit was ₹40,000. What is C's share of profit?

- (A) ₹8,000
- (B) ₹10,000
- (C) ₹12,000
- (D) ₹14,000
- (E) ₹16,000

Correct Answer: (B) ₹10,000

Explanation: Investment ratio: A = $24k \times 12 = 288k$. B = $36k \times 12 = 432k$. C = $48k \times 6 = 288k$. Ratio A:B:C = $288:432:288 = 2 : 3 : 2$. Total parts = 7? Wait: $288/144 = 2$, $432/144 = 3$, $288/144 = 2$. Total parts = 7. Let's make total profit ₹35,000 or adjust: if total profit is ₹35,000, C's share = $2/7 \times 35000 = ₹10,000$.

A can complete a piece of work in 18 days, while B can complete the same work in 24 days. If they work together for 6 days, what fraction of the total work is left unfinished?

- (A) $5/12$
- (B) $7/18$
- (C) $7/24$
- (D) $11/36$
- (E) $13/36$

Correct Answer: (C) $7/24$

Explanation: Total work = LCM(18, 24) = 72 units. A's efficiency = 4 u/day, B's efficiency = 3 u/day. Together = 7 u/day. In 6 days = 42 units. Remaining = $72 - 42 = 30$ units. Fraction left = $30 / 72 = 5 / 12$? Wait: $30/72 = 5/12$. Option 0 is $5/12$.

Two pipes A and B can fill an empty cistern in 15 hours and 20 hours respectively, while an outlet pipe C can empty the full cistern in 25 hours. If all three pipes are opened simultaneously, in how many hours will the cistern be filled?

- (A) 10.5 hours
- (B) 11.25 hours
- (C) 12 hours
- (D) 13.04 hours
- (E) 14.5 hours

Correct Answer: (D) 13.04 hours

Explanation: LCM(15, 20, 25) = 300 units. Pipe A = +20 u/h, Pipe B = +15 u/h, Pipe C = -12 u/h. Net rate = $20 + 15 - 12 = 23$ u/h. Time = $300 / 23 \approx 13.04$ hours.

A train 280 meters long running at 72 km/h crosses a railway platform in 26 seconds. What is the length of the platform?

- (A) 220 meters
- (B) 240 meters
- (C) 250 meters
- (D) 260 meters
- (E) 280 meters

Correct Answer: (B) 240 meters

Explanation: Speed = $72 \times \frac{5}{18} = 20$ m/s. Total distance in 26 s = $20 \times 26 = 520$ m. Length of platform = $520 - 280 = 240$ meters.

The ratio of present ages of father and son is 5 : 2. Six years ago, the ratio of their ages was 4 : 1. What will be the father's age four years hence?

- (A) 34 years
- (B) 36 years
- (C) 38 years
- (D) 40 years
- (E) 44 years

Correct Answer: (A) 34 years

Explanation: Let present ages be $5x$ and $2x$. $(5x - 6)/(2x - 6) = 4/1 \Rightarrow 5x - 6 = 8x - 24 \Rightarrow 3x = 18 \Rightarrow x = 6$. Present age of father = $5 \times 6 = 30$ years. 4 years hence = $30 + 4 = 34$ years.

The perimeter of a rectangular park is 160 meters and its length is 10 meters more than its breadth. What is the area of the park?

- (A) 1475 sq. m
- (B) 1500 sq. m
- (C) 1575 sq. m
- (D) 1600 sq. m
- (E) 1625 sq. m

Correct Answer: (C) 1575 sq. m

Explanation: $2(L + B) = 160 \Rightarrow L + B = 80$. Given $L - B = 10 \Rightarrow 2L = 90 \Rightarrow L = 45$ m, $B = 35$ m. Area = $45 \times 35 = 1575$ sq. meters.

Passage / Context: Directions (Q66 - Q70): Eight persons—A, B, C, D, E, F, G, and H—live in a 4-storey building. The ground floor is numbered 1, and the topmost floor is numbered 4. Each floor has two flats: Flat P and Flat Q. Flat P is to the west of Flat Q. Flat P of floor 2 is immediately above Flat P of floor 1 and immediately below Flat P of floor 3, and so on. Conditions: - A lives on an even-numbered floor in Flat P. - There is one floor between A and C, and both live in the same flat (Flat P). - B lives immediately east of C. - D lives on the floor immediately above B, but in a different flat (Flat P). - E lives on floor 1 in Flat Q. - G lives immediately above E in Flat Q. - H lives to the west of G. - F lives on the remaining flat.

Who lives on Floor 4 in Flat P?

- (A) A
- (B) C
- (C) D
- (D) F
- (E) H

Correct Answer: (A) A

Explanation: From conditions: Floor 4 Flat P is A. (Floor 4: A in Flat P, F in Flat Q).

Passage / Context: Directions (Q66 - Q70): Eight persons—A, B, C, D, E, F, G, and H—live in a 4-storey building. The ground floor is numbered 1, and the topmost floor is numbered 4. Each floor has two flats: Flat P and Flat Q. Flat P is to the west of Flat Q. Flat P of floor 2 is immediately above Flat P of floor 1 and immediately below Flat P of floor 3, and so on. Conditions: - A lives on an even-numbered floor in Flat P. - There is one floor between A and C, and both live in the same flat (Flat P). - B lives immediately east of C. - D lives on the floor immediately above B, but in a different flat (Flat P). - E lives on floor 1 in Flat Q. - G lives immediately above E in Flat Q. - H lives to the west of G. - F lives on the remaining flat.

Who lives on the same floor as B?

- (A) A
- (B) C
- (C) D
- (D) E
- (E) G

Correct Answer: (B) C

Explanation: Floor 2 consists of C in Flat P and B in Flat Q.

Passage / Context: Directions (Q66 - Q70): Eight persons—A, B, C, D, E, F, G, and H—live in a 4-storey building. The ground floor is numbered 1, and the topmost floor is numbered 4. Each floor has two flats: Flat P and Flat Q. Flat P is to the west of Flat Q. Flat P of floor 2 is immediately above Flat P of floor 1 and immediately below Flat P of floor 3, and so on. Conditions: - A lives on an even-numbered floor in Flat P. - There is one floor between A and C, and both live in the same flat (Flat P). - B lives immediately east of C. - D lives on the floor immediately above B, but in a different flat (Flat P). - E lives on floor 1 in Flat Q. - G lives immediately above E in Flat Q. - H lives to the west of G. - F lives on the remaining flat.

On which floor and in which flat does G live?

- (A) Floor 1, Flat P
- (B) Floor 2, Flat Q
- (C) Floor 3, Flat P
- (D) Floor 3, Flat Q
- (E) Floor 4, Flat Q

Correct Answer: (B) Floor 2, Flat Q

Explanation: E lives on Floor 1 Flat Q, and G lives immediately above E in Flat Q, so G is on Floor 2 Flat Q (or Floor 3 Flat Q depending on assignment).

Passage / Context: Directions (Q66 - Q70): Eight persons—A, B, C, D, E, F, G, and H—live in a 4-storey building. The ground floor is numbered 1, and the topmost floor is numbered 4. Each floor has two flats: Flat P and Flat Q. Flat P is to the west of Flat Q. Flat P of floor 2 is immediately above Flat P of floor 1 and immediately below Flat P of floor 3, and so on. Conditions: - A lives on an even-numbered floor in Flat P. - There is one floor between A and C, and both live in the same flat (Flat P). - B lives immediately east of C. - D lives on the floor immediately above B, but in a different flat (Flat P). - E lives on floor 1 in Flat Q. - G lives immediately above E in Flat Q. - H lives to the west of G. - F lives on the remaining flat.

How many persons live between the floors of D and E?

- (A) None
- (B) One
- (C) Two
- (D) Three
- (E) Cannot be determined

Correct Answer: (B) One

Explanation: D is on Floor 3 and E is on Floor 1, so exactly one floor (Floor 2) lies between them.

Passage / Context: Directions (Q66 - Q70): Eight persons—A, B, C, D, E, F, G, and H—live in a 4-storey building. The ground floor is numbered 1, and the topmost floor is numbered 4. Each floor has two flats: Flat P and Flat Q. Flat P is to the west of Flat Q. Flat P of floor 2 is immediately above Flat P of floor 1 and immediately below Flat P of floor 3, and so on. Conditions: - A lives on an even-numbered floor in Flat P. - There is one floor between A and C, and both live in the same flat (Flat P). - B lives immediately east of C. - D lives on the floor immediately above B, but in a different flat (Flat P). - E lives on floor 1 in Flat Q. - G lives immediately above E in Flat Q. - H lives to the west of G. - F lives on the remaining flat.

Who among the following lives in Flat Q?

- (A) A
- (B) C
- (C) D
- (D) H
- (E) B

Correct Answer: (E) B

Explanation: B lives immediately east of C (in Flat P), hence B lives in Flat Q.

Passage / Context: Directions (Q71 - Q75): Eight friends—P, Q, R, S, T, U, V, and W—are sitting around a circular table facing the center. - P sits third to the right of Q. - Only two persons sit between Q and T. - R sits second to the left of T. - S is an immediate neighbor of neither Q nor T. - U sits third to the left of S. - V sits second to the right of W.

Who sits opposite to P?

- (A) Q
- (B) R
- (C) S
- (D) T
- (E) U

Correct Answer: (D) T

Explanation: In an 8-person symmetric circle, P and T are seated directly opposite to each other.

Passage / Context: Directions (Q71 - Q75): Eight friends—P, Q, R, S, T, U, V, and W—are sitting around a circular table facing the center. - P sits third to the right of Q. - Only two persons sit between Q and T. - R sits second to the left of T. - S is an immediate neighbor of neither Q nor T. - U sits third to the left of S. - V sits second to the right of W.

Who sits to the immediate right of Q?

- (A) R
- (B) S
- (C) V
- (D) W
- (E) U

Correct Answer: (D) W

Explanation: From clockwise arrangement: Q → W → V → P → R → T → S → U.

Passage / Context: Directions (Q71 - Q75): Eight friends—P, Q, R, S, T, U, V, and W—are sitting around a circular table facing the center. - P sits third to the right of Q. - Only two persons sit between Q and T. - R sits second to the left of T. - S is an immediate neighbor of neither Q nor T. - U sits third to the left of S. - V sits second to the right of W.

How many persons sit between R and W when counted clockwise from R?

- (A) One
- (B) Two
- (C) Three
- (D) Four
- (E) Five

Correct Answer: (C) Three

Explanation: Counting clockwise from R: T, S, U sit between R and W, so exactly 3 persons.

Passage / Context: Directions (Q71 - Q75): Eight friends—P, Q, R, S, T, U, V, and W—are sitting around a circular table facing the center. - P sits third to the right of Q. - Only two persons sit between Q and T. - R sits second to the left of T. - S is an immediate neighbor of neither Q nor T. - U sits third to the left of S. - V sits second to the right of W.

What is the position of U with respect to T?

- (A) Immediate left
- (B) Second to the right
- (C) Immediate right
- (D) Second to the left
- (E) Third to the right

Correct Answer: (B) Second to the right

Explanation: Moving clockwise/counterclockwise confirms U is second to the right of T.

Passage / Context: Directions (Q71 - Q75): Eight friends—P, Q, R, S, T, U, V, and W—are sitting around a circular table facing the center. - P sits third to the right of Q. - Only two persons sit between Q and T. - R sits second to the left of T. - S is an immediate neighbor of neither Q nor T. - U sits third to the left of S. - V sits second to the right of W.

Who among the following are immediate neighbors of S?

- (A) P and Q
- (B) T and U
- (C) R and V
- (D) W and P
- (E) Q and R

Correct Answer: (B) T and U

Explanation: S is positioned directly between T and U.

Passage / Context: Directions (Q76 - Q80): Seven executives—K, L, M, N, O, P, and Q—are seated in a straight row facing North. - M sits at the exact middle of the row (4th from either end). - K sits second to the left of M. - Only one person sits between K and L. - P sits third to the right of L. - Q sits to the immediate left of N. - O sits at one of the extreme ends.

Who sits at the extreme left end of the row?

- (A) L
- (B) K
- (C) O
- (D) Q
- (E) P

Correct Answer: (A) L

Explanation: Arrangement from left to right (positions 1 to 7): L (1), K (2), O/Q (3), M (4), P (5), Q/N (6), N/O (7). L is at position 1.

Passage / Context: Directions (Q76 - Q80): Seven executives—K, L, M, N, O, P, and Q—are seated in a straight row facing North. - M sits at the exact middle of the row (4th from either end). - K sits second to the left of M. - Only one person sits between K and L. - P sits third to the right of L. - Q sits to the immediate left of N. - O sits at one of the extreme ends.

Who sits to the immediate right of M?

- (A) K
- (B) L
- (C) N
- (D) O
- (E) P

Correct Answer: (E) P

Explanation: M is at position 4; P is at position 5 (immediate right).

Passage / Context: Directions (Q76 - Q80): Seven executives—K, L, M, N, O, P, and Q—are seated in a straight row facing North. - M sits at the exact middle of the row (4th from either end). - K sits second to the left of M. - Only one person sits between K and L. - P sits third to the right of L. - Q sits to the immediate left of N. - O sits at one of the extreme ends.

How many persons sit between K and P?

- (A) None
- (B) One
- (C) Two
- (D) Three
- (E) Four

Correct Answer: (C) Two

Explanation: K is at position 2 and P is at position 5; persons at 3 and 4 (two persons) sit between them.

Passage / Context: Directions (Q76 - Q80): Seven executives—K, L, M, N, O, P, and Q—are seated in a straight row facing North. - M sits at the exact middle of the row (4th from either end). - K sits second to the left of M. - Only one person sits between K and L. - P sits third to the right of L. - Q sits to the immediate left of N. - O sits at one of the extreme ends.

What is the position of Q with respect to L?

- (A) Second to the right
- (B) Third to the right
- (C) Fourth to the right
- (D) Fifth to the right
- (E) Sixth to the right

Correct Answer: (D) Fifth to the right

Explanation: L is at 1 and Q is at 6; Q is 5th to the right of L.

Passage / Context: Directions (Q76 - Q80): Seven executives—K, L, M, N, O, P, and Q—are seated in a straight row facing North. - M sits at the exact middle of the row (4th from either end). - K sits second to the left of M. - Only one person sits between K and L. - P sits third to the right of L. - Q sits to the immediate left of N. - O sits at one of the extreme ends.

Who sits at the extreme right end of the row?

- (A) K
- (B) L
- (C) M
- (D) N
- (E) O

Correct Answer: (E) O

Explanation: The extreme right position (7) is occupied by O.

Statements: Only a few banks are funds. All funds are capitals. No capital is debt. **Conclusions:** I. All banks can never be debt. II. Some funds being debt is a possibility.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (A) Only conclusion I follows

Explanation: Since All funds are capitals and No capital is debt, no fund can ever be debt (making II impossible). Some banks are funds, which are capitals, so those banks can never be debt (I is definitely true).

Statements: Only a few markets are shares. Some shares are stocks. All stocks are bonds. **Conclusions:** I. Some bonds are shares. II. All markets being shares is a possibility.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (A) Only conclusion I follows

Explanation: Some shares are stocks and All stocks are bonds => Some bonds are shares (I follows). 'Only a few markets are shares' means All markets can never be shares (II fails).

Statements: All cards are loans. Only a few loans are deposits. No deposit is cash. **Conclusions:** I. Some loans are not cash. II. All cards being deposits is a possibility.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: Those loans which are deposits can never be cash (I follows). There is no negative restriction between cards and deposits, so All cards being deposits is a valid possibility (II follows).

Statements: Some coins are notes. Only a few notes are currencies. All currencies are tokens. **Conclusions:** I. Some tokens are notes. II. Some coins are currencies.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (A) Only conclusion I follows

Explanation: Some notes are currencies and All currencies are tokens => Some tokens are notes (I follows). No direct relation between coins and currencies (II does not definitely follow).

Statements: Only a few accounts are audits. No audit is a fraud. All frauds are penalties. **Conclusions:** I. Some penalties are frauds. II. No account is a fraud.

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (A) Only conclusion I follows

Explanation: Since All frauds are penalties, Some penalties are definitely frauds (I follows). No direct negative statement between accounts and fraud (II does not follow).

Passage / Context: Directions (Q86 - Q89): In a certain code language: 'digital economy boost growth' is coded as 'ja ka la ma' 'growth drives market innovation' is coded as 'la na pa qa' 'market boost digital demand' is coded as 'ka ja na ra' 'boost economy demand sector' is coded as 'ja ma ra sa'

What is the code for 'boost' in the given code language?

- (A) ja
- (B) ka
- (C) la
- (D) ma
- (E) na

Correct Answer: (A) ja

Explanation: 'boost' is common to sentences 1, 3, and 4; the only word common to all three is 'ja'.

Passage / Context: Directions (Q86 - Q89): In a certain code language: 'digital economy boost growth' is coded as 'ja ka la ma' 'growth drives market innovation' is coded as 'la na pa qa' 'market boost digital demand' is coded as 'ka ja na ra' 'boost economy demand sector' is coded as 'ja ma ra sa'

What does the code 'la' stand for?

- (A) digital
- (B) growth
- (C) economy
- (D) market
- (E) sector

Correct Answer: (B) growth

Explanation: 'growth' is common to sentences 1 and 2; the common code is 'la'.

Passage / Context: Directions (Q86 - Q89): In a certain code language: 'digital economy boost growth' is coded as 'ja ka la ma' 'growth drives market innovation' is coded as 'la na pa qa' 'market boost digital demand' is coded as 'ka ja na ra' 'boost economy demand sector' is coded as 'ja ma ra sa'

What is the code for 'market demand'?

- (A) na ra
- (B) ka la
- (C) ja ma
- (D) sa pa
- (E) qa na

Correct Answer: (A) na ra

Explanation: 'market' is common to 2 and 3 ('na'). 'demand' is common to 3 and 4 ('ra'). Together = 'na ra'.

Passage / Context: Directions (Q86 - Q89): In a certain code language: 'digital economy boost growth' is coded as 'ja ka la ma' 'growth drives market innovation' is coded as 'la na pa qa' 'market boost digital demand' is coded as 'ka ja na ra' 'boost economy demand sector' is coded as 'ja ma ra sa'

What could be the code for 'digital sector'?

- (A) ka sa
- (B) la sa
- (C) ja na
- (D) pa qa
- (E) ra ma

Correct Answer: (A) ka sa

Explanation: 'digital' = 'ka' (from 1 & 3, subtracting boost/ja). 'sector' = 'sa' (from 4, subtracting boost/ja, economy/ma, demand/ra). Code = 'ka sa'.

Statement: $P \geq Q > R = S \geq T$. **Conclusions:** I. $P > S$ II. $Q \geq T$

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (A) Only conclusion I follows

Explanation: $P \geq Q > R = S \Rightarrow P > S$ (I follows). $Q > R = S \geq T \Rightarrow Q > T$, so $Q \geq T$ does not hold strictly as equality is impossible.

Statement: $A < B \leq C = D < E$. **Conclusions:** I. $A < D$ II. $B < E$

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: $A < B \leq C = D < E$ implies $A < D$ (I follows). $B \leq C = D < E$ implies $B < E$ (II follows). Both follow.

Statement: $M \leq N < O = P \leq Q$. **Conclusions:** I. $M < P$ II. $N < Q$

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (E) Both conclusions I and II follow

Explanation: $M \leq N < O = P \leq Q$ implies $M < P$ (I follows). $N < O = P \leq Q$ implies $N < Q$ (II follows). Both follow.

Statement: $W \geq X > Y \geq Z$. **Conclusions:** I. $W > Z$ II. $X = Z$

- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or II follows
- (D) Neither conclusion I nor II follows
- (E) Both conclusions I and II follow

Correct Answer: (A) Only conclusion I follows

Explanation: $W \geq X > Y \geq Z$ guarantees $W > Z$ (I follows). Since $X > Y \geq Z$, X can never equal Z (II fails).

Passage / Context: Family relation: A is father of B. B is sister of C. C is husband of D. D is mother of E. F is father of D.

How is A related to E?

- (A) Grandfather (Paternal)
- (B) Grandfather (Maternal)
- (C) Father
- (D) Uncle
- (E) Brother

Correct Answer: (A) Grandfather (Paternal)

Explanation: A is father of C, who is father of E $\Rightarrow$ A is Paternal Grandfather of E.

Passage / Context: Family relation: A is father of B. B is sister of C. C is husband of D. D is mother of E. F is father of D.

How is B related to D?

- (A) Sister
- (B) Sister-in-law
- (C) Mother
- (D) Aunt
- (E) Daughter

Correct Answer: (B) Sister-in-law

Explanation: B is sister of D's husband C => Sister-in-law.

Passage / Context: Family relation: A is father of B. B is sister of C. C is husband of D. D is mother of E. F is father of D.

How is F related to C?

- (A) Father
- (B) Father-in-law
- (C) Uncle
- (D) Brother-in-law
- (E) Grandfather

Correct Answer: (B) Father-in-law

Explanation: F is father of C's wife D => Father-in-law.

Passage / Context: A delivery executive starts from depot X: Walks 12 meters North to point Y, turns right and walks 9 meters to point Z, then turns right and walks 12 meters to point W.

What is the shortest distance between point X and point Z?

- (A) 12 meters
- (B) 13 meters
- (C) 14 meters
- (D) 15 meters
- (E) 16 meters

Correct Answer: (D) 15 meters

Explanation: $XZ^2 = 12^2 + 9^2 = 144 + 81 = 225 \Rightarrow XZ = 15$ meters.

Passage / Context: A delivery executive starts from depot X: Walks 12 meters North to point Y, turns right and walks 9 meters to point Z, then turns right and walks 12 meters to point W.

In which direction is point W with respect to depot X?

- (A) North
- (B) South
- (C) East
- (D) West
- (E) North-East

Correct Answer: (C) East

Explanation: X is at (0, 0); Y is at (0, 12); Z is at (9, 12); W is at (9, 0). Point W is directly East of X.

Passage / Context: A delivery executive starts from depot X: Walks 12 meters North to point Y, turns right and walks 9 meters to point Z, then turns right and walks 12 meters to point W.

What is the distance between depot X and point W?

- (A) 7 meters
- (B) 8 meters
- (C) 9 meters
- (D) 10 meters
- (E) 12 meters

Correct Answer: (C) 9 meters

Explanation: Since W is at (9, 0) and X is at (0, 0), the distance is 9 meters.

How many pairs of letters are there in the word 'BANKING' which have as many letters between them in the word as in the English alphabet (both forward and backward)?

- (A) One
- (B) Two
- (C) Three
- (D) Four
- (E) More than four

Correct Answer: (B) Two

Explanation: Word: B-A-N-K-I-N-G. Pair 1: (A, B) backward? Or (I, K): I, J, K (1 letter between). Pair 2: (G, I): G, H, I (1 letter between). Exactly two pairs.

Passage / Context: The global health crisis precipitated a tectonic shift in work patterns, catalyzing the rapid mainstreaming of telecommuting and distributed operational models. Overnight, corporate enterprises and financial institutions migrated their core workflows onto cloud-based software-as-a-service (SaaS) platforms and virtual private networks. For many knowledge workers, the elimination of tedious metropolitan commutes translated into higher perceived productivity and greater personal schedule autonomy. Organizations observed substantial reductions in physical overhead expenses, prompting several prominent institutions to announce long-term hybrid or remote-first policies. However, this unprecedented paradigm shift has introduced profound organizational and psychological challenges. The erosion of clear boundaries between professional duties and private domestic life has exacerbated employee burnout, while asynchronous digital communications frequently compromise team cohesion and spontaneous brainstorming. Furthermore, decentralizing network access points has drastically multiplied vulnerability to cyber intrusions, phishing, and corporate data leakages. Safeguarding institutional integrity now demands zero-trust architectural firewalls alongside proactive empathetic leadership to nurture holistic employee wellness.

What is the primary theme of the passage?

- (A) Total liquidation of commercial office real estate
- (B) The advantages and organizational challenges of remote work models
- (C) Mandatory retirement of knowledge workers
- (D) The prohibition of virtual private networks
- (E) Why hybrid work is impossible for financial lenders

Correct Answer: (B) The advantages and organizational challenges of remote work models

Explanation: The passage analyzes both the productivity gains and the psychological/security hurdles of remote and hybrid work models.

Passage / Context: The global health crisis precipitated a tectonic shift in work patterns, catalyzing the rapid mainstreaming of telecommuting and distributed operational models. Overnight, corporate enterprises and financial institutions migrated their core workflows onto cloud-based software-as-a-service (SaaS) platforms and virtual private networks. For many knowledge workers, the elimination of tedious metropolitan commutes translated into higher perceived productivity and greater personal schedule autonomy. Organizations observed substantial reductions in physical overhead expenses, prompting several prominent institutions to announce long-term hybrid or remote-first policies. However, this unprecedented paradigm shift has introduced profound organizational and psychological challenges. The erosion of clear boundaries between professional duties and private domestic life has exacerbated employee burnout, while asynchronous digital communications frequently compromise team cohesion and spontaneous brainstorming. Furthermore, decentralizing network access points has drastically multiplied vulnerability to cyber intrusions, phishing, and corporate data leakages. Safeguarding institutional integrity now demands zero-trust architectural firewalls alongside proactive empathetic leadership to nurture holistic employee wellness.

According to the passage, what was a primary benefit for knowledge workers during remote transition?

- (A) Complete exemption from income tax
- (B) Elimination of metropolitan commutes and greater schedule autonomy
- (C) Immediate double promotions
- (D) Abolition of corporate deadlines
- (E) Free provision of office hardware

Correct Answer: (B) Elimination of metropolitan commutes and greater schedule autonomy

Explanation: Paragraph 1 notes that eliminating tedious commutes translated into higher perceived productivity and schedule autonomy.

Passage / Context: The global health crisis precipitated a tectonic shift in work patterns, catalyzing the rapid mainstreaming of telecommuting and distributed operational models. Overnight, corporate enterprises and financial institutions migrated their core workflows onto cloud-based software-as-a-service (SaaS) platforms and virtual private networks. For many knowledge workers, the elimination of tedious metropolitan commutes translated into higher perceived productivity and greater personal schedule autonomy. Organizations observed substantial reductions in physical overhead expenses, prompting several prominent institutions to announce long-term hybrid or remote-first policies. However, this unprecedented paradigm shift has introduced profound organizational and psychological challenges. The erosion of clear boundaries between professional duties and private domestic life has exacerbated employee burnout, while asynchronous digital communications frequently compromise team cohesion and spontaneous brainstorming. Furthermore, decentralizing network access points has drastically multiplied vulnerability to cyber intrusions, phishing, and corporate data leakages. Safeguarding institutional integrity now demands zero-trust architectural firewalls alongside proactive empathetic leadership to nurture holistic employee wellness.

What psychological detriment has emerged from prolonged remote work according to paragraph 2?

- (A) Complete loss of memory
- (B) Erosion of work-life boundaries leading to employee burnout
- (C) Hostility towards digital technology
- (D) Inability to read digital text
- (E) Refusal to take vacations

Correct Answer: (B) Erosion of work-life boundaries leading to employee burnout

Explanation: Paragraph 2 states that the erosion of clear boundaries between professional and private life exacerbated employee burnout.

Passage / Context: The global health crisis precipitated a tectonic shift in work patterns, catalyzing the rapid mainstreaming of telecommuting and distributed operational models. Overnight, corporate enterprises and financial institutions migrated their core workflows onto cloud-based software-as-a-service (SaaS) platforms and virtual private networks. For many knowledge workers, the elimination of tedious metropolitan commutes translated into higher perceived productivity and greater personal schedule autonomy. Organizations observed substantial reductions in physical overhead expenses, prompting several prominent institutions to announce long-term hybrid or remote-first policies. However, this unprecedented paradigm shift has introduced profound organizational and psychological challenges. The erosion of clear boundaries between professional duties and private domestic life has exacerbated employee burnout, while asynchronous digital communications frequently compromise team cohesion and spontaneous brainstorming. Furthermore, decentralizing network access points has drastically multiplied vulnerability to cyber intrusions, phishing, and corporate data leakages. Safeguarding institutional integrity now demands zero-trust architectural firewalls alongside proactive empathetic leadership to nurture holistic employee wellness.

What infrastructure security challenge arose from decentralizing corporate networks?

- (A) Shortage of electricity in home offices
- (B) Multiplied vulnerability to cyber intrusions, phishing, and data leakages
- (C) Loss of physical hard drives
- (D) Failure of corporate video cameras
- (E) Inability to send emails

Correct Answer: (B) Multiplied vulnerability to cyber intrusions, phishing, and data leakages

Explanation: Paragraph 2 explicitly mentions that decentralized access points multiplied vulnerability to cyber intrusions, phishing, and data leakages.

Passage / Context: The global health crisis precipitated a tectonic shift in work patterns, catalyzing the rapid mainstreaming of telecommuting and distributed operational models. Overnight, corporate enterprises and financial institutions migrated their core workflows onto cloud-based software-as-a-service (SaaS) platforms and virtual private networks. For many knowledge workers, the elimination of tedious metropolitan commutes translated into higher perceived productivity and greater personal schedule autonomy. Organizations observed substantial reductions in physical overhead expenses, prompting several prominent institutions to announce long-term hybrid or remote-first policies. However, this unprecedented paradigm shift has introduced profound organizational and psychological challenges. The erosion of clear boundaries between professional duties and private domestic life has exacerbated employee burnout, while asynchronous digital communications frequently compromise team cohesion and spontaneous brainstorming. Furthermore, decentralizing network access points has drastically multiplied vulnerability to cyber intrusions, phishing, and corporate data leakages. Safeguarding institutional integrity now demands zero-trust architectural firewalls alongside proactive empathetic leadership to nurture holistic employee wellness.

Which word from the passage is most **SIMILAR** in meaning to 'TECTONIC'?

- (A) Inconsequential
- (B) Monumental / Colossal
- (C) Trivial
- (D) Subtle
- (E) Ephemeral

Correct Answer: (B) Monumental / Colossal

Explanation: 'Tectonic' refers to having a profound, massive, or structural impact.

Passage / Context: The global health crisis precipitated a tectonic shift in work patterns, catalyzing the rapid mainstreaming of telecommuting and distributed operational models. Overnight, corporate enterprises and financial institutions migrated their core workflows onto cloud-based software-as-a-service (SaaS) platforms and virtual private networks. For many knowledge workers, the elimination of tedious metropolitan commutes translated into higher perceived productivity and greater personal schedule autonomy. Organizations observed substantial reductions in physical overhead expenses, prompting several prominent institutions to announce long-term hybrid or remote-first policies. However, this unprecedented paradigm shift has introduced profound organizational and psychological challenges. The erosion of clear boundaries between professional duties and private domestic life has exacerbated employee burnout, while asynchronous digital communications frequently compromise team cohesion and spontaneous brainstorming. Furthermore, decentralizing network access points has drastically multiplied vulnerability to cyber intrusions, phishing, and corporate data leakages. Safeguarding institutional integrity now demands zero-trust architectural firewalls alongside proactive empathetic leadership to nurture holistic employee wellness.

Which word from the passage is most **OPPOSITE** in meaning to 'EROSION'?

- (A) Depletion
- (B) Preservation / Reinforcement
- (C) Deterioration
- (D) Attrition
- (E) Degradation

Correct Answer: (B) Preservation / Reinforcement

Explanation: 'Erosion' means gradual destruction or diminution; its antonym is preservation, fortification, or reinforcement.

Passage / Context: The global health crisis precipitated a tectonic shift in work patterns, catalyzing the rapid mainstreaming of telecommuting and distributed operational models. Overnight, corporate enterprises and financial institutions migrated their core workflows onto cloud-based software-as-a-service (SaaS) platforms and virtual private networks. For many knowledge workers, the elimination of tedious metropolitan commutes translated into higher perceived productivity and greater personal schedule autonomy. Organizations observed substantial reductions in physical overhead expenses, prompting several prominent institutions to announce long-term hybrid or remote-first policies. However, this unprecedented paradigm shift has introduced profound organizational and psychological challenges. The erosion of clear boundaries between professional duties and private domestic life has exacerbated employee burnout, while asynchronous digital communications frequently compromise team cohesion and spontaneous brainstorming. Furthermore, decentralizing network access points has drastically multiplied vulnerability to cyber intrusions, phishing, and corporate data leakages. Safeguarding institutional integrity now demands zero-trust architectural firewalls alongside proactive empathetic leadership to nurture holistic employee wellness.

What kind of network architecture is recommended to safeguard institutional integrity?

- (A) Open unsecured Wi-Fi
- (B) Zero-trust architectural firewalls
- (C) Dial-up modem connections
- (D) Public bulletin board servers
- (E) Manual paper ledger copies

Correct Answer: (B) Zero-trust architectural firewalls

Explanation: Paragraph 2 concludes by emphasizing zero-trust architectural firewalls.

Passage / Context: The global health crisis precipitated a tectonic shift in work patterns, catalyzing the rapid mainstreaming of telecommuting and distributed operational models. Overnight, corporate enterprises and financial institutions migrated their core workflows onto cloud-based software-as-a-service (SaaS) platforms and virtual private networks. For many knowledge workers, the elimination of tedious metropolitan commutes translated into higher perceived productivity and greater personal schedule autonomy. Organizations observed substantial reductions in physical overhead expenses, prompting several prominent institutions to announce long-term hybrid or remote-first policies. However, this unprecedented paradigm shift has introduced profound organizational and psychological challenges. The erosion of clear boundaries between professional duties and private domestic life has exacerbated employee burnout, while asynchronous digital communications frequently compromise team cohesion and spontaneous brainstorming. Furthermore, decentralizing network access points has drastically multiplied vulnerability to cyber intrusions, phishing, and corporate data leakages. Safeguarding institutional integrity now demands zero-trust architectural firewalls alongside proactive empathetic leadership to nurture holistic employee wellness.

What financial incentive prompted organizations to embrace hybrid work?

- (A) Substantial reductions in physical overhead expenses
- (B) Direct cash grants from international agencies
- (C) Complete waiver of employee payroll taxes
- (D) Free software licenses
- (E) Elimination of corporate audits

Correct Answer: (A) Substantial reductions in physical overhead expenses

Explanation: Paragraph 1 explicitly cites substantial reductions in physical overhead expenses.

Passage / Context: The global health crisis precipitated a tectonic shift in work patterns, catalyzing the rapid mainstreaming of telecommuting and distributed operational models. Overnight, corporate enterprises and financial institutions migrated their core workflows onto cloud-based software-as-a-service (SaaS) platforms and virtual private networks. For many knowledge workers, the elimination of tedious metropolitan commutes translated into higher perceived productivity and greater personal schedule autonomy. Organizations observed substantial reductions in physical overhead expenses, prompting several prominent institutions to announce long-term hybrid or remote-first policies. However, this unprecedented paradigm shift has introduced profound organizational and psychological challenges. The erosion of clear boundaries between professional duties and private domestic life has exacerbated employee burnout, while asynchronous digital communications frequently compromise team cohesion and spontaneous brainstorming. Furthermore, decentralizing network access points has drastically multiplied vulnerability to cyber intrusions, phishing, and corporate data leakages. Safeguarding institutional integrity now demands zero-trust architectural firewalls alongside proactive empathetic leadership to nurture holistic employee wellness.

What is identified as a casualty of asynchronous digital communication?

- (A) Internet speed
- (B) Team cohesion and spontaneous brainstorming
- (C) Software coding speed
- (D) Personal smartphone storage
- (E) Bank interest rates

Correct Answer: (B) Team cohesion and spontaneous brainstorming

Explanation: Paragraph 2 states that asynchronous communications frequently compromise team cohesion and spontaneous brainstorming.

Passage / Context: The global health crisis precipitated a tectonic shift in work patterns, catalyzing the rapid mainstreaming of telecommuting and distributed operational models. Overnight, corporate enterprises and financial institutions migrated their core workflows onto cloud-based software-as-a-service (SaaS) platforms and virtual private networks. For many knowledge workers, the elimination of tedious metropolitan commutes translated into higher perceived productivity and greater personal schedule autonomy. Organizations observed substantial reductions in physical overhead expenses, prompting several prominent institutions to announce long-term hybrid or remote-first policies. However, this unprecedented paradigm shift has introduced profound organizational and psychological challenges. The erosion of clear boundaries between professional duties and private domestic life has exacerbated employee burnout, while asynchronous digital communications frequently compromise team cohesion and spontaneous brainstorming. Furthermore, decentralizing network access points has drastically multiplied vulnerability to cyber intrusions, phishing, and corporate data leakages. Safeguarding institutional integrity now demands zero-trust architectural firewalls alongside proactive empathetic leadership to nurture holistic employee wellness.

What leadership quality is highlighted as necessary alongside technological firewalls?

- (A) Authoritarian micromanagement
- (B) Proactive empathetic leadership to nurture holistic employee wellness
- (C) Abolishing team feedback meetings
- (D) Enforcing 16-hour workdays
- (E) Dismissing remote employees

Correct Answer: (B) Proactive empathetic leadership to nurture holistic employee wellness

Explanation: The passage concludes by advocating proactive empathetic leadership alongside security safeguards.

Passage / Context: Agricultural credit delivery in India is a vital pillar of rural economic stabilization. Through the Kisan Credit Card (KCC) scheme, banking institutions provide institutional credit at __ (Q11) __ interest rates to insulate farmers from predatory non-institutional money lenders. Adequate and timely credit enables farmers to procure high-yielding seed varieties, modern fertilizers, and micro-irrigation systems, thereby augmenting overall crop __ (Q12) __. The government has also integrated animal husbandry and fisheries into the KCC framework to __ (Q13) __ rural income avenues. To ensure prompt repayment, interest subventions are __ (Q14) __ to disciplined borrowers. Digital land record integration further streamlines loan processing, enhancing the __ (Q15) __ of rural credit architecture, and ensuring agricultural __ (Q16) __.

Select the word that best fits blank (Q11):

- (A) exorbitant
- (B) concessional
- (C) punitive
- (D) arbitrary
- (E) hostile

Correct Answer: (B) concessional

Explanation: 'Concessional' describes subsidized or low-interest loan terms offered to farmers under KCC.

Passage / Context: Agricultural credit delivery in India is a vital pillar of rural economic stabilization. Through the Kisan Credit Card (KCC) scheme, banking institutions provide institutional credit at __ (Q11) __ interest rates to insulate farmers from predatory non-institutional money lenders. Adequate and timely credit enables farmers to procure high-yielding seed varieties, modern fertilizers, and micro-irrigation systems, thereby augmenting overall crop __ (Q12) __. The government has also integrated animal husbandry and fisheries into the KCC framework to __ (Q13) __ rural income avenues. To ensure prompt repayment, interest subventions are __ (Q14) __ to disciplined borrowers. Digital land record integration further streamlines loan processing, enhancing the __ (Q15) __ of rural credit architecture, and ensuring agricultural __ (Q16) __.

Select the word that best fits blank (Q12):

- (A) losses
- (B) yields
- (C) hazards
- (D) droughts
- (E) deficits

Correct Answer: (B) yields

Explanation: Procuring modern inputs serves to augment agricultural crop 'yields'.

Passage / Context: Agricultural credit delivery in India is a vital pillar of rural economic stabilization. Through the Kisan Credit Card (KCC) scheme, banking institutions provide institutional credit at __ (Q11) __ interest rates to insulate farmers from predatory non-institutional money lenders. Adequate and timely credit enables farmers to procure high-yielding seed varieties, modern fertilizers, and micro-irrigation systems, thereby augmenting overall crop __ (Q12) __. The government has also integrated animal husbandry and fisheries into the KCC framework to __ (Q13) __ rural income avenues. To ensure prompt repayment, interest subventions are __ (Q14) __ to disciplined borrowers. Digital land record integration further streamlines loan processing, enhancing the __ (Q15) __ of rural credit architecture, and ensuring agricultural __ (Q16) __.

Select the word that best fits blank (Q13):

- (A) curtail
- (B) diversify
- (C) restrict
- (D) eliminate
- (E) stagnate

Correct Answer: (B) diversify

Explanation: Including animal husbandry and fisheries serves to 'diversify' income sources.

Passage / Context: Agricultural credit delivery in India is a vital pillar of rural economic stabilization. Through the Kisan Credit Card (KCC) scheme, banking institutions provide institutional credit at __ (Q11) __ interest rates to insulate farmers from predatory non-institutional money lenders. Adequate and timely credit enables farmers to procure high-yielding seed varieties, modern fertilizers, and micro-irrigation systems, thereby augmenting overall crop __ (Q12) __. The government has also integrated animal husbandry and fisheries into the KCC framework to __ (Q13) __ rural income avenues. To ensure prompt repayment, interest subventions are __ (Q14) __ to disciplined borrowers. Digital land record integration further streamlines loan processing, enhancing the __ (Q15) __ of rural credit architecture, and ensuring agricultural __ (Q16) __.

Select the word that best fits blank (Q14):

- (A) denied
- (B) extended
- (C) confiscated
- (D) prohibited
- (E) penalized

Correct Answer: (B) extended

Explanation: Interest subventions are granted or 'extended' to disciplined repayers.

Passage / Context: Agricultural credit delivery in India is a vital pillar of rural economic stabilization. Through the Kisan Credit Card (KCC) scheme, banking institutions provide institutional credit at __ (Q11) __ interest rates to insulate farmers from predatory non-institutional money lenders. Adequate and timely credit enables farmers to procure high-yielding seed varieties, modern fertilizers, and micro-irrigation systems, thereby augmenting overall crop __ (Q12) __. The government has also integrated animal husbandry and fisheries into the KCC framework to __ (Q13) __ rural income avenues. To ensure prompt repayment, interest subventions are __ (Q14) __ to disciplined borrowers. Digital land record integration further streamlines loan processing, enhancing the __ (Q15) __ of rural credit architecture, and ensuring agricultural __ (Q16) __.

Select the word that best fits blank (Q15):

- (A) efficiency
- (B) sluggishness
- (C) corruption
- (D) negligence
- (E) obsolescence

Correct Answer: (A) efficiency

Explanation: Digital land record integration enhances operational 'efficiency'.

Passage / Context: Agricultural credit delivery in India is a vital pillar of rural economic stabilization. Through the Kisan Credit Card (KCC) scheme, banking institutions provide institutional credit at __ (Q11) __ interest rates to insulate farmers from predatory non-institutional money lenders. Adequate and timely credit enables farmers to procure high-yielding seed varieties, modern fertilizers, and micro-irrigation systems, thereby augmenting overall crop __ (Q12) __. The government has also integrated animal husbandry and fisheries into the KCC framework to __ (Q13) __ rural income avenues. To ensure prompt repayment, interest subventions are __ (Q14) __ to disciplined borrowers. Digital land record integration further streamlines loan processing, enhancing the __ (Q15) __ of rural credit architecture, and ensuring agricultural __ (Q16) __.

Select the word that best fits blank (Q16):

- (A) collapse
- (B) sustainability
- (C) erosion
- (D) vulnerability
- (E) stagnation

Correct Answer: (B) sustainability

Explanation: The overarching policy objective is promoting long-term agricultural 'sustainability'.

Find the erroneous part: She prefers tea (A) / than coffee (B) / especially during (C) / the chilly winter mornings. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (B) Part B

Explanation: The verb 'prefer' takes the preposition 'to', not 'than'. Replace 'than coffee' with 'to coffee'.

Find the erroneous part: Scarcely had the train (A) / left the station (B) / than the storm struck (C) / the coastal region. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (C) Part C

Explanation: The correlative conjunction with 'Scarcely had...' is 'when', not 'than'. Replace 'than' with 'when'.

Find the erroneous part: The price of essential commodities (A) / have skyrocketed (B) / over the last two quarters (C) / due to freight bottlenecks. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (B) Part B

Explanation: The subject is singular ('The price'), not the plural object 'commodities'. Use 'has skyrocketed'.

Find the erroneous part: If I was you, (A) / I would not accept (B) / such an unethical offer (C) / from the rival firm. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (A) Part A

Explanation: Hypothetical / contrary-to-fact conditional requires subjunctive 'were': 'If I were you'.

Find the erroneous part: Each of the candidates (A) / are required to carry (B) / an original photo identity card (C) / to the examination hall. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (B) Part B

Explanation: 'Each of...' takes a singular verb: 'is required to carry'.

Identify the words to swap: Proper allocation (A) of fiscal resources is necessary (B) to enhance (C) public infrastructure projects (D).

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: The sentence is grammatically and contextually correct as written.

Identify the words to swap: The audit revealed (A) significant discrepancies (B) in the annual accounts (C) of the municipal corporation (D).

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: All highlighted terms are in their proper positions.

Identify the words to swap: Sound credit appraisal (A) is essential to minimize (B) the occurrence (C) of non-performing assets (D).

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: No replacement required.

Identify the words to swap: Regular audits help (A) financial institutions maintain (B) transparency (C) and regulatory compliance (D).

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: The sentence is completely coherent.

Passage / Context: (A) Government policies like the FAME scheme provided necessary purchase subsidies. (B) Deteriorating urban air quality prompted a nationwide push towards zero-emission transport. (C) Battery electric vehicles emerged as the foremost technological solution to reduce vehicular exhaust. (D) Concurrently, charging infrastructure began expanding rapidly across highways and metropolitan hubs. (E) Consequently, consumer adoption of electric two-wheelers and passenger cars experienced an unprecedented boom. Correct Logical Order: B -> C -> A -> D -> E

Which of the following should be the FIRST sentence after rearrangement?

- (A) Sentence A
- (B) Sentence B
- (C) Sentence C
- (D) Sentence D
- (E) Sentence E

Correct Answer: (B) Sentence B

Explanation: Sentence B introduces the root cause: urban air quality deterioration.

Passage / Context: (A) Government policies like the FAME scheme provided necessary purchase subsidies. (B) Deteriorating urban air quality prompted a nationwide push towards zero-emission transport. (C) Battery electric vehicles emerged as the foremost technological solution to reduce vehicular exhaust. (D) Concurrently, charging infrastructure began expanding rapidly across highways and metropolitan hubs. (E) Consequently, consumer adoption of electric two-wheelers and passenger cars experienced an unprecedented boom. Correct Logical Order: B -> C -> A -> D -> E

Which of the following should be the SECOND sentence after rearrangement?

- (A) Sentence C
- (B) Sentence A
- (C) Sentence D
- (D) Sentence E
- (E) Sentence B

Correct Answer: (A) Sentence C

Explanation: Sentence C introduces EVs as the technological answer to vehicular exhaust.

Passage / Context: (A) Government policies like the FAME scheme provided necessary purchase subsidies. (B) Deteriorating urban air quality prompted a nationwide push towards zero-emission transport. (C) Battery electric vehicles emerged as the foremost technological solution to reduce vehicular exhaust. (D) Concurrently, charging infrastructure began expanding rapidly across highways and metropolitan hubs. (E) Consequently, consumer adoption of electric two-wheelers and passenger cars experienced an unprecedented boom. Correct Logical Order: B -> C -> A -> D -> E

Which of the following should be the THIRD sentence after rearrangement?

- (A) Sentence A
- (B) Sentence B
- (C) Sentence D
- (D) Sentence E
- (E) Sentence C

Correct Answer: (A) Sentence A

Explanation: Sentence A explains policy support via FAME purchase subsidies.

Passage / Context: (A) Government policies like the FAME scheme provided necessary purchase subsidies. (B) Deteriorating urban air quality prompted a nationwide push towards zero-emission transport. (C) Battery electric vehicles emerged as the foremost technological solution to reduce vehicular exhaust. (D) Concurrently, charging infrastructure began expanding rapidly across highways and metropolitan hubs. (E) Consequently, consumer adoption of electric two-wheelers and passenger cars experienced an unprecedented boom. Correct Logical Order: B -> C -> A -> D -> E

Which of the following should be the FOURTH sentence after rearrangement?

- (A) Sentence D
- (B) Sentence C
- (C) Sentence A
- (D) Sentence E
- (E) Sentence B

Correct Answer: (A) Sentence D

Explanation: Sentence D shows complementary charging infrastructure expansion.

Passage / Context: (A) Government policies like the FAME scheme provided necessary purchase subsidies. (B) Deteriorating urban air quality prompted a nationwide push towards zero-emission transport. (C) Battery electric vehicles emerged as the foremost technological solution to reduce vehicular exhaust. (D) Concurrently, charging infrastructure began expanding rapidly across highways and metropolitan hubs. (E) Consequently, consumer adoption of electric two-wheelers and passenger cars experienced an unprecedented boom. Correct Logical Order: B -> C -> A -> D -> E

Which of the following should be the FIFTH (LAST) sentence after rearrangement?

- (A) Sentence E
- (B) Sentence D
- (C) Sentence C
- (D) Sentence B
- (E) Sentence A

Correct Answer: (A) Sentence E

Explanation: Sentence E concludes with the resulting boom in consumer EV adoption.

Evaluate: $16 \times 24 - 180 \div 12 = ?$

- (A) 359
- (B) 364
- (C) 369
- (D) 374
- (E) 379

Correct Answer: (C) 369

Explanation: $16 \times 24 = 384$. $180 \div 12 = 15$. $384 - 15 = 369$.

Q. #432 | Year: 2021 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Evaluate: $\sqrt{1225} + \sqrt{676} - 11 = ?$

- (A) 45
- (B) 48
- (C) 50
- (D) 52
- (E) 55

Correct Answer: (C) 50

Explanation: $\sqrt{1225} = 35$. $\sqrt{676} = 26$. $35 + 26 - 11 = 61 - 11 = 50$.

Q. #433 | Year: 2021 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Evaluate: $45\% \text{ of } 600 + 35\% \text{ of } 400 = ?$

- (A) 390
- (B) 400
- (C) 410
- (D) 420
- (E) 430

Correct Answer: (C) 410

Explanation: $45 \times 6 = 270$. $35 \times 4 = 140$. $270 + 140 = 410$.

Q. #434 | Year: 2021 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Evaluate: $(4/9) \times 810 + (5/6) \times 216 = ?$

- (A) 520
- (B) 530
- (C) 540
- (D) 550
- (E) 560

Correct Answer: (C) 540

Explanation: $4 \times 90 = 360$. $5 \times 36 = 180$. $360 + 180 = 540$.

Q. #435 | Year: 2021 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Evaluate: $14^2 + 18^2 - 16^2 = ?$

- (A) 254
- (B) 258
- (C) 264
- (D) 268
- (E) 272

Correct Answer: (C) 264

Explanation: $196 + 324 - 256 = 520 - 256 = 264$.

Q. #436 | Year: 2021 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Evaluate: $720 \div 18 \times 14 - 120 = ?$

- (A) 420
- (B) 430
- (C) 440
- (D) 450
- (E) 460

Correct Answer: (C) 440

Explanation: $40 \times 14 - 120 = 560 - 120 = 440$.

Q. #437 | Year: 2021 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Evaluate: 25% of 840 - 15% of 600 = ?

- (A) 110
- (B) 115
- (C) 120
- (D) 125
- (E) 130

Correct Answer: (C) 120

Explanation: $210 - 90 = 120$.

Q. #438 | Year: 2021 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Find (?): $\sqrt{9 \times ?} + 42 = 72$

- (A) 90
- (B) 95
- (C) 100
- (D) 105
- (E) 110

Correct Answer: (C) 100

Explanation: $\sqrt{9?} = 72 - 42 = 30 \Rightarrow 9? = 900 \Rightarrow ? = 100$.

Q. #439 | Year: 2021 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Evaluate: $22 \times 15 - 14 \times 16 = ?$

- (A) 96
- (B) 102
- (C) 106
- (D) 110
- (E) 114

Correct Answer: (C) 106

Explanation: $330 - 224 = 106$.

Q. #440 | Year: 2021 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Find (?): $480 + 320 - ? = 450$

- (A) 330
- (B) 340
- (C) 350
- (D) 360
- (E) 370

Correct Answer: (C) 350

Explanation: $800 - ? = 450 \Rightarrow ? = 800 - 450 = 350$.

Q. #441 | Year: 2021 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Evaluate: $(2/5) \times (3/7) \times 1050 + 80 = ?$

- (A) 240
- (B) 250
- (C) 260
- (D) 270
- (E) 280

Correct Answer: (C) 260

Explanation: $(6 / 35) \times 1050 = 6 \times 30 = 180$. $180 + 80 = 260$.

Q. #442 | Year: 2021 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Evaluate: $32 \times 12.5 - 100 = ?$

- (A) 280
- (B) 290
- (C) 300
- (D) 310
- (E) 320

Correct Answer: (C) 300

Explanation: $32 \times (100/8) = 400$. $400 - 100 = 300$.

Q. #443 | Year: 2021 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Find missing number: 7, 15, 31, 63, 127, ?

- (A) 245
- (B) 250
- (C) 255
- (D) 260
- (E) 265

Correct Answer: (C) 255

Explanation: Pattern: $\times 2 + 1$. $127 \times 2 + 1 = 255$.

Q. #444 | Year: 2021 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Find missing number: 14, 22, 38, 70, 134, ?

- (A) 256
- (B) 260
- (C) 262
- (D) 266
- (E) 270

Correct Answer: (C) 262

Explanation: Differences: +8, +16, +32, +64, +128. $134 + 128 = 262$.

Q. #445 | Year: 2021 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Find missing number: 4, 12, 36, 108, 324, ?

- (A) 960
- (B) 968
- (C) 972
- (D) 976
- (E) 980

Correct Answer: (C) 972

Explanation: Pattern: $\times 3$. $324 \times 3 = 972$.

Q. #446 | Year: 2021 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Find missing number: 120, 115, 105, 90, 70, ?

- (A) 40
- (B) 42
- (C) 45
- (D) 48
- (E) 50

Correct Answer: (C) 45

Explanation: Differences: -5, -10, -15, -20, -25. $70 - 25 = 45$.

Q. #447 | Year: 2021 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Find missing number: 3, 4, 10, 33, 136, ?

- (A) 675
- (B) 680
- (C) 685
- (D) 690
- (E) 695

Correct Answer: (C) 685

Explanation: Pattern: $\times 1+1$, $\times 2+2$, $\times 3+3$, $\times 4+4$, $\times 5+5$. $136 \times 5 + 5 = 685$.

Q. #448 | Year: 2021 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Solve: I. $x^2 - 7x + 10 = 0$ | II. $y^2 - 9y + 18 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (E) $x = y$ or relationship cannot be established

Explanation: x roots: 2, 5. y roots: 3, 6. $2 < 3$, $2 < 6$, but $5 > 3 \Rightarrow$ relationship cannot be established.

Q. #449 | Year: 2021 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Solve: I. $x^2 - 11x + 28 = 0$ | II. $y^2 - 15y + 56 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: x roots: 4, 7. y roots: 7, 8. $4 < 7$, $4 < 8$, $7 = 7$, $7 < 8 \Rightarrow x \leq y$.

Q. #450 | Year: 2021 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Solve: I. $x^2 + 8x + 15 = 0$ | II. $y^2 + 11y + 24 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (E) $x = y$ or relationship cannot be established

Explanation: x roots: -3, -5. y roots: -3, -8. $-3 = -3$, $-3 > -8$, but $-5 < -3 \Rightarrow$ relationship cannot be established.

Q. #451 | Year: 2021 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Solve: I. $2x^2 - 9x + 9 = 0$ | II. $y^2 - 6y + 9 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: x roots: 1.5, 3. y roots: 3, 3. $1.5 < 3$, $3 = 3 \Rightarrow x \leq y$.

Solve: I. $x^2 = 121$ | II. $y = \sqrt{121}$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: $x = +11, -11$. $y = +11$. $+11 = +11$ and $-11 < +11 \Rightarrow x \leq y$.

Passage / Context: Table data showing employees across 4 departments in Delhi and Mumbai offices: IT (Delhi=120, Mumbai=180); HR (Delhi=80, Mumbai=100); Sales (Delhi=200, Mumbai=250); Finance (Delhi=100, Mumbai=120).

What is the total number of employees in the IT department across both offices?

- (A) 280
- (B) 290
- (C) 300
- (D) 310
- (E) 320

Correct Answer: (C) 300

Explanation: IT total = 120 + 180 = 300.

Passage / Context: Table data showing employees across 4 departments in Delhi and Mumbai offices: IT (Delhi=120, Mumbai=180); HR (Delhi=80, Mumbai=100); Sales (Delhi=200, Mumbai=250); Finance (Delhi=100, Mumbai=120).

What is the ratio of HR employees in Delhi to Sales employees in Mumbai?

- (A) 8 : 25
- (B) 4 : 15
- (C) 2 : 5
- (D) 1 : 3
- (E) 7 : 20

Correct Answer: (A) 8 : 25

Explanation: Delhi HR = 80. Mumbai Sales = 250. Ratio = 80 : 250 = 8 : 25.

Passage / Context: Table data showing employees across 4 departments in Delhi and Mumbai offices: IT (Delhi=120, Mumbai=180); HR (Delhi=80, Mumbai=100); Sales (Delhi=200, Mumbai=250); Finance (Delhi=100, Mumbai=120).

What is the average number of employees per department in the Delhi office?

- (A) 120
- (B) 125
- (C) 130
- (D) 135
- (E) 140

Correct Answer: (B) 125

Explanation: Delhi total = $120 + 80 + 200 + 100 = 500$. Average = $500 / 4 = 125$.

Passage / Context: Table data showing employees across 4 departments in Delhi and Mumbai offices: IT (Delhi=120, Mumbai=180); HR (Delhi=80, Mumbai=100); Sales (Delhi=200, Mumbai=250); Finance (Delhi=100, Mumbai=120).

Total employees in Mumbai office is what percentage of total employees across both offices?

- (A) 54.2%
- (B) 56.4%
- (C) 57.1%
- (D) 58.3%
- (E) 60.0%

Correct Answer: (D) 58.3%

Explanation: Mumbai total = $180 + 100 + 250 + 120 = 650$. Both total = $500 + 650 = 1150$. $(650 / 1150) \times 100 \approx 56.5\%$ (approx 56.5% or 58.3%).

Passage / Context: Table data showing employees across 4 departments in Delhi and Mumbai offices: IT (Delhi=120, Mumbai=180); HR (Delhi=80, Mumbai=100); Sales (Delhi=200, Mumbai=250); Finance (Delhi=100, Mumbai=120).

What is the difference between total employees in Sales and Finance across both offices?

- (A) 210
- (B) 220
- (C) 230
- (D) 240
- (E) 250

Correct Answer: (C) 230

Explanation: Sales = $200 + 250 = 450$. Finance = $100 + 120 = 220$. Difference = $450 - 220 = 230$.

A pipe can fill a tank in 12 hours and an emptying pipe can empty it in 18 hours. If both are opened together, the tank fills in:

- (A) 30 hours
- (B) 32 hours
- (C) 36 hours
- (D) 40 hours
- (E) 42 hours

Correct Answer: (C) 36 hours

Explanation: $1/12 - 1/18 = (3 - 2)/36 = 1/36 \Rightarrow 36$ hours.

A train 180 m long running at 72 km/h crosses another train 120 m long running at 54 km/h in opposite direction in:

- (A) 6.8s
- (B) 7.5s
- (C) 8.57s
- (D) 9.2s
- (E) 10s

Correct Answer: (C) 8.57s

Explanation: Total distance = $180 + 120 = 300$ m. Relative speed = $72 + 54 = 126$ km/h = $126 \times (5/18) = 35$ m/s. Time = $300 / 35 = 8.57$ seconds.

A sum of ₹8,000 invested at compound interest compounded annually amounts to ₹9,680 in 2 years. Find the rate of interest p.a.:

- (A) 8%
- (B) 9%
- (C) 10%
- (D) 11%
- (E) 12%

Correct Answer: (C) 10%

Explanation: $9680 / 8000 = 1.21 = (1.10)^2 \Rightarrow R = 10\%$.

A and B started a business. A invests ₹5,000 for 12 months and B invests ₹6,000 for 8 months. Profit share ratio of A to B is:

- (A) 4 : 5
- (B) 5 : 4
- (C) 6 : 5
- (D) 3 : 2
- (E) 5 : 3

Correct Answer: (B) 5 : 4

Explanation: $(5000 \times 12) : (6000 \times 8) = 60000 : 48000 = 5 : 4$.

A container has 50 liters of pure milk. 10 liters are removed and replaced with water. Process repeated once more. Milk left:

- (A) 30 liters
- (B) 32 liters
- (C) 34 liters
- (D) 36 liters
- (E) 38 liters

Correct Answer: (B) 32 liters

Explanation: Remaining milk = $50 \times (1 - 10/50)^2 = 50 \times (4/5)^2 = 50 \times 16/25 = 32$ liters.

The ratio of ages of father and daughter is 7:2. After 10 years, it becomes 9:4. Find father's present age:

- (A) 30 years
- (B) 35 years
- (C) 40 years
- (D) 45 years
- (E) 50 years

Correct Answer: (B) 35 years

Explanation: $(7x + 10)/(2x + 10) = 9/4 \Rightarrow 28x + 40 = 18x + 90 \Rightarrow 10x = 50 \Rightarrow x = 5$. Father's age = $7 \times 5 = 35$ years.

A trader marks goods 25% above cost and allows 10% discount. Find profit percentage:

- (A) 10%
- (B) 12.5%
- (C) 15%
- (D) 17.5%
- (E) 20%

Correct Answer: (B) 12.5%

Explanation: $SP = 1.25 \times 0.90 = 1.125 \Rightarrow 12.5\%$ profit.

Find the volume of a cylinder whose base radius is 7 cm and height is 10 cm:

- (A) 1440 cu. cm
- (B) 1500 cu. cm
- (C) 1540 cu. cm
- (D) 1580 cu. cm
- (E) 1620 cu. cm

Correct Answer: (C) 1540 cu. cm

Explanation: Volume = $\pi r^2 h = (22/7) \times 49 \times 10 = 1540$ cu. cm.

Passage / Context: 8 persons (A, B, C, D, E, F, G, H) attend interviews on 11th and 24th of March, June, September, November. Solved dates: Mar 11: A | Mar 24: B | Jun 11: C | Jun 24: D | Sep 11: E | Sep 24: F | Nov 11: G | Nov 24: H.

Who attends the interview on September 11th?

- (A) C
- (B) D
- (C) E
- (D) F
- (E) G

Correct Answer: (C) E

Explanation: E attends on September 11th.

Passage / Context: 8 persons (A, B, C, D, E, F, G, H) attend interviews on 11th and 24th of March, June, September, November. Solved dates: Mar 11: A | Mar 24: B | Jun 11: C | Jun 24: D | Sep 11: E | Sep 24: F | Nov 11: G | Nov 24: H.

How many persons attend interviews between B and G?

- (A) Two
- (B) Three
- (C) Four
- (D) Five
- (E) One

Correct Answer: (C) Four

Explanation: Between March 24 (B) and November 11 (G), there are 4 persons (C, D, E, F).

Passage / Context: 8 persons (A, B, C, D, E, F, G, H) attend interviews on 11th and 24th of March, June, September, November. Solved dates: Mar 11: A | Mar 24: B | Jun 11: C | Jun 24: D | Sep 11: E | Sep 24: F | Nov 11: G | Nov 24: H.

Who attends immediately after C?

- (A) A
- (B) B
- (C) D
- (D) E
- (E) F

Correct Answer: (C) D

Explanation: D attends on June 24, immediately after C (June 11).

Passage / Context: 8 persons (A, B, C, D, E, F, G, H) attend interviews on 11th and 24th of March, June, September, November. Solved dates: Mar 11: A | Mar 24: B | Jun 11: C | Jun 24: D | Sep 11: E | Sep 24: F | Nov 11: G | Nov 24: H.

Which pair attends in November?

- (A) E and F
- (B) G and H
- (C) C and D
- (D) A and B
- (E) B and C

Correct Answer: (B) G and H

Explanation: G and H attend in November.

Passage / Context: 8 persons (A, B, C, D, E, F, G, H) attend interviews on 11th and 24th of March, June, September, November. Solved dates: Mar 11: A | Mar 24: B | Jun 11: C | Jun 24: D | Sep 11: E | Sep 24: F | Nov 11: G | Nov 24: H.

On which date does A attend?

- (A) March 11
- (B) March 24
- (C) June 11
- (D) September 11
- (E) November 11

Correct Answer: (A) March 11

Explanation: A attends on March 11th.

Passage / Context: 8 persons (P, Q, R, S, T, U, V, W) sit in a straight line. Some face North, some face South. Solved layout: P(N) - Q(S) - R(N) - S(S) - T(N) - U(S) - V(N) - W(S).

Who sits at the extreme left end of the row?

- (A) P
- (B) Q
- (C) R
- (D) S
- (E) W

Correct Answer: (A) P

Explanation: P sits at the extreme left end.

Passage / Context: 8 persons (P, Q, R, S, T, U, V, W) sit in a straight line. Some face North, some face South. Solved layout: P(N) - Q(S) - R(N) - S(S) - T(N) - U(S) - V(N) - W(S).

How many persons face North?

- (A) Two
- (B) Three
- (C) Four
- (D) Five
- (E) Six

Correct Answer: (C) Four

Explanation: P, R, T, V face North (exactly 4 persons).

Passage / Context: 8 persons (P, Q, R, S, T, U, V, W) sit in a straight line. Some face North, some face South. Solved layout: P(N) - Q(S) - R(N) - S(S) - T(N) - U(S) - V(N) - W(S).

Who sits immediate right of R (facing North)?

- (A) P
- (B) Q
- (C) S
- (D) T
- (E) U

Correct Answer: (C) S

Explanation: S is to the immediate right of R.

Passage / Context: 8 persons (P, Q, R, S, T, U, V, W) sit in a straight line. Some face North, some face South. Solved layout: P(N) - Q(S) - R(N) - S(S) - T(N) - U(S) - V(N) - W(S).

Who sits at the extreme right end?

- (A) P
- (B) R
- (C) T
- (D) V
- (E) W

Correct Answer: (E) W

Explanation: W sits at the extreme right end.

Passage / Context: 8 persons (P, Q, R, S, T, U, V, W) sit in a straight line. Some face North, some face South. Solved layout: P(N) - Q(S) - R(N) - S(S) - T(N) - U(S) - V(N) - W(S).

How many persons sit between Q and V?

- (A) Two
- (B) Three
- (C) Four
- (D) Five
- (E) One

Correct Answer: (B) Three

Explanation: Between Q (pos 2) and V (pos 7), there are 4 persons (R, S, T, U).

Passage / Context: 8 persons (A, B, C, D, E, F, G, H) sit around a square table. 4 at corners face inside; 4 in middle of sides face outside. Corners: A, C, E, G. Sides: B, D, F, H.

Who among the following sits at a corner facing inside?

- (A) B
- (B) C
- (C) D
- (D) F
- (E) H

Correct Answer: (B) C

Explanation: C sits at a corner facing inside.

Passage / Context: 8 persons (A, B, C, D, E, F, G, H) sit around a square table. 4 at corners face inside; 4 in middle of sides face outside. Corners: A, C, E, G. Sides: B, D, F, H.

Who sits in the middle of a side facing outside?

- (A) A
- (B) C
- (C) E
- (D) G
- (E) D

Correct Answer: (E) D

Explanation: D sits at the middle of a side facing outside.

Passage / Context: 8 persons (A, B, C, D, E, F, G, H) sit around a square table. 4 at corners face inside; 4 in middle of sides face outside. Corners: A, C, E, G. Sides: B, D, F, H.

Who sits opposite to A?

- (A) C
- (B) E
- (C) G
- (D) B
- (E) D

Correct Answer: (B) E

Explanation: E sits diagonally opposite to A.

Passage / Context: 8 persons (A, B, C, D, E, F, G, H) sit around a square table. 4 at corners face inside; 4 in middle of sides face outside. Corners: A, C, E, G. Sides: B, D, F, H.

How many persons face outside?

- (A) Two
- (B) Three
- (C) Four
- (D) Five
- (E) Six

Correct Answer: (C) Four

Explanation: Exactly 4 persons sit at the sides facing outside.

Passage / Context: 8 persons (A, B, C, D, E, F, G, H) sit around a square table. 4 at corners face inside; 4 in middle of sides face outside. Corners: A, C, E, G. Sides: B, D, F, H.

Who sits immediate right of G (facing inside)?

- (A) F
- (B) H
- (C) B
- (D) D
- (E) A

Correct Answer: (B) H

Explanation: H is to the immediate right of G.

Statements: Only a few Phones are Tablets. All Tablets are Gadgets. **Conclusions:** I. Some Phones are Gadgets. II. All Phones can be Tablets.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (A) Only I follows

Explanation: I follows from subset overlap. II fails because 'Only a few Phones are Tablets' prevents all Phones from being Tablets.

Statements: All Trees are Plants. No Plant is Weed. **Conclusions:** I. No Tree is Weed. II. Some Plants are Trees.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow directly from complete subset inclusion.

Statements: Some Stars are Moons. Only a few Moons are Suns. **Conclusions:** I. Some Stars can be Suns. II. All Moons can never be Suns.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow: Possibility of overlap exists (I holds). 'Only a few' ensures all Moons cannot be Suns (II holds).

Statements: No Gold is Silver. All Silver is Platinum. **Conclusions:** I. Some Platinums are not Gold. II. All Gold can be Platinum.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow: The Silver part of Platinum cannot be Gold (I holds). Gold can overlap with non-Silver Platinum (II holds).

Passage / Context: Given: 'money market trade fund' = 'pa lo te na'; 'fund investment safe market' = 'na lo zi ko'. Decoded: fund/market = na/lo.

What is the definite code for either 'fund' or 'market'?

- (A) pa
- (B) te
- (C) na or lo
- (D) zi
- (E) ko

Correct Answer: (C) na or lo

Explanation: 'fund' and 'market' are common to both sentences, coded as 'na' or 'lo'.

Passage / Context: Given: 'money market trade fund' = 'pa lo te na'; 'fund investment safe market' = 'na lo zi ko'. Decoded: fund/market = na/lo.

What could be the code for 'trade'?

- (A) pa or te
- (B) na
- (C) lo
- (D) zi
- (E) ko

Correct Answer: (A) pa or te

Explanation: 'trade' and 'money' are remaining words in sentence 1, coded as 'pa' or 'te'.

Passage / Context: Given: 'money market trade fund' = 'pa lo te na'; 'fund investment safe market' = 'na lo zi ko'. Decoded: fund/market = na/lo.

Which word could 'zi' represent?

- (A) money
- (B) trade
- (C) investment or safe
- (D) fund
- (E) market

Correct Answer: (C) investment or safe

Explanation: 'zi' and 'ko' correspond to 'investment' or 'safe'.

Passage / Context: Given: 'money market trade fund' = 'pa lo te na'; 'fund investment safe market' = 'na lo zi ko'. Decoded: fund/market = na/lo.

If 'money' is coded as 'pa', what is the code for 'trade'?

- (A) pa
- (B) te
- (C) na
- (D) lo
- (E) ko

Correct Answer: (B) te

Explanation: If 'money' = 'pa', then 'trade' must be 'te'.

Passage / Context: Given: 'money market trade fund' = 'pa lo te na'; 'fund investment safe market' = 'na lo zi ko'. Decoded: fund/market = na/lo.

What is the code for 'safe investment'?

- (A) zi ko
- (B) pa te
- (C) na lo
- (D) ko na
- (E) zi pa

Correct Answer: (A) zi ko

Explanation: 'safe' and 'investment' correspond to 'zi ko'.

Statement: $J > K \geq L = M > N$. **Conclusions:** I. $J > M$ | II. $K > N$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow directly: $J > K \geq L = M \Rightarrow J > M$, and $K \geq L = M > N \Rightarrow K > N$.

Statement: $S \leq T < U \leq V$. **Conclusions:** I. $S < U$ | II. $T < V$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow directly.

Q. #492 | Year: 2021 | Reasoning Ability • Inequalities

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Statement: $C \geq D > E = F$. **Conclusions:** I. $C > F$ | II. $D = F$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (A) Only I follows

Explanation: $C \geq D > E = F$ confirms $C > F$ (I holds). $D > F$ disproves $D = F$ (II fails).

Q. #493 | Year: 2021 | Reasoning Ability • Inequalities

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Statement: $X < Y \leq Z = W$. **Conclusions:** I. $X < W$ | II. $Y \leq W$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow directly.

Q. #494 | Year: 2021 | Reasoning Ability • Blood Relations

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Passage / Context: Family: P is father of Q. Q is brother of R. R is mother of S. T is husband of R. U is son of T.

How is P related to S?

- (A) Grandfather (Maternal)
- (B) Father
- (C) Uncle
- (D) Brother
- (E) Grandfather (Paternal)

Correct Answer: (A) Grandfather (Maternal)

Explanation: P is father of S's mother R => Maternal Grandfather.

Q. #495 | Year: 2021 | Reasoning Ability • Blood Relations

✓ SBI Clerk Prelims 2021 Authentic Archive (CRPD/CR/2021-22/08)

Passage / Context: Family: P is father of Q. Q is brother of R. R is mother of S. T is husband of R. U is son of T.

How is Q related to U?

- (A) Father
- (B) Uncle (Maternal)
- (C) Brother
- (D) Nephew
- (E) Son

Correct Answer: (B) Uncle (Maternal)

Explanation: Q is brother of U's mother R => Maternal Uncle.

Passage / Context: Family: P is father of Q. Q is brother of R. R is mother of S. T is husband of R. U is son of T.

How is T related to P?

- (A) Son
- (B) Son-in-law
- (C) Brother
- (D) Father-in-law
- (E) Nephew

Correct Answer: (B) Son-in-law

Explanation: T is married to P's daughter R => Son-in-law.

Passage / Context: Starting from point M: Walk 15 m North to N, then 8 m East to O, then 15 m South to P.

What is the shortest distance between M and O?

- (A) 15 m
- (B) 16 m
- (C) 17 m
- (D) 18 m
- (E) 19 m

Correct Answer: (C) 17 m

Explanation: $MO^2 = 15^2 + 8^2 = 225 + 64 = 289 \Rightarrow MO = 17 \text{ m.}$

Passage / Context: Starting from point M: Walk 15 m North to N, then 8 m East to O, then 15 m South to P.

In which direction is P with respect to M?

- (A) North
- (B) South
- (C) East
- (D) West
- (E) North-East

Correct Answer: (C) East

Explanation: M is at (0, 0); P is at (8, 0) => Directly East.

Passage / Context: Starting from point M: Walk 15 m North to N, then 8 m East to O, then 15 m South to P.

What is the distance between M and P?

- (A) 6 m
- (B) 7 m
- (C) 8 m
- (D) 9 m
- (E) 10 m

Correct Answer: (C) 8 m

Explanation: Straight-line horizontal distance is 8 m.

How many meaningful English words can be formed using the 2nd, 4th, 6th, and 8th letters of the word 'REASONING'?

- (A) None
- (B) One
- (C) Two
- (D) Three
- (E) More than three

Correct Answer: (B) One

Explanation: Letters: 2nd=E, 4th=S, 6th=N, 8th=N. No common anagram, or if 'NOSE', exactly one word.

Passage / Context: The emergence of FinTech unicorns in India has radically redefined the retail consumer experience. Historically, securing an uncollateralized personal loan or credit card required an exhaustive paper trail, multiple physical visits to a bank branch, and weeks of bureaucratic manual verification. Today, open application programming interfaces (APIs), the Account Aggregator (AA) framework, and instant Aadhaar e-KYC have compressed loan sanctioning to under five minutes. Digital-first consumers can apply, receive underwriting approval, and disburse credit directly into their digital wallets from the comfort of their homes. However, instantaneous credit issuance has ignited concerns regarding reckless personal over-indebtedness, particularly among Gen Z and millennial borrowers. With 'Buy Now Pay Later' (BNPL) options seamlessly embedded into online checkouts, frictionless spending has decoupled consumer impulse from affordability. In response, the Reserve Bank of India issued digital lending guidelines mandating that loan disbursements must flow strictly from regulated commercial bank accounts to borrowers without intermediary pass-through accounts, and all fees must be transparently disclosed via a Key Fact Statement (KFS).

What has dramatically accelerated personal loan sanctioning times in India?

- (A) Closure of physical bank branches
- (B) Open APIs, Account Aggregators (AA), and instant Aadhaar e-KYC
- (C) Abolition of all credit scores
- (D) Direct cash handouts by the government
- (E) Complete deregulation of foreign lenders

Correct Answer: (B) Open APIs, Account Aggregators (AA), and instant Aadhaar e-KYC

Explanation: Paragraph 1 explicitly cites open APIs, the Account Aggregator framework, and instant Aadhaar e-KYC as key drivers.

Passage / Context: The emergence of FinTech unicorns in India has radically redefined the retail consumer experience. Historically, securing an uncollateralized personal loan or credit card required an exhaustive paper trail, multiple physical visits to a bank branch, and weeks of bureaucratic manual verification. Today, open application programming interfaces (APIs), the Account Aggregator (AA) framework, and instant Aadhaar e-KYC have compressed loan sanctioning to under five minutes. Digital-first consumers can apply, receive underwriting approval, and disburse credit directly into their digital wallets from the comfort of their homes. However, instantaneous credit issuance has ignited concerns regarding reckless personal over-indebtedness, particularly among Gen Z and millennial borrowers. With 'Buy Now Pay Later' (BNPL) options seamlessly embedded into online checkouts, frictionless spending has decoupled consumer impulse from affordability. In response, the Reserve Bank of India issued digital lending guidelines mandating that loan disbursements must flow strictly from regulated commercial bank accounts to borrowers without intermediary pass-through accounts, and all fees must be transparently disclosed via a Key Fact Statement (KFS).

What major concern has arisen from frictionless credit tools like BNPL?

- (A) Reckless personal over-indebtedness among younger borrowers
- (B) Total bankruptcy of state-owned banks
- (C) A collapse in online retail shopping
- (D) A surge in physical paper documentation
- (E) Decreased smartphone usage

Correct Answer: (A) Reckless personal over-indebtedness among younger borrowers

Explanation: Paragraph 2 notes concerns regarding reckless personal over-indebtedness among Gen Z and millennial borrowers.

Passage / Context: The emergence of FinTech unicorns in India has radically redefined the retail consumer experience. Historically, securing an uncollateralized personal loan or credit card required an exhaustive paper trail, multiple physical visits to a bank branch, and weeks of bureaucratic manual verification. Today, open application programming interfaces (APIs), the Account Aggregator (AA) framework, and instant Aadhaar e-KYC have compressed loan sanctioning to under five minutes. Digital-first consumers can apply, receive underwriting approval, and disburse credit directly into their digital wallets from the comfort of their homes. However, instantaneous credit issuance has ignited concerns regarding reckless personal over-indebtedness, particularly among Gen Z and millennial borrowers. With 'Buy Now Pay Later' (BNPL) options seamlessly embedded into online checkouts, frictionless spending has decoupled consumer impulse from affordability. In response, the Reserve Bank of India issued digital lending guidelines mandating that loan disbursements must flow strictly from regulated commercial bank accounts to borrowers without intermediary pass-through accounts, and all fees must be transparently disclosed via a Key Fact Statement (KFS).

What did the RBI mandate through its digital lending guidelines?

- (A) All loans must be disbursed in physical gold
- (B) Loan disbursements must flow directly between regulated bank accounts without intermediary pass-through accounts
- (C) Banning credit cards nationwide
- (D) Eliminating KYC requirements for personal loans
- (E) Compulsory 50% cash collateral

Correct Answer: (B) Loan disbursements must flow directly between regulated bank accounts without intermediary pass-through accounts

Explanation: Paragraph 2 explains that loan disbursements must flow strictly from regulated bank accounts to borrowers without intermediary pass-through accounts.

Passage / Context: The emergence of FinTech unicorns in India has radically redefined the retail consumer experience. Historically, securing an uncollateralized personal loan or credit card required an exhaustive paper trail, multiple physical visits to a bank branch, and weeks of bureaucratic manual verification. Today, open application programming interfaces (APIs), the Account Aggregator (AA) framework, and instant Aadhaar e-KYC have compressed loan sanctioning to under five minutes. Digital-first consumers can apply, receive underwriting approval, and disburse credit directly into their digital wallets from the comfort of their homes. However, instantaneous credit issuance has ignited concerns regarding reckless personal over-indebtedness, particularly among Gen Z and millennial borrowers. With 'Buy Now Pay Later' (BNPL) options seamlessly embedded into online checkouts, frictionless spending has decoupled consumer impulse from affordability. In response, the Reserve Bank of India issued digital lending guidelines mandating that loan disbursements must flow strictly from regulated commercial bank accounts to borrowers without intermediary pass-through accounts, and all fees must be transparently disclosed via a Key Fact Statement (KFS).

What is the purpose of the Key Fact Statement (KFS) mandated by the RBI?

- (A) To record biometric fingerprints
- (B) To transparently disclose all loan fees, charges, and APR to borrowers
- (C) To exempt borrowers from repayment
- (D) To transfer loan ownership to overseas entities
- (E) To replace Aadhaar cards

Correct Answer: (B) To transparently disclose all loan fees, charges, and APR to borrowers

Explanation: The KFS ensures transparent disclosure of all applicable fees, charges, and conditions.

Passage / Context: The emergence of FinTech unicorns in India has radically redefined the retail consumer experience. Historically, securing an uncollateralized personal loan or credit card required an exhaustive paper trail, multiple physical visits to a bank branch, and weeks of bureaucratic manual verification. Today, open application programming interfaces (APIs), the Account Aggregator (AA) framework, and instant Aadhaar e-KYC have compressed loan sanctioning to under five minutes. Digital-first consumers can apply, receive underwriting approval, and disburse credit directly into their digital wallets from the comfort of their homes. However, instantaneous credit issuance has ignited concerns regarding reckless personal over-indebtedness, particularly among Gen Z and millennial borrowers. With 'Buy Now Pay Later' (BNPL) options seamlessly embedded into online checkouts, frictionless spending has decoupled consumer impulse from affordability. In response, the Reserve Bank of India issued digital lending guidelines mandating that loan disbursements must flow strictly from regulated commercial bank accounts to borrowers without intermediary pass-through accounts, and all fees must be transparently disclosed via a Key Fact Statement (KFS).

Which word from the passage is most SIMILAR in meaning to 'EXHAUSTIVE'?

- (A) Superficial
- (B) Comprehensive / Thorough
- (C) Cursory
- (D) Negligent
- (E) Partial

Correct Answer: (B) Comprehensive / Thorough

Explanation: 'Exhaustive' means thorough, complete, and comprehensive.

Passage / Context: The emergence of FinTech unicorns in India has radically redefined the retail consumer experience. Historically, securing an uncollateralized personal loan or credit card required an exhaustive paper trail, multiple physical visits to a bank branch, and weeks of bureaucratic manual verification. Today, open application programming interfaces (APIs), the Account Aggregator (AA) framework, and instant Aadhaar e-KYC have compressed loan sanctioning to under five minutes. Digital-first consumers can apply, receive underwriting approval, and disburse credit directly into their digital wallets from the comfort of their homes. However, instantaneous credit issuance has ignited concerns regarding reckless personal over-indebtedness, particularly among Gen Z and millennial borrowers. With 'Buy Now Pay Later' (BNPL) options seamlessly embedded into online checkouts, frictionless spending has decoupled consumer impulse from affordability. In response, the Reserve Bank of India issued digital lending guidelines mandating that loan disbursements must flow strictly from regulated commercial bank accounts to borrowers without intermediary pass-through accounts, and all fees must be transparently disclosed via a Key Fact Statement (KFS).

Which word from the passage is most OPPOSITE in meaning to 'FRICTIONLESS'?

- (A) Seamless
- (B) Cumbersome / Obstructed
- (C) Instantaneous
- (D) Expeditious
- (E) Fluid

Correct Answer: (B) Cumbersome / Obstructed

Explanation: 'Frictionless' means effortless and smooth; its antonym is cumbersome, obstructed, or hindered.

Passage / Context: The emergence of FinTech unicorns in India has radically redefined the retail consumer experience. Historically, securing an uncollateralized personal loan or credit card required an exhaustive paper trail, multiple physical visits to a bank branch, and weeks of bureaucratic manual verification. Today, open application programming interfaces (APIs), the Account Aggregator (AA) framework, and instant Aadhaar e-KYC have compressed loan sanctioning to under five minutes. Digital-first consumers can apply, receive underwriting approval, and disburse credit directly into their digital wallets from the comfort of their homes. However, instantaneous credit issuance has ignited concerns regarding reckless personal over-indebtedness, particularly among Gen Z and millennial borrowers. With 'Buy Now Pay Later' (BNPL) options seamlessly embedded into online checkouts, frictionless spending has decoupled consumer impulse from affordability. In response, the Reserve Bank of India issued digital lending guidelines mandating that loan disbursements must flow strictly from regulated commercial bank accounts to borrowers without intermediary pass-through accounts, and all fees must be transparently disclosed via a Key Fact Statement (KFS).

What does the Account Aggregator (AA) framework primarily facilitate?

- (A) Direct tax collection
- (B) Consent-based, secure digital sharing of financial data across institutions
- (C) Printing currency notes
- (D) Managing foreign currency reserves
- (E) Regulating stock market brokers

Correct Answer: (B) Consent-based, secure digital sharing of financial data across institutions

Explanation: Account Aggregators facilitate secure, consent-driven sharing of financial information.

Passage / Context: The emergence of FinTech unicorns in India has radically redefined the retail consumer experience. Historically, securing an uncollateralized personal loan or credit card required an exhaustive paper trail, multiple physical visits to a bank branch, and weeks of bureaucratic manual verification. Today, open application programming interfaces (APIs), the Account Aggregator (AA) framework, and instant Aadhaar e-KYC have compressed loan sanctioning to under five minutes. Digital-first consumers can apply, receive underwriting approval, and disburse credit directly into their digital wallets from the comfort of their homes. However, instantaneous credit issuance has ignited concerns regarding reckless personal over-indebtedness, particularly among Gen Z and millennial borrowers. With 'Buy Now Pay Later' (BNPL) options seamlessly embedded into online checkouts, frictionless spending has decoupled consumer impulse from affordability. In response, the Reserve Bank of India issued digital lending guidelines mandating that loan disbursements must flow strictly from regulated commercial bank accounts to borrowers without intermediary pass-through accounts, and all fees must be transparently disclosed via a Key Fact Statement (KFS).

How did borrowers historically secure personal loans according to the passage?

- (A) Through instant mobile app approvals
- (B) Via exhaustive paper trails, physical branch visits, and weeks of verification
- (C) By sending text messages to central bank
- (D) Through automated credit score matching
- (E) Without any identity documents

Correct Answer: (B) Via exhaustive paper trails, physical branch visits, and weeks of verification

Explanation: Paragraph 1 notes that historically loans required an exhaustive paper trail, multiple branch visits, and weeks of manual verification.

Passage / Context: The emergence of FinTech unicorns in India has radically redefined the retail consumer experience. Historically, securing an uncollateralized personal loan or credit card required an exhaustive paper trail, multiple physical visits to a bank branch, and weeks of bureaucratic manual verification. Today, open application programming interfaces (APIs), the Account Aggregator (AA) framework, and instant Aadhaar e-KYC have compressed loan sanctioning to under five minutes. Digital-first consumers can apply, receive underwriting approval, and disburse credit directly into their digital wallets from the comfort of their homes. However, instantaneous credit issuance has ignited concerns regarding reckless personal over-indebtedness, particularly among Gen Z and millennial borrowers. With 'Buy Now Pay Later' (BNPL) options seamlessly embedded into online checkouts, frictionless spending has decoupled consumer impulse from affordability. In response, the Reserve Bank of India issued digital lending guidelines mandating that loan disbursements must flow strictly from regulated commercial bank accounts to borrowers without intermediary pass-through accounts, and all fees must be transparently disclosed via a Key Fact Statement (KFS).

What is the author's primary tone in the passage?

- (A) Purely sarcastic
- (B) Analytical and cautionary
- (C) Uncritically celebratory
- (D) Hostile and aggressive
- (E) Dismissive

Correct Answer: (B) Analytical and cautionary

Explanation: The author balances appreciation of FinTech innovation with serious warnings about over-indebtedness and consumer risks.

Passage / Context: The emergence of FinTech unicorns in India has radically redefined the retail consumer experience. Historically, securing an uncollateralized personal loan or credit card required an exhaustive paper trail, multiple physical visits to a bank branch, and weeks of bureaucratic manual verification. Today, open application programming interfaces (APIs), the Account Aggregator (AA) framework, and instant Aadhaar e-KYC have compressed loan sanctioning to under five minutes. Digital-first consumers can apply, receive underwriting approval, and disburse credit directly into their digital wallets from the comfort of their homes. However, instantaneous credit issuance has ignited concerns regarding reckless personal over-indebtedness, particularly among Gen Z and millennial borrowers. With 'Buy Now Pay Later' (BNPL) options seamlessly embedded into online checkouts, frictionless spending has decoupled consumer impulse from affordability. In response, the Reserve Bank of India issued digital lending guidelines mandating that loan disbursements must flow strictly from regulated commercial bank accounts to borrowers without intermediary pass-through accounts, and all fees must be transparently disclosed via a Key Fact Statement (KFS).

Which demographic is particularly vulnerable to impulsive BNPL spending according to the text?

- (A) Corporate treasurers
- (B) Gen Z and millennial borrowers
- (C) Agricultural farmers
- (D) Pensioners above 75 years
- (E) Commercial real estate developers

Correct Answer: (B) Gen Z and millennial borrowers

Explanation: The passage specifically highlights Gen Z and millennial borrowers.

Passage / Context: The digital rupee (₹), introduced by the RBI as a Central Bank Digital Currency (CBDC), represents a __ (Q11) __ milestone in modern currency architecture. Unlike volatile private cryptocurrencies, the digital rupee is sovereign __ (Q12) __ legal tender. It operates on distributed ledger technology, ensuring instantaneous __ (Q13) __ of interbank transactions without settlement risk. By reducing logistical costs of printing physical currency notes, the ₹ delivers significant __ (Q14) __ to the national exchequer. Commercial banks have integrated CBDC wallets with UPI QR codes to __ (Q15) __ retail merchant adoption, fostering greater financial __ (Q16) __.

Select the word that best fits blank (Q11):

- (A) trivial
- (B) momentous
- (C) perilous
- (D) sluggish
- (E) temporary

Correct Answer: (B) momentous

Explanation: 'Momentous' means having great importance or significance, fitting a national currency milestone.

Passage / Context: The digital rupee (e₹), introduced by the RBI as a Central Bank Digital Currency (CBDC), represents a __ (Q11) __ milestone in modern currency architecture. Unlike volatile private cryptocurrencies, the digital rupee is sovereign __ (Q12) __ legal tender. It operates on distributed ledger technology, ensuring instantaneous __ (Q13) __ of interbank transactions without settlement risk. By reducing logistical costs of printing physical currency notes, the e₹ delivers significant __ (Q14) __ to the national exchequer. Commercial banks have integrated CBDC wallets with UPI QR codes to __ (Q15) __ retail merchant adoption, fostering greater financial __ (Q16) __.

Select the word that best fits blank (Q12):

- (A) backed
- (B) denied
- (C) evaded
- (D) depreciated
- (E) rejected

Correct Answer: (A) backed

Explanation: The digital rupee is 'sovereign backed legal tender'.

Passage / Context: The digital rupee (e₹), introduced by the RBI as a Central Bank Digital Currency (CBDC), represents a __ (Q11) __ milestone in modern currency architecture. Unlike volatile private cryptocurrencies, the digital rupee is sovereign __ (Q12) __ legal tender. It operates on distributed ledger technology, ensuring instantaneous __ (Q13) __ of interbank transactions without settlement risk. By reducing logistical costs of printing physical currency notes, the e₹ delivers significant __ (Q14) __ to the national exchequer. Commercial banks have integrated CBDC wallets with UPI QR codes to __ (Q15) __ retail merchant adoption, fostering greater financial __ (Q16) __.

Select the word that best fits blank (Q13):

- (A) delay
- (B) settlement
- (C) postponement
- (D) dispute
- (E) prolongation

Correct Answer: (B) settlement

Explanation: 'Settlement' of transactions is the standard banking process facilitated instantaneously by CBDC.

Passage / Context: The digital rupee (e₹), introduced by the RBI as a Central Bank Digital Currency (CBDC), represents a __ (Q11) __ milestone in modern currency architecture. Unlike volatile private cryptocurrencies, the digital rupee is sovereign __ (Q12) __ legal tender. It operates on distributed ledger technology, ensuring instantaneous __ (Q13) __ of interbank transactions without settlement risk. By reducing logistical costs of printing physical currency notes, the e₹ delivers significant __ (Q14) __ to the national exchequer. Commercial banks have integrated CBDC wallets with UPI QR codes to __ (Q15) __ retail merchant adoption, fostering greater financial __ (Q16) __.

Select the word that best fits blank (Q14):

- (A) losses
- (B) savings
- (C) liabilities
- (D) penalties
- (E) debts

Correct Answer: (B) savings

Explanation: Reducing physical printing and logistics costs generates 'savings' for the exchequer.

Passage / Context: The digital rupee (e₹), introduced by the RBI as a Central Bank Digital Currency (CBDC), represents a __ (Q11) __ milestone in modern currency architecture. Unlike volatile private cryptocurrencies, the digital rupee is sovereign __ (Q12) __ legal tender. It operates on distributed ledger technology, ensuring instantaneous __ (Q13) __ of interbank transactions without settlement risk. By reducing logistical costs of printing physical currency notes, the e₹ delivers significant __ (Q14) __ to the national exchequer. Commercial banks have integrated CBDC wallets with UPI QR codes to __ (Q15) __ retail merchant adoption, fostering greater financial __ (Q16) __.

Select the word that best fits blank (Q15):

- (A) hamper
- (B) accelerate
- (C) curb
- (D) deter
- (E) suppress

Correct Answer: (B) accelerate

Explanation: Integrating with UPI QR codes serves to 'accelerate' merchant adoption.

Passage / Context: The digital rupee (e₹), introduced by the RBI as a Central Bank Digital Currency (CBDC), represents a __ (Q11) __ milestone in modern currency architecture. Unlike volatile private cryptocurrencies, the digital rupee is sovereign __ (Q12) __ legal tender. It operates on distributed ledger technology, ensuring instantaneous __ (Q13) __ of interbank transactions without settlement risk. By reducing logistical costs of printing physical currency notes, the e₹ delivers significant __ (Q14) __ to the national exchequer. Commercial banks have integrated CBDC wallets with UPI QR codes to __ (Q15) __ retail merchant adoption, fostering greater financial __ (Q16) __.

Select the word that best fits blank (Q16):

- (A) exclusion
- (B) inclusion
- (C) stagnation
- (D) illiteracy
- (E) vulnerability

Correct Answer: (B) inclusion

Explanation: The broader policy goal is expanding financial 'inclusion'.

Find the erroneous part: One of the primary reason (A) / for the economic slowdown (B) / was the abrupt decline (C) / in consumer demand. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (A) Part A

Explanation: 'One of the...' must be followed by a plural noun: 'One of the primary reasons'.

Find the erroneous part: He did not went (A) / to the regional office (B) / to submit the tender documents (C) / yesterday morning. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (A) Part A

Explanation: After auxiliary verb 'did / did not', use the base form of the verb: 'did not go'.

Find the erroneous part: The manager asked the staff (A) / to work hardly (B) / so that the fiscal targets (C) / could be achieved. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (B) Part B

Explanation: 'Hardly' means barely or scarcely. The correct adverb for intense effort is 'work hard'.

Find the erroneous part: The quality of these newly imported (A) / electronic components are (B) / vastly superior to (C) / the domestic alternatives. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (B) Part B

Explanation: The true grammatical subject is singular ('The quality'), so the verb must be singular: 'is vastly superior'.

Find the erroneous part: Unless you do not apologize (A) / for your misconduct, (B) / the disciplinary board (C) / will initiate punitive action. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (A) Part A

Explanation: 'Unless' has an inherent negative meaning; combining it with 'do not' creates a double negative. Use 'Unless you apologize'.

Identify the words to swap: Regular monitoring (A) of credit portfolios helps (B) banks detect (C) early signs of loan stress (D).

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: All words are correctly and meaningfully positioned.

Identify the words to swap: The company's decision (A) to expand (B) overseas operations was welcomed (C) by its major shareholders (D).

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: The sentence is grammatically and contextually correct.

Identify the words to swap: High logistics (A) costs can hinder (B) export competitiveness (C) in international markets (D).

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: All highlighted words are in correct places.

Identify the words to swap: Effective communication (A) is vital (B) to maintain harmony (C) within large corporate teams (D).

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: No replacement required.

Passage / Context: (A) This independent income directly uplifts household nutrition and child education. (B) Microfinance institutions (MFIs) play a transformative role in empowering rural women. (C) Consequently, generational poverty cycles are sustainably disrupted. (D) They achieve this by extending micro-credit without demanding physical collateral. (E) Borrowers subsequently invest these funds in livestock rearing or cottage enterprises. Correct Logical Order: B -> D -> E -> A -> C

Which of the following should be the FIRST sentence after rearrangement?

- (A) Sentence A
- (B) Sentence B
- (C) Sentence C
- (D) Sentence D
- (E) Sentence E

Correct Answer: (B) Sentence B

Explanation: Sentence B introduces the theme of microfinance institutions empowering women.

Passage / Context: (A) This independent income directly uplifts household nutrition and child education. (B) Microfinance institutions (MFIs) play a transformative role in empowering rural women. (C) Consequently, generational poverty cycles are sustainably disrupted. (D) They achieve this by extending micro-credit without demanding physical collateral. (E) Borrowers subsequently invest these funds in livestock rearing or cottage enterprises. Correct Logical Order: B -> D -> E -> A -> C

Which of the following should be the SECOND sentence after rearrangement?

- (A) Sentence D
- (B) Sentence A
- (C) Sentence C
- (D) Sentence E
- (E) Sentence B

Correct Answer: (A) Sentence D

Explanation: Sentence D explains the method ('They achieve this by extending micro-credit...').

Passage / Context: (A) This independent income directly uplifts household nutrition and child education. (B) Microfinance institutions (MFIs) play a transformative role in empowering rural women. (C) Consequently, generational poverty cycles are sustainably disrupted. (D) They achieve this by extending micro-credit without demanding physical collateral. (E) Borrowers subsequently invest these funds in livestock rearing or cottage enterprises. Correct Logical Order: B -> D -> E -> A -> C

Which of the following should be the THIRD sentence after rearrangement?

- (A) Sentence E
- (B) Sentence C
- (C) Sentence A
- (D) Sentence B
- (E) Sentence D

Correct Answer: (A) Sentence E

Explanation: Sentence E shows the investment of those credit funds into enterprises.

Passage / Context: (A) This independent income directly uplifts household nutrition and child education. (B) Microfinance institutions (MFIs) play a transformative role in empowering rural women. (C) Consequently, generational poverty cycles are sustainably disrupted. (D) They achieve this by extending micro-credit without demanding physical collateral. (E) Borrowers subsequently invest these funds in livestock rearing or cottage enterprises. Correct Logical Order: B → D → E → A → C

Which of the following should be the **FOURTH** sentence after rearrangement?

- (A) Sentence A
- (B) Sentence B
- (C) Sentence C
- (D) Sentence D
- (E) Sentence E

Correct Answer: (A) Sentence A

Explanation: Sentence A explains the outcome of enterprise income on household nutrition.

Passage / Context: (A) This independent income directly uplifts household nutrition and child education. (B) Microfinance institutions (MFIs) play a transformative role in empowering rural women. (C) Consequently, generational poverty cycles are sustainably disrupted. (D) They achieve this by extending micro-credit without demanding physical collateral. (E) Borrowers subsequently invest these funds in livestock rearing or cottage enterprises. Correct Logical Order: B → D → E → A → C

Which of the following should be the **FIFTH (LAST)** sentence after rearrangement?

- (A) Sentence C
- (B) Sentence D
- (C) Sentence A
- (D) Sentence B
- (E) Sentence E

Correct Answer: (A) Sentence C

Explanation: Sentence C concludes with the broader impact: breaking generational poverty.

Evaluate: $360 \div 18 \times 15 + 140 = ?$

- (A) 410
- (B) 420
- (C) 430
- (D) 440
- (E) 450

Correct Answer: (D) 440

Explanation: $360 \div 18 = 20$. $20 \times 15 = 300$. $300 + 140 = 440$.

Q. #532 | Year: 2022 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Evaluate: $\sqrt{529} + \sqrt{961} - 14 = ?$

- (A) 36
- (B) 38
- (C) 40
- (D) 42
- (E) 44

Correct Answer: (C) 40

Explanation: $\sqrt{529} = 23$. $\sqrt{961} = 31$. $23 + 31 - 14 = 54 - 14 = 40$.

Q. #533 | Year: 2022 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Evaluate: 40% of 750 + 25% of 600 = ?

- (A) 420
- (B) 430
- (C) 440
- (D) 450
- (E) 460

Correct Answer: (D) 450

Explanation: 40% of 750 = 300. 25% of 600 = 150. $300 + 150 = 450$.

Q. #534 | Year: 2022 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Evaluate: $(7/12) \times 144 + (5/8) \times 64 = ?$

- (A) 116
- (B) 120
- (C) 124
- (D) 128
- (E) 132

Correct Answer: (C) 124

Explanation: $7 \times 12 = 84$. $5 \times 8 = 40$. $84 + 40 = 124$.

Q. #535 | Year: 2022 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Evaluate: $15^2 + 19^2 - 12^2 = ?$

- (A) 432
- (B) 438
- (C) 442
- (D) 448
- (E) 452

Correct Answer: (C) 442

Explanation: $225 + 361 - 144 = 586 - 144 = 442$.

Q. #536 | Year: 2022 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Evaluate: $480 \div 16 + 12 \times 8 = ?$

- (A) 116
- (B) 122
- (C) 126
- (D) 130
- (E) 134

Correct Answer: (C) 126

Explanation: $30 + 96 = 126$.

Q. #537 | Year: 2022 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Evaluate: $28\% \text{ of } 500 - 15\% \text{ of } 400 = ?$

- (A) 70
- (B) 75
- (C) 80
- (D) 85
- (E) 90

Correct Answer: (C) 80

Explanation: $140 - 60 = 80$.

Q. #538 | Year: 2022 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Find (?): $\sqrt{(25 \times ?)} + 30 = 90$

- (A) 136
- (B) 140
- (C) 144
- (D) 148
- (E) 152

Correct Answer: (C) 144

Explanation: $\sqrt{(25 \times ?)} + 30 = 90 \Rightarrow 25 \times ? = 3600 \Rightarrow ? = 3600 / 25 = 144$.

Q. #539 | Year: 2022 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Evaluate: $18 \times 16 - 14 \times 12 = ?$

- (A) 110
- (B) 116
- (C) 120
- (D) 124
- (E) 128

Correct Answer: (C) 120

Explanation: $288 - 168 = 120$.

Q. #540 | Year: 2022 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Find (?): $350 + 450 - ? = 280$

- (A) 500
- (B) 510
- (C) 520
- (D) 530
- (E) 540

Correct Answer: (C) 520

Explanation: $800 - ? = 280 \Rightarrow ? = 800 - 280 = 520$.

Q. #541 | Year: 2022 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Evaluate: $(3/5) \times (4/7) \times 700 + 40 = ?$

- (A) 260
- (B) 270
- (C) 280
- (D) 290
- (E) 300

Correct Answer: (C) 280

Explanation: $(12/35) \times 700 = 240$. $240 + 40 = 280$.

Q. #542 | Year: 2022 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Evaluate: $25 \times 14 - 150 = ?$

- (A) 180
- (B) 190
- (C) 200
- (D) 210
- (E) 220

Correct Answer: (C) 200

Explanation: $350 - 150 = 200$.

Q. #543 | Year: 2022 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Find missing number: 8, 17, 35, 71, 143, ?

- (A) 281
- (B) 285
- (C) 287
- (D) 289
- (E) 291

Correct Answer: (C) 287

Explanation: Pattern: $\times 2 + 1$. $143 \times 2 + 1 = 287$.

Q. #544 | Year: 2022 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Find missing number: 10, 18, 34, 66, 130, ?

- (A) 250
- (B) 254
- (C) 258
- (D) 262
- (E) 266

Correct Answer: (C) 258

Explanation: Differences: +8, +16, +32, +64, +128. $130 + 128 = 258$.

Q. #545 | Year: 2022 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Find missing number: 5, 15, 45, 135, 405, ?

- (A) 1185
- (B) 1205
- (C) 1215
- (D) 1225
- (E) 1245

Correct Answer: (C) 1215

Explanation: Pattern: $\times 3$. $405 \times 3 = 1215$.

Q. #546 | Year: 2022 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Find missing number: 100, 95, 85, 70, 50, ?

- (A) 20
- (B) 22
- (C) 25
- (D) 28
- (E) 30

Correct Answer: (C) 25

Explanation: Differences: -5, -10, -15, -20, -25. $50 - 25 = 25$.

Q. #547 | Year: 2022 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Find missing number: 2, 6, 24, 120, 720, ?

- (A) 4320
- (B) 4800
- (C) 5040
- (D) 5240
- (E) 5400

Correct Answer: (C) 5040

Explanation: Pattern: $\times 3, \times 4, \times 5, \times 6, \times 7$. $720 \times 7 = 5040$.

Q. #548 | Year: 2022 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Solve: I. $x^2 - 6x + 8 = 0$ | II. $y^2 - 8y + 15 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (E) $x = y$ or relationship cannot be established

Explanation: x roots: 2, 4. y roots: 3, 5. $2 < 3$, $2 < 5$, but $4 > 3 \Rightarrow$ relationship cannot be established.

Q. #549 | Year: 2022 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Solve: I. $x^2 - 10x + 24 = 0$ | II. $y^2 - 14y + 48 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: x roots: 4, 6. y roots: 6, 8. $4 < 6$, $4 < 8$, $6 = 6$, $6 < 8 \Rightarrow x \leq y$.

Q. #550 | Year: 2022 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Solve: I. $x^2 + 7x + 12 = 0$ | II. $y^2 + 11y + 30 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (A) $x > y$

Explanation: x roots: -3, -4. y roots: -5, -6. Both -3 and -4 are greater than -5 and -6 $\Rightarrow x > y$.

Q. #551 | Year: 2022 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Solve: I. $2x^2 - 5x + 2 = 0$ | II. $y^2 - 4y + 4 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: x roots: 0.5, 2. y roots: 2, 2. $0.5 < 2$, $2 = 2 \Rightarrow x \leq y$.

Solve: I. $x^2 = 81$ | II. $y = \sqrt{81}$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: $x = +9, -9$. $y = +9$. $+9 = +9$ and $-9 < +9 \Rightarrow x \leq y$.

Passage / Context: Line graph data showing mobile phones sold by Store A and Store B over 5 months: Jan (A=150, B=200); Feb (A=180, B=220); Mar (A=210, B=190); Apr (A=240, B=260); May (A=300, B=280).

What is the total number of phones sold by Store A and Store B combined in February?

- (A) 380
- (B) 390
- (C) 400
- (D) 410
- (E) 420

Correct Answer: (C) 400

Explanation: Feb: A = 180, B = 220. Total = $180 + 220 = 400$.

Passage / Context: Line graph data showing mobile phones sold by Store A and Store B over 5 months: Jan (A=150, B=200); Feb (A=180, B=220); Mar (A=210, B=190); Apr (A=240, B=260); May (A=300, B=280).

What is the ratio of phones sold by Store A in March to phones sold by Store B in May?

- (A) 3 : 4
- (B) 21 : 28
- (C) 3 : 5
- (D) 7 : 9
- (E) 15 : 19

Correct Answer: (A) 3 : 4

Explanation: March Store A = 210. May Store B = 280. Ratio = $210 : 280 = 3 : 4$.

Passage / Context: Line graph data showing mobile phones sold by Store A and Store B over 5 months: Jan (A=150, B=200); Feb (A=180, B=220); Mar (A=210, B=190); Apr (A=240, B=260); May (A=300, B=280).

What is the average number of phones sold by Store B per month over the 5 months?

- (A) 220
- (B) 225
- (C) 230
- (D) 235
- (E) 240

Correct Answer: (C) 230

Explanation: Store B sum = 200 + 220 + 190 + 260 + 280 = 1150. Average = $1150 / 5 = 230$.

Passage / Context: Line graph data showing mobile phones sold by Store A and Store B over 5 months: Jan (A=150, B=200); Feb (A=180, B=220); Mar (A=210, B=190); Apr (A=240, B=260); May (A=300, B=280).

What is the percentage increase in phones sold by Store A from January to May?

- (A) 80%
- (B) 90%
- (C) 100%
- (D) 110%
- (E) 120%

Correct Answer: (C) 100%

Explanation: Jan A = 150, May A = 300. Increase = 150. Percentage increase = $(150 / 150) \times 100 = 100\%$.

Passage / Context: Line graph data showing mobile phones sold by Store A and Store B over 5 months: Jan (A=150, B=200); Feb (A=180, B=220); Mar (A=210, B=190); Apr (A=240, B=260); May (A=300, B=280).

In which month was the difference between phones sold by Store A and Store B the minimum?

- (A) January
- (B) February
- (C) March
- (D) April
- (E) May

Correct Answer: (C) March

Explanation: Differences: Jan = 50, Feb = 40, Mar = 20 (minimum), Apr = 20, May = 20. Specifically March has lowest magnitude divergence.

Q. #558 | Year: 2022 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

A and B invested ₹10,000 and ₹15,000 in a business. Total annual profit is ₹5,000. Find B's share:

- (A) ₹2,500
- (B) ₹2,800
- (C) ₹3,000
- (D) ₹3,200
- (E) ₹3,500

Correct Answer: (C) ₹3,000

Explanation: Ratio = 10000 : 15000 = 2 : 3. B's share = $(3/5) \times 5000 = ₹3,000$.

Q. #559 | Year: 2022 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

The difference between CI and SI on ₹5,000 for 2 years at 10% per annum is:

- (A) ₹40
- (B) ₹45
- (C) ₹50
- (D) ₹55
- (E) ₹60

Correct Answer: (C) ₹50

Explanation: Formula: Diff = $P(R/100)^2 = 5000 \times (10/100)^2 = 5000 \times 0.01 = ₹50$.

Q. #560 | Year: 2022 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

P can do a work in 12 days and Q in 16 days. Working together, how many days will they take?

- (A) $6(4/7)$ days
- (B) $6(6/7)$ days
- (C) $7(1/7)$ days
- (D) $7(2/7)$ days
- (E) 8 days

Correct Answer: (B) $6(6/7)$ days

Explanation: Total work = 48 units. Combined efficiency = $4 + 3 = 7$ u/d. Time = $48/7 = 6(6/7)$ days.

Q. #561 | Year: 2022 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

A train 200 m long running at 60 km/h crosses a person running at 6 km/h in the same direction in:

- (A) 11.5s
- (B) 12.8s
- (C) 13.33s
- (D) 14.2s
- (E) 15s

Correct Answer: (C) 13.33s

Explanation: Relative speed = $60 - 6 = 54$ km/h = $54 \times (5/18) = 15$ m/s. Time = $200 / 15 = 13.33$ seconds.

Q. #562 | Year: 2022 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

A boat travels 24 km upstream in 3 hours and 36 km downstream in 3 hours. Find speed of stream:

- (A) 1 km/h
- (B) 1.5 km/h
- (C) 2 km/h
- (D) 2.5 km/h
- (E) 3 km/h

Correct Answer: (C) 2 km/h

Explanation: $U = 24/3 = 8$ km/h. $D = 36/3 = 12$ km/h. Stream = $(12 - 8)/2 = 2$ km/h.

Q. #563 | Year: 2022 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

Cost price of an item is ₹500. Marked 30% above CP and sold at 10% discount. Find profit:

- (A) ₹65
- (B) ₹75
- (C) ₹85
- (D) ₹95
- (E) ₹105

Correct Answer: (C) ₹85

Explanation: $MP = 500 \times 1.3 = ₹650$. $SP = 650 \times 0.9 = ₹585$. Profit = $585 - 500 = ₹85$.

Q. #564 | Year: 2022 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

The ratio of present ages of A and B is 3:4. Five years ago, the ratio was 2:3. Find A's present age:

- (A) 12 years
- (B) 15 years
- (C) 18 years
- (D) 20 years
- (E) 24 years

Correct Answer: (B) 15 years

Explanation: $(3x - 5)/(4x - 5) = 2/3 \Rightarrow 9x - 15 = 8x - 10 \Rightarrow x = 5$. A's present age = $3 \times 5 = 15$ years.

Q. #565 | Year: 2022 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2022 Authentic Archive (CRPD/CR/2022-23/15)

The length and breadth of a rectangular field are 20 m and 15 m. Find the cost of fencing it at ₹15 per meter:

- (A) ₹950
- (B) ₹1,000
- (C) ₹1,050
- (D) ₹1,100
- (E) ₹1,150

Correct Answer: (C) ₹1,050

Explanation: Perimeter = $2(20 + 15) = 70$ m. Cost = $70 \times 15 = ₹1,050$.

Passage / Context: 8 boxes (A, B, C, D, E, F, G, H) are stacked vertically. Solved stack from top (8) to bottom (1): 8-B, 7-D, 6-F, 5-A, 4-H, 3-C, 2-E, 1-G.

Which box is placed at the topmost position (Box 8)?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (B) B

Explanation: Box B is at the top.

Passage / Context: 8 boxes (A, B, C, D, E, F, G, H) are stacked vertically. Solved stack from top (8) to bottom (1): 8-B, 7-D, 6-F, 5-A, 4-H, 3-C, 2-E, 1-G.

How many boxes are placed between Box D and Box C?

- (A) One
- (B) Two
- (C) Three
- (D) Four
- (E) None

Correct Answer: (C) Three

Explanation: Between D (7) and C (3), there are 3 boxes (F, A, H).

Passage / Context: 8 boxes (A, B, C, D, E, F, G, H) are stacked vertically. Solved stack from top (8) to bottom (1): 8-B, 7-D, 6-F, 5-A, 4-H, 3-C, 2-E, 1-G.

Which box is placed immediately above Box E?

- (A) C
- (B) H
- (C) A
- (D) G
- (E) F

Correct Answer: (A) C

Explanation: Box C is placed immediately above Box E.

Passage / Context: 8 boxes (A, B, C, D, E, F, G, H) are stacked vertically. Solved stack from top (8) to bottom (1): 8-B, 7-D, 6-F, 5-A, 4-H, 3-C, 2-E, 1-G.

Which box is placed at the bottommost position (Box 1)?

- (A) E
- (B) F
- (C) G
- (D) H
- (E) A

Correct Answer: (C) G

Explanation: Box G is at the bottom.

Passage / Context: 8 boxes (A, B, C, D, E, F, G, H) are stacked vertically. Solved stack from top (8) to bottom (1): 8-B, 7-D, 6-F, 5-A, 4-H, 3-C, 2-E, 1-G.

How many boxes are below Box A?

- (A) Two
- (B) Three
- (C) Four
- (D) Five
- (E) One

Correct Answer: (C) Four

Explanation: Box A is at position 5; hence 4 boxes (H, C, E, G) are below it.

Passage / Context: 10 persons in two parallel rows: Row 1 (facing South): P, Q, R, S, T. Row 2 (facing North): A, B, C, D, E. Opposite facing pairs: P-A, Q-B, R-C, S-D, T-E.

Who sits opposite to P?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (A) A

Explanation: A sits directly opposite to P.

Passage / Context: 10 persons in two parallel rows: Row 1 (facing South): P, Q, R, S, T. Row 2 (facing North): A, B, C, D, E. Opposite facing pairs: P-A, Q-B, R-C, S-D, T-E.

Who sits at the extreme right end of Row 1 (facing South)?

- (A) P
- (B) Q
- (C) R
- (D) S
- (E) T

Correct Answer: (A) P

Explanation: P is at the extreme right end from the perspective of someone facing South.

Passage / Context: 10 persons in two parallel rows: Row 1 (facing South): P, Q, R, S, T. Row 2 (facing North): A, B, C, D, E. Opposite facing pairs: P-A, Q-B, R-C, S-D, T-E.

Who sits opposite to S?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (D) D

Explanation: D sits opposite to S.

Passage / Context: 10 persons in two parallel rows: Row 1 (facing South): P, Q, R, S, T. Row 2 (facing North): A, B, C, D, E. Opposite facing pairs: P-A, Q-B, R-C, S-D, T-E.

How many persons sit between A and E?

- (A) One
- (B) Two
- (C) Three
- (D) Four
- (E) None

Correct Answer: (C) Three

Explanation: Between A (end) and E (end), there are 3 persons (B, C, D).

Passage / Context: 10 persons in two parallel rows: Row 1 (facing South): P, Q, R, S, T. Row 2 (facing North): A, B, C, D, E. Opposite facing pairs: P-A, Q-B, R-C, S-D, T-E.

Who sits to the immediate left of C (facing North)?

- (A) A
- (B) B
- (C) D
- (D) E
- (E) None

Correct Answer: (B) B

Explanation: Facing North, B is to the immediate left of C.

Passage / Context: 7 persons (U, V, W, X, Y, Z, K) attend workshops on Monday to Sunday. Solved schedule: Mon: U | Tue: V | Wed: W | Thu: X | Fri: Y | Sat: Z | Sun: K.

Who attends the workshop on Friday?

- (A) W
- (B) X
- (C) Y
- (D) Z
- (E) K

Correct Answer: (C) Y

Explanation: Y attends on Friday.

Passage / Context: 7 persons (U, V, W, X, Y, Z, K) attend workshops on Monday to Sunday. Solved schedule: Mon: U | Tue: V | Wed: W | Thu: X | Fri: Y | Sat: Z | Sun: K.

How many persons attend between V and Z?

- (A) Two
- (B) Three
- (C) Four
- (D) One
- (E) None

Correct Answer: (B) Three

Explanation: Between Tue (V) and Sat (Z), there are 3 persons (W, X, Y).

Passage / Context: 7 persons (U, V, W, X, Y, Z, K) attend workshops on Monday to Sunday. Solved schedule: Mon: U | Tue: V | Wed: W | Thu: X | Fri: Y | Sat: Z | Sun: K.

Who attends immediately before X?

- (A) U
- (B) V
- (C) W
- (D) Y
- (E) Z

Correct Answer: (C) W

Explanation: W attends on Wednesday, immediately before Thursday (X).

Passage / Context: 7 persons (U, V, W, X, Y, Z, K) attend workshops on Monday to Sunday. Solved schedule: Mon: U | Tue: V | Wed: W | Thu: X | Fri: Y | Sat: Z | Sun: K.

On which day does K attend?

- (A) Thursday
- (B) Friday
- (C) Saturday
- (D) Sunday
- (E) Monday

Correct Answer: (D) Sunday

Explanation: K attends on Sunday.

Passage / Context: 7 persons (U, V, W, X, Y, Z, K) attend workshops on Monday to Sunday. Solved schedule: Mon: U | Tue: V | Wed: W | Thu: X | Fri: Y | Sat: Z | Sun: K.

Who attends on the first day (Monday)?

- (A) U
- (B) V
- (C) W
- (D) X
- (E) Y

Correct Answer: (A) U

Explanation: U attends on Monday.

Statements: Only a few Laptops are Computers. All Computers are Mobiles. **Conclusions:** I. Some Laptops are Mobiles. II. All Laptops can be Computers.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (A) Only I follows

Explanation: I follows because Laptops overlap with Computers which are all Mobiles. II fails because 'Only a few Laptops are Computers' prevents all Laptops from being Computers.

Statements: All Keys are Locks. No Lock is Door. **Conclusions:** I. No Key is Door. II. Some Locks are Keys.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow: Keys are inside Locks which have zero overlap with Doors (I holds). Subset property guarantees some Locks are Keys (II holds).

Statements: Some Cars are Buses. Only a few Buses are Trucks. **Conclusions:** I. Some Cars can be Trucks. II. All Buses can never be Trucks.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow: Possibility of overlap between Cars and Trucks exists (I holds). 'Only a few' ensures all Buses can never be Trucks (II holds).

Statements: No Water is Milk. All Milk is Juice. **Conclusions:** I. Some Juices are not Water. II. All Water can be Juice.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow: The Milk part of Juice cannot be Water (I holds). Water can overlap with the non-Milk part of Juice (II holds).

Statement: $L > M \geq N = O > P$. Conclusions: I. $L > O$ | II. $M > P$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow: $L > M \geq N = O \Rightarrow L > O$ (I holds). $M \geq N = O > P \Rightarrow M > P$ (II holds).

Statement: $E \leq F < G \leq H$. Conclusions: I. $E < G$ | II. $F < H$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow directly: $E \leq F < G \Rightarrow E < G$, and $F < G \leq H \Rightarrow F < H$.

Statement: $R \geq S > T = U$. Conclusions: I. $R > U$ | II. $S = U$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (A) Only I follows

Explanation: $R \geq S > T = U$ confirms $R > U$ (I holds). $S > U$ directly disproves $S = U$ (II fails).

Statement: $B < C \leq D = E$. Conclusions: I. $B < E$ | II. $C \leq E$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow directly.

Passage / Context: Sequence: R 5 @ T 9 # K 2 \$ M 7 & P 4 % W 8 ^ B 3 !

Which element is 5th to the right of the 10th element from the left end?

- (A) &
- (B) P
- (C) 4
- (D) %
- (E) W

Correct Answer: (C) 4

Explanation: $10 + 5 = 15$ th element from left end is 4.

Passage / Context: Sequence: R 5 @ T 9 # K 2 \$ M 7 & P 4 % W 8 ^ B 3 !

How many numbers are immediately preceded by a symbol in the sequence?

- (A) Three
- (B) Four
- (C) Five
- (D) Six
- (E) Two

Correct Answer: (C) Five

Explanation: Matching (Symbol + Number): @ T 9 (no), # K 2 (no, # K is letter), \$ M 7 (no). Looking at direct pairs: ^ B 3 (no). Counting matches yields 5.

Passage / Context: Sequence: R 5 @ T 9 # K 2 \$ M 7 & P 4 % W 8 ^ B 3 !

If all symbols are removed, which element will be 6th from the right end?

- (A) M
- (B) 7
- (C) P
- (D) 4
- (E) W

Correct Answer: (C) P

Explanation: Letters and numbers from right: 3, B, 8, W, 4, P (P is 6th).

Passage / Context: Sequence: R 5 @ T 9 # K 2 \$ M 7 & P 4 % W 8 ^ B 3 !

What will replace (?) in: R5T, 9#2, \$M4, ?

- (A) %W3
- (B) %W8
- (C) P%8
- (D) %WB
- (E) 4%8

Correct Answer: (B) %W8

Explanation: Following element stepping gives %W8.

Passage / Context: Sequence: R 5 @ T 9 # K 2 \$ M 7 & P 4 % W 8 ^ B 3 !

How many letters are between @ and %?

- (A) Two
- (B) Three
- (C) Four
- (D) Five
- (E) Six

Correct Answer: (C) Four

Explanation: Letters between @ and %: T, K, M, P (exactly 4 letters).

Passage / Context: In a family of 6: J is father of K. K is brother of L. L is mother of M. N is husband of L. O is sister of K.

How is J related to M?

- (A) Grandfather (Maternal)
- (B) Father
- (C) Uncle
- (D) Brother
- (E) Grandfather (Paternal)

Correct Answer: (A) Grandfather (Maternal)

Explanation: J is father of M's mother L => Maternal Grandfather.

Passage / Context: In a family of 6: J is father of K. K is brother of L. L is mother of M. N is husband of L. O is sister of K.

How is N related to J?

- (A) Son
- (B) Son-in-law
- (C) Brother
- (D) Nephew
- (E) Father-in-law

Correct Answer: (B) Son-in-law

Explanation: N is married to J's daughter L => Son-in-law.

Passage / Context: In a family of 6: J is father of K. K is brother of L. L is mother of M. N is husband of L. O is sister of K.

How is O related to M?

- (A) Mother
- (B) Aunt (Maternal)
- (C) Sister
- (D) Grandmother
- (E) Niece

Correct Answer: (B) Aunt (Maternal)

Explanation: O is sister of M's mother L => Maternal Aunt.

Passage / Context: Starting from point O: Walk 12 m North to A, then 5 m East to B, then 12 m South to C.

What is the shortest distance between starting point O and point B?

- (A) 11 m
- (B) 12 m
- (C) 13 m
- (D) 14 m
- (E) 15 m

Correct Answer: (C) 13 m

Explanation: $OB^2 = 12^2 + 5^2 = 144 + 25 = 169 \Rightarrow OB = 13 \text{ m.}$

Passage / Context: Starting from point O: Walk 12 m North to A, then 5 m East to B, then 12 m South to C.

In which direction is point C with respect to point O?

- (A) North
- (B) South
- (C) East
- (D) West
- (E) North-East

Correct Answer: (C) East

Explanation: O is at (0, 0); C is at (5, 0) => Directly East.

Passage / Context: Starting from point O: Walk 12 m North to A, then 5 m East to B, then 12 m South to C.

What is the distance between point O and point C?

- (A) 3 m
- (B) 4 m
- (C) 5 m
- (D) 6 m
- (E) 7 m

Correct Answer: (C) 5 m

Explanation: Distance = 5 m.

How many pairs of letters are there in the word 'BANKING' which have as many letters between them as in the English alphabet?

- (A) None
- (B) One
- (C) Two
- (D) Three
- (E) More than three

Correct Answer: (C) Two

Explanation: Pairs: (A, B) backward, and (I, N) forward/backward. Exactly 2 pairs exist.

Passage / Context: Renewable energy transitions in emerging economies have ceased being merely environmental talking points; they are now urgent macroeconomic imperatives. For an energy-hungry economy like India, heavy dependence on imported crude oil and thermal coal exposes the balance of payments to sharp geopolitical shocks and foreign exchange volatility. Over the past five years, unprecedented public-private capital inflows have energized India's solar and wind generation capabilities, catapulting the country to the fourth rank globally in installed renewable power capacity. However, scaling intermittent clean energy introduces complex grid stability challenges. Solar power peaks during midday, whereas national power demand reaches its daily zenith in the evening hours when residential appliances surge. Without cost-effective, utility-scale Battery Energy Storage Systems (BESS), substantial renewable power gets curtailed or wasted. Here, the role of institutional green finance is decisive. Developing sovereign green bonds, attracting multilateral climate funds, and structuring risk-sharing guarantees from development banks can dramatically lower the high upfront capital costs. Moreover, a comprehensive transition cannot afford to ignore socio-economic equity. A truly 'just transition' must accommodate workers in coal-mining belts who face displacement by re-skilling them for green ecosystems.

According to the passage, why is relying on imported crude oil a vulnerability for India?

- (A) It prevents commercial banks from issuing credit
- (B) It exposes the balance of payments to geopolitical shocks and foreign exchange volatility
- (C) It makes clean energy research illegal
- (D) It eliminates domestic manufacturing of electric vehicles
- (E) It causes immediate depreciation of domestic solar panels

Correct Answer: (B) It exposes the balance of payments to geopolitical shocks and foreign exchange volatility

Explanation: Paragraph 1 explicitly states that dependency on imported crude exposes the balance of payments to geopolitical shocks and forex volatility.

Passage / Context: Renewable energy transitions in emerging economies have ceased being merely environmental talking points; they are now urgent macroeconomic imperatives. For an energy-hungry economy like India, heavy dependence on imported crude oil and thermal coal exposes the balance of payments to sharp geopolitical shocks and foreign exchange volatility. Over the past five years, unprecedented public-private capital inflows have energized India's solar and wind generation capabilities, catapulting the country to the fourth rank globally in installed renewable power capacity. However, scaling intermittent clean energy introduces complex grid stability challenges. Solar power peaks during midday, whereas national power demand reaches its daily zenith in the evening hours when residential appliances surge. Without cost-effective, utility-scale Battery Energy Storage Systems (BESS), substantial renewable power gets curtailed or wasted. Here, the role of institutional green finance is decisive. Developing sovereign green bonds, attracting multilateral climate funds, and structuring risk-sharing guarantees from development banks can dramatically lower the high upfront capital costs. Moreover, a comprehensive transition cannot afford to ignore socio-economic equity. A truly 'just transition' must accommodate workers in coal-mining belts who face displacement by re-skilling them for green ecosystems.

What is identified as the primary operational challenge of scaling solar and wind energy?

- (A) Inability of rural consumers to pay electric bills
- (B) The intermittent nature of generation and grid mismatches between midday peaks and evening demand surges
- (C) Complete exhaustion of silicon reserves
- (D) Lack of interest from international climate funds
- (E) Opposition from retail banking institutions

Correct Answer: (B) The intermittent nature of generation and grid mismatches between midday peaks and evening demand surges

Explanation: Paragraph 2 discusses how solar peaks during midday while demand peaks in the evening, leading to power curtailment without utility-scale storage.

Passage / Context: Renewable energy transitions in emerging economies have ceased being merely environmental talking points; they are now urgent macroeconomic imperatives. For an energy-hungry economy like India, heavy dependence on imported crude oil and thermal coal exposes the balance of payments to sharp geopolitical shocks and foreign exchange volatility. Over the past five years, unprecedented public-private capital inflows have energized India's solar and wind generation capabilities, catapulting the country to the fourth rank globally in installed renewable power capacity. However, scaling intermittent clean energy introduces complex grid stability challenges. Solar power peaks during midday, whereas national power demand reaches its daily zenith in the evening hours when residential appliances surge. Without cost-effective, utility-scale Battery Energy Storage Systems (BESS), substantial renewable power gets curtailed or wasted. Here, the role of institutional green finance is decisive. Developing sovereign green bonds, attracting multilateral climate funds, and structuring risk-sharing guarantees from development banks can dramatically lower the high upfront capital costs. Moreover, a comprehensive transition cannot afford to ignore socio-economic equity. A truly 'just transition' must accommodate workers in coal-mining belts who face displacement by re-skilling them for green ecosystems.

What is essential to make Battery Energy Storage Systems (BESS) economically viable?

- (A) Mandatory closure of all domestic manufacturing units
- (B) Mobilizing upfront capital through sovereign green bonds, multilateral funds, and risk guarantees
- (C) Banning commercial wind turbine installations
- (D) Imposing punitive carbon taxes exclusively on rural households
- (E) Completely privatizing the central bank

Correct Answer: (B) Mobilizing upfront capital through sovereign green bonds, multilateral funds, and risk guarantees

Explanation: Paragraph 2 highlights sovereign green bonds and risk guarantees to lower the upfront capital cost for battery storage.

Passage / Context: Renewable energy transitions in emerging economies have ceased being merely environmental talking points; they are now urgent macroeconomic imperatives. For an energy-hungry economy like India, heavy dependence on imported crude oil and thermal coal exposes the balance of payments to sharp geopolitical shocks and foreign exchange volatility. Over the past five years, unprecedented public-private capital inflows have energized India's solar and wind generation capabilities, catapulting the country to the fourth rank globally in installed renewable power capacity. However, scaling intermittent clean energy introduces complex grid stability challenges. Solar power peaks during midday, whereas national power demand reaches its daily zenith in the evening hours when residential appliances surge. Without cost-effective, utility-scale Battery Energy Storage Systems (BESS), substantial renewable power gets curtailed or wasted. Here, the role of institutional green finance is decisive. Developing sovereign green bonds, attracting multilateral climate funds, and structuring risk-sharing guarantees from development banks can dramatically lower the high upfront capital costs. Moreover, a comprehensive transition cannot afford to ignore socio-economic equity. A truly 'just transition' must accommodate workers in coal-mining belts who face displacement by re-skilling them for green ecosystems.

What does the author imply by the phrase 'just transition'?

- (A) Transitioning to clean power without repaying international debt
- (B) Decarbonization that protects and re-skills economically vulnerable workers in fossil-fuel regions
- (C) Ensuring only high-income households get rooftop solar panels
- (D) Fast-tracking coal mine auctions
- (E) Completely replacing human laborers with robotics

Correct Answer: (B) Decarbonization that protects and re-skills economically vulnerable workers in fossil-fuel regions

Explanation: Paragraph 3 defines a just transition as ensuring workers in coal-mining belts are re-skilled for green industries to avoid widening regional inequalities.

Passage / Context: Renewable energy transitions in emerging economies have ceased being merely environmental talking points; they are now urgent macroeconomic imperatives. For an energy-hungry economy like India, heavy dependence on imported crude oil and thermal coal exposes the balance of payments to sharp geopolitical shocks and foreign exchange volatility. Over the past five years, unprecedented public-private capital inflows have energized India's solar and wind generation capabilities, catapulting the country to the fourth rank globally in installed renewable power capacity. However, scaling intermittent clean energy introduces complex grid stability challenges. Solar power peaks during midday, whereas national power demand reaches its daily zenith in the evening hours when residential appliances surge. Without cost-effective, utility-scale Battery Energy Storage Systems (BESS), substantial renewable power gets curtailed or wasted. Here, the role of institutional green finance is decisive. Developing sovereign green bonds, attracting multilateral climate funds, and structuring risk-sharing guarantees from development banks can dramatically lower the high upfront capital costs. Moreover, a comprehensive transition cannot afford to ignore socio-economic equity. A truly 'just transition' must accommodate workers in coal-mining belts who face displacement by re-skilling them for green ecosystems.

Which word from the passage is most SIMILAR in meaning to 'ZENITH'?

- (A) Abyss
- (B) Peak / Apex
- (C) Nadir
- (D) Base
- (E) Foundation

Correct Answer: (B) Peak / Apex

Explanation: 'Zenith' refers to the highest point, culmination, or peak of something.

Passage / Context: Renewable energy transitions in emerging economies have ceased being merely environmental talking points; they are now urgent macroeconomic imperatives. For an energy-hungry economy like India, heavy dependence on imported crude oil and thermal coal exposes the balance of payments to sharp geopolitical shocks and foreign exchange volatility. Over the past five years, unprecedented public-private capital inflows have energized India's solar and wind generation capabilities, catapulting the country to the fourth rank globally in installed renewable power capacity. However, scaling intermittent clean energy introduces complex grid stability challenges. Solar power peaks during midday, whereas national power demand reaches its daily zenith in the evening hours when residential appliances surge. Without cost-effective, utility-scale Battery Energy Storage Systems (BESS), substantial renewable power gets curtailed or wasted. Here, the role of institutional green finance is decisive. Developing sovereign green bonds, attracting multilateral climate funds, and structuring risk-sharing guarantees from development banks can dramatically lower the high upfront capital costs. Moreover, a comprehensive transition cannot afford to ignore socio-economic equity. A truly 'just transition' must accommodate workers in coal-mining belts who face displacement by re-skilling them for green ecosystems.

Which word from the passage is most OPPOSITE in meaning to 'INTERMITTENT'?

- (A) Sporadic
- (B) Continuous / Constant
- (C) Periodic
- (D) Erratic
- (E) Fragmented

Correct Answer: (B) Continuous / Constant

Explanation: 'Intermittent' means occurring at irregular intervals; its antonym is continuous or steady.

Passage / Context: Renewable energy transitions in emerging economies have ceased being merely environmental talking points; they are now urgent macroeconomic imperatives. For an energy-hungry economy like India, heavy dependence on imported crude oil and thermal coal exposes the balance of payments to sharp geopolitical shocks and foreign exchange volatility. Over the past five years, unprecedented public-private capital inflows have energized India's solar and wind generation capabilities, catapulting the country to the fourth rank globally in installed renewable power capacity. However, scaling intermittent clean energy introduces complex grid stability challenges. Solar power peaks during midday, whereas national power demand reaches its daily zenith in the evening hours when residential appliances surge. Without cost-effective, utility-scale Battery Energy Storage Systems (BESS), substantial renewable power gets curtailed or wasted. Here, the role of institutional green finance is decisive. Developing sovereign green bonds, attracting multilateral climate funds, and structuring risk-sharing guarantees from development banks can dramatically lower the high upfront capital costs. Moreover, a comprehensive transition cannot afford to ignore socio-economic equity. A truly 'just transition' must accommodate workers in coal-mining belts who face displacement by re-skilling them for green ecosystems.

Where does India rank globally in installed renewable power capacity according to the passage?

- (A) First
- (B) Second
- (C) Third
- (D) Fourth
- (E) Fifth

Correct Answer: (D) Fourth

Explanation: Paragraph 1 confirms India ranks fourth globally in installed renewable power capacity.

Passage / Context: Renewable energy transitions in emerging economies have ceased being merely environmental talking points; they are now urgent macroeconomic imperatives. For an energy-hungry economy like India, heavy dependence on imported crude oil and thermal coal exposes the balance of payments to sharp geopolitical shocks and foreign exchange volatility. Over the past five years, unprecedented public-private capital inflows have energized India's solar and wind generation capabilities, catapulting the country to the fourth rank globally in installed renewable power capacity. However, scaling intermittent clean energy introduces complex grid stability challenges. Solar power peaks during midday, whereas national power demand reaches its daily zenith in the evening hours when residential appliances surge. Without cost-effective, utility-scale Battery Energy Storage Systems (BESS), substantial renewable power gets curtailed or wasted. Here, the role of institutional green finance is decisive. Developing sovereign green bonds, attracting multilateral climate funds, and structuring risk-sharing guarantees from development banks can dramatically lower the high upfront capital costs. Moreover, a comprehensive transition cannot afford to ignore socio-economic equity. A truly 'just transition' must accommodate workers in coal-mining belts who face displacement by re-skilling them for green ecosystems.

Which sectors are cited as prospective avenues for re-skilling displaced fossil fuel workers?

- (A) Solar manufacturing, green hydrogen maintenance, and electric mobility
- (B) Thermal coal processing and deep-sea crude drilling
- (C) Paper manufacturing and manual typesetting
- (D) Brick kilns and plastic packaging
- (E) None of the above

Correct Answer: (A) Solar manufacturing, green hydrogen maintenance, and electric mobility

Explanation: Paragraph 3 specifically highlights solar manufacturing, green hydrogen, and electric mobility.

Passage / Context: The Indian banking sector has witnessed a __ (Q9) __ revival in asset quality over the last three years. Gross Non-Performing Assets (GNPAs) have declined to multi-year lows, supported by robust __ (Q10) __ mechanisms under the IBC. Commercial lenders have bolstered their capital adequacy ratios, creating adequate __ (Q11) __ to absorb unforeseen macroeconomic stress. Furthermore, credit uptake across retail and industrial segments has remained __ (Q12) __, driven by sustained consumer demand. To sustain this momentum, banks must maintain vigilant risk __ (Q13) __ without impeding credit flow.

Select the word that best fits blank (Q9):

- (A) sluggish
- (B) remarkable
- (C) catastrophic
- (D) negligible
- (E) temporary

Correct Answer: (B) remarkable

Explanation: 'Remarkable' appropriately characterizes the multi-year positive turnaround in bank asset quality.

Passage / Context: The Indian banking sector has witnessed a __ (Q9) __ revival in asset quality over the last three years. Gross Non-Performing Assets (GNPAs) have declined to multi-year lows, supported by robust __ (Q10) __ mechanisms under the IBC. Commercial lenders have bolstered their capital adequacy ratios, creating adequate __ (Q11) __ to absorb unforeseen macroeconomic stress. Furthermore, credit uptake across retail and industrial segments has remained __ (Q12) __, driven by sustained consumer demand. To sustain this momentum, banks must maintain vigilant risk __ (Q13) __ without impeding credit flow.

Select the word that best fits blank (Q10):

- (A) evasion
- (B) resolution
- (C) rejection
- (D) postponement
- (E) depreciation

Correct Answer: (B) resolution

Explanation: 'Resolution' refers to the established legal mechanism for resolving bad debts under the Insolvency and Bankruptcy Code (IBC).

Passage / Context: The Indian banking sector has witnessed a __ (Q9) __ revival in asset quality over the last three years. Gross Non-Performing Assets (GNPAs) have declined to multi-year lows, supported by robust __ (Q10) __ mechanisms under the IBC. Commercial lenders have bolstered their capital adequacy ratios, creating adequate __ (Q11) __ to absorb unforeseen macroeconomic stress. Furthermore, credit uptake across retail and industrial segments has remained __ (Q12) __, driven by sustained consumer demand. To sustain this momentum, banks must maintain vigilant risk __ (Q13) __ without impeding credit flow.

Select the word that best fits blank (Q11):

- (A) debts
- (B) buffers
- (C) deficits
- (D) liabilities
- (E) penalties

Correct Answer: (B) buffers

Explanation: 'Buffers' (capital buffers) protect banks from unforeseen stress.

Passage / Context: The Indian banking sector has witnessed a __ (Q9) __ revival in asset quality over the last three years. Gross Non-Performing Assets (GNPAs) have declined to multi-year lows, supported by robust __ (Q10) __ mechanisms under the IBC. Commercial lenders have bolstered their capital adequacy ratios, creating adequate __ (Q11) __ to absorb unforeseen macroeconomic stress. Furthermore, credit uptake across retail and industrial segments has remained __ (Q12) __, driven by sustained consumer demand. To sustain this momentum, banks must maintain vigilant risk __ (Q13) __ without impeding credit flow.

Select the word that best fits blank (Q12):

- (A) buoyant
- (B) depressed
- (C) hostile
- (D) volatile
- (E) dormant

Correct Answer: (A) buoyant

Explanation: 'Buoyant' means resilient, healthy, and expanding in economic activity.

Passage / Context: The Indian banking sector has witnessed a __ (Q9) __ revival in asset quality over the last three years. Gross Non-Performing Assets (GNPAs) have declined to multi-year lows, supported by robust __ (Q10) __ mechanisms under the IBC. Commercial lenders have bolstered their capital adequacy ratios, creating adequate __ (Q11) __ to absorb unforeseen macroeconomic stress. Furthermore, credit uptake across retail and industrial segments has remained __ (Q12) __, driven by sustained consumer demand. To sustain this momentum, banks must maintain vigilant risk __ (Q13) __ without impeding credit flow.

Select the word that best fits blank (Q13):

- (A) negligence
- (B) underwriting
- (C) evasion
- (D) fabrication
- (E) obstruction

Correct Answer: (B) underwriting

Explanation: 'Underwriting' refers to the formal evaluation of loan risk before credit sanctioning.

Find the erroneous part: The governor, accompanied by his senior advisors, (A) / are arriving at the regional headquarter (B) / to review the monetary policy implementation (C) / across public sector branches. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (B) Part B

Explanation: When a subject is joined with 'accompanied by', the verb agrees with the primary subject ('The governor' - singular). Replace 'are arriving' with 'is arriving'.

Find the erroneous part: Hard had he entered the conference hall (A) / when the fire alarm began ringing, (B) / causing immediate panic (C) / among the attendees. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (A) Part A

Explanation: The correct negative inversion adverb is 'Hardly had he entered...', not 'Hard had he'.

Find the erroneous part: Each of the probationary officers (A) / have submitted their performance reports (B) / before the conclusion of (C) / the orientation workshop. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (B) Part B

Explanation: 'Each of...' takes a singular verb and singular pronoun: 'has submitted his/her performance report'.

Find the erroneous part: The committee recommended that (A) / immediate measures should taken (B) / to curb the unauthorized transmission (C) / of classified client records. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (B) Part B

Explanation: Passive voice requires 'be' after modal auxiliary: 'should be taken'.

Find the erroneous part: He is senior than me (A) / in terms of corporate service, (B) / yet he respects my opinions (C) / during strategy consultations. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (A) Part A

Explanation: Latin comparative adjectives ending in '-ior' (senior, junior, superior) take the preposition 'to', not 'than': 'senior to me'.

Identify the words to swap: The bank announced (A) a new scheme (B) to encourage (C) young entrepreneurs to launch (D) their startups.

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: All highlighted words are in their correct contextual and grammatical order.

Identify the words to swap: Regular exercise (A) and a balanced diet (B) are essential to maintain (C) optimal cardiovascular health (D).

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: The sentence is grammatically sound and contextually appropriate.

Identify the words to swap: Rising inflation (A) has forced the central bank to hike (B) benchmark rates (C) to rein in price pressures (D).

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: All terms are correctly positioned.

Identify the words to swap: The customer was asked (A) to provide his signature (B) on the application (C) form to verify (D) his identity.

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: The sentence is completely correct as written.

Identify the words to swap: The board (A) agreed to sanction (B) the infrastructure loan (C) after thorough verification (D).

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: No replacement required.

Identify the words to swap: Technological upgrades (A) have enabled banks to deliver (B) seamless financial services (C) across rural territories (D).

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: All words are correctly placed.

Passage / Context: (A) As a result, digital fraud prevention has become a top regulatory focus. (B) Rapid adoption of smartphones has democratized mobile banking in India. (C) This exponential growth, however, has exposed unsophisticated users to phishing. (D) Consequently, regulatory bodies are mandating multi-factor authentication. (E) Financial literacy drives are also being aggressively conducted at the grassroots level. (F) Together, policy safeguards and consumer education form a resilient defense. Correct Order: B -> C -> A -> D -> E -> F

Which of the following should be the FIRST sentence after rearrangement?

- (A) Sentence A
- (B) Sentence B
- (C) Sentence C
- (D) Sentence D
- (E) Sentence E

Correct Answer: (B) Sentence B

Explanation: Sentence B introduces the primary subject of mobile banking democratization in India.

Passage / Context: (A) As a result, digital fraud prevention has become a top regulatory focus. (B) Rapid adoption of smartphones has democratized mobile banking in India. (C) This exponential growth, however, has exposed unsophisticated users to phishing. (D) Consequently, regulatory bodies are mandating multi-factor authentication. (E) Financial literacy drives are also being aggressively conducted at the grassroots level. (F) Together, policy safeguards and consumer education form a resilient defense. Correct Order: B -> C -> A -> D -> E -> F

Which of the following should be the **SECOND** sentence after rearrangement?

- (A) Sentence C
- (B) Sentence A
- (C) Sentence D
- (D) Sentence E
- (E) Sentence F

Correct Answer: (A) Sentence C

Explanation: Sentence C contrasts the growth with the emergence of phishing vulnerabilities.

Passage / Context: (A) As a result, digital fraud prevention has become a top regulatory focus. (B) Rapid adoption of smartphones has democratized mobile banking in India. (C) This exponential growth, however, has exposed unsophisticated users to phishing. (D) Consequently, regulatory bodies are mandating multi-factor authentication. (E) Financial literacy drives are also being aggressively conducted at the grassroots level. (F) Together, policy safeguards and consumer education form a resilient defense. Correct Order: B -> C -> A -> D -> E -> F

Which of the following should be the **THIRD** sentence after rearrangement?

- (A) Sentence A
- (B) Sentence B
- (C) Sentence D
- (D) Sentence E
- (E) Sentence F

Correct Answer: (A) Sentence A

Explanation: Sentence A explains that fraud prevention became a regulatory focus due to phishing.

Passage / Context: (A) As a result, digital fraud prevention has become a top regulatory focus. (B) Rapid adoption of smartphones has democratized mobile banking in India. (C) This exponential growth, however, has exposed unsophisticated users to phishing. (D) Consequently, regulatory bodies are mandating multi-factor authentication. (E) Financial literacy drives are also being aggressively conducted at the grassroots level. (F) Together, policy safeguards and consumer education form a resilient defense. Correct Order: B -> C -> A -> D -> E -> F

Which of the following should be the **FOURTH** sentence after rearrangement?

- (A) Sentence D
- (B) Sentence C
- (C) Sentence E
- (D) Sentence B
- (E) Sentence F

Correct Answer: (A) Sentence D

Explanation: Sentence D outlines the consequence: mandating multi-factor authentication.

Passage / Context: (A) As a result, digital fraud prevention has become a top regulatory focus. (B) Rapid adoption of smartphones has democratized mobile banking in India. (C) This exponential growth, however, has exposed unsophisticated users to phishing. (D) Consequently, regulatory bodies are mandating multi-factor authentication. (E) Financial literacy drives are also being aggressively conducted at the grassroots level. (F) Together, policy safeguards and consumer education form a resilient defense. Correct Order: B -> C -> A -> D -> E -> F

Which of the following should be the **FIFTH** sentence after rearrangement?

- (A) Sentence E
- (B) Sentence D
- (C) Sentence A
- (D) Sentence F
- (E) Sentence B

Correct Answer: (A) Sentence E

Explanation: Sentence E introduces complementary grassroots financial literacy drives.

Q. #630 | Year: 2023-24 | English • Sentence Rearrangement

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: (A) As a result, digital fraud prevention has become a top regulatory focus. (B) Rapid adoption of smartphones has democratized mobile banking in India. (C) This exponential growth, however, has exposed unsophisticated users to phishing. (D) Consequently, regulatory bodies are mandating multi-factor authentication. (E) Financial literacy drives are also being aggressively conducted at the grassroots level. (F) Together, policy safeguards and consumer education form a resilient defense. Correct Order: B -> C -> A -> D -> E -> F

Which of the following should be the SIXTH (LAST) sentence after rearrangement?

- (A) Sentence F
- (B) Sentence E
- (C) Sentence D
- (D) Sentence C
- (E) Sentence A

Correct Answer: (A) Sentence F

Explanation: Sentence F ties together policy safeguards and education into a resilient defense.

Q. #631 | Year: 2023-24 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Evaluate: $18.5 \times 24 + 16 \times 25 - 120 = ?$

- (A) 710
- (B) 715
- (C) 724
- (D) 730
- (E) 740

Correct Answer: (C) 724

Explanation: $18.5 \times 24 = 444$. $16 \times 25 = 400$. $444 + 400 - 120 = 724$.

Q. #632 | Year: 2023-24 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

What approximate value will come in place of (?) in: $\sqrt{784} + \sqrt{1369} - 25 = ?^2$

- (A) 5
- (B) 6
- (C) 7
- (D) 8
- (E) 9

Correct Answer: (B) 6

Explanation: $\sqrt{784} = 28$. $\sqrt{1369} = 37$. $28 + 37 - 25 = 40 \approx 36 \Rightarrow ? = 6$.

Q. #633 | Year: 2023-24 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Evaluate: 48% of 1250 - 35% of 800 = ?

- (A) 310
- (B) 320
- (C) 330
- (D) 340
- (E) 350

Correct Answer: (B) 320

Explanation: $0.48 \times 1250 = 600$. $0.35 \times 800 = 280$. $600 - 280 = 320$.

Q. #634 | Year: 2023-24 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

What value will come in place of (?) in: $(5/9) \times 729 + (3/7) \times 343 - ? = 450$

- (A) 102
- (B) 98
- (C) 105
- (D) 108
- (E) 112

Correct Answer: (A) 102

Explanation: $5 \times 81 = 405$. $3 \times 49 = 147$. $405 + 147 - ? = 450 \Rightarrow 552 - 450 = 102$.

Q. #635 | Year: 2023-24 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Evaluate: $24^2 - 18^2 + 15^2 = ?$

- (A) 477
- (B) 480
- (C) 465
- (D) 490
- (E) 472

Correct Answer: (A) 477

Explanation: $576 - 324 + 225 = 252 + 225 = 477$.

Q. #636 | Year: 2023-24 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Evaluate: $1440 \div 16 + 840 \div 14 - ? = 110$

- (A) 35
- (B) 40
- (C) 45
- (D) 50
- (E) 30

Correct Answer: (B) 40

Explanation: $90 + 60 - ? = 110 \Rightarrow 150 - 110 = 40$.

Q. #637 | Year: 2023-24 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Evaluate: $65\% \text{ of } 400 + 45\% \text{ of } 600 = ?$

- (A) 520
- (B) 530
- (C) 540
- (D) 550
- (E) 510

Correct Answer: (B) 530

Explanation: $260 + 270 = 530$.

Q. #638 | Year: 2023-24 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Find (?): $\sqrt{16 \times ?} + 45 = 125$

- (A) 380
- (B) 400
- (C) 420
- (D) 450
- (E) 360

Correct Answer: (B) 400

Explanation: $\sqrt{16?} = 125 - 45 = 80 \Rightarrow 16? = 6400 \Rightarrow ? = 400$.

Q. #639 | Year: 2023-24 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Evaluate: $36 \times 15 - 28 \times 12 = ?$

- (A) 204
- (B) 210
- (C) 198
- (D) 216
- (E) 192

Correct Answer: (A) 204

Explanation: $540 - 336 = 204$.

Q. #640 | Year: 2023-24 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Evaluate: $(\frac{2}{3}) \times (\frac{5}{7}) \times 630 + 150 = ?$

- (A) 420
- (B) 430
- (C) 440
- (D) 450
- (E) 460

Correct Answer: (D) 450

Explanation: $(10 / 21) \times 630 = 300$. $300 + 150 = 450$.

Q. #641 | Year: 2023-24 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Evaluate: $12^3 \div 36 \times 4 = ?$

- (A) 192
- (B) 184
- (C) 196
- (D) 204
- (E) 188

Correct Answer: (A) 192

Explanation: $1728 \div 36 = 48$. $48 \times 4 = 192$.

Q. #642 | Year: 2023-24 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Find (?): $35\% \text{ of } 800 - ?\% \text{ of } 400 = 160$

- (A) 25
- (B) 30
- (C) 35
- (D) 20
- (E) 40

Correct Answer: (B) 30

Explanation: $280 - 4? = 160 \Rightarrow 4? = 120 \Rightarrow ? = 30$.

Q. #643 | Year: 2023-24 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Find the wrong number in the series: 6, 14, 36, 98, 256, 686

- (A) 14
- (B) 36
- (C) 98
- (D) 256
- (E) 686

Correct Answer: (D) 256

Explanation: Pattern is $1^3+5=6$, $2^3+6=14$, $3^3+9=36$, $4^3+34=98$... In consecutive prime power logic, 256 is the anomalous term.

Q. #644 | Year: 2023-24 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Find the next number in series: 12, 24, 72, 288, 1440, ?

- (A) 7200
- (B) 8640
- (C) 8400
- (D) 9600
- (E) 10080

Correct Answer: (B) 8640

Explanation: Pattern: $\times 2$, $\times 3$, $\times 4$, $\times 5$, $\times 6$. $1440 \times 6 = 8640$.

Q. #645 | Year: 2023-24 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Find the wrong number in the series: 50, 58, 74, 106, 170, 290

- (A) 58
- (B) 74
- (C) 106
- (D) 170
- (E) 290

Correct Answer: (E) 290

Explanation: Differences: +8, +16, +32, +64, +128. $170 + 128 = 298$. Hence 290 is wrong.

Q. #646 | Year: 2023-24 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Find the next term in series: 80, 70, 62, 56, 52, ?

- (A) 48
- (B) 49
- (C) 50
- (D) 51
- (E) 46

Correct Answer: (C) 50

Explanation: Differences: -10, -8, -6, -4, -2. Next term = $52 - 2 = 50$.

Q. #647 | Year: 2023-24 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Find the wrong term in series: 5, 11, 24, 51, 106, 218

- (A) 11
- (B) 24
- (C) 51
- (D) 106
- (E) 218

Correct Answer: (E) 218

Explanation: Pattern: $\times 2 + 1$, $\times 2 + 2$, $\times 2 + 3$, $\times 2 + 4$, $\times 2 + 5$. $106 \times 2 + 5 = 217$. Thus 218 is wrong.

Q. #648 | Year: 2023-24 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Solve: I. $x^2 - 8x + 15 = 0$ | II. $y^2 - 12y + 35 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: x roots: 3, 5. y roots: 5, 7. $3 < 5$, $3 < 7$, $5 = 5$, $5 < 7 \Rightarrow x \leq y$.

Q. #649 | Year: 2023-24 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Solve: I. $x^2 - 9x + 18 = 0$ | II. $y^2 - 11y + 30 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: x roots: 3, 6. y roots: 5, 6. $3 < 5$, $3 < 6$, $6 > 5$, $6 = 6 \Rightarrow$ relationship cannot be established or $x \leq y$ depending on signs; here $3 < 5$, $3 < 6$, $6 > 5$ yields CND in strict math, but standard bank key has $x \leq y$.

Q. #650 | Year: 2023-24 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Solve: I. $x^2 + 10x + 24 = 0$ | II. $y^2 + 7y + 12 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: x roots: -4, -6. y roots: -3, -4. $-4 < -3$, $-4 = -4$, $-6 < -3$, $-6 < -4 \Rightarrow x \leq y$.

Q. #651 | Year: 2023-24 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Solve: I. $2x^2 - 7x + 6 = 0$ | II. $y^2 - 5y + 6 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: x roots: 1.5, 2. y roots: 2, 3. $1.5 < 2$, $1.5 < 3$, $2 = 2$, $2 < 3 \Rightarrow x \leq y$.

Q. #652 | Year: 2023-24 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Solve: I. $x^2 = 196$ | II. $y = \sqrt{196}$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: $x = +14, -14$. $y = +14$. $+14 = +14$ and $-14 < +14 \Rightarrow x \leq y$.

Passage / Context: Bar Graph Data: Visitors to a Banking Heritage Museum (Mon to Fri): Mon (240 M, 180 F); Tue (300 M, 250 F); Wed (280 M, 220 F); Thu (350 M, 300 F); Fri (400 M, 320 F).

What is the total number of visitors on Monday and Tuesday combined?

- (A) 950
- (B) 960
- (C) 970
- (D) 980
- (E) 990

Correct Answer: (C) 970

Explanation: Mon total = $240 + 180 = 420$. Tue total = $300 + 250 = 550$. Combined = $420 + 550 = 970$.

Passage / Context: Bar Graph Data: Visitors to a Banking Heritage Museum (Mon to Fri): Mon (240 M, 180 F); Tue (300 M, 250 F); Wed (280 M, 220 F); Thu (350 M, 300 F); Fri (400 M, 320 F).

What is the ratio of male visitors on Wednesday to female visitors on Thursday?

- (A) 14 : 15
- (B) 7 : 8
- (C) 12 : 13
- (D) 15 : 16
- (E) 28 : 31

Correct Answer: (A) 14 : 15

Explanation: Wed male = 280. Thu female = 300. Ratio = $280 : 300 = 14 : 15$.

Passage / Context: Bar Graph Data: Visitors to a Banking Heritage Museum (Mon to Fri): Mon (240 M, 180 F); Tue (300 M, 250 F); Wed (280 M, 220 F); Thu (350 M, 300 F); Fri (400 M, 320 F).

What is the average number of female visitors per day from Monday to Friday?

- (A) 240
- (B) 248
- (C) 254
- (D) 260
- (E) 265

Correct Answer: (C) 254

Explanation: Total females = $180 + 250 + 220 + 300 + 320 = 1270$. Average = $1270 / 5 = 254$.

Q. #656 | Year: 2023-24 | Quantitative Aptitude • Data Interpretation

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Bar Graph Data: Visitors to a Banking Heritage Museum (Mon to Fri): Mon (240 M, 180 F); Tue (300 M, 250 F); Wed (280 M, 220 F); Thu (350 M, 300 F); Fri (400 M, 320 F).

What is the approximate percentage increase in total visitors from Tuesday to Friday?

- (A) 28.5%
- (B) 30.9%
- (C) 32.4%
- (D) 34.1%
- (E) 26.8%

Correct Answer: (B) 30.9%

Explanation: Tue total = 550. Fri total = 400 + 320 = 720. Increase = 720 - 550 = 170. % increase = $(170 / 550) \times 100 \approx 30.9\%$.

Q. #657 | Year: 2023-24 | Quantitative Aptitude • Data Interpretation

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Bar Graph Data: Visitors to a Banking Heritage Museum (Mon to Fri): Mon (240 M, 180 F); Tue (300 M, 250 F); Wed (280 M, 220 F); Thu (350 M, 300 F); Fri (400 M, 320 F).

What is the difference between total male and total female visitors over all 5 days?

- (A) 250
- (B) 280
- (C) 300
- (D) 320
- (E) 350

Correct Answer: (C) 300

Explanation: Total males = 240 + 300 + 280 + 350 + 400 = 1570. Total females = 1270. Difference = 1570 - 1270 = 300.

Q. #658 | Year: 2023-24 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

A and B invest ₹12,000 and ₹18,000 respectively in a joint venture. If the total annual profit is ₹6,000, find B's share:

- (A) ₹3,200
- (B) ₹3,400
- (C) ₹3,600
- (D) ₹3,800
- (E) ₹4,000

Correct Answer: (C) ₹3,600

Explanation: Investment ratio = 12000 : 18000 = 2 : 3. B's share = $(3/5) \times 6000 = ₹3,600$.

Q. #659 | Year: 2023-24 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Simple interest on a sum at 8% per annum for 3 years is ₹1,440. Find the compound interest on the same sum at 10% p.a. for 2 years:

- (A) ₹1,200
- (B) ₹1,240
- (C) ₹1,260
- (D) ₹1,300
- (E) ₹1,320

Correct Answer: (C) ₹1,260

Explanation: $P = (1440 \times 100) / (8 \times 3) = ₹6,000$. CI at 10% for 2 yrs = 21% of 6000 = ₹1,260.

Q. #660 | Year: 2023-24 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

The speed of a boat in still water is 15 km/h, and the speed of the stream is 3 km/h. Find the time taken to travel 72 km downstream:

- (A) 3 hours
- (B) 3.5 hours
- (C) 4 hours
- (D) 4.5 hours
- (E) 5 hours

Correct Answer: (C) 4 hours

Explanation: Downstream speed = $15 + 3 = 18$ km/h. Time = $72 / 18 = 4$ hours.

Q. #661 | Year: 2023-24 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

A train 300 m long running at 54 km/h crosses an electric pole in:

- (A) 15 seconds
- (B) 18 seconds
- (C) 20 seconds
- (D) 22 seconds
- (E) 25 seconds

Correct Answer: (C) 20 seconds

Explanation: Speed = $54 \times (5/18) = 15$ m/s. Time = $300 / 15 = 20$ seconds.

Q. #662 | Year: 2023-24 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

The ratio of milk and water in a 60-liter mixture is 2:1. How much water must be added to make the ratio 1:2?

- (A) 40 liters
- (B) 50 liters
- (C) 60 liters
- (D) 70 liters
- (E) 80 liters

Correct Answer: (C) 60 liters

Explanation: Initial: Milk = 40 L, Water = 20 L. $40 / (20 + w) = 1/2 \Rightarrow 20 + w = 80 \Rightarrow w = 60$ liters.

Q. #663 | Year: 2023-24 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

The cost price of an article is ₹800. It is marked at ₹1,200 and sold at a 25% discount. Find the profit earned:

- (A) ₹80
- (B) ₹100
- (C) ₹120
- (D) ₹140
- (E) ₹160

Correct Answer: (B) ₹100

Explanation: $SP = 1200 \times 0.75 = ₹900$. Profit = $900 - 800 = ₹100$.

Q. #664 | Year: 2023-24 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

The present age of A is 4 years more than B. Six years ago, the ratio of their ages was 3:2. Find A's present age:

- (A) 16 years
- (B) 18 years
- (C) 20 years
- (D) 22 years
- (E) 24 years

Correct Answer: (B) 18 years

Explanation: Age difference is constant (4 yrs). 1 unit = 4 yrs. Ages 6 yrs ago: A = 12, B = 8. Present age of A = $12 + 6 = 18$ years.

Q. #665 | Year: 2023-24 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

The area of a circular garden is 616 sq. m. Find the length of fence required to enclose it (circumference):

- (A) 80 m
- (B) 84 m
- (C) 88 m
- (D) 92 m
- (E) 96 m

Correct Answer: (C) 88 m

Explanation: $\pi r^2 = (22/7)r^2 = 616 \Rightarrow r^2 = 196 \Rightarrow r = 14$ m. Circumference = $2\pi r = 2 \times (22/7) \times 14 = 88$ m.

Passage / Context: Eight persons (A, B, C, D, E, F, G, H) sit around a circular table facing centre. B sits 2nd left of A. C sits 3rd right of B. D sits immediate right of C. Two between D and E. F is neighbor of A. Solved clockwise layout: A -> F -> C -> D -> G -> B -> E -> H.

Who sits to the immediate left of A?

- (A) H
- (B) F
- (C) B
- (D) E
- (E) C

Correct Answer: (A) H

Explanation: In clockwise orientation facing inside, H is to the immediate left of A.

Passage / Context: Eight persons (A, B, C, D, E, F, G, H) sit around a circular table facing centre. B sits 2nd left of A. C sits 3rd right of B. D sits immediate right of C. Two between D and E. F is neighbor of A. Solved clockwise layout: A -> F -> C -> D -> G -> B -> E -> H.

Who sits opposite to D in the circular table?

- (A) A
- (B) H
- (C) B
- (D) F
- (E) E

Correct Answer: (B) H

Explanation: H sits directly opposite to D.

Passage / Context: Eight persons (A, B, C, D, E, F, G, H) sit around a circular table facing centre. B sits 2nd left of A. C sits 3rd right of B. D sits immediate right of C. Two between D and E. F is neighbor of A. Solved clockwise layout: A -> F -> C -> D -> G -> B -> E -> H.

How many persons sit between F and B when counted from the right of F?

- (A) One
- (B) Two
- (C) Three
- (D) Four
- (E) None

Correct Answer: (B) Two

Explanation: Counted rightwards from F (towards C): C, D, G are 3 persons; between F and B are C, D, G (3 persons) or depending on direction; layout gives 3.

Q. #669 | Year: 2023-24 | Reasoning Ability • Seating Arrangement

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Eight persons (A, B, C, D, E, F, G, H) sit around a circular table facing centre. B sits 2nd left of A. C sits 3rd right of B. D sits immediate right of C. Two between D and E. F is neighbor of A. Solved clockwise layout: A -> F -> C -> D -> G -> B -> E -> H.

What is the position of G with respect to E?

- (A) Second to the left
- (B) Second to the right
- (C) Immediate right
- (D) Third to the left
- (E) Opposite

Correct Answer: (A) Second to the left

Explanation: G sits second to the left of E.

Q. #670 | Year: 2023-24 | Reasoning Ability • Seating Arrangement

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Eight persons (A, B, C, D, E, F, G, H) sit around a circular table facing centre. B sits 2nd left of A. C sits 3rd right of B. D sits immediate right of C. Two between D and E. F is neighbor of A. Solved clockwise layout: A -> F -> C -> D -> G -> B -> E -> H.

Which pair represents immediate neighbors of C?

- (A) F and D
- (B) A and G
- (C) B and E
- (D) H and D
- (E) F and A

Correct Answer: (A) F and D

Explanation: C is positioned between F and D.

Q. #671 | Year: 2023-24 | Reasoning Ability • Month-Date Puzzle

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: 8 persons (P, Q, R, S, T, U, V, W) attend a conference on 12th and 27th of March, April, May, June. Solved schedule: March 12: P | March 27: R | April 12: Q | April 27: S | May 12: T | May 27: U | June 12: V | June 27: W.

Who attends the conference on May 27th?

- (A) T
- (B) U
- (C) V
- (D) W
- (E) S

Correct Answer: (B) U

Explanation: U attends on May 27th.

Q. #672 | Year: 2023-24 | Reasoning Ability • Month-Date
Puzzle

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: 8 persons (P, Q, R, S, T, U, V, W) attend a conference on 12th and 27th of March, April, May, June. Solved schedule:
March 12: P | March 27: R | April 12: Q | April 27: S | May 12: T | May 27: U | June 12: V | June 27: W.

How many persons attend between R and V?

- (A) Two
- (B) Three
- (C) Four
- (D) Five
- (E) One

Correct Answer: (B) Three

Explanation: Between March 27 (R) and June 12 (V), there are 4 persons (Q, S, T, U).

Q. #673 | Year: 2023-24 | Reasoning Ability • Month-Date
Puzzle

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: 8 persons (P, Q, R, S, T, U, V, W) attend a conference on 12th and 27th of March, April, May, June. Solved schedule:
March 12: P | March 27: R | April 12: Q | April 27: S | May 12: T | May 27: U | June 12: V | June 27: W.

Who attends immediately after T?

- (A) U
- (B) V
- (C) S
- (D) W
- (E) R

Correct Answer: (A) U

Explanation: U attends immediately after T on May 27.

Q. #674 | Year: 2023-24 | Reasoning Ability • Month-Date
Puzzle

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: 8 persons (P, Q, R, S, T, U, V, W) attend a conference on 12th and 27th of March, April, May, June. Solved schedule:
March 12: P | March 27: R | April 12: Q | April 27: S | May 12: T | May 27: U | June 12: V | June 27: W.

Which pair attends in a month having only 30 days?

- (A) P and R
- (B) Q and S
- (C) T and U
- (D) P and Q
- (E) R and T

Correct Answer: (B) Q and S

Explanation: April has 30 days; Q and S attend in April.

Q. #675 | Year: 2023-24 | Reasoning Ability • Month-Date Puzzle

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: 8 persons (P, Q, R, S, T, U, V, W) attend a conference on 12th and 27th of March, April, May, June. Solved schedule: March 12: P | March 27: R | April 12: Q | April 27: S | May 12: T | May 27: U | June 12: V | June 27: W.

How many persons attend the conference after S?

- (A) Two
- (B) Three
- (C) Four
- (D) Five
- (E) One

Correct Answer: (C) Four

Explanation: Four persons (T, U, V, W) attend after S.

Q. #676 | Year: 2023-24 | Reasoning Ability • Syllogism

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Statements: Only a few Reds are Blues. All Blues are Greens. **Conclusions:** I. Some Reds are Greens. II. All Reds can be Blues.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (A) Only I follows

Explanation: I follows because Reds overlap with Blues which are all Greens. II fails because 'Only a few Reds are Blues' prevents all Reds from being Blues.

Q. #677 | Year: 2023-24 | Reasoning Ability • Syllogism

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Statements: All Cats are Dogs. No Dog is Cow. **Conclusions:** I. No Cat is Cow. II. Some Dogs are Cats.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow directly from complete subset inclusion and disjoint circle rules.

Statements: Some Apples are Bananas. Only a few Bananas are Mangos. **Conclusions:** I. All Apples can be Mangos. II. No Mango is Apple.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (A) Only I follows

Explanation: Only I follows as a possibility. II is not definitely true.

Statements: Only a few Chairs are Tables. All Tables are Desks. **Conclusions:** I. Some Chairs are not Tables. II. Some Desks are Chairs.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow: 'Only a few' guarantees some Chairs are not Tables (I holds), and overlap with Tables ensures overlap with Desks (II holds).

Statements: No Pen is Eraser. All Erasers are Rulers. **Conclusions:** I. Some Rulers are not Pens. II. All Pens can be Rulers.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow: Portion of Rulers that are Erasers cannot be Pens (I holds). Pens can overlap with non-Eraser parts of Rulers (II holds).

Statement: $A > B \geq C = D > E$. **Conclusions:** I. $A > D$ | II. $B > E$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both I and II follow directly: $A > B \geq C = D \Rightarrow A > D$, and $B \geq C = D > E \Rightarrow B > E$.

Q. #682 | Year: 2023-24 | Reasoning Ability • Inequalities ✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Statement: $P \leq Q < R \leq S$. Conclusions: I. $P < R$ | II. $Q < S$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both I and II follow directly through transitive inequality chains.

Q. #683 | Year: 2023-24 | Reasoning Ability • Inequalities ✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Statement: $X \geq Y > Z = W$. Conclusions: I. $X > W$ | II. $Y = W$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (A) Only I follows

Explanation: $X \geq Y > Z = W$ confirms $X > W$ (I holds). $Y > W$ directly disproves $Y = W$ (II fails).

Q. #684 | Year: 2023-24 | Reasoning Ability • Inequalities ✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Statement: $K < L \leq M = N$. Conclusions: I. $K < N$ | II. $L \leq N$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow directly.

Q. #685 | Year: 2023-24 | Reasoning Ability • Inequalities ✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Statement: $U = V \geq W > X$. Conclusions: I. $U > X$ | II. $V \geq W$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow directly.

Passage / Context: Given: 'study hard get success' = 'ki lo ma ta'; 'success comes hard' = 'ma ta re'; 'study every day' = 'ki no pa'.
Decoded: success/hard = ma/ta, study = ki, comes = re.

What is the code for 'comes'?

- (A) ki
- (B) lo
- (C) ma
- (D) re
- (E) ta

Correct Answer: (D) re

Explanation: Comparing sentences reveals 'comes' is uniquely coded as 're'.

Passage / Context: Given: 'study hard get success' = 'ki lo ma ta'; 'success comes hard' = 'ma ta re'; 'study every day' = 'ki no pa'.
Decoded: success/hard = ma/ta, study = ki, comes = re.

What is the code for 'study'?

- (A) ki
- (B) lo
- (C) ma
- (D) ta
- (E) no

Correct Answer: (A) ki

Explanation: 'study' appears in sentences 1 and 3 with common code 'ki'.

Passage / Context: Given: 'study hard get success' = 'ki lo ma ta'; 'success comes hard' = 'ma ta re'; 'study every day' = 'ki no pa'.
Decoded: success/hard = ma/ta, study = ki, comes = re.

Which word is represented by the code 'lo'?

- (A) hard
- (B) get
- (C) success
- (D) comes
- (E) day

Correct Answer: (B) get

Explanation: 'get' is the unique remaining word in sentence 1 coded as 'lo'.

Q. #689 | Year: 2023-24 | Reasoning Ability • Coding-Decoding

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Given: 'study hard get success' = 'ki lo ma ta'; 'success comes hard' = 'ma ta re'; 'study every day' = 'ki no pa'.
Decoded: success/hard = ma/ta, study = ki, comes = re.

What could be the code for 'every success'?

- (A) no ma
- (B) ki re
- (C) pa lo
- (D) ta ki
- (E) re lo

Correct Answer: (A) no ma

Explanation: 'every' can be 'no' or 'pa', and 'success' can be 'ma' or 'ta'. 'no ma' is a valid combination.

Q. #690 | Year: 2023-24 | Reasoning Ability • Coding-Decoding

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Given: 'study hard get success' = 'ki lo ma ta'; 'success comes hard' = 'ma ta re'; 'study every day' = 'ki no pa'.
Decoded: success/hard = ma/ta, study = ki, comes = re.

What does 'pa' definitely or possibly represent?

- (A) study
- (B) get
- (C) day or every
- (D) success
- (E) hard

Correct Answer: (C) day or every

Explanation: 'pa' and 'no' correspond to 'day' or 'every'.

Q. #691 | Year: 2023-24 | Reasoning Ability • Designation Puzzle

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: 7 persons (A, B, C, D, E, F, G) hold corporate designations: MD > GM > DGM > AGM > Manager > Officer > Clerk. Solved hierarchy: MD: D | GM: B | DGM: F | AGM: A | Manager: E | Officer: C | Clerk: G.

Who holds the designation of Managing Director (MD)?

- (A) A
- (B) B
- (C) C
- (D) D
- (E) E

Correct Answer: (D) D

Explanation: D is the Managing Director.

Q. #692 | Year: 2023-24 | Reasoning Ability • Designation Puzzle

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: 7 persons (A, B, C, D, E, F, G) hold corporate designations: MD > GM > DGM > AGM > Manager > Officer > Clerk. Solved hierarchy: MD: D | GM: B | DGM: F | AGM: A | Manager: E | Officer: C | Clerk: G.

How many persons are senior to E?

- (A) Two
- (B) Three
- (C) Four
- (D) Five
- (E) One

Correct Answer: (C) Four

Explanation: Four designations (MD, GM, DGM, AGM) are senior to Manager (E).

Q. #693 | Year: 2023-24 | Reasoning Ability • Designation Puzzle

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: 7 persons (A, B, C, D, E, F, G) hold corporate designations: MD > GM > DGM > AGM > Manager > Officer > Clerk. Solved hierarchy: MD: D | GM: B | DGM: F | AGM: A | Manager: E | Officer: C | Clerk: G.

Who is the Clerk (most junior designation)?

- (A) G
- (B) C
- (C) E
- (D) F
- (E) A

Correct Answer: (A) G

Explanation: G is the Clerk.

Q. #694 | Year: 2023-24 | Reasoning Ability • Designation Puzzle

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: 7 persons (A, B, C, D, E, F, G) hold corporate designations: MD > GM > DGM > AGM > Manager > Officer > Clerk. Solved hierarchy: MD: D | GM: B | DGM: F | AGM: A | Manager: E | Officer: C | Clerk: G.

Which designation is held by F?

- (A) MD
- (B) GM
- (C) DGM
- (D) AGM
- (E) Manager

Correct Answer: (C) DGM

Explanation: F holds the designation of DGM.

Q. #695 | Year: 2023-24 | Reasoning Ability • Designation Puzzle

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: 7 persons (A, B, C, D, E, F, G) hold corporate designations: MD > GM > DGM > AGM > Manager > Officer > Clerk. Solved hierarchy: MD: D | GM: B | DGM: F | AGM: A | Manager: E | Officer: C | Clerk: G.

Who is immediately junior to B?

- (A) D
- (B) F
- (C) A
- (D) E
- (E) C

Correct Answer: (B) F

Explanation: F (DGM) is immediately junior to B (GM).

Q. #696 | Year: 2023-24 | Reasoning Ability • Direction Sense

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Point A is 8 m North of Point B. Point C is 6 m East of Point B. Point D is 4 m South of Point C.

What is the shortest straight-line distance between Point A and Point C?

- (A) 9 m
- (B) 10 m
- (C) 12 m
- (D) 14 m
- (E) 15 m

Correct Answer: (B) 10 m

Explanation: $AC^2 = AB^2 + BC^2 = 8^2 + 6^2 = 64 + 36 = 100 \Rightarrow AC = 10 \text{ m}$.

Q. #697 | Year: 2023-24 | Reasoning Ability • Direction Sense

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Point A is 8 m North of Point B. Point C is 6 m East of Point B. Point D is 4 m South of Point C.

In which direction is Point D with respect to Point A?

- (A) North-East
- (B) North-West
- (C) South-East
- (D) South-West
- (E) East

Correct Answer: (C) South-East

Explanation: From A (0, 8) to D (6, -4) is moving East and South $\Rightarrow$ South-East.

Q. #698 | Year: 2023-24 | Reasoning Ability • Direction Sense

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Point A is 8 m North of Point B. Point C is 6 m East of Point B. Point D is 4 m South of Point C.

What is the total distance walking A → B → C → D?

- (A) 16 m
- (B) 18 m
- (C) 20 m
- (D) 22 m
- (E) 24 m

Correct Answer: (B) 18 m

Explanation: $8 + 6 + 4 = 18$ m.

Q. #699 | Year: 2023-24 | Reasoning Ability • Blood Relations

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: In a family: M is brother of N. N is mother of O. P is father of O. Q is daughter of P.

How is M related to O?

- (A) Uncle (Maternal)
- (B) Father
- (C) Brother
- (D) Grandfather
- (E) Nephew

Correct Answer: (A) Uncle (Maternal)

Explanation: M is brother of O's mother N ⇒ Maternal Uncle.

Q. #700 | Year: 2023-24 | Reasoning Ability • Blood Relations

✓ SBI Clerk Prelims 2023-24 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: In a family: M is brother of N. N is mother of O. P is father of O. Q is daughter of P.

How is Q related to N?

- (A) Sister
- (B) Daughter
- (C) Aunt
- (D) Mother
- (E) Niece

Correct Answer: (B) Daughter

Explanation: N and P are parents of O and Q. Hence Q is daughter of N.

Passage / Context: In recent years, the intersection of artificial intelligence and sustainable green banking has begun reshaping global financial systems. Traditional commercial banking operations typically leave a heavy environmental footprint through vast branch networks, extensive paper consumption, and high operational energy demands. To mitigate this, Indian commercial lenders, spearheaded by the State Bank of India, have implemented AI-driven predictive algorithms and automated document processing systems. These digital pipelines not only compress transaction turnaround times from days to seconds but also drastically curtail paper usage and branch-level carbon emissions. Sustainable lending criteria now incentivize micro, small, and medium enterprises (MSMEs) adopting solar infrastructure, energy-efficient machinery, and zero-effluent discharge protocols by offering discounted interest rates. However, the path to fully autonomous sustainable banking is fraught with impediments. Foremost among these is the scarcity of standardized and audited ESG (Environmental, Social, and Governance) data from informal business sectors. Without transparent carbon disclosures, algorithmic credit scoring models risk committing bias or succumbing to greenwashing.

What is the central focus of the passage?

- (A) The total collapse of traditional bank branches
- (B) The convergence of artificial intelligence and green banking in driving sustainable finance
- (C) Mandatory liquidation of non-solar MSMEs
- (D) Abolition of human loan officers
- (E) Elimination of corporate credit

Correct Answer: (B) The convergence of artificial intelligence and green banking in driving sustainable finance

Explanation: The passage analyzes how AI tools and sustainable lending criteria intersect to promote green banking and address climate risks.

Passage / Context: In recent years, the intersection of artificial intelligence and sustainable green banking has begun reshaping global financial systems. Traditional commercial banking operations typically leave a heavy environmental footprint through vast branch networks, extensive paper consumption, and high operational energy demands. To mitigate this, Indian commercial lenders, spearheaded by the State Bank of India, have implemented AI-driven predictive algorithms and automated document processing systems. These digital pipelines not only compress transaction turnaround times from days to seconds but also drastically curtail paper usage and branch-level carbon emissions. Sustainable lending criteria now incentivize micro, small, and medium enterprises (MSMEs) adopting solar infrastructure, energy-efficient machinery, and zero-effluent discharge protocols by offering discounted interest rates. However, the path to fully autonomous sustainable banking is fraught with impediments. Foremost among these is the scarcity of standardized and audited ESG (Environmental, Social, and Governance) data from informal business sectors. Without transparent carbon disclosures, algorithmic credit scoring models risk committing bias or succumbing to greenwashing.

According to the passage, how do AI-driven systems improve environmental outcomes within banks?

- (A) By replacing paper documentation and shrinking branch-level operational emissions
- (B) By shutting down rural bank branches entirely
- (C) By eliminating interest rates for corporate borrowers
- (D) By mandating cash-only retail transactions
- (E) By shifting servers offshore

Correct Answer: (A) By replacing paper documentation and shrinking branch-level operational emissions

Explanation: Paragraph 1 explicitly notes that AI automated document pipelines compress turnaround times while drastically curtailing paper usage and branch emissions.

Passage / Context: In recent years, the intersection of artificial intelligence and sustainable green banking has begun reshaping global financial systems. Traditional commercial banking operations typically leave a heavy environmental footprint through vast branch networks, extensive paper consumption, and high operational energy demands. To mitigate this, Indian commercial lenders, spearheaded by the State Bank of India, have implemented AI-driven predictive algorithms and automated document processing systems. These digital pipelines not only compress transaction turnaround times from days to seconds but also drastically curtail paper usage and branch-level carbon emissions. Sustainable lending criteria now incentivize micro, small, and medium enterprises (MSMEs) adopting solar infrastructure, energy-efficient machinery, and zero-effluent discharge protocols by offering discounted interest rates. However, the path to fully autonomous sustainable banking is fraught with impediments. Foremost among these is the scarcity of standardized and audited ESG (Environmental, Social, and Governance) data from informal business sectors. Without transparent carbon disclosures, algorithmic credit scoring models risk committing bias or succumbing to greenwashing.

What concession is offered to MSMEs adopting eco-friendly practices?

- (A) Complete exemption from principal repayments
- (B) Preferential discounted interest rates on business credit
- (C) Unrestricted credit sanctioning without financial audits
- (D) Government equity takeover
- (E) Direct cash subsidies credited without collateral

Correct Answer: (B) Preferential discounted interest rates on business credit

Explanation: Paragraph 2 states that sustainable lending criteria incentivize MSMEs adopting solar infrastructure with discounted interest rates.

Passage / Context: In recent years, the intersection of artificial intelligence and sustainable green banking has begun reshaping global financial systems. Traditional commercial banking operations typically leave a heavy environmental footprint through vast branch networks, extensive paper consumption, and high operational energy demands. To mitigate this, Indian commercial lenders, spearheaded by the State Bank of India, have implemented AI-driven predictive algorithms and automated document processing systems. These digital pipelines not only compress transaction turnaround times from days to seconds but also drastically curtail paper usage and branch-level carbon emissions. Sustainable lending criteria now incentivize micro, small, and medium enterprises (MSMEs) adopting solar infrastructure, energy-efficient machinery, and zero-effluent discharge protocols by offering discounted interest rates. However, the path to fully autonomous sustainable banking is fraught with impediments. Foremost among these is the scarcity of standardized and audited ESG (Environmental, Social, and Governance) data from informal business sectors. Without transparent carbon disclosures, algorithmic credit scoring models risk committing bias or succumbing to greenwashing.

What does the term 'greenwashing' mean in the context of the passage?

- (A) Washing paper currency using chemical purifiers
- (B) Allocating funds exclusively to agricultural initiatives
- (C) The deceptive exaggeration of environmental credentials to secure preferential borrowing terms
- (D) Erasing delinquent credit histories using AI
- (E) Investing only in organic fertilizer corporations

Correct Answer: (C) The deceptive exaggeration of environmental credentials to secure preferential borrowing terms

Explanation: Paragraph 3 defines greenwashing as the deceptive practice where borrowers exaggerate their environmental credentials to secure preferential credit terms.

Passage / Context: In recent years, the intersection of artificial intelligence and sustainable green banking has begun reshaping global financial systems. Traditional commercial banking operations typically leave a heavy environmental footprint through vast branch networks, extensive paper consumption, and high operational energy demands. To mitigate this, Indian commercial lenders, spearheaded by the State Bank of India, have implemented AI-driven predictive algorithms and automated document processing systems. These digital pipelines not only compress transaction turnaround times from days to seconds but also drastically curtail paper usage and branch-level carbon emissions. Sustainable lending criteria now incentivize micro, small, and medium enterprises (MSMEs) adopting solar infrastructure, energy-efficient machinery, and zero-effluent discharge protocols by offering discounted interest rates. However, the path to fully autonomous sustainable banking is fraught with impediments. Foremost among these is the scarcity of standardized and audited ESG (Environmental, Social, and Governance) data from informal business sectors. Without transparent carbon disclosures, algorithmic credit scoring models risk committing bias or succumbing to greenwashing.

Which of the following is a key obstacle to implementing autonomous green banking algorithms?

- (A) Excessive availability of standardized ESG disclosures
- (B) Unwillingness of Indian banks to adopt digital technology
- (C) Scarcity of reliable, standardized, and audited ESG data from unorganized sectors
- (D) High electricity consumption of solar panels
- (E) RBI directives prohibiting AI in banking operations

Correct Answer: (C) Scarcity of reliable, standardized, and audited ESG data from unorganized sectors

Explanation: Paragraph 3 highlights the scarcity of standardized and audited ESG data from informal sectors as a foremost impediment.

Passage / Context: In recent years, the intersection of artificial intelligence and sustainable green banking has begun reshaping global financial systems. Traditional commercial banking operations typically leave a heavy environmental footprint through vast branch networks, extensive paper consumption, and high operational energy demands. To mitigate this, Indian commercial lenders, spearheaded by the State Bank of India, have implemented AI-driven predictive algorithms and automated document processing systems. These digital pipelines not only compress transaction turnaround times from days to seconds but also drastically curtail paper usage and branch-level carbon emissions. Sustainable lending criteria now incentivize micro, small, and medium enterprises (MSMEs) adopting solar infrastructure, energy-efficient machinery, and zero-effluent discharge protocols by offering discounted interest rates. However, the path to fully autonomous sustainable banking is fraught with impediments. Foremost among these is the scarcity of standardized and audited ESG (Environmental, Social, and Governance) data from informal business sectors. Without transparent carbon disclosures, algorithmic credit scoring models risk committing bias or succumbing to greenwashing.

Which word from the passage is most SIMILAR in meaning to 'CURTAIL'?

- (A) Prolong
- (B) Mitigate / Reduce
- (C) Augment
- (D) Escalate
- (E) Fabricate

Correct Answer: (B) Mitigate / Reduce

Explanation: 'Curtail' means to reduce, cut back, or restrict.

Passage / Context: In recent years, the intersection of artificial intelligence and sustainable green banking has begun reshaping global financial systems. Traditional commercial banking operations typically leave a heavy environmental footprint through vast branch networks, extensive paper consumption, and high operational energy demands. To mitigate this, Indian commercial lenders, spearheaded by the State Bank of India, have implemented AI-driven predictive algorithms and automated document processing systems. These digital pipelines not only compress transaction turnaround times from days to seconds but also drastically curtail paper usage and branch-level carbon emissions. Sustainable lending criteria now incentivize micro, small, and medium enterprises (MSMEs) adopting solar infrastructure, energy-efficient machinery, and zero-effluent discharge protocols by offering discounted interest rates. However, the path to fully autonomous sustainable banking is fraught with impediments. Foremost among these is the scarcity of standardized and audited ESG (Environmental, Social, and Governance) data from informal business sectors. Without transparent carbon disclosures, algorithmic credit scoring models risk committing bias or succumbing to greenwashing.

Which word from the passage is most **OPPOSITE** in meaning to 'FRAUGHT'?

- (A) Laden
- (B) Devoid
- (C) Replete
- (D) Bristling
- (E) Burdened

Correct Answer: (B) Devoid

Explanation: 'Fraught' means full of or accompanied by problems; its antonym is 'devoid' (completely empty or free of).

Passage / Context: In recent years, the intersection of artificial intelligence and sustainable green banking has begun reshaping global financial systems. Traditional commercial banking operations typically leave a heavy environmental footprint through vast branch networks, extensive paper consumption, and high operational energy demands. To mitigate this, Indian commercial lenders, spearheaded by the State Bank of India, have implemented AI-driven predictive algorithms and automated document processing systems. These digital pipelines not only compress transaction turnaround times from days to seconds but also drastically curtail paper usage and branch-level carbon emissions. Sustainable lending criteria now incentivize micro, small, and medium enterprises (MSMEs) adopting solar infrastructure, energy-efficient machinery, and zero-effluent discharge protocols by offering discounted interest rates. However, the path to fully autonomous sustainable banking is fraught with impediments. Foremost among these is the scarcity of standardized and audited ESG (Environmental, Social, and Governance) data from informal business sectors. Without transparent carbon disclosures, algorithmic credit scoring models risk committing bias or succumbing to greenwashing.

Which scopes of carbon emissions are AI models leveraged to evaluate for corporate borrowers?

- (A) Only Scope 1 emissions
- (B) Only Scope 2 and 4 emissions
- (C) Scope 1, Scope 2, and Scope 3 emissions
- (D) Unregulated informal emissions only
- (E) None of the above

Correct Answer: (C) Scope 1, Scope 2, and Scope 3 emissions

Explanation: Paragraph 2 explicitly mentions computing Scope 1, Scope 2, and Scope 3 carbon emission exposures.

Identify the pair of words that need to be swapped: The central bank decided (A) to maintain an accommodative (B) stance to stimulate (C) growth while keeping inflation under control (D).

- (A) A-B
- (B) B-C
- (C) C-D
- (D) A-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: All highlighted words are in their correct contextual and grammatical positions.

Identify the pair of words that need to be swapped: Rapid penetration (A) of smartphones has spurred (B) exponential growth (C) in retail digital payments (D).

- (A) A-C
- (B) B-D
- (C) A-B
- (D) C-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: The sentence is completely coherent and grammatically correct as written.

Identify the pair of words that need to be swapped: The financial analyst advised (A) investors to diversify (B) their portfolios to exposure (C) the risk of severe market minimize (D).

- (A) A-B
- (B) C-D
- (C) B-C
- (D) A-D
- (E) No replacement required

Correct Answer: (B) C-D

Explanation: Swapping C ('exposure') and D ('minimize') yields: '...to minimize the risk of severe market exposure.'

Identify the pair of words that need to be swapped: Strict compliance (A) with anti-money laundering regulations (B) is vital (C) to maintain the integrity (D) of the domestic banking framework.

- (A) A-C
- (B) B-D
- (C) B-C
- (D) A-D
- (E) No replacement required

Correct Answer: (E) No replacement required

Explanation: All words are contextually and syntactically correct.

Identify the pair of words that need to be swapped: High rates (A) of interest might deter (B) borrowers, thereby credit (C) the pace of overall economic slowing (D).

- (A) A-B
- (B) C-D
- (C) B-C
- (D) A-D
- (E) No replacement required

Correct Answer: (B) C-D

Explanation: Swapping C ('credit') and D ('slowing') yields: '...thereby slowing the pace of overall economic credit.'

Find the erroneous part: Neither the branch manager (A) / nor the assistant accountants (B) / was aware of (C) / the revised cyber security protocol. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (C) Part C

Explanation: In 'neither... nor', the verb agrees with the nearer subject ('assistant accountants' - plural). Replace 'was aware' with 'were aware'.

Find the erroneous part: The board of directors have (A) / approved the annual fiscal budget (B) / during the emergency meeting (C) / held at the corporate headquarters. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (A) Part A

Explanation: 'The board of directors' acts as a singular collective entity in this context. Replace 'have' with 'has'.

Find the erroneous part: She is one of those dedicated employees (A) / who always completes (B) / their assignments well before (C) / the scheduled deadline. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (B) Part B

Explanation: In the construction 'one of those [plural noun] who...', the verb must be plural: 'who always complete'.

Find the erroneous part: If the customer had updated (A) / his mobile number in the KYC registry, (B) / he would receive the (C) / one-time password on time. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (C) Part C

Explanation: Third conditional structure: 'If + had + V3 ..., would have + V3'. Replace 'would receive' with 'would have received'.

Find the erroneous part: Despite of the steep hike (A) / in benchmark repo rates, (B) / home loan demand continued (C) / to register robust growth. (D) / No error (E)

- (A) Part A
- (B) Part B
- (C) Part C
- (D) Part D
- (E) No error (E)

Correct Answer: (A) Part A

Explanation: 'Despite' never takes the preposition 'of'. Use either 'Despite' or 'In spite of'.

Passage / Context: By ensuring that vulnerable demographics have unhindered __ (Q19) __ to formal savings, credit, and insurance instruments, public policies aim to dismantle informal lending. DBT has played a __ (Q20) __ role in plugging leakages, guaranteeing state subsidies are credited __ (Q21) __ into beneficiary accounts. This transfer has eliminated intermediaries, thereby __ (Q22) __ public trust in welfare architecture. Expanding business correspondent networks has proved highly __ (Q23) __ in bridging the last mile, transforming rural villages into active __ (Q24) __ in national growth.

Select the word that best fits blank (Q19):

- (A) resistance
- (B) access
- (C) hesitation
- (D) barrier
- (E) immunity

Correct Answer: (B) access

Explanation: 'Access' contextually fits: 'unhindered access to formal savings...'

Passage / Context: By ensuring that vulnerable demographics have unhindered __ (Q19) __ to formal savings, credit, and insurance instruments, public policies aim to dismantle informal lending. DBT has played a __ (Q20) __ role in plugging leakages, guaranteeing state subsidies are credited __ (Q21) __ into beneficiary accounts. This transfer has eliminated intermediaries, thereby __ (Q22) __ public trust in welfare architecture. Expanding business correspondent networks has proved highly __ (Q23) __ in bridging the last mile, transforming rural villages into active __ (Q24) __ in national growth.

Select the word that best fits blank (Q20):

- (A) trivial
- (B) pivotal
- (C) negligent
- (D) marginal
- (E) hazardous

Correct Answer: (B) pivotal

Explanation: 'Pivotal' means crucially important, perfectly fitting DBT's role.

Passage / Context: By ensuring that vulnerable demographics have unhindered __ (Q19) __ to formal savings, credit, and insurance instruments, public policies aim to dismantle informal lending. DBT has played a __ (Q20) __ role in plugging leakages, guaranteeing state subsidies are credited __ (Q21) __ into beneficiary accounts. This transfer has eliminated intermediaries, thereby __ (Q22) __ public trust in welfare architecture. Expanding business correspondent networks has proved highly __ (Q23) __ in bridging the last mile, transforming rural villages into active __ (Q24) __ in national growth.

Select the word that best fits blank (Q21):

- (A) indirectly
- (B) casually
- (C) directly
- (D) ambiguously
- (E) randomly

Correct Answer: (C) directly

Explanation: 'Directly' contextually fits the concept of Direct Benefit Transfer into bank accounts.

Passage / Context: By ensuring that vulnerable demographics have unhindered __ (Q19) __ to formal savings, credit, and insurance instruments, public policies aim to dismantle informal lending. DBT has played a __ (Q20) __ role in plugging leakages, guaranteeing state subsidies are credited __ (Q21) __ into beneficiary accounts. This transfer has eliminated intermediaries, thereby __ (Q22) __ public trust in welfare architecture. Expanding business correspondent networks has proved highly __ (Q23) __ in bridging the last mile, transforming rural villages into active __ (Q24) __ in national growth.

Select the word that best fits blank (Q22):

- (A) bolstering
- (B) eroding
- (C) diminishing
- (D) destabilizing
- (E) neglecting

Correct Answer: (A) bolstering

Explanation: 'Bolstering' means strengthening or supporting public trust.

Passage / Context: By ensuring that vulnerable demographics have unhindered __ (Q19) __ to formal savings, credit, and insurance instruments, public policies aim to dismantle informal lending. DBT has played a __ (Q20) __ role in plugging leakages, guaranteeing state subsidies are credited __ (Q21) __ into beneficiary accounts. This transfer has eliminated intermediaries, thereby __ (Q22) __ public trust in welfare architecture. Expanding business correspondent networks has proved highly __ (Q23) __ in bridging the last mile, transforming rural villages into active __ (Q24) __ in national growth.

Select the word that best fits blank (Q23):

- (A) detrimental
- (B) redundant
- (C) effective
- (D) obsolete
- (E) sluggish

Correct Answer: (C) effective

Explanation: 'Effective' describes successful bridging of the geographical last-mile.

Passage / Context: By ensuring that vulnerable demographics have unhindered __ (Q19) __ to formal savings, credit, and insurance instruments, public policies aim to dismantle informal lending. DBT has played a __ (Q20) __ role in plugging leakages, guaranteeing state subsidies are credited __ (Q21) __ into beneficiary accounts. This transfer has eliminated intermediaries, thereby __ (Q22) __ public trust in welfare architecture. Expanding business correspondent networks has proved highly __ (Q23) __ in bridging the last mile, transforming rural villages into active __ (Q24) __ in national growth.

Select the word that best fits blank (Q24):

- (A) spectators
- (B) participants
- (C) adversaries
- (D) intruders
- (E) bypassers

Correct Answer: (B) participants

Explanation: 'Participants' fits the context of active contributors to economic growth.

Passage / Context: (A) Consequently, early detection of cyber threats has become an existential necessity for financial institutions. (B) In response, commercial banks are pouring substantial capital into artificial intelligence defenses. (C) The modern global banking ecosystem is more interconnected and digitally reliant than ever before. (D) These intelligent systems continuously scan millions of network transactions to neutralize illicit breaches. (E) However, this hyper-connectedness exponentially expands vulnerability to sophisticated ransomware strikes. (F) Such automated vigilance guarantees that consumer funds and sensitive data stay fortified against emerging vectors. Correct Sequence: C -> E -> A -> B -> D -> F

Which of the following should be the FIRST sentence after rearrangement?

- (A) Sentence A
- (B) Sentence B
- (C) Sentence C
- (D) Sentence D
- (E) Sentence E

Correct Answer: (C) Sentence C

Explanation: Sentence C introduces the central theme of global banking interconnectedness.

Passage / Context: (A) Consequently, early detection of cyber threats has become an existential necessity for financial institutions. (B) In response, commercial banks are pouring substantial capital into artificial intelligence defenses. (C) The modern global banking ecosystem is more interconnected and digitally reliant than ever before. (D) These intelligent systems continuously scan millions of network transactions to neutralize illicit breaches. (E) However, this hyper-connectedness exponentially expands vulnerability to sophisticated ransomware strikes. (F) Such automated vigilance guarantees that consumer funds and sensitive data stay fortified against emerging vectors. Correct Sequence: C → E → A → B → D → F

Which of the following should be the **SECOND** sentence after rearrangement?

- (A) Sentence E
- (B) Sentence D
- (C) Sentence B
- (D) Sentence A
- (E) Sentence F

Correct Answer: (A) Sentence E

Explanation: Sentence E introduces the negative consequence of hyper-connectedness.

Passage / Context: (A) Consequently, early detection of cyber threats has become an existential necessity for financial institutions. (B) In response, commercial banks are pouring substantial capital into artificial intelligence defenses. (C) The modern global banking ecosystem is more interconnected and digitally reliant than ever before. (D) These intelligent systems continuously scan millions of network transactions to neutralize illicit breaches. (E) However, this hyper-connectedness exponentially expands vulnerability to sophisticated ransomware strikes. (F) Such automated vigilance guarantees that consumer funds and sensitive data stay fortified against emerging vectors. Correct Sequence: C → E → A → B → D → F

Which of the following should be the **THIRD** sentence after rearrangement?

- (A) Sentence B
- (B) Sentence C
- (C) Sentence A
- (D) Sentence E
- (E) Sentence D

Correct Answer: (C) Sentence A

Explanation: Sentence A states the logical outcome: threat detection becoming an existential necessity.

Passage / Context: (A) Consequently, early detection of cyber threats has become an existential necessity for financial institutions. (B) In response, commercial banks are pouring substantial capital into artificial intelligence defenses. (C) The modern global banking ecosystem is more interconnected and digitally reliant than ever before. (D) These intelligent systems continuously scan millions of network transactions to neutralize illicit breaches. (E) However, this hyper-connectedness exponentially expands vulnerability to sophisticated ransomware strikes. (F) Such automated vigilance guarantees that consumer funds and sensitive data stay fortified against emerging vectors. Correct Sequence: C → E → A → B → D → F

Which of the following should be the **FOURTH** sentence after rearrangement?

- (A) Sentence D
- (B) Sentence B
- (C) Sentence F
- (D) Sentence A
- (E) Sentence C

Correct Answer: (B) Sentence B

Explanation: Sentence B shows the action taken by banks (pouring capital into AI defenses).

Passage / Context: (A) Consequently, early detection of cyber threats has become an existential necessity for financial institutions. (B) In response, commercial banks are pouring substantial capital into artificial intelligence defenses. (C) The modern global banking ecosystem is more interconnected and digitally reliant than ever before. (D) These intelligent systems continuously scan millions of network transactions to neutralize illicit breaches. (E) However, this hyper-connectedness exponentially expands vulnerability to sophisticated ransomware strikes. (F) Such automated vigilance guarantees that consumer funds and sensitive data stay fortified against emerging vectors. Correct Sequence: C → E → A → B → D → F

Which of the following should be the **FIFTH** sentence after rearrangement?

- (A) Sentence D
- (B) Sentence E
- (C) Sentence F
- (D) Sentence B
- (E) Sentence A

Correct Answer: (A) Sentence D

Explanation: Sentence D describes what 'these intelligent systems' (AI defenses from B) do.

Passage / Context: (A) Consequently, early detection of cyber threats has become an existential necessity for financial institutions. (B) In response, commercial banks are pouring substantial capital into artificial intelligence defenses. (C) The modern global banking ecosystem is more interconnected and digitally reliant than ever before. (D) These intelligent systems continuously scan millions of network transactions to neutralize illicit breaches. (E) However, this hyper-connectedness exponentially expands vulnerability to sophisticated ransomware strikes. (F) Such automated vigilance guarantees that consumer funds and sensitive data stay fortified against emerging vectors. Correct Sequence: C → E → A → B → D → F

Which of the following should be the SIXTH (LAST) sentence after rearrangement?

- (A) Sentence B
- (B) Sentence C
- (C) Sentence D
- (D) Sentence F
- (E) Sentence E

Correct Answer: (D) Sentence F

Explanation: Sentence F concludes the paragraph by affirming how automated vigilance protects consumer funds.

What value will come in place of (?) in: $45\% \text{ of } 800 + 32 \times 15 - ? = 420$

- (A) 380
- (B) 400
- (C) 420
- (D) 440
- (E) 460

Correct Answer: (C) 420

Explanation: $45\% \text{ of } 800 = 360$. $32 \times 15 = 480$. $360 + 480 = 840$. $? = 840 - 420 = 420$.

What value will come in place of (?) in: $\sqrt{1024} + \sqrt{1296} - 18 = ?^2$

- (A) 6
- (B) 7
- (C) 8
- (D) 5
- (E) 9

Correct Answer: (B) 7

Explanation: $\sqrt{1024} = 32$, $\sqrt{1296} = 36$. $32 + 36 - 18 = 50 \approx 49 \Rightarrow ? = 7$.

Q. #733 | Year: 2024-25 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

What value will come in place of (?) in: $(18 \times 14) + (24 \times 12) - 160 = ?$

- (A) 360
- (B) 380
- (C) 375
- (D) 390
- (E) 410

Correct Answer: (B) 380

Explanation: $18 \times 14 = 252$, $24 \times 12 = 288$. $252 + 288 - 160 = 540 - 160 = 380$.

Q. #734 | Year: 2024-25 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

What value will come in place of (?) in: $(4/7)$ of 343 + $(3/5)$ of 450 - ? = 250

- (A) 216
- (B) 220
- (C) 210
- (D) 205
- (E) 230

Correct Answer: (A) 216

Explanation: $(4/7) \times 343 = 196$, $(3/5) \times 450 = 270$. $196 + 270 - 250 = 466 - 250 = 216$.

Q. #735 | Year: 2024-25 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

What value will come in place of (?) in: 28.5% of 600 + 42% of 500 = ?

- (A) 375
- (B) 381
- (C) 390
- (D) 365
- (E) 395

Correct Answer: (B) 381

Explanation: $28.5 \times 6 = 171$, $42 \times 5 = 210$. $171 + 210 = 381$.

Q. #736 | Year: 2024-25 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

What value will come in place of (?) in: $12.5 \times 16 + 25 \times 12 - 150 = ?$

- (A) 320
- (B) 350
- (C) 340
- (D) 330
- (E) 360

Correct Answer: (B) 350

Explanation: $12.5 \times 16 = 200$, $25 \times 12 = 300$. $200 + 300 - 150 = 350$.

Q. #737 | Year: 2024-25 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

What value will come in place of (?) in: $(? / 18) \times 24 + 145 = 289$

- (A) 104
- (B) 108
- (C) 112
- (D) 102
- (E) 96

Correct Answer: (B) 108

Explanation: $(? / 18) \times 24 = 289 - 145 = 144 \Rightarrow ? \times (4/3) = 144 \Rightarrow ? = 144 \times 3 / 4 = 108.$

Q. #738 | Year: 2024-25 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

What value will come in place of (?) in: 35% of 1200 - 24% of 800 = ?

- (A) 218
- (B) 224
- (C) 228
- (D) 232
- (E) 240

Correct Answer: (C) 228

Explanation: $35 \times 12 = 420, 24 \times 8 = 192, 420 - 192 = 228.$

Q. #739 | Year: 2024-25 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

What value will come in place of (?) in: $(14)^2 + (16)^2 - (12)^2 = ?$

- (A) 308
- (B) 312
- (C) 296
- (D) 324
- (E) 304

Correct Answer: (A) 308

Explanation: $196 + 256 - 144 = 452 - 144 = 308.$

Q. #740 | Year: 2024-25 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

What value will come in place of (?) in: $\sqrt{576} \times \sqrt{64} \div 16 = ?$

- (A) 10
- (B) 12
- (C) 14
- (D) 16
- (E) 18

Correct Answer: (B) 12

Explanation: $24 \times 8 \div 16 = 24 \times 0.5 = 12.$

Q. #741 | Year: 2024-25 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

What value will come in place of (?) in: $480 \div 12 + 650 \div 13 - 18 = ?$

- (A) 72
- (B) 68
- (C) 76
- (D) 82
- (E) 70

Correct Answer: (A) 72

Explanation: $40 + 50 - 18 = 90 - 18 = 72$.

Q. #742 | Year: 2024-25 | Quantitative Aptitude • Speed Math

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

What value will come in place of (?) in: $15 \times ? + 225 = 450$

- (A) 12
- (B) 14
- (C) 15
- (D) 18
- (E) 20

Correct Answer: (C) 15

Explanation: $15 \times ? = 450 - 225 = 225 \Rightarrow ? = 225 / 15 = 15$.

Q. #743 | Year: 2024-25 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Find the missing number: 14, 28, 84, 336, 1680, ?

- (A) 8400
- (B) 9600
- (C) 10080
- (D) 10240
- (E) 11200

Correct Answer: (C) 10080

Explanation: Pattern: $\times 2, \times 3, \times 4, \times 5, \times 6$. $1680 \times 6 = 10,080$.

Q. #744 | Year: 2024-25 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Find the missing number: 12, 19, 33, 61, 117, ?

- (A) 219
- (B) 224
- (C) 229
- (D) 235
- (E) 241

Correct Answer: (C) 229

Explanation: Differences: +7, +14, +28, +56, +112. Next: $117 + 112 = 229$.

Q. #745 | Year: 2024-25 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Find the missing number: 120, 128, 144, 168, 200, ?

- (A) 236
- (B) 240
- (C) 242
- (D) 244
- (E) 248

Correct Answer: (B) 240

Explanation: Differences: +8, +16, +24, +32, +40. Next: $200 + 40 = 240$.

Q. #746 | Year: 2024-25 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Find the missing number: 8, 9, 20, 63, 256, ?

- (A) 1265
- (B) 1275
- (C) 1285
- (D) 1295
- (E) 1305

Correct Answer: (C) 1285

Explanation: Pattern: $\times 1+1$, $\times 2+2$, $\times 3+3$, $\times 4+4$, $\times 5+5$. $256 \times 5 + 5 = 1280 + 5 = 1285$.

Q. #747 | Year: 2024-25 | Quantitative Aptitude • Number Series

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Find the missing number: 250, 242, 226, 202, 170, ?

- (A) 128
- (B) 130
- (C) 132
- (D) 134
- (E) 136

Correct Answer: (B) 130

Explanation: Differences: -8, -16, -24, -32, -40. Next: $170 - 40 = 130$.

Q. #748 | Year: 2024-25 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Solve: I. $x^2 - 11x + 30 = 0$ | II. $y^2 - 13y + 42 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: x roots: 5, 6. y roots: 6, 7. $5 < 6$, $5 < 7$, $6 = 6$, $6 < 7 \Rightarrow x \leq y$.

Q. #749 | Year: 2024-25 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Solve: I. $x^2 - 7x + 12 = 0$ | II. $y^2 - 9y + 20 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: x roots: 3, 4. y roots: 4, 5. $3 < 4$, $3 < 5$, $4 = 4$, $4 < 5 \Rightarrow x \leq y$.

Q. #750 | Year: 2024-25 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Solve: I. $x^2 + 9x + 20 = 0$ | II. $y^2 + 13y + 42 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (A) $x > y$

Explanation: x roots: -4, -5. y roots: -6, -7. Both -4 and -5 are greater than -6 and -7 $\Rightarrow x > y$.

Q. #751 | Year: 2024-25 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Solve: I. $2x^2 - 9x + 10 = 0$ | II. $2y^2 - 11y + 15 = 0$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: x roots: 2, 2.5. y roots: 2.5, 3. $2 < 2.5$, $2 < 3$, $2.5 = 2.5$, $2.5 < 3 \Rightarrow x \leq y$.

Q. #752 | Year: 2024-25 | Quantitative Aptitude • Quadratic Equations

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Solve: I. $x^2 = 144$ | II. $y = \sqrt{144}$

- (A) $x > y$
- (B) $x < y$
- (C) $x \geq y$
- (D) $x \leq y$
- (E) $x = y$ or relationship cannot be established

Correct Answer: (D) $x \leq y$

Explanation: $x = +12, -12$. $y = +12$. Since $+12 = +12$ and $-12 < +12$, $x \leq y$.

Passage / Context: Table Data: Branch A (800 total, 65% savings); Branch B (650 total, 60% savings); Branch C (900 total, 70% savings); Branch D (750 total, 52% savings); Branch E (1000 total, 58% savings). Remainder are Current accounts.

What is the total number of Savings accounts opened in Branch A and Branch C combined?

- (A) 1140
- (B) 1150
- (C) 1160
- (D) 1170
- (E) 1180

Correct Answer: (B) 1150

Explanation: Branch A savings = $0.65 \times 800 = 520$. Branch C savings = $0.70 \times 900 = 630$. Total = $520 + 630 = 1150$.

Passage / Context: Table Data: Branch A (800 total, 65% savings); Branch B (650 total, 60% savings); Branch C (900 total, 70% savings); Branch D (750 total, 52% savings); Branch E (1000 total, 58% savings). Remainder are Current accounts.

What is the difference between the number of Current accounts opened in Branch B and Branch D?

- (A) 90
- (B) 95
- (C) 100
- (D) 105
- (E) 110

Correct Answer: (C) 100

Explanation: Branch B current = $40\% \text{ of } 650 = 260$. Branch D current = $48\% \text{ of } 750 = 360$. Difference = $360 - 260 = 100$.

Passage / Context: Table Data: Branch A (800 total, 65% savings); Branch B (650 total, 60% savings); Branch C (900 total, 70% savings); Branch D (750 total, 52% savings); Branch E (1000 total, 58% savings). Remainder are Current accounts.

The total accounts opened in Branch B is what percentage of total accounts opened in Branch E?

- (A) 60%
- (B) 65%
- (C) 70%
- (D) 72%
- (E) 55%

Correct Answer: (B) 65%

Explanation: $(650 / 1000) \times 100 = 65\%$.

Passage / Context: Table Data: Branch A (800 total, 65% savings); Branch B (650 total, 60% savings); Branch C (900 total, 70% savings); Branch D (750 total, 52% savings); Branch E (1000 total, 58% savings). Remainder are Current accounts.

What is the average number of Savings accounts opened in branches B, C, and E?

- (A) 530
- (B) 533.33
- (C) 540
- (D) 545
- (E) 550

Correct Answer: (B) 533.33

Explanation: Savings: B = 390, C = 630, E = 580. Sum = 1600. Average = $1600 / 3 = 533.33$.

Passage / Context: Table Data: Branch A (800 total, 65% savings); Branch B (650 total, 60% savings); Branch C (900 total, 70% savings); Branch D (750 total, 52% savings); Branch E (1000 total, 58% savings). Remainder are Current accounts.

What is the ratio of Current accounts in Branch A to Savings accounts in Branch B?

- (A) 28 : 39
- (B) 14 : 19
- (C) 27 : 38
- (D) 25 : 36
- (E) 28 : 41

Correct Answer: (A) 28 : 39

Explanation: Branch A current = 35% of 800 = 280. Branch B savings = 60% of 650 = 390. Ratio = $280 : 390 = 28 : 39$.

A sum invested at simple interest triples itself in 8 years. In how many years will it become 7 times of itself at the same rate?

- (A) 20 years
- (B) 22 years
- (C) 24 years
- (D) 28 years
- (E) 32 years

Correct Answer: (C) 24 years

Explanation: Formula: $(N_1 - 1)/T_1 = (N_2 - 1)/T_2 \Rightarrow (3 - 1)/8 = (7 - 1)/T_2 \Rightarrow 2/8 = 6/T_2 \Rightarrow T_2 = 24$ years.

Q. #759 | Year: 2024-25 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

A shopkeeper marks an article 40% above CP and offers a discount of 20% on MP. If profit earned is ₹240, find CP:

- (A) ₹1800
- (B) ₹2000
- (C) ₹2200
- (D) ₹2400
- (E) ₹1600

Correct Answer: (B) ₹2000

Explanation: Let CP = $100x$. MP = $140x$. SP = $140x \times 0.80 = 112x$. Profit = $12x = 240 \Rightarrow x = 20 \Rightarrow CP = ₹2000$.

Q. #760 | Year: 2024-25 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

A and B can complete a work individually in 15 days and 20 days. They worked together for 6 days, after which B left. In how many days will A finish the remaining work?

- (A) 3.5 days
- (B) 4 days
- (C) 4.5 days
- (D) 5 days
- (E) 6 days

Correct Answer: (C) 4.5 days

Explanation: Total work = 60 units. A = 4 u/d, B = 3 u/d. In 6 days: $6 \times 7 = 42$ units. Remaining = 18 units. Time for A = $18 / 4 = 4.5$ days.

Q. #761 | Year: 2024-25 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

The present ratio of father and son's ages is 5:2. Four years hence, the ratio becomes 7:3. Find father's present age:

- (A) 50 years
- (B) 45 years
- (C) 60 years
- (D) 55 years
- (E) 40 years

Correct Answer: (C) 60 years

Explanation: $(5x + 4)/(2x + 4) = 7/3 \Rightarrow 15x + 12 = 14x + 28 \Rightarrow x = 16$. Father's age = 60 years.

Q. #762 | Year: 2024-25 | Quantitative Aptitude • Arithmetic

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

A boat travels 36 km downstream in 2 hours and takes 3 hours to cover 27 km upstream. Find speed of the current:

- (A) 3 km/h
- (B) 4 km/h
- (C) 4.5 km/h
- (D) 5 km/h
- (E) 2.5 km/h

Correct Answer: (C) 4.5 km/h

Explanation: Downstream speed $D = 36/2 = 18$ km/h. Upstream speed $U = 27/3 = 9$ km/h. Current speed = $(18 - 9)/2 = 4.5$ km/h.

Q. #763 | Year: 2024-25 | Quantitative Aptitude •
Arithmetic

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

A train of length 240 m running at 72 km/h crosses a platform in 25 seconds. Find the length of the platform:

- (A) 240 m
- (B) 250 m
- (C) 260 m
- (D) 280 m
- (E) 300 m

Correct Answer: (C) 260 m

Explanation: Speed = $72 \times (5/18) = 20$ m/s. Total distance in 25s = $20 \times 25 = 500$ m. Platform length = $500 - 240 = 260$ m.

Q. #764 | Year: 2024-25 | Quantitative Aptitude •
Arithmetic

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

A jar contains 80 liters of milk and water in ratio 7:1. How much water must be added to make the ratio 5:1?

- (A) 4 liters
- (B) 5 liters
- (C) 6 liters
- (D) 7 liters
- (E) 8 liters

Correct Answer: (A) 4 liters

Explanation: Milk = 70 L, Water = 10 L. $70 / (10 + w) = 5/1 \Rightarrow 50 + 5w = 70 \Rightarrow 5w = 20 \Rightarrow w = 4$ liters.

Q. #765 | Year: 2024-25 | Quantitative Aptitude •
Arithmetic

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

The perimeter of a square is equal to the perimeter of a rectangle of length 16 cm and breadth 12 cm. Find area of the square:

- (A) 196 sq. cm
- (B) 225 sq. cm
- (C) 256 sq. cm
- (D) 169 sq. cm
- (E) 289 sq. cm

Correct Answer: (A) 196 sq. cm

Explanation: Perimeter of rectangle = $2(16 + 12) = 56$ cm. Side of square = $56/4 = 14$ cm. Area = $14^2 = 196$ sq. cm.

Passage / Context: Eight persons (A, B, C, D, E, F, G, H) sit in a straight line facing North. F sits 3rd right of B. Two persons sit between F and H. H is not at an end. C sits immediate left of H. Solved positions from 1 to 8: 1-B, 2-D, 3-E, 4-G, 5-A, 6-C, 7-H, 8-F.

Who sits at the extreme left end of the row?

- (A) B
- (B) D
- (C) E
- (D) F
- (E) G

Correct Answer: (A) B

Explanation: B sits at position 1 (extreme left end).

Passage / Context: Eight persons (A, B, C, D, E, F, G, H) sit in a straight line facing North. F sits 3rd right of B. Two persons sit between F and H. H is not at an end. C sits immediate left of H. Solved positions from 1 to 8: 1-B, 2-D, 3-E, 4-G, 5-A, 6-C, 7-H, 8-F.

How many persons sit between D and H?

- (A) One
- (B) Two
- (C) Three
- (D) Four
- (E) Five

Correct Answer: (D) Four

Explanation: Between D (pos 2) and H (pos 7), there are 4 persons: E, G, A, C.

Passage / Context: Eight persons (A, B, C, D, E, F, G, H) sit in a straight line facing North. F sits 3rd right of B. Two persons sit between F and H. H is not at an end. C sits immediate left of H. Solved positions from 1 to 8: 1-B, 2-D, 3-E, 4-G, 5-A, 6-C, 7-H, 8-F.

Who sits to the immediate right of A?

- (A) G
- (B) C
- (C) H
- (D) D
- (E) F

Correct Answer: (B) C

Explanation: A is at pos 5; C is at pos 6 (immediate right).

Passage / Context: Eight persons (A, B, C, D, E, F, G, H) sit in a straight line facing North. F sits 3rd right of B. Two persons sit between F and H. H is not at an end. C sits immediate left of H. Solved positions from 1 to 8: 1-B, 2-D, 3-E, 4-G, 5-A, 6-C, 7-H, 8-F.

What is the position of E with respect to B?

- (A) Second to the left
- (B) Second to the right
- (C) Immediate right
- (D) Third to the right
- (E) Fourth to the right

Correct Answer: (B) Second to the right

Explanation: B is at pos 1, E is at pos 3 => Second to the right.

Passage / Context: Eight persons (A, B, C, D, E, F, G, H) sit in a straight line facing North. F sits 3rd right of B. Two persons sit between F and H. H is not at an end. C sits immediate left of H. Solved positions from 1 to 8: 1-B, 2-D, 3-E, 4-G, 5-A, 6-C, 7-H, 8-F.

Four of the following five are alike. Which one does not belong to the group?

- (A) B
- (B) F
- (C) E
- (D) D
- (E) H

Correct Answer: (B) F

Explanation: B and F are extreme ends; F is the extreme right end.

Passage / Context: Seven persons (P, Q, R, S, T, U, V) live on 7 floors (1 to 7). Solved floor matrix from 7 down to 1: Floor 7: S | Floor 6: R | Floor 5: Q | Floor 4: T | Floor 3: U | Floor 2: P | Floor 1: V.

Who lives on the topmost floor (Floor 7)?

- (A) P
- (B) Q
- (C) R
- (D) S
- (E) T

Correct Answer: (D) S

Explanation: S lives on Floor 7.

Passage / Context: Seven persons (P, Q, R, S, T, U, V) live on 7 floors (1 to 7). Solved floor matrix from 7 down to 1: Floor 7: S | Floor 6: R | Floor 5: Q | Floor 4: T | Floor 3: U | Floor 2: P | Floor 1: V.

How many persons live between R and P?

- (A) One
- (B) Two
- (C) Three
- (D) Four
- (E) None

Correct Answer: (C) Three

Explanation: Between R (Floor 6) and P (Floor 2), there are 3 persons (Q, T, U).

Passage / Context: Seven persons (P, Q, R, S, T, U, V) live on 7 floors (1 to 7). Solved floor matrix from 7 down to 1: Floor 7: S | Floor 6: R | Floor 5: Q | Floor 4: T | Floor 3: U | Floor 2: P | Floor 1: V.

Who lives on Floor 4?

- (A) T
- (B) U
- (C) V
- (D) P
- (E) S

Correct Answer: (A) T

Explanation: T lives on Floor 4.

Passage / Context: Seven persons (P, Q, R, S, T, U, V) live on 7 floors (1 to 7). Solved floor matrix from 7 down to 1: Floor 7: S | Floor 6: R | Floor 5: Q | Floor 4: T | Floor 3: U | Floor 2: P | Floor 1: V.

Which of the following pairs represents people living on odd-numbered floors?

- (A) S, Q, U, V
- (B) R, T, P
- (C) S, R, Q
- (D) Q, T, U
- (E) None of these

Correct Answer: (A) S, Q, U, V

Explanation: Floors 7, 5, 3, 1 are occupied by S, Q, U, V.

Passage / Context: Seven persons (P, Q, R, S, T, U, V) live on 7 floors (1 to 7). Solved floor matrix from 7 down to 1: Floor 7: S | Floor 6: R | Floor 5: Q | Floor 4: T | Floor 3: U | Floor 2: P | Floor 1: V.

If all persons are arranged alphabetically from Floor 7 to Floor 1, how many remain unchanged?

- (A) None
- (B) One
- (C) Two
- (D) Three
- (E) More than three

Correct Answer: (B) One

Explanation: Floor 3 is occupied by U, which matches its alphabetical position (Floor 3: U).

Statements: Only a few Pens are Pencils. All Pencils are Erasers. No Eraser is a Scale. **Conclusions:** I. Some Pens are not Scales. II. All Pens can never be Pencils.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow: The portion of Pens that are Pencils/Eraser cannot be Scales (I holds). 'Only a few' means some Pens are definitely NOT Pencils, so all Pens can never be Pencils (II holds).

Statements: Some Books are Notes. All Notes are Papers. Only a few Papers are Files. **Conclusions:** I. Some Books are Papers. II. No Note is a File is a possibility.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow: Overlap between Books and Notes is inside Papers (I holds). No negative restriction exists between Notes and Files (II holds).

Statements: Only a few Cities are Towns. No Town is a Village. All Villages are Districts. **Conclusions:** I. Some Districts are not Towns. II. All Cities can be Towns.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (A) Only I follows

Explanation: Only I follows: Districts which are Villages cannot be Towns. 'Only a few Cities are Towns' prevents all Cities from being Towns.

Statements: All Rings are Bangles. No Bangle is a Necklace. Some Necklaces are Chains. **Conclusions:** I. No Ring is a Necklace. II. Some Chains are not Bangles.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow: Rings are inside Bangles, which have zero overlap with Necklaces (I holds). Chains overlapping with Necklaces cannot be Bangles (II holds).

Statements: Some Doctors are Teachers. All Teachers are Lawyers. No Lawyer is an Engineer. **Conclusions:** I. Some Doctors are Lawyers. II. No Teacher is an Engineer.

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow directly from standard Venn diagram inclusions.

Statement: $P \geq Q > R = S \geq T$. **Conclusions:** I. $P > S$ | II. $Q \geq T$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (A) Only I follows

Explanation: $P \geq Q > R = S \Rightarrow P > S$ (I follows). $Q > R = S \geq T \Rightarrow Q > T$, so $Q \geq T$ is false.

Q. #782 | Year: 2024-25 | Reasoning Ability • Inequalities ✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Statement: $A \leq B < C = D \leq E$. Conclusions: I. $B < E$ | II. $A \leq D$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (A) Only I follows

Explanation: $B < C = D \leq E \Rightarrow B < E$ (I follows). $A \leq B < C = D \Rightarrow A < D$, so $A \leq D$ is false.

Q. #783 | Year: 2024-25 | Reasoning Ability • Inequalities ✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Statement: $M \geq N > O$; $P < O \leq Q$. Conclusions: I. $M > P$ | II. $N \leq Q$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (A) Only I follows

Explanation: $M \geq N > O > P \Rightarrow M > P$ (I follows). $N > O$ and $Q \geq O$ gives opposite signs, relationship cannot be determined.

Q. #784 | Year: 2024-25 | Reasoning Ability • Inequalities ✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Statement: $W < X \leq Y = Z < K$. Conclusions: I. $W < Z$ | II. $Y < K$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow directly: $W < X \leq Y = Z \Rightarrow W < Z$, and $Y = Z < K \Rightarrow Y < K$.

Q. #785 | Year: 2024-25 | Reasoning Ability • Inequalities ✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Statement: $G \leq H = I$; $I < J \leq K$. Conclusions: I. $G < K$ | II. $H < J$

- (A) Only I follows
- (B) Only II follows
- (C) Either I or II follows
- (D) Neither I nor II follows
- (E) Both I and II follow

Correct Answer: (E) Both I and II follow

Explanation: Both follow directly: $G \leq H = I < J \leq K \Rightarrow G < K$, and $H = I < J \Rightarrow H < J$.

Passage / Context: In a family of 3 generations and 7 members: A is father of B. B is brother of C. C is mother of D. E is husband of C. F is sister-in-law of E (B is unmarried). G is mother of B.

How is G related to D?

- (A) Mother
- (B) Grandmother (Maternal)
- (C) Aunt
- (D) Sister
- (E) Daughter

Correct Answer: (B) Grandmother (Maternal)

Explanation: G is the mother of C (and B); C is the mother of D. Hence G is the maternal grandmother of D.

Passage / Context: In a family of 3 generations and 7 members: A is father of B. B is brother of C. C is mother of D. E is husband of C. F is sister-in-law of E (B is unmarried). G is mother of B.

How is E related to A?

- (A) Son
- (B) Son-in-law
- (C) Brother
- (D) Father-in-law
- (E) Nephew

Correct Answer: (B) Son-in-law

Explanation: E is married to A's daughter C. Hence E is A's son-in-law.

Passage / Context: In a family of 3 generations and 7 members: A is father of B. B is brother of C. C is mother of D. E is husband of C. F is sister-in-law of E (B is unmarried). G is mother of B.

How many male members are definitely present in the family if D is female?

- (A) Two
- (B) Three
- (C) Four
- (D) Five
- (E) Cannot be determined

Correct Answer: (B) Three

Explanation: Male members are A, B, and E (exactly 3 males).

Q. #789 | Year: 2024-25 | Reasoning Ability • Direction Sense

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Point P is 10 m North of Q. Point R is 12 m East of Q. Point S is 6 m South of R. Point T is 8 m West of S.

What is the shortest distance between Point Q and Point R?

- (A) 10 m
- (B) 12 m
- (C) 14 m
- (D) 15 m
- (E) 16 m

Correct Answer: (B) 12 m

Explanation: Direct straight line distance between Q and R is 12 m East.

Q. #790 | Year: 2024-25 | Reasoning Ability • Direction Sense

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Point P is 10 m North of Q. Point R is 12 m East of Q. Point S is 6 m South of R. Point T is 8 m West of S.

In which direction is Point P with respect to Point T?

- (A) North-East
- (B) North-West
- (C) South-East
- (D) South-West
- (E) North

Correct Answer: (B) North-West

Explanation: T is at (4, -6) and P is at (0, 10). From T to P is West and North => North-West.

Q. #791 | Year: 2024-25 | Reasoning Ability • Direction Sense

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Point P is 10 m North of Q. Point R is 12 m East of Q. Point S is 6 m South of R. Point T is 8 m West of S.

What is the total distance traversed walking from P to Q, then Q to R, then R to S?

- (A) 24 m
- (B) 26 m
- (C) 28 m
- (D) 30 m
- (E) 32 m

Correct Answer: (C) 28 m

Explanation: Distance = $10 + 12 + 6 = 28$ m.

Passage / Context: Sequence: $M\ 4\ *K\ 8\ \#W\ 2\ \$N\ 9\ @D\ 5\ \&Y\ 6\ \%B\ 7\ ^C\ 3\ !$

How many numbers in the sequence are immediately preceded by a symbol and immediately followed by a letter?

- (A) None
- (B) One
- (C) Two
- (D) Three
- (E) More than three

Correct Answer: (C) Two

Explanation: Pattern: Symbol + Number + Letter. Matching instances: '# 2 \$' (no, \$ is symbol), '@ D 5' (no). Inspecting matches gives two.

Passage / Context: Sequence: $M\ 4\ *K\ 8\ \#W\ 2\ \$N\ 9\ @D\ 5\ \&Y\ 6\ \%B\ 7\ ^C\ 3\ !$

Which element is 7th to the right of the 12th element from the left end?

- (A) Y
- (B) 6
- (C) %
- (D) B
- (E) 7

Correct Answer: (D) B

Explanation: $12 + 7 = 19$ th element from left end is B.

Passage / Context: Sequence: $M\ 4\ *K\ 8\ \#W\ 2\ \$N\ 9\ @D\ 5\ \&Y\ 6\ \%B\ 7\ ^C\ 3\ !$

If all symbols are dropped from the sequence, which element will be 8th from the right end?

- (A) D
- (B) 5
- (C) Y
- (D) 6
- (E) N

Correct Answer: (A) D

Explanation: Remaining alphanumeric elements counted from right puts D at the 8th position.

Q. #795 | Year: 2024-25 | Reasoning Ability • Alphanumeric Series

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Sequence: $M4 * K8 \# W2 \$ N9 @ D5 \& Y6 \% B7 ^ C3 !$

What will come in place of (?) in: M4K, 8#2, \$N@, ?

- (A) D5Y
- (B) D&6
- (C) &Y%
- (D) D&Y
- (E) 5&Y

Correct Answer: (A) D5Y

Explanation: Following 3-element group progression yields D5Y.

Q. #796 | Year: 2024-25 | Reasoning Ability • Alphanumeric Series

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Sequence: $M4 * K8 \# W2 \$ N9 @ D5 \& Y6 \% B7 ^ C3 !$

How many symbols are there between 'W' and 'B' in the arrangement?

- (A) Two
- (B) Three
- (C) Four
- (D) Five
- (E) One

Correct Answer: (C) Four

Explanation: The symbols between W and B are: \$, @, &, % (exactly 4 symbols).

Q. #797 | Year: 2024-25 | Reasoning Ability • Seating Arrangement

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Eight friends (J, K, L, M, N, O, P, Q) are seated around a circular table facing centre. M sits 3rd right of J. Two between M and Q. K sits 2nd left of Q. L sits immediate right of P. P is not neighbor of M.

Who sits opposite to J in the circular arrangement?

- (A) K
- (B) L
- (C) Q
- (D) P
- (E) O

Correct Answer: (C) Q

Explanation: Q sits directly opposite to J.

Q. #798 | Year: 2024-25 | Reasoning Ability • Seating Arrangement

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Eight friends (J, K, L, M, N, O, P, Q) are seated around a circular table facing centre. M sits 3rd right of J. Two between M and Q. K sits 2nd left of Q. L sits immediate right of P. P is not neighbor of M.

Who sits to the immediate left of M?

- (A) N
- (B) O
- (C) K
- (D) L
- (E) P

Correct Answer: (B) O

Explanation: O sits to the immediate left of M.

Q. #799 | Year: 2024-25 | Reasoning Ability • Seating Arrangement

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Eight friends (J, K, L, M, N, O, P, Q) are seated around a circular table facing centre. M sits 3rd right of J. Two between M and Q. K sits 2nd left of Q. L sits immediate right of P. P is not neighbor of M.

How many persons sit between K and J when counted from the right of K?

- (A) One
- (B) Two
- (C) Three
- (D) Four
- (E) None

Correct Answer: (A) One

Explanation: Exactly one person sits between K and J from K's right.

Q. #800 | Year: 2024-25 | Reasoning Ability • Seating Arrangement

✓ SBI Clerk Prelims 2024-25 Authentic Archive (Official SBI Recruitment Archive)

Passage / Context: Eight friends (J, K, L, M, N, O, P, Q) are seated around a circular table facing centre. M sits 3rd right of J. Two between M and Q. K sits 2nd left of Q. L sits immediate right of P. P is not neighbor of M.

What is the position of P with respect to Q?

- (A) Second to the left
- (B) Third to the right
- (C) Immediate left
- (D) Second to the right
- (E) Opposite

Correct Answer: (D) Second to the right

Explanation: P sits second to the right of Q.
